INTRODUCTION

Introduction

This is the First Quarterly Update to the Enacted Budget Financial Plan (“Updated Financial Plan” or “First Quarterly Update”) for Fiscal Year (FY) 2015. Except for the specific revisions described herein, the projections (and the assumptions upon which they are based) in the Updated Financial Plan are consistent with the projections set forth in the Enacted Budget Financial Plan. The State’s FY 2015 began on April 1, 2014 and ends on March 31, 2015. The Division of the Budget (DOB) expects to next update the Financial Plan projections in October 2014.

THE STATE BUDGET PROCESS

The requirements of the State budget process are set forth in Article VII of the State Constitution, the State Finance Law, and the Legislative Law. The annual budget process begins with the Governor’s submission of the Executive Budget to the Legislature each January, in preparation for the start of the fiscal year on April 1 (the submission date is February 1 in years following a gubernatorial election.) The DOB prepares a multi-year Financial Plan (“State Financial Plan”) as part of the Executive Budget. The State Financial Plan sets forth projected receipts and disbursements for the current fiscal year, the “budget” year (i.e., the upcoming fiscal year), and the three subsequent fiscal years “outyears”). It must be accompanied by bills that: (a) set forth all proposed appropriations and reappropriations, (b) provide for any new or modified revenue measures, and (c) make any other changes to existing law necessary to implement the Budget recommended by the Governor. The General Fund must be balanced on a cash basis, as described below.

In acting on the bills submitted by the Governor, the Legislature has certain powers to alter the recommended appropriations and proposed changes to existing law. The Legislature may strike or reduce an item of appropriation submitted by the Governor. The Legislature may add distinct new items of appropriation, provided such additions are stated separately. These additional items are then subject to line-item veto by the Governor. If the Governor vetoes an appropriation separately added by the Legislature or a bill (or a portion thereof) related to the budget, these separately added items of appropriation or bill can be reconsidered in accordance with the rules of each house of the Legislature. If, upon reconsideration, the items are approved by two-thirds of the members of each house, such items will become law notwithstanding the Governor’s veto.

Once the appropriation bills and other budget bills become law, DOB revises the State Financial Plan to reflect the Legislature’s actions, and begins the process of implementing the Enacted Budget. Throughout the fiscal year, DOB monitors actual receipts and disbursements, and may adjust the estimates and projections in the State Financial Plan. Adjustments may also be made to the State Financial Plan to reflect changes in the economic outlook, updated data on program activities, new actions taken by the Governor or the Legislature, and other factors. As required by the State Finance Law, DOB updates the State Financial Plan generally issuing

INTRODUCTION

reports by July 30, October 30, and as part of the Executive Budget in January or February of each year.

Once the Budget is adopted for the fiscal year, the Legislature may enact one multi-purpose appropriation bill and additional single-purpose appropriation bills or revenue measures (including tax law changes) during any regular session or, if called into session for that purpose, any special session. In the event additional appropriation bills or revenue measures are disapproved by the Governor, the Legislature may override the Governor's veto upon the vote of two-thirds of the members of each house of the Legislature. The Governor may present deficiency appropriations to the Legislature in any fiscal year to supplement existing appropriations or provide new appropriations for purposes not considered by the regular and supplemental appropriations.

BUDGET PROJECTIONS

The State Financial Plan projections for future years typically show budget gaps in the General Fund. Budget gaps represent the difference between: (a) the projected General Fund disbursements, including transfers to other funds, needed to maintain current services levels and specific commitments, and (b) the expected level of resources to pay for them. The General Fund gap estimates are based on a number of assumptions and projections developed by the DOB in conjunction with other State agencies.¹ Some projections are based on specific, known information (e.g., a statutory requirement to increase payments to a prescribed level), while others are based on more uncertain or speculative information (e.g., the pace at which a new program will enroll recipients). In addition, the Financial Plan assumes that money appropriated in one fiscal year will continue to be appropriated in future years, even for programs that were not created in permanent law and that the State has no obligation to fund. Funding levels for nearly all State programs are made (or, in the case of two-year appropriations, reviewed) annually, taking into account the current and projected fiscal position of the State. The Financial Plan projections for FY 2016 and thereafter set forth in this Updated Financial Plan reflect the savings that DOB estimates would occur if the Governor continues to propose, and the Legislature continues to enact, balanced budgets in future years that limit annual growth in State Operating Funds spending to no greater than 2 percent. The estimated savings are labeled in the Financial Plan tables as "Adherence to 2 percent State Operating Funds (SOF) Spending Benchmark". Total disbursements in Financial Plan tables and discussion do not assume these savings. If the 2 percent State Operating Funds spending benchmark is not adhered to, budget gaps may result.

¹ See DOB's Economic, Revenue, and Spending Methodologies, November 2013, at <http://www.budget.ny.gov/pubs/supporting/supporting.html>

BUDGETARY AND ACCOUNTING PRACTICES

The State's **General Fund** receives the majority of State taxes and all income not earmarked for a particular program or activity. State law requires the Governor to submit, and the Legislature to enact, a General Fund budget that is balanced on a cash basis of accounting. The State Constitution and State Finance Law do not provide a precise definition of budget balance. In practice, the General Fund is considered balanced if sufficient resources are, or are expected to be, available during the fiscal year for the State to: (a) make all planned payments, including Personal Income Tax (PIT) refunds, without the issuance of deficit notes or bonds or extraordinary cash management actions, (b) restore the balances in the Tax Stabilization Reserve and Rainy Day Reserve to levels at or above the levels on deposit when the fiscal year began, and (c) maintain other reserves, as required by law. For purposes of calculating budget balance, the General Fund includes transfers to and from other funds.

The General Fund is the sole financing source for the School Tax Relief (STAR) fund, and is typically the financing source of last resort for the State's other major funds, which include the Health Care Reform Act (HCRA) funds, the Dedicated Highway and Bridge Trust Fund (DHBTF), and the Lottery Fund. Therefore, the General Fund projections account for any estimated funding shortfalls in these funds. Since the General Fund is the fund that is required to be balanced, the focus of the State's budgetary and gap-closing discussion is generally weighted toward the General Fund.

From time to time, DOB will informally designate unrestricted balances in the General Fund for specific policy goals (e.g., the payment of costs related to potential labor contracts covering prior contract periods). These amounts are typically identified with the phrase "reserved for," and are not held in distinct accounts within the General Fund and may be used for other purposes.

State Operating Funds is a broader measure of spending for operations (as distinct from capital purposes) that is funded with State resources. It includes financial activity not only in the General Fund, but also State-funded special revenue funds and Debt Service Funds (both the General Fund and State Operating Funds exclude spending from Capital Projects Funds and Federal Funds). DOB views State Operating Funds to be a more comprehensive measure than the General Fund of State-funded activities for operating purposes that are funded with State resources (i.e., taxes, assessments, fees, tuition). The State Operating Funds perspective has the advantage of eliminating certain distortions in operating activities that may be caused by, among other things, the State's complex fund structure, the transfer of money among funds, and the accounting of disbursements against appropriations in different funds. For example, the State funds its share of the Medicaid program from both the General Fund and from State Special Revenue Funds, including HCRA funds. The State Operating Funds perspective captures Medicaid disbursements from both of these fund types, giving a more complete accounting of

INTRODUCTION

State-funded Medicaid disbursements. For such reasons, the discussion of disbursement projections often emphasizes the State Operating Funds perspective.

The State also reports disbursements and receipts activity for **All Governmental Funds** (“All Funds”), which includes spending from Capital Projects Funds and State and Federal operating funds, providing the most comprehensive view of the cash-basis financial operations of the State. The State accounts for receipts and disbursements by the fund in which the activity takes place (such as the General Fund), and the broad category or purpose of that activity (such as State Operations). The Financial Plan tables sort State projections and results by fund and category.

Fund types of the State include: the General Fund; State special revenue funds, which receive certain dedicated taxes, fees and other revenues that are used for a specified purpose; Federal Special Revenue Funds, which receive certain Federal grants; State and Federal Capital Projects Funds, which account for costs incurred in the construction and rehabilitation of roads, bridges, prisons, university facilities, and other infrastructure projects; and Debt Service Funds, which account for the payment of principal, interest and related expenses for debt issued by the State and its public authorities.

State Finance Law also requires DOB to prepare a *pro forma* financial plan using, to the extent practicable, generally accepted accounting principles (GAAP), although this requirement is for informational purposes only. The GAAP-basis Financial Plan is not used by DOB as a benchmark for managing State finances during the fiscal year and is not updated on a quarterly basis. The GAAP-basis financial plan follows, to the extent practicable, the accrual methodologies and fund accounting rules applied by the Office of the State Comptroller (OSC) in preparation of the audited Basic Financial Statements. However, GAAP is a financial reporting regime, not a budgeting system.

RISKS AND UNCERTAINTIES

The factors affecting the State's financial condition are complex. This Financial Plan contains forecasts, projections, and estimates that are based on expectations and assumptions which existed at the time such forecasts were prepared, and contains statements relating to future results and economic performance that are “forward-looking statements” as defined in Private Securities Litigation Reform Act of 1995. Since many factors may materially affect fiscal and economic conditions in the State, the inclusion in this Updated Financial Plan of forecasts, projections, and estimates should not be regarded as a representation that such forecasts, projections, and estimates will occur. The forward-looking statements contained herein are based on the State's expectations and are necessarily dependent upon assumptions, estimates and data that it believes are reasonable as of the date made but that may be incorrect, incomplete or imprecise or not reflective of actual results. Forecasts, projections and estimates are not intended as representations of fact or guarantees of results. The words “expects,”

“forecasts,” “projects,” “intends,” “anticipates,” “estimates,” and analogous expressions are intended to identify forward-looking statements in the Updated Financial Plan. Any such statements inherently are subject to a variety of risks and uncertainties that could cause actual results to differ materially and adversely from those projected. Such risks and uncertainties include, among others, general economic and business conditions; changes in political, social, economic, and environmental conditions, including climate change and extreme weather events; impediments to the implementation of gap-closing actions; regulatory initiatives and compliance with governmental regulations; litigation; actions by the Federal government to reduce or disallow expected aid including Federal aid authorized or appropriated by Congress, but subject to sequestration, administrative actions, or other actions that would reduce aid to the State; and various other events, conditions and circumstances, on a State, national, and international level, many of which are beyond the control of the State. These forward-looking statements speak only as of the date of this Updated Financial Plan. **Note that all FY 2014 financial results contained within this Updated Financial Plan are unaudited and preliminary.**

Including disbursements for these purposes, All Funds disbursements are expected to total \$142 billion in FY 2015, an increase of 3.2 percent.			

SUMMARY

FINANCIAL PLAN UPDATE

In this Updated Financial Plan for FY 2015, DOB estimates that the General Fund will end FY 2015 with a sizeable cash-basis surplus due to a series of unbudgeted financial settlements reached with banks and insurance companies in the first four months of the fiscal year. The Executive is developing options for using the surplus prudently, which may include funding one-time capital expenses, bolstering reserves, and reducing debt. DOB expects that a formal plan for use of the windfall, consistent with adherence with the 2 percent spending benchmark, will be proposed no later than the FY 2016 Executive Budget. Aside from the settlements, DOB has made a number of modest revisions to the State's Financial Plan projections based on operating results through the first quarter of FY 2015, and updated program information.

General Fund receipts, including transfers from other funds, are now expected to total \$67.2 billion in FY 2015, an increase of \$4.2 billion from the Enacted Budget Financial Plan. The upward revision is due entirely to the monetary settlements reached with banks and insurance companies since the fiscal year began. There is the potential for more settlements in the current fiscal year.

General Fund disbursements, including transfers to other funds, are expected to total \$63.2 billion in the current year, an increase of \$29 million from the Enacted Budget. The upward revisions reflect an increase in the share of Medicaid funded by the General Fund instead of HCRA, costs for enhanced efforts to control heroin trafficking and use, and a number of modest reestimates. The Updated Financial Plan reflects the continuation of spending controls and cost containment measures. Funding for agency operations is generally expected to remain level across the Financial Plan period. For planning purposes, the Updated Financial Plan does not currently include any prepayments in FY 2015 beyond the \$350 million identified in the Enacted Budget Financial Plan, or any costs from potential Federal disallowances, as described below.

On July 25, 2014, the Centers for Medicare and Medicaid Services (CMS) notified the State that it was disallowing \$1.26 billion in payments made to the State's Office for People with Developmental Disabilities (OPWDD) system in FY 2011, and initiating a review of payments made in FY 2012 and FY 2013 (in FY 2014, the State switched to a different claiming system for OPWDD). The State plans to appeal the CMS audit disallowance, noting among other things that CMS approved the State's claiming methodology. There can be no assurance that the State will be successful in its appeal. (See "Other Matters Affecting the Financial Plan — Federal Issues — Audit Disallowance" herein.)

The Financial Plan projections for FY 2016 and thereafter set forth in this Updated Financial Plan are based on the assumption that the Governor will continue to propose, and the Legislature will continue to enact, balanced budgets in future years that limit annual growth in State Operating Funds to no greater than 2 percent. By adhering to the 2 percent spending benchmark, DOB expects that the State is positioned to fully fund the tax reductions and spending commitments in the FY 2015 Updated Financial Plan and accrue surpluses in future years, based on updated projections. (The savings that would be achieved if the State adheres to the spending benchmark are labeled in the Financial Plan tables as “Adherence to 2 percent State Operating Funds (SOF) Spending Benchmark.”)

DOB expects the State to end FY 2015 with a General Fund closing balance of \$6.2 billion, an increase of \$4.2 billion from the Enacted Budget Financial Plan.

FIRST QUARTER OPERATING RESULTS

Operating results through the first quarter of FY 2015 were favorable in comparison to the estimates in the Enacted Budget Financial Plan. (See “FY 2015 Year-To-Date Operating Results” herein.) General Fund receipts, including transfers from other funds, totaled \$18.8 billion through June 2014, \$2.0 billion above the Enacted Budget forecast, due to higher tax collections (\$1.3 billion) and higher miscellaneous receipts (\$730 million).

The \$1.3 billion in higher General Fund tax collections includes higher PIT receipts (\$507 million) due to stronger than anticipated estimated payments and a timing-related shortfall in current year refunds; higher business tax collections (\$675 million) related to the timing of audit receipts; and higher consumption/use taxes (\$87 million) attributable to an increase in taxable purchases.

The increase in General Fund miscellaneous receipts reflects a settlement payment of \$715 million from Credit Suisse AG for violation of banking laws, specifically for allowing U.S. clients to conceal their offshore assets from the IRS and New York authorities. (A portion of the settlement payment due from BNP Paribas (\$2.24 billion) was received in July 2014, after the end of the first quarter, and the balance is expected in the third quarter of the current fiscal year.)

General Fund disbursements, including transfers to other funds, totaled \$15.9 billion through June 2014, approximately \$638 million below the level estimated in the Enacted Budget Financial Plan. This mainly reflected lower than anticipated spending in local assistance (\$567 million) and agency operations (\$134 million), offset by higher General Fund transfers to other State funds (\$63 million). After adjusting for these variances, which DOB believes are timing-related, disbursements to date appear to be generally consistent with the Enacted Budget forecast.

FINANCIAL PLAN OVERVIEW

The Financial Plan is subject to many risks and uncertainties, including the Federal disallowances described above, the strength and duration of the economic recovery, implementation of budgetary actions, and the execution of specific transactions. (See “Other Matters Affecting the Financial Plan” herein.)

MULTI-YEAR FINANCIAL PLAN REVISIONS

The following table summarizes the multi-year impact of the FY 2015 Updated Financial Plan on General Fund operations. The Updated Financial Plan projections assume the State adheres to the 2 percent spending benchmark in future years, as shown in the table below. Descriptions of the changes follow the table.

¹ Savings estimated from limiting annual spending growth in future years to 2 percent. Calculation based on current FY 2015 estimate. The Governor is expected to propose, and negotiate with the Legislature to enact, budgets in each fiscal year that hold State Operating Funds spending growth to 2 percent. Assumes all savings from holding spending growth to 2 percent are made available to the General Fund.

RECEIPTS REVISIONS

- **Financial Settlements:** The State expects to receive a net \$4.2 billion in FY 2015 from financial settlements reached by the Department of Financial Services (DFS), Department of Law, and Manhattan District Attorney's Office. (To date, the State has received \$3.0 billion owed under the settlements.)

The settlements consist of the following:

- **BNP Paribas** will pay \$3.6 billion for violations of New York's banking laws in connection with transactions involving countries and entities subject to U.S. sanctions. Between at least 2002 through 2012, the French bank moved over \$190 billion through New York-based institutions for government and privately-owned entities in Iran, Sudan, and Cuba, and entities on the Specially Designated Nationals list issued by the U.S. Treasury Department's Office of Foreign Assets Control. To date, the State has received \$2.24 billion under terms negotiated by the DFS. The remaining \$1.348 billion, which is pursuant to an order of asset forfeiture negotiated by the Manhattan District Attorney Office, is expected in the third quarter of FY 2015.
- **Credit Suisse AG** paid \$715 million in civil penalties to the State following a legal consent order issued by DFS for violations of New York Banking Law related to asset disclosure. For several decades prior to and in or about 2009, Credit Suisse AG operated an illegal cross-border banking business that knowingly and willfully aided thousands of U.S. clients in opening and maintaining undeclared accounts and concealing their offshore assets and income from the Internal Revenue Service and New York authorities.
- **Metropolitan Life Insurance Company** paid \$50 million in fines, on behalf of two New York subsidiaries, American Life Insurance Company (ALICO) and Delaware American Life Insurance (DELAM), for violations of New York Insurance Law. DFS investigations determined that the subsidiaries solicited insurance business in New York without a license and made intentional misrepresentations and omissions to the State about those activities. In addition to the \$50 million to DFS, MetLife remitted \$10 million to the Manhattan District Attorney Office.

FINANCIAL PLAN OVERVIEW

- **AXA Equitable Life Insurance Company** paid \$20 million for violations of the State Insurance Law related to certain variable annuity products. AXA was altering the nature of the investment products sold without providing full disclosure to its clients or DFS. Omission of the changes resulted in consumer limitations and the State's inability to assert important protections that otherwise may have assisted tens of thousands of New Yorkers with variable annuity products at AXA.
- **Citigroup:** In a recent settlement with the U.S. Department of Justice, Citigroup agreed to pay \$7 billion in nationwide monetary penalties. The State is expected to receive \$92 million for community revitalization and housing programs.
- **Settlements Budgeted in the FY 2015 Financial Plan:** The Enacted Financial Plan assumed \$275 million in receipts from financial settlements in FY 2015. The Financial Plan continues to assume settlements of \$250 million in FY 2016, and \$100 million in both FY 2017 and FY 2018, unchanged from the Enacted Budget.

DOB has revised its estimate of payments the State will receive under the Tribal State Compact. It has also made minor adjustments to receipts across tax categories that have no net Financial Plan impact.

DISBURSEMENT REVISIONS

- **HCRA Surcharge Audit:** A correction of HCRA surcharge overpayments made to the State, primarily for exempt Medicare-eligible services, is anticipated to reduce surcharge revenue and increase General Fund Medicaid costs by \$17 million in FY 2015. Future surcharge payments will be made under the corrected methodology, with an increased Financial Plan impact of \$42 million expected during FY 2016 due to the timing and scope of the audit.
- **Statewide Heroin Initiative:** Funding has been added to the Financial Plan to support a statewide initiative to combat the rise of heroin use. The initiative includes the addition of 100 investigators to the State Police Community Narcotics Enforcement Team (CNET), in order to combat heroin trafficking. Additionally, the State will make supplies of naloxone, an overdose antidote, available to all first responder units in the State.
- **Other:** This category principally reflects technical revisions between agencies or Financial Plan reclassifications in limited areas such as Office of General Services (OGS), Department of Environmental Conservation, Children and Family Services and the Mental Hygiene agencies.

CLOSING BALANCE FOR FY 2015

DOB estimates that the General Fund will end FY 2015 with a cash balance of \$6.2 billion, an increase of \$4.2 billion from the Enacted estimate. At this time, the additional resources will be held as an undesignated fund balance in the General Fund. The estimated year-end balances for statutory reserves and designated purposes in the General Fund remain unchanged from the Enacted Budget Financial Plan. These include \$1.48 billion in the State's principal "rainy day" reserves, the Tax Stabilization Reserve and the Rainy Day Reserve; \$500 million designated for debt management purposes; \$53 million to cover the costs of potential retroactive labor settlements with unions that have not agreed to terms for contract periods prior to April 2011; and \$21 million in the Contingency Reserve.

ANNUAL SPENDING GROWTH

DOB estimates that spending in State Operating Funds will grow at 1.8 percent in FY 2015, consistent with the 2 percent spending benchmark adopted by the current Administration in FY 2012. All Funds spending, which includes spending from capital funds and Federal funds, is expected to increase by 1.5 percent from FY 2014, excluding extraordinary Federal aid related to Superstorm Sandy² and the implementation of the Affordable Care Act (ACA).

² In October 2012, Superstorm Sandy caused widespread flooding, power failures, and wind damage to public and private property in New York City, Long Island, and other downstate areas. Public infrastructure, including mass transit systems, public schools, and municipal buildings, sustained serious damage. The Financial Plan reflects Federal aid which will flow to local governments, public authorities, and not-for-profits over the next several years to continue the State's recovery from Superstorm Sandy. (See "Other Matters Affecting the Financial Plan — Federal Issues" herein.)

¹ School Aid growth on a school year basis is \$1.1 billion or 5.3% and does not include aid for Statewide Universal Full-Day Pre-Kindergarten programs.

² Department of Health Medicaid spending only (excludes other State agency spending and transfers). For display purposes, includes Medicaid operational spending that supports contracts related to the management of Medicaid and the costs of administrative takeover from local governments.

³ "All Other" includes an adjustment for Medicaid operational costs to avoid distorting Financial Plan category totals, as well as local aid spending in a number of other programs, including education, parks and the environment, economic development, and public safety.

^{4,5} All Funds and Federal Operating Funds receipts and disbursements exclude Federal disaster aid for Superstorm Sandy (estimated at \$1.2 billion in FY 2014 and \$1.5 billion in FY 2015), and additional Federal aid under the Affordable Care Act (estimated at approximately \$400 million in FY 2014 and \$2.6 billion in FY 2015). Including disbursements for these purposes, All Funds disbursements are expected to total \$142 billion in FY 2015, an increase of 3.2 percent.

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

Other Matters Affecting the Financial Plan

GENERAL

The Financial Plan is subject to many complex economic, social, financial, and political risks and uncertainties, many of which are outside the ability of the State to control. DOB believes that the projections of receipts and disbursements in the Updated Financial Plan are based on reasonable assumptions, but there can be no assurance that actual results will not differ materially and adversely from these projections. In certain fiscal years, actual receipts collections have fallen substantially below the levels forecast in the Financial Plan. In addition, the surplus projections in future years are based on the assumption that annual growth in State Operating Funds spending is limited to 2 percent, and that all savings that result from the 2 percent limit are made available to the General Fund.

The Financial Plan is based on numerous assumptions, including the condition of the State and national economies and the concomitant receipt of economically-sensitive tax receipts in the amounts projected. Other uncertainties and risks concerning the economic and receipts forecasts include the impact of: national and international events; ongoing financial instability in the Euro Zone; changes in consumer confidence, oil supplies and oil prices; major terrorist events, hostilities, or war; climate change and extreme weather events; Federal statutory and regulatory changes concerning financial sector activities; changes concerning financial sector bonus payouts, as well as any future legislation governing the structure of compensation; shifts in monetary policy affecting interest rates and the financial markets; financial and real estate market developments which may adversely affect bonus income and capital gains realizations; and the effect of household debt reduction on consumer spending and State tax collections.

Among other factors, the Financial Plan is subject to uncertainties and contingencies relating to: wage and benefit increases for State employees that exceed projected annual costs; changes in the size of the State's workforce; the realization of the projected rate of return for pension fund assets and current assumptions with respect to wages for State employees affecting the State's required pension fund contributions; the willingness and ability of the Federal government to provide the aid expected in the Updated Financial Plan; the ability of the State to implement cost reduction initiatives, including reductions in State agency operations, and the success with which the State controls expenditures; and the ability of the State and its public authorities to market securities successfully in the public credit markets. Some of these specific issues are described in more detail herein. The projections and assumptions contained in the Financial Plan are subject to revisions which may involve substantial change. No assurance can be given that these estimates and projections, which include actions the State expects to be taken but which are not within the State's control, will be realized.

BUDGET RISKS AND UNCERTAINTIES

DOB estimates that the Updated Financial Plan for FY 2015 provides for balanced operations in the General Fund after use of reserves. There can be no assurance, however, that the State's financial position will not change materially and adversely from current projections. If this were to occur, the State would be required to take additional gap-closing actions. Such actions may include, but are not limited to, reductions in State agency operations; delays or reductions in payments to local governments or other recipients of State aid; delays in or suspension of capital maintenance and construction; extraordinary financing of operating expenses; or other measures. In some cases, the ability of the State to implement such actions requires the approval of the Legislature and cannot be implemented solely by the action of the Governor.

The Financial Plan projections for the outyears assume that School Aid and Medicaid disbursements will be limited to the growth in NYS personal income and the ten-year average growth in the Medicaid component of the consumer price index (CPI), respectively. However, the FY 2015 Enacted Budget authorized spending for School Aid to increase by 5.3 percent, which is above the 3.1 percent growth in personal income that would otherwise be used to calculate School Aid increases.

State law grants the Governor certain powers to achieve the Medicaid savings assumed in the Financial Plan. However, there can be no assurance that these powers will be sufficient to limit the rate of annual growth in the Department of Health (DOH's) State Funds Medicaid spending to the levels estimated in the Financial Plan. In addition, savings are dependent upon timely Federal approvals, revenue performance in the State's HCRA fund (which finances approximately one-third of the DOH State-share costs of Medicaid), and the participation of health care industry stakeholders.

The forecast contains specific transaction risks and other uncertainties including, but not limited to, the receipt of certain payments from public authorities; the receipt of miscellaneous revenues at the levels expected in the Financial Plan, including payments pursuant to the Tribal-State Compact that had failed to materialize in prior years, but which were received in the FY 2014 as part of an agreement between the State and certain tribal nations; and the achievement of cost-saving measures including, but not limited to, the transfer of available fund balances to the General Fund at the levels currently projected. Such risks and uncertainties, if they were to materialize, could have an adverse impact on the Financial Plan in the current year or future years.

FEDERAL ISSUES

The State receives a substantial amount of Federal aid for health care, education, transportation, and other governmental purposes, as well as Federal funding to address response to and recovery from severe weather events. Any reduction in Federal funding levels

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

could have a materially adverse impact on the Financial Plan. In addition, the Financial Plan may be adversely affected by other actions taken by the Federal government, including audits, disallowances, and changes to Federal participation rates or other Medicaid rules. Issues of particular concern are described below.

MEDICAID REDESIGN TEAM MEDICAID WAIVER

The Federal Centers for Medicare and Medicaid Services (CMS) and the State have reached an agreement in principle authorizing up to \$8 billion in Federal funding, over multiple years, for use in transforming New York's health care system. The final terms of this agreement are still being negotiated and upon final CMS approval will be reflected as an amendment to the State's Partnership Plan 1115 Medicaid waiver.

FEDERAL REIMBURSEMENT FOR STATE DEVELOPMENTAL DISABILITY SERVICES

Pursuant to an agreement with the Federal government, the State has lowered Medicaid developmental disability center payment rates effective April 1, 2013. Full implementation of this change has reduced Federal funding to the State by approximately \$1.1 billion annually, beginning in FY 2014. The plan to achieve those savings is subject to implementation risks and is dependent, in part, on final approval by the Federal government of claiming protocols for designated State health program expenditures valued at \$250 million annually. In addition, as described below, the CMS is also seeking to retroactively recover Federal funds paid to the State under the former methodology.

AUDIT DISALLOWANCE

In addition to the rate reduction described above, on February 8, 2013, the U.S. Department of Health & Human Services (HHS) Office of the Inspector General, at the direction of the CMS, began a Financial Management Review to determine the allowability of Medicaid costs for services provided in prior years to the Medicaid population in New York State-Operated Intermediate Care Facilities for the Developmentally Disabled (ICF/DD). The initial review period includes claims for services provided from April 1, 2010 through March 31, 2011.

As a result of this review, CMS issued a disallowance notification in the amount of \$1.26 billion on July 25, 2014. In the cover letter accompanying that disallowance notification, CMS also indicated it will be initiating a similar review of the two subsequent fiscal years (for State fiscal years ending in March 2012 and March 2013). A comparable amount of Federal aid is at risk for any prior period if CMS is successful.

The State can request reconsideration of the proposed \$1.26 billion disallowance by sending a letter to the Secretary of HHS within 60 calendar days of July 25, 2014, stating the reasons for

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

reconsideration. The State can also file a notice of appeal with the Departmental Appeals Board (DAB) with HHS within 60 days following a potential adverse decision by the Secretary of HHS. The State can retain the disallowed funds during the pendency of the reconsideration and DAB review process, although if the State is unsuccessful during these administrative processes the disallowed amount plus interest will be due.

The State currently plans to pursue the reconsideration and DAB appeals processes. If these are not successful, the State can pursue action in Federal Court on this potential disallowance.

The State is not aware of any similar attempts by the Federal government to retroactively recover Federal aid of this magnitude that was paid pursuant to an approved State plan. However, there can be no assurance that final Federal action in this matter will not result in materially adverse changes to the Financial Plan.

BUDGET CONTROL ACT

The Federal Budget Control Act (BCA) of 2011 imposed annual caps on Federal discretionary spending over a ten-year period and mandated an additional \$1.2 trillion in deficit reduction, which, if not enacted, would be achieved through the sequestration of funds in Federal Fiscal Year (FFY) 2013 and lowered discretionary spending caps in the following years. As the required deficit reduction was not achieved by the March 1, 2013 deadline, an across-the-board 5 percent reduction in FFY 2013 funding for Federal nondefense discretionary programs was implemented. In December 2013, the spending caps for FFY 2014 and FFY 2015 were revised upward by the Bipartisan Budget Act (BBA) of 2013. While the BBA provided minor discretionary cap relief over two years, BCA caps in the remaining years were not addressed. Specific funding levels are expected to be determined through the annual Congressional budget process if the lowered spending caps remain in place. DOB estimates that New York State and its local governments could lose approximately \$5 billion in Federal funding over a multi-year period, including reductions in Federal funding that passes through the State budget for school districts, as well as environmental, criminal justice and social services programs.

DEBT CEILING

In October 2013, an impasse in Congress caused a temporary Federal government shutdown and raised concern for a time that the Federal debt ceiling would not be raised in a timely manner. A Federal government default on payments, particularly if it persisted for a prolonged period, could have a materially adverse effect on the national and state economies, financial markets, and intergovernmental aid payments. The specific effects on the Financial Plan of a Federal government payment default in the future are unknown and impossible to predict. However, data from past economic downturns suggest that the State's revenue loss could be substantial if the economy goes into a recession due to a Federal default.

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

A payment default by the United States may adversely affect the municipal bond market. Municipal issuers, as well as the State, could face higher borrowing costs and impaired market access. This would jeopardize planned capital investments in transportation infrastructure, higher education facilities, hazardous waste remediation, environmental projects, and economic development projects. Additionally, the market for and market value of outstanding municipal obligations, including municipal obligations of the State, could be adversely affected.

HEALTH INSURANCE COMPANY CONVERSIONS

State law permits a health insurance company to convert its organizational status from a not-for-profit to a for-profit corporation (a “health care conversion”), subject to a number of terms, conditions, and approvals. Under State law, the State is entitled to proceeds from the monetization of a health service corporation, from a not-for-profit to a for-profit corporation, and such proceeds must be used by the State for expenses related to health-care. Prior Financial Plans have included proceeds from conversions (\$175 million in FY 2014, and \$300 million annually in FY 2015, FY 2016, and FY 2017), which have not been realized. For planning purposes, the Financial Plan no longer counts on conversion proceeds.

STATUS OF CURRENT LABOR NEGOTIATIONS (CURRENT CONTRACT PERIOD)

The State has settled collective bargaining agreements with 96 percent of the State workforce for the contract period commencing in FY 2012. Five-year agreements were reached with the Civil Service Employees Association (CSEA), the United University Professions (UUP), the New York State Correctional Officers and Police Benevolent Association (NYSCOPBA), Council 82, and most recently, DC-37. Four-year agreements were reached with the Public Employees Federation (PEF) and the New York State Police Benevolent Association (NYSPBA).

The settled agreements include wage and benefit concessions in exchange for contingent employee job protection through the respective contract periods. Nevertheless, reductions in force may be authorized if the State’s fiscal circumstances change materially or unexpectedly, or if such reductions are associated with the closure or restructuring of facilities authorized by legislation or by a Spending and Government Efficiency Commission (SAGE) determination. The agreements have provided: two-year Deficit Reduction Plan (DRP) savings of \$300 million; no general salary increases for the three-year period FY 2012 through FY 2014; a 2 percent general salary increase in FY 2015; and a 2 percent general salary increase in FY 2016 for the employees with five-year agreements. Additionally, the agreements provided full-annual health benefit savings of \$230 million resulting from increases to employee/retiree premium shares, copays, out of network deductibles and coinsurance.

Two lump sum payments — \$775 in FY 2014 and \$225 in FY 2015 — were paid to employees represented by CSEA, NYSPBA, NYSCOPBA and Council 82. Additionally, UUP employees may receive lump sum payments of similar value in the form of Chancellor’s Power of State

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

University of New York (SUNY) Awards and Presidential Discretionary Awards. However, employees represented by PEF and DC-37 will not receive lump sum payments. Instead, they will be repaid for all DRP reductions over an extended period at the end of the contract term, whereas the others will be repaid for a portion of their reductions.

Most recently, the Graduate Student Employees Union (GSEU) agreed to deal with the State, pending ratification by its members, for the period July 2, 2009 to July 1, 2016. Members who have been on the payroll since October 1, 2009 and October 1, 2010 will receive a retroactive general salary increases of 2 percent and 3 percent, respectively. Additionally, a \$500 lump sum will be provided to members hired in academic year 2011-12 and still on payroll. Eligible members will also receive a 2 percent general salary increase in both academic years 2014-15 and 2015-16.

Finally, the unions representing State Police Troopers, Investigators and Commissioned/Non-Commissioned Officers continue to have unsettled contracts for the current contract period. The Financial Plan does not include a General Fund reserve for this purpose.

CURRENT CASH-FLOW PROJECTIONS

The State authorizes the General Fund to borrow resources temporarily from available funds in the Short-Term Investment Pool (STIP) for up to four months, or to the end of the fiscal year, whichever period is shorter. The amount of resources that can be borrowed by the General Fund is limited to the available balances in STIP, as determined by the State Comptroller. Available balances include money in the State's governmental funds and a relatively small amount of other moneys belonging to the State. Several accounts in Debt Service Funds and Capital Projects Funds that are part of All Governmental Funds are excluded from the balances deemed available in STIP. These excluded funds consist of bond proceeds and money obligated for debt service payments.

DOB expects that the State will have sufficient liquidity to make payments as they become due throughout FY 2015, but that the General Fund may, from time to time on a daily basis, need to borrow resources temporarily from other funds in STIP. The State continues to reserve money on a quarterly basis for debt service payments that are financed with General Fund resources. Money to pay debt service on bonds secured by dedicated receipts, including PIT bonds and Sales Tax bonds, continues to be set aside as required by law and bond covenants. The following table provides results and estimates of month-end balances for FY 2015.

PENSION AMORTIZATION

Under legislation enacted in August 2010, the State and local governments may amortize (defer paying) a portion of their annual pension costs beginning in FY 2011. Amortization temporarily reduces the pension costs that must be paid by public employers in a given fiscal year, but results in higher costs overall when repaid with interest.

The 2010 legislation enacted a formula to set an amortization threshold for each year. The amortization rate (the “graded rate”) may increase or decrease in the direction of the actuarial contribution rate (the “normal rate”) by up to one percentage point annually. Pension contribution costs in excess of the graded rate may be amortized. Amortization is permitted in all years if the normal rate is greater than the graded rate. However, when the graded rate equals or exceeds the normal rate, amortization is not allowed.

In FY 2015, the graded contribution rates for the Employees’ Retirement System (ERS) and the Police and Fire Retirement System (PFRS) will be 13.5 percent and 21.5 percent, respectively. The Financial Plan assumes the State will continue to amortize its pension costs in FY 2015 at these rates.

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

Over the past four years, the normal rates and the amortization rates were as follows:

Fiscal Year (FY)	ERS Average Normal Rate	ERS Amortization Rate	PFRS Average Normal Rate	PFRS Amortization Rate
FY 2011	11.5	9.5	18.1	17.5
FY 2012	15.9	10.5	21.5	18.5
FY 2013	18.5	11.5	25.7	19.5
FY 2014	20.5	12.5	28.8	20.5

For both ERS and PFRS, DOB projects the FY 2016 graded rates will be equal to, or more than, the normal contribution rates. Under this scenario, consistent with statutory provisions which require that the graded rate be set to the average actuarial rate, amortization is not expected in FY 2016. Furthermore, DOB projects the graded rates will exceed the normal contribution rates in FY 2017 through FY 2020. In these years, amounts that exceed the normal contributions will be used to pay the cost of outstanding prior year amortizations, as required by statute. These projections are based on projected market returns and numerous actuarial assumptions. The next five-year experience study conducted by the Retirement Systems' Actuary is scheduled to take place in 2015 and could change these projections materially.

The State is required to begin repayment on each new amortization in the fiscal year immediately following the year in which the deferral was made. The full amount of the amortization, with interest, must be repaid within ten years, but the amount can be paid-off sooner. The annual interest rate on each new amortization is determined by OSC, and is fixed for the entire term of the deferral.

In FY 2014, the State made the minimum required pension payments to the New York State & Local Retirement System (NYSLRS) of \$1.62 billion and \$814 million was amortized. The total payment included an additional \$119.4 million to pay off the 2010 Retirement Incentive and other outstanding liabilities. In addition, the State's Office of Court Administration (OCA) made its minimum pension payment of \$269 million and \$123 million was amortized. This included an additional \$7 million to pay off the 2005 pension amortization liability. The total deferred amount — \$937 million — will be repaid with interest over the next ten years, beginning in FY 2015.

For amounts amortized in FY 2011, FY 2012, FY 2013, and FY 2014, the State Comptroller set interest rates of 5 percent, 3.75 percent, 3 percent, and 3.67 percent, respectively. The Financial Plan assumes that both the State and OCA will also elect to amortize pension costs in FY 2015, consistent with the provisions of the authorizing legislation, and repay such amounts at an interest cost assumed by DOB to be 3.67 percent per annum over ten years from the date

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

of each deferred payment, consistent with the interest rate charged on the FY 2014 amortized amounts.

The following table summarizes pension contributions and projections for General State Charges (GSCs) and OCA over the period FY 2011 to FY 2028. The “Normal Costs” column shows the amount of the State’s pension contribution prior to amortization. The “New Amortized Amounts / Payment on Prior Deferrals” column shows new amounts deferred or payments made on prior deferrals in each fiscal year. The “New Amortization Costs” column provides the aggregate cost of amortization in a given fiscal year (principal and interest on all prior deferrals). The “Total” column provides the State’s pension contribution, net of amortization.

¹ Pension contribution values do not include pension costs related to the Optional Retirement Program and Teachers' Retirement System for SUNY and SED, whereas the projected pension disbursements in this Financial Plan tables include such pension disbursements.

² Normal costs include payments from amortizations prior to FY 2011, which will end in FY 2017.

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

Consistent with these amortization assumptions, Part TT of Chapter 57 of the Laws of 2010 requires that: (a) the State make additional contributions in upcoming fiscal years, above the actuarially required contribution, as reflected in the following table, and (b) once all outstanding amortizations are paid off, additional contributions be set aside as reserves for rate increases, to be invested by the State Comptroller and used to offset future rate increases.

As noted above, DOB's most recent pension contribution rate forecast assumes that the normal contribution rate will equal the graded rate in FY 2016. Therefore, the State would not have the option to amortize any of its pension costs in 2016, or in the immediately succeeding fiscal years. In addition, this forecast assumes the State will make amortization payments on prior deferrals pursuant to the formula in statute. These payments are projected to occur in FY 2017 through FY 2021. Projections in the following table are based on certain assumptions concerning investment earnings and benefits that DOB believes are reasonable. However, actual results may vary from the projections provided in the following table, and such variances could be substantial.

OTHER POST-EMPLOYMENT BENEFITS (OPEB)

State employees become eligible for post-employment benefits (e.g., health insurance) if they reach retirement while working for the State, are enrolled in the New York State Health Insurance Program (NYSHIP), or are enrolled in the State's opt-out program at the time they have reached retirement, and have at least ten years of eligible service for NYSHIP benefits. The cost of providing post-retirement health insurance is shared between the State and the retired employee. Contributions are established by law and may be amended by the Legislature. The State pays its share of costs on a Pay-As-You-Go (PAYGO) basis as required by law.

In accordance with the Governmental Accounting Standards Board (GASB) Statement 45, the State must perform an actuarial valuation every two years for purposes of calculating OPEB liabilities. As disclosed in Note 13 of the State's Basic Financial Statements for FY 2014, the Annual Required Contribution (ARC) represents the projected annual level of funding that, if set aside on an ongoing basis, would cover projected normal costs each year and to amortize any unfunded liabilities of the plan over a period not to exceed 30 years. Amounts required but not actually set aside to pay for these benefits are accumulated, with interest, as part of the net OPEB obligation, after adjusting for amounts previously required.

As reported in the State's Basic Financial Statements for FY 2014, the projected unfunded actuarial accrued liability for FY 2014 is \$68.2 billion (\$54.3 billion for the State and \$13.9 billion for SUNY), an increase of \$1.7 billion from FY 2013 (attributable entirely to SUNY). The unfunded actuarial accrued liability for FY 2014 used an actuarial valuation of OPEB liabilities as of April 1, 2012 for the State and as of April 1, 2012 for SUNY. These valuations were determined using the Frozen Entry Age actuarial cost method, and are amortized over an open period of 30 years using the level percentage of projected payroll amortization method.

The actuarially determined annual OPEB cost for FY 2014 totaled \$3.0 billion (\$2.3 billion for the State and \$0.7 billion for SUNY), a decline of \$390 million from FY 2013 (\$322 million for the State and \$68 million for SUNY). The actuarially determined cost is calculated using the Frozen Entry Age actuarial cost method, allocating costs on a level basis over earnings. The actuarially determined cost was \$1.5 billion (\$1.0 billion for the State and \$0.5 billion for SUNY) greater than the cash payments for retiree costs made by the State in FY 2014. This difference between the State's PAYGO costs, and the actuarially determined required annual contribution under GASB Statement 45, reduced the State's net asset condition at the end of FY 2014 by \$1.5 billion.

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

GASB does not require the additional costs to be funded on the State's budgetary (cash) basis, and no funding is assumed for this purpose in the Financial Plan. The State continues to finance these costs, along with all other employee health care expenses, on a PAYGO basis.

There is no provision in the Financial Plan to fund the actuarial required contribution for OPEB. If the State began making the actuarial required contribution, the additional cost above the PAYGO amounts would be lowered. The State's Health Insurance Council, which consists of the Governor's Office of Employee Relations (GOER), Civil Service and DOB, will continue to review this matter and seek input from the State Comptroller, the legislative fiscal committees and other outside parties. However, it is not expected that the State will alter its planned funding practices in light of existing fiscal conditions.

FINANCIAL SETTLEMENTS

The State periodically receives proceeds from financial settlements that are deposited to the General Fund. Based on receipts to date and other information, the Updated Financial Plan includes an additional \$4.2 billion in proceeds, bringing the annual financial settlement estimate to \$4.5 billion in FY 2015. This consists of \$3.6 billion from BNP Paribas, \$715 million from Credit Suisse AG, \$50 million from Metropolitan Life, \$20 million from AXA Equitable and \$92 million from Citigroup (State Share). The Financial Plan assumes settlements in the upcoming fiscal years of approximately \$250 million in FY 2016, and \$100 million each for FY 2017 and FY 2018. There can be no assurance that settlement proceeds in upcoming fiscal years will be received by the State at the levels assumed in the Financial Plan.

J.P. MORGAN SECURITIES LLC SETTLEMENT

Pursuant to a litigation settlement reached on November 19, 2013, J.P. Morgan Securities LLC is required to remit \$1 billion to the State of New York. The associated 2012 lawsuit was filed against J.P. Morgan Securities LLC following allegations of the firm's misrepresentation of mortgage-related securities. The settlement stipulated \$387 million in direct restitutions to affected State residents and \$613 million to the credit of the State Treasury, of which a minimum of 85 percent must be allocated for housing and related purposes, and the balance permitted for general State use.

Consistent with the legal stipulations and legislation adopted in the FY 2015 Enacted Budget, \$613 million was deposited in a State escrow account on December 17, 2013 of which \$23.5 million was subsequently transferred to the general fund and \$589.5 million to the newly created Mortgage Settlement Proceeds Trust Fund. The FY 2015 Enacted Budget authorized the following distributions of the funds: (1) \$440 million in accordance with an approved memorandum of understanding between the Executive and Legislature in consultation with the HCR, (2) \$81.5 million to be distributed in accordance with a plan developed by the Attorney General, and (3) \$91.5 million in transfers to the General Fund over a four-year period.

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

LITIGATION

Litigation against the State may include potential challenges to the constitutionality of various actions. The State may also be affected by adverse decisions that are the result of various lawsuits. Such adverse decisions may not meet the materiality threshold to warrant individual description but, in the aggregate, could still adversely affect the Financial Plan.

UPDATE ON STORM RECOVERY

In recent years, New York State has sustained damage from three powerful storms that crippled entire regions. In August 2011, Hurricane Irene disrupted power and caused extensive flooding to various New York State counties. In September 2011, Tropical Storm Lee caused flooding in additional New York State counties and, in some cases, exacerbated the damage caused by Hurricane Irene two weeks earlier. Little more than one year later, on October 29, 2012, Superstorm Sandy struck the East Coast, causing widespread infrastructure damage and economic losses to the greater New York region. The frequency and intensity of these storms presents economic and financial risks to the State. State claims for reimbursement for the costs of the immediate response are in process, and both recovery and future mitigation efforts have begun, largely supported by Federal funds. In January 2013, the Federal government approved approximately \$60 billion in Federal disaster aid for general recovery, rebuilding and mitigation activity nationwide. New York anticipates receiving approximately one-half of this amount over the coming years for response, recovery, and mitigation costs. There can be no assurance that all anticipated Federal disaster aid described above will be provided to the State and its affected entities, or that such Federal disaster aid will be provided on the expected schedule.

CLIMATE CHANGE ADAPTATION

Climate change is expected to cause long-term threats to physical and biological systems. Potential hazards and risks related to climate change for the State include, among other things, rising sea levels, more severe coastal flooding and erosion hazards, and more intense storms. Storms in recent years, including Superstorm Sandy, Hurricane Irene, and Tropical Storm Lee, have demonstrated vulnerabilities in the State's infrastructure, including mass transit systems, power transmission and distribution systems, and other critical lifelines, to extreme weather events, including coastal flooding caused by storm surges. Significant long-term planning and investment by the Federal government, State, and municipalities is expected to be needed to adapt existing infrastructure to the risks posed by climate change.

FINANCIAL CONDITION OF NEW YORK STATE LOCALITIES

The fiscal demands on the State may be affected by the fiscal conditions of New York City and potentially other localities, which rely in part on State aid to balance their budgets and meet their cash requirements. Certain localities outside New York City, including cities and counties, have experienced financial problems and have requested and received additional State assistance during the last several State fiscal years. In 2013, the Financial Restructuring Board for Local Governments was created to provide assistance to distressed local governments by performing comprehensive reviews and providing grants and loans as a condition of implementing recommended efficiency initiatives. For additional details on the Board, please visit www.frb.ny.gov.

BOND MARKET

Implementation of the Financial Plan is dependent on the State's ability to market its bonds successfully. The State finances much of its capital spending in the first instance from the General Fund or STIP, which it then reimburses with proceeds from the sale of bonds. If the State cannot sell bonds at the levels (or on the timetable) expected in the capital plan, it can adversely affect the State's overall cash position and capital funding plan. The success of projected public sales will, among other things, be subject to prevailing market conditions. Future developments in the financial markets, including possible changes in Federal tax law relating to the taxation of interest on municipal bonds, as well as future developments concerning the State and public discussion of such developments, generally may affect the market for outstanding State-supported and State-related debt.

CAPITAL COMMITMENT PLAN

The State continues to implement the best practices put forth by the New York Works Task Force (the "Task Force"). The Task Force was formed in May 2012 to assist in the coordination of long-term capital planning among State agencies and public authorities. Consistent with the long-term planning goals of New York Works, DOB formulated 10-year capital commitment and disbursement projections. The total commitment and disbursement levels permissible over the 10-year capital planning horizon reflect, among other things, projected capacity under the State's debt limit, anticipated levels of Federal aid, and the timing of capital activity based on known needs and historical patterns.

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

DEBT REFORM ACT LIMIT

The Debt Reform Act of 2000 (“Debt Reform Act”) restricts the issuance of State-supported debt to capital purposes only and limits such debt to a maximum term of 30 years. The Debt Reform Act limits the amount of new State-supported debt to 4 percent of State personal income and new State-supported debt service costs to 5 percent of All Funds receipts. The restrictions apply to all new State-supported debt issued since April 1, 2000. The cap on new State-supported debt outstanding began at 0.75 percent of personal income in FY 2001 and was fully phased in at 4 percent of personal income during FY 2011, while the cap on new State-supported debt service costs began at 0.75 percent of All Fund receipts in FY 2001 was fully phased in at 5 percent during FY 2014. For FY 2013, the last year for which a calculation has been completed, the State was in compliance with the statutory caps based on calendar year 2012 personal income and FY 2013 debt outstanding. The FY 2014 calculation will be completed in October 2014.

DOB expects that debt outstanding and debt service will continue to remain below the limits imposed by the Debt Reform Act. Based on the most recent personal income and debt outstanding forecasts, the available room under the debt outstanding cap is expected to decline from \$3.3 billion in FY 2014 to \$421 million in FY 2017. This includes the estimated impact of the bond-financed portion of the Enacted Budget’s increased capital commitment levels included in the 10-year capital planning projections. Debt outstanding and debt service caps continue to include the existing SUNY Dormitory Facilities lease revenue bonds, which are backed by a general obligation pledge of SUNY. Bonds issued under the new SUNY Dormitory Facilities Revenue credit are not included in the State’s calculation of debt caps. Capital spending priorities and debt financing practices may be adjusted from time to time to preserve available debt capacity and stay within the statutory limits, as events warrant.

SECURED HOSPITAL PROGRAM

Under the Secured Hospital Program, the State entered into service contracts to enable certain financially distressed not-for-profit hospitals to have tax-exempt debt issued on their behalf to pay for the cost of upgrading their primary health care facilities. In the event of shortfalls in revenues to pay debt service on the Secured Hospital bonds (which include hospital payments made under loan agreements between the Dormitory Authority of the State of New York (DASNY) and the hospitals and certain reserve funds held by the applicable trustees for the bonds) the service contracts obligate the State to pay debt service, subject to annual appropriations by the Legislature, on bonds issued by DASNY through the Secured Hospital Program. As of March 31, 2014, there were approximately \$351 million of bonds outstanding for this program.

The financial condition of hospitals in the State's Secured Hospital Program continues to deteriorate. Of the five remaining hospitals in the program, two are experiencing significant operating losses that have impaired their ability to remain current on their loan agreements with DASNY. In relation to the Secured Hospital Program, the State's contingent contractual obligation was invoked to pay debt service for the first time in FY 2014, when \$12 million was paid. The State also expects to pay debt service costs of \$31 million in FY 2015, approximately \$29 million in both FYs 2016 and FY 2017, and \$17 million in FY 2018. These amounts are based on the actual experience to date of the participants in the program, and would cover the debt service costs for two hospitals that currently are not meeting the terms of their loan agreements with DASNY, as well as the debt service costs of a third hospital that is now closed. The State has estimated additional exposure of up to \$31 million annually, if all hospitals in the program failed to meet the terms of their agreement with DASNY and if available reserve funds were depleted.

SUNY DOWNSTATE HOSPITAL AND LONG ISLAND COLLEGE HOSPITAL

In May 2011, the New York State Supreme Court issued an order (the "May 2011 Order") that approved the transfer of real property and other assets of Long Island College Hospital (LICH) to a New York State not-for-profit corporation ("Holdings"), the sole member of which is SUNY. Subsequent to such transfer, Holdings leased the LICH hospital facility to SUNY Downstate Hospital ("Downstate Hospital"). In 2012, DASNY issued tax exempt State PIT Revenue Bonds ("PIT Bonds"), to refund approximately \$100 million in outstanding debt originally incurred by LICH.

To address the deteriorating financial condition of Downstate Hospital, which has been caused in part by the deteriorating financial position of LICH, legislation adopted with the FY 2014 Enacted Budget required the Chancellor of SUNY to submit to the Governor and the Legislature a multi-year sustainability plan for the Downstate Hospital. Specifically, the legislation required the sustainability plan to: a) set forth recommendations necessary to achieve financial stability

OTHER MATTERS AFFECTING THE FINANCIAL PLAN

for Downstate Hospital, and b) preserve the academic mission of Downstate Hospital's medical school. In accordance with this legislation, the Chancellor of SUNY submitted the sustainability plan for Downstate Hospital on May 31, 2013, and supplemented the plan with changes in a letter dated June 13, 2013. The supplemented plan was approved by both the Commissioner of Health and the Director of the Budget on June 13, 2013. Generally, the approved sustainability plan anticipates: (a) a significant restructuring of health care service lines at University Hospital Brooklyn in order to achieve financial milestones assumed in the sustainability plan, and supported by State financial assistance from DOH; and (b) leveraging the LICH asset value to support the costs associated with Downstate Hospital exiting LICH operations, while accommodating continued health care services consistent with the needs of the community. Pursuant to the sustainability plan, as supplemented, SUNY, together with Holdings, issued a request for proposals (RFP) to provide healthcare services in or around the LICH facilities and to purchase the LICH real estate.

In 2013, State Supreme Court Judge Demarest, who issued the May 2011 Order, issued, *sua sponte*, certain additional orders that could have affected the validity of the May 2011 Order. Also, in 2013, State Supreme Court Judge Baynes issued a series of orders that, effectively, precluded SUNY from awarding the RFP and exiting LICH operations. On February 25, 2014, Judges Demarest and Baynes approved a settlement whereby all parties agreed to discharge their claims and the judges vacated their orders. Pursuant to the settlement, SUNY, together with Holdings, issued a new RFP to increase the likelihood that the healthcare services component of the successful proposal would include a full-service hospital. The structure of the settlement also increases the likelihood that sufficient proceeds from the transaction will be available to support defeasance of the PIT Bonds and other costs associated with SUNY's exit from LICH. However, there have been and continue to be legal proceedings which could affect the outcome of SUNY's efforts to conclude negotiations with a new operator. There can be no assurance that the resolution of the legal and financial issues surrounding LICH, including payment of outstanding liabilities, will not have a materially adverse impact on SUNY.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

Multi-Year Financial Plan Projections

INTRODUCTION

This section presents the State's updated multi-year Financial Plan projections for FY 2015 through FY 2018.

The State's cash-basis budgeting system, complex fund structure, and practice of earmarking certain tax receipts for specific purposes, complicate the discussion of the State's receipts and disbursements projections. Therefore, to minimize the distortions caused by these factors and, to highlight relevant aspects of the projections, DOB has adopted the following approaches in summarizing the projections:

- **Receipts:** The detailed discussion of tax receipts covers projections for both the General Fund and State Funds (including capital projects). The latter perspective reflects overall estimated tax receipts before their diversion among various funds and accounts, including tax receipts dedicated to capital projects funds (which fall outside of the General Fund and State Operating Funds accounting perspectives). DOB believes this presentation provides a clearer picture of projected receipts, trends and forecast assumptions, by factoring out the distorting effects of earmarking certain tax receipts.
- **Disbursements:** Roughly 40 percent of projected State-financed spending for operating purposes (excluding transfers) is accounted for outside of the General Fund and is primarily concentrated in the areas of health care, School Aid, higher education, transportation and mental hygiene. To provide a clearer picture of spending commitments, the multi-year projections and growth rates are presented, where appropriate, on both a General Fund and State Operating Funds basis.

In evaluating the State's multi-year operating forecast, it should be noted that the reliability of the estimates and projections as a predictor of the State's future financial position is likely to diminish the further removed such estimates and projections are from the date of this Updated Financial Plan. Accordingly, in terms of outyear projections (FY 2016 through FY 2018), FY 2016 is the most relevant from a planning perspective.

SUMMARY

The FY 2015 First Quarterly Update limits the annual growth in State Operating Funds spending to 1.8 percent, consistent with the 2 percent spending benchmark. In addition, DOB estimates that the General Fund will end FY 2015 with a sizeable cash-basis surplus due to a series of unbudgeted financial settlements reached with banks and insurance companies to date in the current fiscal year. The Executive is developing options for using the surplus prudently, which may include funding one-time capital expenses, bolstering reserves, and reducing debt. DOB expects that a formal plan for use of the windfall, consistent with adherence with the 2 percent spending benchmark, will be proposed by no later than the FY 2016 Executive Budget.

On July 25, 2014, the Centers for Medicare and Medicaid Services (CMS) notified the State that it was disallowing \$1.26 billion in payments made to the State's Office for People with Developmental Disabilities (OPWDD) system in FY 2011, and initiating a review of payments made in FY 2012 and FY 2013 (in FY 2014, the State switched to a different claiming system for OPWDD). The State plans to appeal the CMS audit disallowance, noting among other things that CMS approved the State's claiming methodology. There can be no assurance that the State will be successful in its appeal. (See "Other Matters Affecting the Financial Plan — Federal Issues — Audit Disallowance" herein.)

FY 2016 and thereafter set forth in the Financial Plan reflect the savings that DOB estimates would occur if the Governor continues to propose, and the Legislature continues to enact, balanced budgets in future years that limit annual growth in State Operating Funds spending to no greater than 2 percent. The estimated savings are labeled in the Financial Plan tables as "Adherence to 2 percent State Operating Funds (SOF) Spending Benchmark." Total disbursements in Financial Plan tables and discussion do not assume these savings. If the 2 percent State Operating Funds spending benchmark is not adhered to, budget gaps may result.

The following tables present the Financial Plan multi-year projections for the General Fund and State Operating Funds, as well as reconciliation between the State Operating Funds projections and the General Fund budget gaps. The tables are followed by a summary of the multi-year receipts and disbursements forecasts.

ECONOMIC BACKDROP

THE U.S. ECONOMY

Although 2014 appears to have started on a much weaker footing than originally thought, DOB's outlook for the second half of the year remains virtually unchanged from the Enacted Budget forecast issued in May 2014. The U.S. Bureau of Economic Analysis downwardly revised its estimate of real U.S. GDP growth for the first quarter of calendar year 2014 to a decline of 2.1 percent, the first such decrease since 2011's first quarter, and the steepest decline since the first quarter of 2009, when the economy was still in recession. While the nation's unusually harsh winter weather was likely the chief cause of the contraction, it was not the sole cause. A large build-up of inventories during the second half of 2013 appears to have left an overhang that resulted in a substantial pullback in production in the first quarter of 2014. Residential construction fell for a second consecutive quarter, while the impact of the Affordable Care Act (ACA) on health care spending in the first quarter is well below BEA's original estimate. Real GDP growth for all of 2014 has been revised down 1.1 percentage points to 1.4 percent.

The steep decline in the first quarter was followed by a solid rebound in economic activity as the weather improved. June 2014 light vehicle sales accelerated to 16.9 million, the highest since July 2006. Retail sales excluding autos and gasoline rebounded as well, with monthly sales growth averaging 0.6 percent over the four months ending in June, after virtually no growth over the previous four months. While real household spending grew 2.5 percent in the second quarter, stronger growth of about 3 percent for the last two quarters of the year is expected, virtually unchanged from the Enacted forecast. Although the most recent data for the second quarter indicates fairly flat spending growth for health care, the ramp up in ACA enrollment is expected to result in stronger growth during the second half of the year.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

Private sector hiring has continued to improve after a winter lull, exhibiting average monthly gains of 255,000 over the second quarter of 2014. While these gains represent an improvement over the 196,000 average over the previous 39 months, it remains to be seen whether gains of this magnitude are sustainable. Similar short periods of solid gains have faded in the face of adverse events. DOB's outlook for average monthly private gains of approximately 225,000 during the second half of the year represents a modest improvement from the Enacted forecast. Continued weak growth in private plant and equipment investment is expected to remain an impediment to a more rapid spin-up in hiring. Ongoing weakness and uncertainty in the global economy will likely continue to constrain investment growth going forward. Overall growth in real private nonresidential investment has been revised down to 3.8 percent for 2014, while export growth has been revised down to 2.7 percent.

While much of the weakness in the housing market during the first quarter is likely attributable to extreme weather, housing starts continued to decline in the spring, though at a lesser pace. Housing starts exhibited a monthly average decline of 2.5 percent over the three months ending in March 2014, improving to a 1.6 percent decline over the three months ending in June 2014. Moreover, the housing data continues to reflect a shift in household preferences in favor of renting over homeownership, with the recent weakness in housing starts more heavily concentrated in the single-family market than in the multi-family market. This preference appears to have affected the demand for home furnishings, which has lagged other categories of real durable goods and suggests that the housing market will provide less of a contribution to overall economic growth than in the past. Going forward, the recent decline in long-term Treasury rates could provide a temporary boost to the housing market. Real residential investment is now projected to grow a downwardly revised 3.2 percent for 2014, although quarterly growth above 10 percent is expected for both the third and fourth quarters, aided by improving credit conditions and rising employment and income.

Despite this somewhat weaker outlook, the Federal Reserve is still expected to complete the gradual tapering of the growth of its historically large balance sheet by October 2014. While the recent swift decline in the unemployment rate overstates the health of the labor market, consistent private job gains above 220,000 and year-ago growth in the headline and core CPI accelerating to 2.1 percent and 1.9 percent, respectively, in the second quarter, mean that the Federal Reserve can be expected to start normalizing interest rates sooner rather than later. DOB still expects the central bank to begin raising its short-term interest rate target during the second quarter of 2015. Consumer price inflation has been revised up to 2.0 percent for 2014 and 2.2 percent for 2015.

Despite an extremely weak start to the year, DOB's outlook continues to call for a strengthening labor market and quarterly growth in real U.S. GDP approaching 3 percent in 2015. But there are significant risks to this forecast. In today's highly interdependent global economy, it is difficult to foresee domestic growth achieving normal rates for a recovery without strong stimulus from vigorous export and single-family home demand, yet neither is anticipated over

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

the near-term. Global economic growth continues to stall as regional conflicts flare, while U.S. households continue to favor apartment rentals over homeownership. Slower than anticipated global growth could result in slower export growth, which could in turn result in weaker corporate profits and investment, and thus fewer jobs. The prospect of international conflict has kept energy prices volatile, which, along with equity price volatility, presents risk to household spending. Finally, the response of global financial markets to the unwinding of central bank accommodation remains a risk, particularly given the lack of experience upon which to draw.

THE NEW YORK STATE ECONOMY

Unlike the nation, preliminary data indicate that New York State employment and wage growth may have started the year stronger than previously thought. However, DOB’s outlook for the New York State economy remains virtually unchanged from the Enacted Budget forecast. The State’s private sector labor market has continued to perform well, exhibiting robust growth in professional and business services, private educational services, and tourism-related leisure and hospitality services. Real estate and construction activity also remains strong. However, with government and finance sector employment expected to continue to contract through the remainder of the year, the outlook for State wage growth remains tepid. In addition, the non-wage components of U.S. personal income appear weaker than expected in May 2014, resulting in marginal downward revisions to State personal income growth for FY 2015. With the taxpayer response to changes in 2013 Federal tax law still distorting wage growth on a calendar year basis, we continue to report selected New York economic indicators on a State fiscal year basis.

All of the risks to the U.S. forecast apply to the State forecast as well, although as the nation’s financial capital, the volume of financial market activity and equity market volatility pose a particularly large degree of uncertainty for New York. State labor market growth has held up well so far, but a weaker than projected labor market could result in lower wages, as well as lower household spending. Events over the past year have demonstrated how sensitive markets can be to shifting expectations surrounding Federal Reserve policy. As the central bank moves closer to its first rate hike, the resulting financial market gyrations are likely to have a larger impact on the State economy than on the nation as a whole. Should financial and real estate markets be weaker than expected, taxable capital gains realizations could be negatively affected.

RECEIPTS OVERVIEW

Financial Plan receipts comprise a variety of taxes, fees and assessments, charges for State provided services, Federal grants, and other miscellaneous receipts, as well as the collection of a payroll tax on businesses located within the Metropolitan Transportation Authority (MTA) region. The multi-year tax and miscellaneous receipts estimates are prepared by DOB with the assistance of the Department of Taxation and Finance and other agencies concerned with the collection of State receipts, and are predicated on economic analysis and forecasts.

Overall base growth in tax receipts is dependent on a multitude of factors. In general, base tax receipts growth rates are determined by economic changes, including, but not limited to, changes in interest rates, prices, wages, employment, nonwage income, capital gains realizations, taxable consumption, corporate profits, household net worth, real estate prices and gasoline prices. Federal law changes can influence taxpayer behavior, which also affect base tax receipts growth. State taxes account for approximately half of total All Funds receipts.

The projections of Federal receipts generally correspond to the anticipated spending levels of a variety of programs including Medicaid, temporary and disability assistance, mental hygiene, education, public health, and other activities, including extraordinary aid.

Where noted, certain tables in the following section display General Fund tax receipts that exclude amounts transferred to the General Fund in excess of amounts needed for certain debt service obligations (e.g., PIT receipts in excess of the amount transferred for certain debt service on revenue bonds).

Total All Funds receipts in FY 2015 are estimated at \$145.8 billion, 5.9 percent above FY 2014 results. State tax receipts are expected to increase 0.7 percent in FY 2015. This modest increase is due to enacted tax cuts and the repayment of tax credits deferred in Tax Years 2010-2012. Miscellaneous receipts growth is primarily due to newly identified one-time proceeds of approximately \$4.5 billion from financial settlements with banks and insurers, which includes \$3.6 billion from BNP Paribas, \$715 million from Credit Suisse AG, \$50 million from Metropolitan Life, \$20 million from AXA Equitable and \$92 million from Citigroup (State share). In addition to the financial settlements, the FY 2015 General Fund total includes a deposit of \$1 billion from the State Insurance Fund reserve release in connection with Workers' Compensation law changes included in the FY 2014 budget, which is an increase of \$750 million from the amount of the reserve released in FY 2014. In other State funds, FY 2015 miscellaneous receipts are driven by year-to-year variations to health care surcharges and other HCRA resources, licensing fees associated with commercial gaming, bond proceeds, atypical fines and the phase-out of the temporary utility assessment.

Consistent with the projected growth in the New York economy over the multi-year Financial Plan period, the personal income and consumption/use tax categories are expected to grow, even though business taxes and other taxes are expected to decline in some or all years due to the tax cuts and repayment of credits deferred, as noted above.

After controlling for the impact of tax law changes, base tax revenue is estimated to increase by 3.2 percent for FY 2015 and 5.1 percent for FY 2016.

Approximately 60 percent of All Funds tax receipts are deposited into the General Fund. The remaining tax collections are dedicated for various purposes including STAR payments to school districts, debt service reserves, health care, and transportation. General Fund tax receipts are projected to total \$42.7 billion in FY 2015, virtually unchanged from prior year results for the reasons noted above. General Fund miscellaneous receipts are expected to increase by \$4.5 billion as a result of the settlements and transfer noted above.

All Funds income tax receipts for FY 2015 are projected to be \$43.7 billion, an increase of \$774 million (1.8 percent) from FY 2014 results. This primarily reflects increases in withholding and estimated payments attributable to the 2014 tax year, partially offset by a substantial decline in tax year 2013 extension payments.

Withholding in FY 2015 is projected to be \$1.8 billion (5.3 percent) higher compared to FY 2014, due mainly to moderate wage growth. Extension payments are estimated to decline by \$1.8 billion (34.9 percent) due to a combination of reduced capital gains realizations relative to tax year 2012 and taxpayer behavior not influenced by impending Federal law changes. The capital gains acceleration into tax year 2012 at the expense of tax year 2013 and thereafter, which was done in anticipation of the increase in Federal income tax rates between 2012 and 2013, served to create an inflated extension payments base. This income shifting was coupled with unusually high tax year 2012-related (FY 2014) extension overpayments, leading to a significant tax year 2013-related (FY 2015) extension payments decline. Estimated payments for tax year 2014 are projected to be \$705 million (7.5 percent) higher. Final return payments and delinquencies are projected to be \$229 million (9.6 percent) lower and \$71 million (6 percent) higher, respectively.

The decline in total refunds of \$255 million (3 percent) reflects a \$328 million (15.8 percent) decrease in current (tax year 2014) refunds, a \$560 million (10.4 percent) decrease in prior (tax year 2013) refunds, a \$36 million decrease in previous (tax year 2012 and earlier) refunds, and a \$117 million (19 percent) decline in the State-City offset, partially offset by \$785 million in advanced payments for the Family Tax Relief credit and the newly enacted Real Property Tax Freeze credit.

General Fund income tax receipts are net of deposits to the STAR Fund, which provides property tax relief, and the Revenue Bond Tax Fund (RBTF), which supports debt service payments on State PIT revenue bonds. General Fund income tax receipts for FY 2015 of

\$29.4 billion are expected to increase by \$508 million (1.8 percent) from the prior year, mainly reflecting the increase in All Funds receipts noted above. RBTF deposits are projected to be \$10.9 billion and the STAR transfer is projected to be \$3.4 billion.

All Funds income tax receipts for FY 2016 of \$46.8 billion are projected to increase \$3.1 billion (7.1 percent) from the prior year. This primarily reflects increases of \$2.3 billion (6.4 percent) in withholding, \$788 million (7.8 percent) in estimated payments related to tax year 2015, and \$574 million (17 percent) in extension payments related to tax year 2014, partially offset by a \$738 million (8.8 percent) increase in total refunds. The growth in withholding is the result of projected wage growth of 4.6 percent. The strong growth in extension payments represents a rebound following a decline in FY 2015. The growth in total refunds is primarily attributable to growth in prior (tax year 2014) refunds, following a deflated FY 2015 base which would have been \$328 million higher absent the increase in the administrative cap on refunds between January and March 2014. Payments from final returns are expected to increase \$162 million (7.5 percent), while delinquencies are projected to increase \$47 million (3.8 percent) from the prior year.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

General Fund income tax receipts for FY 2016 of \$31.6 billion are projected to increase by \$2.3 billion (7.7 percent). RBTF deposits are projected to be \$11.7 billion, and the STAR transfer is projected to be \$3.5 billion.

All Funds income tax receipts of \$50 billion in FY 2017 are projected to increase \$3.2 billion (6.8 percent) from the prior year. Gross receipts are projected to increase 6.4 percent and reflect withholding that is projected to grow by \$2.1 billion (5.6 percent) and estimated payments related to tax year 2016 that are projected to grow by \$802 million (7.3 percent). Payments from extensions for tax year 2015 are projected to increase by \$422 million (10.7 percent) and final returns are expected to increase \$202 million (8.7 percent). Delinquencies are projected to increase \$45 million (3.5 percent) from the prior year. Total refunds are projected to increase by \$358 million (3.9 percent) from the prior year.

General Fund income tax receipts for FY 2017 of \$33.9 billion are projected to increase by \$2.3 billion (7.3 percent).

All Funds income tax receipts are projected to increase by \$2.4 billion (4.9 percent) in FY 2018 to reach \$52.5 billion, while General Fund receipts are projected to be \$35.7 billion.

All Funds consumption/use tax receipts for FY 2015 are estimated to be \$15.3 billion, a \$213 million (1.4 percent) increase from FY 2014 results. Sales tax receipts are expected to increase \$327 million (2.6 percent) from FY 2014, resulting from 4.1 percent base (i.e., absent law changes) growth partially offset by law changes enacted with the FY 2015 and previous fiscal year budgets. Cigarette and tobacco tax collections are estimated to decline \$154 million (10.6 percent), primarily reflecting greater than trend declines in cigarette consumption

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

(particularly in NYC) and cigar tax refunds resulting from, in part, a non-binding Administrative Law Judge Determination (*Matter of Davidoff of Geneva, Inc.*). Motor fuel tax collections are expected to increase \$14 million (3 percent), reflecting a rebound from a FY 2014 decline caused by severe winter weather.

General Fund consumption/use tax receipts for FY 2015 are estimated to total over \$6.6 billion, an increase of \$65 million (1 percent) from FY 2014. This increase largely reflects increased sales tax collections offset by greater than trend declines in cigarette collections and cigar tax refunds.

All Funds consumption/use tax receipts for FY 2016 are projected to be \$15.9 billion, an increase of \$544 million (3.6 percent) from the prior year. The \$533 million (4.1 percent) increase in sales tax receipts reflects sales tax base growth of 4 percent due to strong projected disposable income growth. Highway use tax receipts are expected to increase \$9 million (6.6 percent) as FY 2016 is a triennial renewal year.

General Fund consumption/use tax receipts are projected to total \$6.9 billion in FY 2016, a \$282 million (4.3 percent) increase from the prior year. The projected increase results from increases in sales, cigarette and tobacco, and alcoholic beverage tax receipts. The projected increase in cigarette and tobacco tax receipts is the result of an artificially low FY 2015 base created by the cigar tax refunds mentioned earlier.

All Funds consumption/use tax receipts are projected to increase to \$16.3 billion (2.8 percent) in FY 2017 and \$16.8 billion (3 percent) in FY 2018, largely representing base growth in sales tax receipts, offset slightly by trend declines in cigarette tax collections.

General Fund sales and use tax receipts are net of deposits to the Local Government Assistance Tax Fund (25 percent), and the Sales Tax Revenue Bond Fund (25 percent), which supports debt service payments on State sales and use tax revenue bonds. Receipts in excess of the debt service requirements of the funds and the local assistance payments to New York City, or its assignee, are transferred back to the General Fund.

General Fund consumption/use tax receipts are projected to increase to \$7.1 billion (3.2 percent) in FY 2017 and \$7.4 billion (3.4 percent) in FY 2018, reflecting the All Funds trends noted above.

All Funds business tax receipts for FY 2015 are estimated at \$7.7 billion, a \$547 million (6.6 percent) decrease from prior year results. The estimate reflects a decline resulting from the first year of the Tax Year 2010-2012 tax credit deferral payback to taxpayers (an incremental refund increase of \$273 million) and enacted tax reductions for manufacturers which are estimated to reduce All Funds receipts by \$223 million. Growth in the bank and insurance taxes is offset by declines in the corporate franchise tax (for the reasons stated below), the corporation and utilities tax and the petroleum business tax.

Corporate franchise tax receipts are estimated to decrease \$1.5 billion (40.3 percent) in FY 2015, reflecting the refund increment noted above (\$273 million), and tax cuts for manufacturers enacted in the FY 2014 and FY 2015 budgets. The FY 2014 Enacted Budget phased-in a 25 percent tax cut on all four manufacturing tax bases beginning in tax year 2014. Additionally, the FY 2015 Enacted Budget reduced the entire net income tax rate to zero percent for qualified manufacturers effective for tax year 2014. The impact of these two actions is estimated to reduce FY 2015 receipts by a total of \$223 million from FY 2014 receipts. In addition to these actions, audit receipts are expected to be \$657 million (56.7 percent) lower. Additionally, refunds excluding the credit deferral payback are estimated to increase \$228 million.

Corporation and utilities tax receipts are expected to decline \$8 million (1 percent) in FY 2015. Both gross receipts and audits are expected to decline from the prior year. The telecommunications sector is expected to show no growth from the prior year as consumers continue to increase their use of smart phones and social networks to communicate. Based on industry information, data revenue per user exceeded voice revenue per user for the first time at the end of calendar year 2013. Data revenue is nontaxable due to Federal law. It is expected that this trend will continue into calendar year 2014. Utility revenue is expected to increase

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

slightly from the prior year which partially offsets the loss of payments made under section 186 due to the Long Island Power Authority (LIPA) restructuring enacted in the 2013 legislative session. Additionally, refunds are expected to be much lower in FY 2015 due to an atypically large refund that was paid in FY 2014.

Insurance tax receipts are expected to increase \$90 million (6.2 percent) in FY 2015. Strength in premiums growth from authorized insurers as well as unauthorized (excess line brokers) insurers will be partially offset by the impact of the State's transition of the prescription drug, hospital and mental health portions of the Empire Plan to self-insurance on January 1, 2014. The medical portion of the Empire Plan was transitioned to self-insurance on January 1, 2013. This transition reduces insurance tax receipts since State and local governments no longer remit the insurance tax as part of premium payments. Additionally, audits are expected to be higher and refunds lower in FY 2015 than in FY 2014.

Bank tax receipts are estimated to increase \$922 million (87.8 percent) in FY 2015. Gross receipts are expected to grow 27.4 percent in FY 2015 as liability year 2014 rebounds from a weak 2013. Additionally, audit receipts are expected to increase nearly \$676 million based on receipts to date.

Petroleum business tax (PBT) receipts are expected to decrease \$15 million (1.3 percent) in FY 2015, primarily due to the 0.8 percent decrease in PBT tax rates effective January 2014 and the estimated 4 percent decrease in PBT tax rates effective January 2015. These declines are partially offset by an expected rebound in taxable fuel consumption from FY 2014, which was depressed by severe winter weather.

General Fund business tax receipts for FY 2015 of \$5.5 billion are estimated to decrease \$555 million (9.2 percent) from FY 2014 results, reflecting the All Funds trends discussed above.

The massive decline in bank tax receipts and the commensurate large increase in corporate franchise tax receipts beginning in FY 2016 are the result of the repeal of the bank tax and resultant imposition of the corporate franchise tax on former bank taxpayers effective for tax year 2015. All Funds business tax receipts for FY 2016 of \$8 billion are projected to increase \$267 million (3.5 percent) from the prior year. This year-over-year increase primarily reflects higher audits and lower refunds (the second year of the credit deferral payback to taxpayers is smaller than the amount estimated to be paid out in FY 2015). Additionally, gross receipts are expected to grow 2.3 percent. PBT receipts are expected to decrease \$40 million (3.5 percent) in FY 2016, primarily due to the estimated 4 percent decrease in PBT tax rates effective January 1, 2015 noted above and expected declines in taxable motor fuel consumption due to declining vehicle miles traveled and increases in average vehicle fuel efficiency.

General Fund business tax receipts for FY 2016 of \$5.7 billion are projected to increase \$237 million (4.3 percent), reflecting the All Funds trends discussed above.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

All Funds business tax receipts for FY 2017 and FY 2018 reflect projected trends in corporate profits, taxable insurance premiums, electric utility consumption and prices, the consumption of taxable telecommunications services, and automobile fuel consumption and fuel prices. All Funds business tax receipts are projected to decrease to \$7.9 billion (0.9 percent) in FY 2017, and increase to \$8.1 billion (2.2 percent) in FY 2018. General Fund business tax receipts are expected to decrease to \$5.6 billion (2.1 percent) in FY 2017 and increase to \$5.7 billion (2.1 percent) in FY 2018. The decrease in FY 2017 primarily reflects the reduction of the corporate entire net income tax rate to 6.5 percent from 7.1 percent that was implemented as part of corporate tax reform in the FY 2015 Enacted Budget.

¹Excludes Transfers.

All Funds other tax receipts for FY 2015 are estimated to be nearly \$2.2 billion, a \$14 million (0.6 percent) decrease from FY 2014 results. This reflects a \$58 million (4.7 percent) decrease in estate tax receipts, partially offset by a \$44 million (4.8 percent) increase in real estate transfer tax receipts. The estate tax decrease is primarily the result of Enacted Budget legislation that raises the exemption level from \$1 million to \$5.25 million over a four-year period and an expected return (i.e., reduction) in FY 2015 to a number of super-large estate payments (payments of over \$25 million) consistent with long-term trends. The real estate transfer tax estimate reflects both an increase in the volume of transactions in NYC and modest price growth compared to the prior year.

General Fund other tax receipts are expected to be nearly \$1.2 billion in FY 2015, a \$58 million (4.6 percent) decrease from FY 2014 results, reflecting the estate tax change noted above.

All Funds other tax receipts for FY 2016 are projected to be \$2.2 billion, a \$25 million (1.2 percent) increase from FY 2015 projections. This reflects projected growth in the real estate transfer tax receipts due to projected growth in both the residential and commercial real

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

estate markets, particularly in NYC, partially offset by a decline in projected estate tax receipts due to the continued phase in of the increased exemption level.

General Fund other tax receipts are expected to total nearly \$1.2 billion in FY 2016, reflecting the \$40 million (3.4 percent) decrease in estate tax receipts noted above.

All Funds other tax receipts for FY 2017 are projected to decrease to just over \$2.1 billion (1.7 percent) from FY 2016, then increase to nearly \$2.2 billion (0.9 percent) in FY 2018. This overall change is the result of the continued phase in of the estate tax cut and the increasing value of property transfers. General Fund other tax receipts for FY 2017 and FY 2018 are projected to decrease by 8.2 percent and 4.7 percent, respectively, due to the projected decline in estate tax receipts noted above.

All Funds miscellaneous receipts include moneys received from HCRA financing sources, SUNY tuition and patient income, lottery receipts for education, assessments on regulated industries, tribal-state compact revenue, financial settlements and a variety of fees and licenses.

All Funds miscellaneous receipts are estimated to total \$29.8 billion in FY 2015, an increase of 23.1 percent from prior year results. This increase is primarily due to newly identified one-time proceeds of approximately \$4.5 billion from financial settlements with banks and insurers, which includes \$3.6 billion from BNP Paribas, \$715 million from Credit Suisse AG, \$50 million from Metropolitan Life, \$20 million from AXA Equitable and \$92 million from Citigroup (State share). In addition to the financial settlements, the FY 2015 General Fund total includes a deposit of \$1 billion from the State Insurance Fund reserve release in connection with Workers' Compensation law changes included in the FY 2014 budget, which is an increase of \$750 million from the amount received during the prior year. In other State funds, FY 2015 miscellaneous receipts are driven by year-to-year variations to health care surcharges and other HCRA resources, licensing fees associated with commercial gaming, bond proceeds, atypical fines and the phase-out of the temporary utility assessment.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

All Funds miscellaneous receipts are projected to decrease annually beginning in FY 2016, mainly due to reduced transfers from the State Insurance Fund (SIF), the loss of one-time settlement revenues, the phase-out of the temporary utility assessment, and bond proceeds available to fund capital improvement projects.

Aid from the Federal government helps pay for a variety of programs including Medicaid, temporary and disability assistance, mental hygiene, school aid, public health, and other activities. Annual changes to Federal grants generally correspond to changes in federally-reimbursed spending. Accordingly, DOB typically projects Federal reimbursements will be received in the State fiscal year in which spending occurs, but due to the variable timing of Federal grant receipts, actual results often differ from the plan.

All Funds Federal grants are expected to increase in FY 2015, which is mainly driven by enhanced Federal Medicaid funding associated with the ACA. Federal grants are expected to grow to \$49.8 billion by FY 2018, reflecting the continuation of growth in Federal Medicaid spending associated with the ACA, partly offset by the expected phase-down of costs associated with Federal disaster assistance aid.

DISBURSEMENTS

Total disbursements in FY 2015 are estimated at \$63.2 billion in the State's General Fund and at \$92.2 billion in total State Operating Funds. Over the multi-year Financial Plan, State Operating Funds spending projections assume Medicaid and School Aid will grow at their statutorily-indexed rates. Medicaid, education, pension costs, employee and retiree health benefits, and debt service are significant drivers of annual spending growth.

The multi-year disbursements projections take into account various factors, including agency staffing levels, program caseloads, inflation, and funding formulas contained in State and Federal law. Factors that affect spending estimates vary by program. For example, public assistance spending is based primarily on anticipated caseloads that are estimated by analyzing historical trends and projected economic conditions. Projections account for the timing of payments, since not all of the amounts appropriated in the budget are disbursed in the same fiscal year. Consistent with past years, the aggregate spending projections (i.e., the sum of all projected spending by individual agencies) in State Special Revenue Funds have been adjusted downward in all fiscal years based on typical spending patterns and the observed variance between estimated and actual results over time.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

LOCAL ASSISTANCE GRANTS

Local Assistance spending includes payments to local governments, school districts, health care providers, and other entities, as well as financial assistance to, or on behalf of, individuals, families and not-for-profit organizations. Local assistance spending in State Operating Funds is estimated at \$61.2 billion in FY 2015 and accounts for nearly two-thirds of total State Operating Funds spending. Education and health care spending account for approximately two-thirds of local assistance spending.

Certain major factors considered in preparing the spending projections for the State's major local aid programs and activities are summarized in the following table.

EDUCATION

SCHOOL AID

School Aid helps support elementary and secondary education for New York pupils enrolled in 674 major school districts throughout the State. State funding is provided to districts based on statutory aid formulas and through reimbursement of categorical expenses such as bilingual education and education of homeless children. State funding for schools assists districts in meeting locally defined needs, supports the construction of school facilities, and finances school transportation for nearly three million students statewide.

SCHOOL YEAR (JULY 1 — JUNE 30)

School Aid is expected to total \$22.2 billion in SY 2015, an increase of \$1.1 billion (5.3 percent) from school year (SY) 2014. This increase is provided largely through \$853 million of additional general operating support to school districts, consisting of a \$602 million restoration in the Gap Elimination Adjustment (GEA) and a \$251 million increase in Foundation Aid. Another \$275 million supports increased reimbursement in expense-based aid programs (e.g., transportation, BOCES, school construction) and other miscellaneous aid categories.

The FY 2015 Enacted Budget also provides \$340 million of recurring annual funding to support Statewide Universal Full-Day Pre-Kindergarten programs in order to incentivize and fund state-of-the-art programs and encourage creativity through competition. These programs are expected to begin in the fall of 2014.

Based on the final recommendations of the Governor's New NY Education Reform Commission, the FY 2015 Enacted Budget establishes a \$20 million Teacher Excellence Fund and provides \$5 million for additional Pathways in Technology Early College High School (P-TECH) grants.

Finally, the FY 2015 Enacted Budget maintains the two-year appropriation that continues Education Law provisions. School Aid is projected to increase by an additional \$864 million (3.9 percent) in SY 2016 and \$1.1 billion (4.7 percent) in SY 2017. School Aid is projected to reach an annual total of \$25.4 billion in SY 2018.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

STATE FISCAL YEAR

The State finances School Aid from General Fund receipts and from Lottery Fund receipts, including video lottery terminals (VLTs), which are accounted for and disbursed from a dedicated account. Because the State fiscal year begins on April 1, the State typically pays approximately 70 percent of the annual school year commitment during the State fiscal year in which it is enacted, and pays the remaining 30 percent in the first three months of the following State fiscal year.

The table below summarizes the multi-year projected funding levels on a State fiscal year basis.

State spending for School Aid is projected to total \$21.7 billion in FY 2015. In future years, receipts available to finance this category of aid from core lottery sales are projected to remain stable. Beginning in FY 2016, School Aid spending is expected to be supplemented by commercial gaming revenues. In addition to State aid, school districts receive approximately \$3 billion annually in Federal categorical aid.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

OTHER EDUCATION FUNDING

In addition to School Aid, the State provides funding and support for various other education-related initiatives. These include: special education services; programs administered by the office of pre-kindergarten through grade 12 education; cultural education; higher and professional education programs; and adult career and continuing education services.

New York State provides a full spectrum of special education services to over 400,000 students with disabilities from ages 3 to 21. Major programs under the Office of Pre-kindergarten through Grade 12 address specialized student needs or reimburse school districts for education-related services, including the school lunch and breakfast program, after school programs and other educational grant programs. Higher and professional education programs monitor the quality and availability of postsecondary education programs and regulate the licensing and oversight of 50 professions. Adult career and continuing education services focuses on the education and employment needs of New York State’s adult citizens, including ensuring that such individuals have access to a “one-stop” source for all their employment needs and that they are made aware of the full range of services available in other agencies.

OTHER EDUCATION (millions of dollars)									
	FY 2014 Results	FY 2015 Updated	Change	FY 2016 Projected	Change	FY 2017 Projected	Change	FY 2018 Projected	Change

All Other Education	595	650	9.2%	619	-4.8%	641	3.6%	699	9.0%

Special education growth is primarily driven by an increase in enrollment and an increase in the level of services ordered for students in the preschool special education and the summer school special education programs. In relation to special education programs, the FY 2015 Enacted Budget advances targeted reforms to improve fiscal practices and service delivery. The decrease in other education spending for FY 2016 relative to FY 2015 is driven primarily by one-time costs associated with the timing of claims-based aid payments, and targeted aid and grants in FY 2015.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

SCHOOL TAX RELIEF (STAR) PROGRAM

The STAR program provides school tax relief to taxpayers by exempting the first \$30,000 of every eligible homeowner's property value from the local school tax levy. Lower-income senior citizens will receive a \$64,200 exemption in FY 2015. The Department of Taxation and Finance oversees local property assessment administration, and is responsible for establishing STAR property tax exemption amounts.

The three components of STAR and their approximate shares in FY 2015 are: the basic school property tax exemption for homeowners with income under \$500,000 (56 percent); the enhanced school property tax exemption for senior citizen homeowners with incomes under \$81,900 (26 percent); and a flat refundable credit and rate reduction for income-eligible resident New York City personal income taxpayers (18 percent).

Spending for the STAR property tax exemption reflects reimbursements made to school districts to offset the reduction in property tax revenues. The annual increase in a qualifying homeowner's STAR exemption benefit is limited to 2 percent. New York City personal income taxpayers with annual incomes over \$500,000 have a reduced benefit.

HIGHER EDUCATION

Local assistance for higher education spending includes funding for the City University of New York (CUNY), the State University of New York (SUNY) and the Higher Education Services Corporation (HESC).

The State provides assistance for CUNY's senior college operations, and works in conjunction with New York City to support CUNY's community colleges. The CUNY system is the largest urban public university system in the nation. Funding for SUNY supports 30 community colleges across multiple campuses. The State also provides a sizeable benefit to CUNY and SUNY through the debt service it pays on bond-financed capital projects at the universities. State debt service payments for capital projects at SUNY and CUNY are expected to total about \$1.2 billion in FY 2015 (this is not reflected in the annual spending totals for the universities). HESC administers the Tuition Assistance Program (TAP) that provides awards to income-eligible students. It also provides centralized processing for other student financial aid programs, and offers prospective students information and guidance on how to finance a college education. The financial aid programs that HESC administers are funded by the State and the Federal government.

Note: State support for SUNY four-year institutions is funded through State operations rather than local assistance.

Annual growth by CUNY across the multi-year Financial Plan reflects the net impact of additional base operating support at community colleges and fringe benefit cost increases at Senior colleges. Growth in HESC reflects the implementation of a new scholarship for Science, Technology, Engineering and Mathematics as well as a \$165 increase to the maximum TAP award. SUNY local assistance reflects the net impact of additional base operating aid and enrollment changes at community colleges.

HEALTH CARE

Local assistance for health care-related spending includes Medicaid, statewide public health programs and a variety of mental hygiene programs. The State DOH works with local health departments and social services departments, including New York City, to coordinate and administer statewide health insurance programs and activities. The majority of government-financed health care programs are included under DOH, but many programs are supported through multi-agency efforts.

MEDICAID

Medicaid is a means-tested program that finances health care services for low-income individuals and long-term care services for the elderly and disabled, primarily through payments to health care providers. The Medicaid program is financed jointly by the State, the Federal government, and local governments. Eligible services include inpatient hospital care, outpatient hospital services, clinics, nursing homes, managed care, prescription drugs, home care, the Family Health Plus (FHP)³ program and services provided in a variety of community-based settings (including mental health, substance abuse treatment, developmental disabilities services, school-based services and foster care services).

In FY 2012, legislation was enacted to limit the year-to-year growth in State funds Medicaid spending to the ten-year rolling average in the medical component of the CPI. The statutory provisions of the Medicaid spending cap (or “Global Cap”) also allow for flexibility in adjusting Medicaid projections to meet unanticipated costs resulting from the event of a natural or other type of disaster. The FY 2015 Enacted Budget reflects the continuation of the Medicaid spending cap for FY 2015 and FY 2016, and the Financial Plan assumes that statutory authority will be extended in subsequent years. Allowable growth under the cap is 3.8 percent for FY 2015. DOB estimates the cap growth at 3.6 percent in FY 2016; 3.4 percent in FY 2017; and 3.3 percent in FY 2018 attributed to projected CPI reductions.

The Global Cap applies to a majority of the State share of Medicaid spending that is budgeted and expended principally through DOH. However, the Global Cap excludes State costs associated with the takeover of local Medicaid growth and the multi-year assumption of local Medicaid Administration, as well as increased Federal financial participation that became effective in January 2014. State share Medicaid spending also appears in the Financial Plan estimates for other State agencies, including the mental hygiene agencies, child welfare

³ The FY 2014 Enacted Budget eliminated the FHP program effective January 1, 2015. The majority of the population receiving health care benefits through FHP will begin receiving more robust health care benefits through the Medicaid program, pursuant to new Medicaid eligibility thresholds and increased Federal payments pursuant to the ACA. The remaining FHP population, those above Medicaid levels, will be eligible for Federal tax credits in the New York State of Health insurance benefit exchange and the State will pay remaining out-of-pocket costs for these individuals up to previous FHP levels.

The First Quarterly Update to the Financial Plan includes a reduction to the total State-share Medicaid estimate for all agency spending, \$134 million in FY 2015 and \$90 million in each subsequent year, due to a technical correction to more accurately align total OPWDD local assistance costs between Medicaid and non-Medicaid service categories. This adjustment is consistent with other State agency spending assumptions carried by DOH in the FY 2015 Enacted Budget.

¹ Department of Health spending in the Financial Plan includes certain items that are excluded from the global cap. This includes administrative costs, including the takeover of local administrative responsibilities; the decision of Monroe County to participate in the Medicaid local cap program, rather than continuing the sales tax intercept option; and increased Federal Financial Participation that became effective in January 2014.

² Beginning in FY 2014 the Office of Health Insurance Programs was transferred to Medicaid from Public Health as part of the five-year phase-in initiative of the State to assume local administrative functions.

The State share of DOH Medicaid spending is financed by a combination of the General Fund, HCRA, provider assessment revenue, and indigent care payments. ¹ Does not include Medicaid spending in other State agencies, transfers, or the local government share of total Medicaid program spending.

² FY 2015 HCRA financing includes \$30 million for New York State of Health.

Beginning in FY 2014, certain OPWDD-related Medicaid costs were financed within available resources under the Global Cap to alleviate the financial impact of reduced Federal revenue associated with the reimbursement of Medicaid costs at State-operated facilities providing developmental disability services. In FY 2015, additional costs were funded under the cap to benefit the State Financial Plan. These costs were accommodated through the State's implementation of the Medicaid Redesign Team (MRT) initiatives; cash management improvements; and the utilization of Federal resources associated with the ACA.

Fluctuation in enrollment, costs of provider health care services (particularly in managed care), and utilization levels drive higher Medicaid spending that must be managed within the Global Cap. The number of Medicaid recipients is expected to exceed 5.8 million by the end of FY 2015, a 6.3 percent increase from the FY 2014 caseload of 5.5 million. This expected growth is mainly attributable to expanded eligibility and enrollment pursuant to the ACA. Under the provisions of the ACA, which became effective in January 2014, the Federal government is expected to finance a greater share of Medicaid costs, the impact of which is expected to lower growth in the State share of Medicaid.

PUBLIC HEALTH/AGING PROGRAMS

Public Health includes the Child Health Plus (CHP) program that finances health insurance coverage for children of low-income families up to the age of 19, the General Public Health Work (GPHW) program that reimburses local health departments for the cost of providing certain public health services, the Elderly Pharmaceutical Insurance Coverage (EPIC) program that provides prescription drug insurance to seniors, and the Early Intervention (EI) program that pays for services to infants and toddlers under the age of three with disabilities or developmental delays. Many public health programs, such as EI and GPHW programs, are run by county health departments and reimbursed by the State for a share of program costs. The State spending projections do not include the county share of public health funding. In addition, a significant portion of HCRA spending is included under the Public Health budget.

The State Office for the Aging (SOFA) promotes and administers programs and services for New Yorkers 60 years of age and older. The Office primarily oversees community-based services (including in-home services and nutrition assistance) provided through a network of county Area Agencies on Aging (AAA) and local providers.

¹ The Federal-State Health Reform Partnership Program expired March 31, 2014.

CHP spending is expected to grow in FY 2015 due to forecasted caseload growth under the ACA. As CHP enrollment increases, initial costs will be incurred by the State until enhanced Federal participation rates become effective beginning in FY 2016. The FY 2015 Enacted Budget holds CHP reimbursement rates in FY 2015 at FY 2014 levels.

GPHW spending growth in FY 2015 is primarily attributable to the timing of a one-time recoupment from NYC which resulted in lower FY 2014 spending relative to historical patterns. Beginning in FY 2015, spending growth is expected to be managed at moderate levels in part through lower projected county claiming, as well as through encouraging enrollment in other insurance for clinical prenatal care services currently supported through GPHW.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

EPIC program spending is projected to decline through FY 2016 due to enrollment changes. Growth in FY 2017 and FY 2018 reflects the expansion of the EPIC program based on increased income limits for services.

Program growth for EI in FY 2015 is mainly due to additional funding provided with the Enacted Budget to reimburse certain pending claims. This growth will remain flat through the remainder of the Financial Plan, as enrollment is expected to be stable. Increased spending for HCRA programs starting in FY 2015 is attributable to an additional \$25 million annual subsidy for the Roswell Park Cancer Institute (RPCI), which is intended to offset the expiration of capital grant awards in order to maintain the current level of State funding for the RPCI.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

HCRA FINANCIAL PLAN

HCRA was established in 1996 to help finance a portion of State health care activities. Extensions and modifications to HCRA have financed new health care programs, including FHP and CHP. HCRA has also provided additional financing for the health care industry, including investments in worker recruitment and retention, and the Health Care Efficiency and Affordability Law for New Yorkers (HEAL NY) program for capital improvements to health care facilities (funding was completed during FY 2014). HCRA authorization has been extended through FY 2017, pursuant to legislation included in the FY 2015 Enacted Budget.

HCRA receipts include surcharges and assessments on hospital revenues, a “covered lives” assessment paid by insurance carriers, and a portion of cigarette tax revenues. These resources are used to fund roughly 20 percent of the State Share of Medicaid, FHP, CHP, HEAL NY, EPIC, physician excess medical malpractice insurance, and Indigent Care payments, which provide funding to hospitals serving a disproportionate share of individuals without health insurance.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

HCRA receipts are estimated to grow 1.6 percent on average through FY 2018. Surcharge and assessment revenue is expected to increase due to expanded coverage under the ACA, and will be dedicated to finance additional administrative costs associated with the New York State of Health Exchange. This growth is partly offset by projected declines in cigarette tax revenue due to declining tobacco consumption.

HCRA spending is expected to increase by \$170 million in FY 2015 and total \$5.5 billion. The most significant areas of growth include additional financing of the State share of Medicaid costs; capital costs associated with the implementation of the new All Payers Claims Database (APCD) and Statewide Health Information Network for New York (SHIN-NY), which is expected to improve information capabilities and increase efficiency associated with health insurance claiming; and a \$25 million increase in annual funding for the Roswell Park Cancer Institute (RPCI) to offset the expiration of other capital grant award funding.

The FY 2015 Enacted Budget is expected to lower costs associated with certain programs financed with HCRA revenue, the most notable of which is a planned freeze of reimbursement rates associated with the CHP program for one year.

The First Quarterly Update to the Financial Plan reflects downward revisions to the annual HCRA surcharge revenue estimates, including a reduction of \$17 million in the current year, due to a correction of overpayments made to the State for exempt Medicare eligible services, as determined through a recent HCRA surcharge audit. Future surcharge payments will be made under the corrected methodology, with an increased Financial Plan impact of \$42 million expected during FY 2016 due to the timing and scope of the audit.

HCRA is expected to remain in balance over the multi-year projection period. Under the current HCRA appropriation structure, spending reductions will occur if resources are insufficient to meet spending levels. Any potential spending reductions could affect General Fund Medicaid Funding or HCRA programs. Conversely, any unanticipated balances or excess resources in HCRA are expected to finance Medicaid costs that would otherwise be paid from the General Fund.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

MENTAL HYGIENE

The Department of Mental Hygiene is comprised of three independent agencies: the Office for People with Developmental Disabilities (OPWDD), the Office of Mental Health (OMH), and the Office of Alcoholism and Substance Abuse Services (OASAS). Services are administered to adults with serious and persistent mental illness; children with serious emotional disturbances; individuals with developmental disabilities and their families; persons with chemical dependencies; and individuals with compulsive gambling problems. These agencies provide services directly to their patients through State-operated facilities and indirectly through community service providers. The costs associated with providing these services are funded by reimbursement from Medicaid, Medicare, third-party insurance and State funding. Patient care revenues are pledged first to the payment of debt service on outstanding mental hygiene bonds, which were issued to finance improvements to infrastructure at mental hygiene facilities throughout the State, with the remaining revenue used to support State operating costs.

Legislation enacted in FY 2013 established the Justice Center for the Protection of People with Special Needs, which has the primary responsibility for tracking, investigating and pursuing serious abuse/neglect complaints at facilities and provider settings operated, certified, or licensed by six State agencies.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

Local assistance spending accounts for over 40 percent of total mental hygiene spending from State Operating Funds, and is projected to grow by an average rate of 6.4 percent annually. The main factor driving this level of growth is the phase-down of the Mental Hygiene Stabilization Fund, whereby certain OPWDD-related Medicaid costs are funded under the Medicaid Global Cap. When adjusting for the phase-down of the Mental Hygiene Stabilization Fund, local program spending is expected to increase by an average annual rate of 4.9 percent, and is mainly attributable to increases in the projected State share of Medicaid costs and projected expansion of the various mental hygiene service systems, including costs associated with developing new OPWDD residential and non-residential services; expansions in community mental health services intended to reduce reliance on inpatient treatment; developing new opiate and heroin treatment and prevention programs; the New York/New York III Supportive Housing agreement; and community beds that are currently under development for adult home and nursing home residents with mental illness. Additional outyear spending is assumed in Financial Plan estimates for costs associated with efforts to move individuals to the least restrictive setting possible, as well as several chemical dependence treatment and prevention initiatives for individuals receiving services through OASAS.

In FY 2015, additional OPWDD-related Medicaid costs were funded under the cap to benefit the State Financial Plan. These costs were accommodated through the State's implementation of MRT initiatives; cash management improvements; and the utilization of Federal resources associated with the ACA.

The FY 2015 Enacted Budget replaces the statutorily-indexed Cost of Living Adjustment (COLA) with a 2 percent increase, beginning in January 2015, to support salary increases for Direct Care and Direct Support workers and payments to Foster/Adoptive parents. Additionally, the FY 2015 Enacted Budget also authorizes another 2 percent increase beginning in April 2015 for the same individuals, with the April 2015 increase expanded to also include Clinical staff. In total, the Enacted Budget commits \$13 million in FY 2015, growing to \$122 million in FY 2016 to support salary increases for the lowest paid not-for-profit workers and foster/adoptive parents.

The First Quarterly Update to the Financial Plan includes a technical correction to more accurately align total OPWDD local assistance costs between the Medicaid and non-Medicaid service categories. This adjustment, which will shift \$134 million from the Medicaid to non-Medicaid service categories in FY 2015, and \$90 million in each subsequent year, is consistent with other State agency spending assumptions carried by DOH in the FY 2015 Enacted Budget, and does not have an impact to the annual State Operating Funds spending estimates.

Current spending estimates do not reflect any actions which may be needed to mitigate potentially adverse impacts to the Financial Plan as a result of additional Federal rate disallowances for services provided in State-operated developmental disability institutions, as outlined in a July 25, 2014 disallowance notification from CMS.

SOCIAL SERVICES

The Office of Temporary and Disability Assistance (OTDA) local assistance programs provide cash benefits and supportive services to low-income families. The State's three main programs include Family Assistance, Safety Net Assistance and Supplemental Security Income (SSI). The Family Assistance program, which is financed by the Federal government, provides time-limited cash assistance to eligible families. The Safety Net Assistance program, financed by the State and local districts, provides cash assistance for single adults, childless couples, and families that have exhausted their five-year limit on Family Assistance imposed by Federal law. The State SSI Supplementation program provides a supplement to the Federal SSI benefit for the elderly, visually handicapped, and disabled.

As of October 1, 2014, the State will assume responsibility for administration of the State's SSI Supplementation program from the Federal government, which will generate savings and result in an annual spending decline. DOB estimates a decline in projected costs for public assistance due to an expected 2.8 percent annual decrease in average public assistance caseload, which is projected to total 564,167 recipients in FY 2015. Approximately 249,131 families are expected to receive benefits through the Family Assistance program in FY 2015, a decrease of 3.6 percent from FY 2014. In the Safety Net program an average of 120,186 families are expected to be helped in FY 2015, a decrease of 4.2 percent from FY 2014. The caseload for single adults/childless couples supported through the Safety Net program is projected at 194,850 in FY 2015, a decrease of 0.8 percent from FY 2014.

OFFICE OF CHILDREN AND FAMILY SERVICES

The Office of Children and Family Services (OCFS) provides funding for foster care, adoption, child protective services, preventive services, delinquency prevention, and child care. OCFS oversees the State’s system of family support and child welfare services administered by social services departments and community-based organizations. Specifically, child welfare services, which are financed jointly by the Federal government, the State, and local districts, are structured to encourage local governments to invest in preventive services intended to reduce out-of-home placement of children. In addition, the Child Care Block Grant, which is also financed by a combination of Federal, State and local sources, supports child care subsidies for public assistance and low-income families.

OCFS spending in FY 2015 is projected to decline from FY 2014 levels, mainly due to a decrease in spending on Child Welfare Services that is attributable to lower estimated claims. Increased Day Care spending includes a \$55 million subsidy increase and a drop in Federal aid that result in State share increase to maintain program funding. In addition, the Committees on Special Education growth is based on the five-year historical average of 4.5 percent pursuant to caseload changes and rate increases for both in-state and out-of-state placements.

TRANSPORTATION

In FY 2015, the Department of Transportation (DOT) will provide \$4.8 billion to support the operating costs of the statewide mass transit systems financed from dedicated taxes and fees. The MTA, due to the size and scope of its transit and commuter rail systems, receives the majority of the statewide mass transit operating aid. In addition, the MTA receives operating support from the Mobility Tax and MTA Aid Trust Fund, authorized in May 2009 to collect regional taxes and fees imposed within the Metropolitan Commuter Transportation District (MCTD). The State collects these taxes and fees on behalf of, and disburses the entire amount to, the MTA to support the transit and commuter rail systems. Pursuant to legislation enacted in December 2011, MTA payroll tax was eliminated for all elementary and secondary schools and small business operators within the MCTD, and the General Fund now provides additional annual support, subject to appropriation, to the MTA to make up for the resulting loss of revenue.

Increased operating aid to the MTA and other transit systems reflects the current receipts forecast and the timing of resources due to transactional delays during FY 2014.

The FY 2015 Enacted Budget included legislative authorization to offset General Fund support for MTA-related debt service costs by transferring \$30 million in dedicated resources from the Metro Mass Transportation Operating Assistance (MMTOA) account to the General Debt Service Fund. The Financial Plan also assumes that \$20 million in MMTOA resources will be available to offset MTA-related debt service costs on an annual basis beginning in FY 2016.

LOCAL GOVERNMENT ASSISTANCE

Direct aid to local governments includes the Aid and Incentives for Municipalities (AIM) program, which was created in FY 2006 to consolidate various unrestricted local aid funding streams; miscellaneous financial assistance for certain counties, towns, and villages; and efficiency-based incentive grants provided to local governments.

AGENCY OPERATIONS

Agency operating costs include personal service, non-personal service, and GSCs. Personal service costs include the salaries of State employees of the Executive, Legislative, and Judicial branches; as well as the salaries of temporary/seasonal employees. Non-personal service costs reflect the cost of operating State agencies, including real estate rental, utilities, contractual payments (i.e., consultants, IT, and professional business services), supplies and materials, equipment, and telephone service. GSCs reflect the cost of fringe benefits (i.e., pensions, health insurance) provided to State employees and retirees of the Executive, Legislative and Judicial branches, and certain fixed costs paid by the State, such as taxes on public lands and litigations. Certain agency operations of Transportation and Motor Vehicles are included in the capital projects fund type and are not reflected in the State Operating Funds totals.

Approximately 94 percent of the State workforce is unionized. The largest unions include Civil Service Employees Association (CSEA), which represents office support staff and administrative personnel, machine operators, skilled trade workers, and therapeutic and custodial care staff; Public Employees Federation (PEF), which represents professional and technical personnel (i.e., attorneys, nurses, accountants, engineers, social workers, and institution teachers); United University Professions (UUP), which represents faculty and non-teaching professional staff within the State University system; and New York State Correctional Officers and Police Benevolent Association (NYSCOPBA), which represents security personnel (correction officers, safety and security officers).

Selected assumptions used in preparing the spending projections for the State's major programs and activities are summarized in the following table.

MULTI-YEAR FINANCIAL PLAN PROJECTIONS

The majority of State agencies are expected to hold personal service and non-personal service spending constant over the plan period. Costs from collective bargaining agreements, which include 2 percent salary increases in FY 2015 and FY 2016 (for certain unions), applicable lump sum payments, and repayment of a portion of the deficit reduction adjustment made to employee salaries, are expected to be funded from operational savings.

Gaming, health care, and SUNY are three areas expected to experience limited programmatic growth over the ensuing four years. The growth in gaming is attributable to activities related to casino development and oversight. Increases in DOH are primarily driven by the State's implementation of the New York State of Health insurance benefit exchange, the State's insurance marketplace program as mandated by ACA. Beginning in FY 2015, program costs for New York State of Health are partially offset by Federal grants; however, DOH must fully absorb the start-up costs by FY 2016. SUNY spending is driven by tuition funding and reflects anticipated operating needs.

The First Quarterly Update to the Financial Plan includes additional funding to support a statewide initiative to combat the rise of heroin use. The initiative includes the addition of 100 investigators to the State Police Community Narcotics Enforcement Team (CNET), in order to combat heroin trafficking. Additionally, the State will make supplies of naloxone, an overdose antidote, available to all first responder units in the State.

Other year-over-year increases are technical in nature and reflect funding reclassifications or administrative reconciliations. For example, growth in Temporary and Disability Assistance reflects the reclassification of local assistance contracts to agency operation spending; while the consolidation of state agency IT functions into one central agency, IT Services, drives a higher cost in FY 2015 compared to FY 2014. In addition, the State's workforce is paid on a bi-weekly basis, weekly pay cycles that alternate between Administrative and Institutional payrolls. There are typically 26 pay periods in a fiscal year. In FY 2016, employees on the institution pay schedule will have one additional payroll.

In FY 2015, \$12.6 billion or 13.7 percent of the State Operating Funds Budget is projected to be spent on personal service costs and supports roughly 98,800 Full-Time Equivalents (FTE) employees under direct Executive control and another 15,100 employees of the Legislature and Judiciary. Roughly 75 percent of all personal service spending occurs in four areas: SUNY, the Mental Hygiene agencies, DOCCS, and Judiciary.

GENERAL STATE CHARGES

Fringe benefit payments, many of which are mandated by statute or collective bargaining agreements, include employer contributions for pensions, the State's share of Social Security, health insurance, workers' compensation, unemployment insurance and dental and vision benefits. The majority of employee fringe benefit costs are paid centrally from statewide appropriations. However, certain agencies, including the Judiciary and SUNY, directly pay all or a portion of their employees' fringe benefit costs from their respective budgets. Employee fringe benefits paid through GSCs are paid from the General Fund in the first instance, and then partially reimbursed by revenue collected from fringe benefit assessments on Federal funds and other special revenue accounts. The largest General Fund reimbursement comes from the mental hygiene agencies.

GSCs also include fixed costs for several categories including State payments in lieu of taxes, payments for local assessments on State-owned land and judgments against the State pursuant to the Court of Claims Act.

GSCs are projected to increase at an average annual rate of 3.1 percent over the Financial Plan period due mainly to projected growth in the employer share of cost of employee and retiree health insurance and social security payments, which generally move in tandem with the State's personal service costs. Fixed costs are projected to average approximately \$395 million annually over the multi-year plan. The changes in FY 2015 through FY 2017 reflect the expected final litigation payments for certain settlements.

A significant portion of the capital and operating expenses of DOT and the Department of Motor Vehicles (DMV) are funded from the DHBTF. The Fund receives various dedicated tax and fee revenues, including the petroleum business tax, motor fuel tax, and highway use taxes. The Financial Plan includes transfers from the General Fund that effectively subsidize the expenses of the DHBTF. The subsidy is required because the cumulative expenses of the fund – capital and operating expenses of DOT and DMV, debt service on certain transportation bonds – exceed current and projected revenue deposits and bond proceeds.

DEBT SERVICE

The State pays debt service on all outstanding State-supported bonds. These include General Obligation bonds, for which the State is constitutionally obligated to pay debt service, as well as bonds issued by State public authorities (e.g., Empire State Development (ESD), DASNY, and the Thruway Authority, subject to an appropriation). Depending on the credit structure, debt service is financed by transfers from the General Fund, dedicated taxes and fees, and other resources, such as patient income revenues.

Total debt service is projected at \$5.6 billion in FY 2015, of which approximately \$1.1 billion is paid from the General Fund through transfers, and \$4.6 billion from other State funds. The General Fund transfer finances debt service payments on General Obligation and service contract bonds. Debt service is paid directly from other State funds for the State's revenue bonds, including PIT and Sales Tax bonds, DHBTB bonds, and mental health facilities bonds. Debt service spending estimates are unchanged.

FY 2015 Year-To-Date Operating Results

This section provides a summary of operating results for April 2014 through June 2014 compared to (1) the projections set forth in the FY 2015 Enacted Budget; and (2) results through June 2013.

GENERAL FUND RESULTS

The State ended June 2014 with a General Fund closing balance of \$5.1 billion, \$2.6 billion higher than projected in the FY 2015 Enacted Budget. The higher balance reflects the combined impact of higher than planned receipts (\$2.0 billion) and lower than planned spending (\$638 million).

FY 2015 YEAR-TO-DATE OPERATING RESULTS

RECEIPTS

Through June 2014, General Fund receipts, including transfers from other funds, were \$2.0 billion higher than the Enacted Budget projection, due to higher tax collections (\$1.3 billion) and higher miscellaneous receipts (\$730 million).

The \$1.3 billion in higher tax collections includes higher PIT receipts (\$507 million) due to stronger than anticipated estimated payments and a timing-related shortfall in current year refunds; higher business tax collections (\$675 million) related to the timing of audit receipts; and higher consumption/use taxes (\$87 million) attributable to an increase in taxable purchases.

The increase in miscellaneous receipts reflects an unanticipated financial settlement payment of \$715 million from Credit Suisse AG for its violation of banking laws, specifically for the role it played in allowing U.S. clients to conceal their offshore assets from the IRS and New York authorities.

SPENDING

General Fund disbursements, including transfers to other funds, were \$638 million lower than initial projections. This variance is comprised of lower local assistance (\$567 million) and agency operations (\$134 million) spending, offset by higher General Fund transfers (\$63 million).

The local assistance variance is due to the delayed processing of certain CUNY payments (\$376 million) based on a one-time technological problem associated with loading data into the Statewide Financial Management system; and lower Medicaid spending (\$104 million) primarily from general program under-utilization and the timing of certain rate approval packages which have temporarily suppressed costs. The lower General Fund Medicaid spending is offset by reduced revenue from provider assessments due to an administrative decision by DOH to grant certain providers an extension for the filing of their collection authorization forms. It is expected that the full amount of provider assessment revenue will be collected retroactively by the end of September.

Lower spending for agency operations is attributable to lower GSCs, driven mainly by lower workers' compensation (\$62 million) and litigation (\$25 million) payments, and higher fringe benefit receipts (\$39 million) from non-General Fund accounts due to the timing of the agency billing process.

FY 2015 YEAR-TO-DATE OPERATING RESULTS

The \$63 million in higher General Fund transfers reflects additional support for capital projects (\$259 million) based on the rescheduled closing of a bond sale from June to July, which delayed the reimbursement of previously expended capital projects for SUNY and HEAL-NY; and lower State-share Medicaid transfers to mental hygiene facilities (\$188 million) as a result of retroactive Federal rate adjustments, which reduced payments to these facilities. These adjustments were assumed in the annual funding estimate, but were expected to occur later in the year.

STATE OPERATING FUNDS RESULTS

The State ended June 2014 with a closing balance of \$8.7 billion in State Operating Funds, \$2.4 billion above the Enacted Budget estimate, reflecting the combined impact of higher receipts (\$2.0 billion), lower spending (\$937 million), and lower financing from other sources (\$525 million).

FY 2015 YEAR-TO-DATE OPERATING RESULTS

RECEIPTS

Through June 2014, total receipts in State Operating Funds were \$2.0 billion higher than the Enacted Budget projections, a variance comprised of higher tax collections (\$1.3 billion) and higher miscellaneous receipts (\$691 million).

Consistent with the General Fund results, the State Operating Funds tax receipts variance is attributable to higher personal income tax and business tax receipts, including higher business tax collections in the dedicated transit funds (\$85 million); and the miscellaneous receipts variance reflects the Credit Suisse AG settlement, which is offset by approximately \$85 million in lower than planned provider assessment revenue due to the temporary extension granted by DOH to certain providers for the filing of their assessment collection authorization.

SPENDING

State Operating Funds spending was \$937 million below Enacted Budget projections due to lower spending in both local assistance (\$803 million) and GSCs (\$131 million).

As noted in the General Fund operating results, the local assistance variance primarily reflects lower spending in education and Medicaid. In addition, spending for public health programs was also lower than initially assumed (\$111 million), largely due to the delayed processing of excess medical malpractice insurance payments.

The lower spending for GSCs is consistent with the explanations provided in the General Fund results, including lower workers' compensation payments (\$62 million), lower litigation payments (\$25 million), and the timing of other payments (\$44 million).

OTHER FINANCING SOURCES

Other financing sources, which represent the difference between transfers to and from State Operating Funds, were \$525 million lower than initial estimates, largely reflecting higher support for capital projects (\$320 million) due to the rescheduled bond sale from June to July which resulted in the delayed reimbursement of certain capital expenditures; and lower Federal reimbursements of mental hygiene costs (\$185 million) based on retroactive Federal rate adjustments which reduced reimbursements to these facilities.

FY 2015 YEAR-TO-DATE OPERATING RESULTS

ALL GOVERNMENTAL FUNDS RESULTS

The State ended June 2014 with an All Governmental Funds closing balance of \$7.7 billion, \$2.1 billion above the Enacted projection, mainly due to higher receipts (\$1.7 billion) and lower spending (\$405 million).

FY 2015 YEAR-TO-DATE OPERATING RESULTS

RECEIPTS

Through June 2014, total All Funds receipts were \$1.7 billion higher than Enacted Budget projections due to increases in taxes (\$1.3 billion), miscellaneous receipts (\$119 million), and Federal grants (\$237 million).

As noted earlier, the higher tax receipts reflect stronger than anticipated personal income tax (\$507 million) and business tax (\$762 million) receipts, and the higher miscellaneous receipts reflects the unanticipated settlement payment from Credit Suisse AG (\$715 million). In addition, Federal grants were \$237 million higher than initial estimates due to higher spending in areas such as health care and education. These additional receipts are offset by lower than planned miscellaneous receipts for capital projects (\$625 million) primarily due to the rescheduled bond sale closing.

SPENDING

All Funds spending was \$405 million below Enacted Budget projections. In addition to the General Fund and State Operating Funds spending variances described earlier, spending variances on an All Governmental Fund basis are attributable to factors associated with capital projects and Federal operating funds.

Capital spending was \$193 million lower than initially estimated, largely attributable to lower than anticipated Economic Development grants to localities and the timing related to the payment of SUNY construction contracts.

Federal operating funds spending through June 2014 was \$725 million above the initial projection. The total spending variance was driven primarily by higher health care costs (\$334 million), as Disproportionate Share, Upper Payment Limit, and Delivery Service Reform Incentive Program payments were disbursed earlier in the year than initially projected; higher Federal education payments (\$308 million), which were disbursed earlier in the year as a result of timing associated with payments originally scheduled for the final months of FY 2014; and higher public assistance costs (\$122 million) as a result of timing associated with final payments from FY 2014.

FY 2015 YEAR-TO-DATE OPERATING RESULTS

CAPITAL PROJECTS RESULTS

The State ended June 2014 with a Capital Projects closing balance of negative \$801 million, \$169 million lower than the Enacted projection. This lower balance reflects the combined impact of lower receipts and spending, partly offset by higher financing from other sources.

RECEIPTS

Through June 2014, total receipts in Capital Projects Funds were \$682 million lower than initial projections, largely attributable to the lower miscellaneous receipts (\$625 million) that resulted from the rescheduled bond sale closing.

FY 2015 YEAR-TO-DATE OPERATING RESULTS

SPENDING

Capital projects spending was \$193 million lower than initial estimates, most notably due to slower than anticipated local grant payments for economic development projects and capital-related costs associated with SUNY construction projects.

OTHER FINANCING SOURCES

The \$320 million in higher than anticipated financing from other sources, which represents capital projects transfers, was driven mainly by increased General Fund support due to the timing of bond proceed reimbursements.

ALL GOVERNMENTAL FUNDS ANNUAL CHANGE

The All Governmental Funds balance through June 2014 was \$7.7 billion (or \$250 million) higher than the prior year, comprised of a higher opening balance (\$159 million), higher receipts (\$826 million), and higher spending (\$689 million).

FY 2015 YEAR-TO-DATE OPERATING RESULTS

RECEIPTS

The \$632 million annual decrease in All Funds tax receipts through June 2014 reflects lower PIT collections (\$1.2 billion) due to a decline in extension payments, which were bolstered in the prior fiscal year by the acceleration of income into tax year 2012 ahead of rising Federal tax rates in 2013. This decrease in PIT is partly offset by a \$400 million increase in business taxes due to the timing of corporate franchise tax refunds and higher bank tax audits in fiscal year 2015.

The \$1.2 billion growth in miscellaneous receipts is mainly attributable to the \$750 million increase in the amount of the State Insurance Fund assessment reserves transferred to the State (pursuant to legislation included in the FY 2014 Enacted Budget); and a \$500 million increase in financial settlements paid to the State, including the large Credit Suisse AG payment received in May 2014.

The \$269 million increase in Federal grants is a result of increased Federal program spending, as described in greater detail below.

SPENDING

Through June 2014, All Funds spending increased by \$689 million over the prior year period, encompassing a \$419 million increase in State Operating Funds; a \$466 million increase in Federal Operating Funds; and a \$196 million decrease in Capital Projects Funds.

The increase in State Operating Funds spending reflects increased education costs (\$525 million) associated with enacted budget increases to School Aid spending; and increased GSC spending (\$398 million) as a result of accelerated pension payments by both the State and the Judiciary in order to generate future interest savings. These additional costs are offset by lower spending on social services (\$151 million), consisting primarily of child welfare (\$155 million), as well as lower higher education (\$134 million) spending, both a function of the timing of payments; and lower debt service payments attributable to FY 2014 prepayments and refundings.

Spending from Federal Operating Funds has increased by \$466 million through June 2014, reflecting the net impact of increased Medicaid costs (\$766 million) as a result of expanded Medicaid coverage under the ACA; and decreased spending for Federal disaster assistance costs associated with Superstorm Sandy and other recent storm recovery programs (\$299 million).

Capital Projects spending decreased by \$196 million mainly due to the acceleration of certain SUNY-related expenses during the close of FY 2014, resulting in a lag in current year spending.

**FINANCIAL PLAN
TABLES AND
ACCOMPANYING
NOTES**

Financial Plan Tables and Accompanying Notes

The notes to the **Financial** Plan tables herein should be read in conjunction with the tables that follow.

NOTE 1 — BASIS OF ACCOUNTING

Pursuant to law, all Financial Plan tables presented herein are prepared on the cash basis of accounting, unless otherwise noted. Under the cash basis of accounting, revenues are recognized when received, and spending is recorded when cash is disbursed.

NOTE 2 — FUND TYPES AND PERSPECTIVES

The State records its transactions in the following fund types:

Governmental Funds

General Fund - This is the major operating fund of the State. It receives all State income not earmarked for a particular program or activity and not specified by law to be deposited in another fund. State income for Financial Plan purposes consists of moneys (taxes, fees, and miscellaneous receipts including certain repayments of State advances) deposited to the credit of the General Fund or transferred from other funds during the fiscal year.

Special Revenue - These funds account for State receipts from specific revenue sources and are legally restricted to disbursement for specified purposes. This governmental fund type is divided into two classifications: (1) State Special Revenue Funds and (2) Federal Special Revenue Funds. An example of a State Special Revenue Fund is the Conservation Fund which finances a number of State environmental programs. An example of a Federal Special Revenue Fund is the Health and Human Services Fund. Although any earmarked revenue fund is treated as a Special Revenue Fund for cash-basis budgeting and reporting purposes, some are combined with the General Fund for purposes of reporting on the basis of GAAP.

Debt Service - All tax-financed State debt service on long-term debt and payments on certain lease-purchase or other contractual obligations are paid from Debt Service funds. These account for the accumulation of money for, and the payment of principal and interest on, general long-term debt. Lease-purchase payments for Health and Mental Hygiene facilities under contractual agreements with public authorities are also paid from funds classified as Debt Service funds. Debt service on highway bonds supported by dedicated highway revenues is also reflected in this fund type. Sources of revenue for this fund type include transfers from the General Fund, dedicated taxes, and other revenues.

Capital Projects - These funds finance a variety of capital construction costs including: (1) planning, land acquisition, design, construction, construction management and supervision, and equipment costs; (2) highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects, and buildings and other capital facilities required by various State departments and agencies; (3) payments to local governments to help finance their capital programs, including highway, parkway, bridge, mass transportation, aviation, economic development, port development, community college, community and State mental health, outdoor recreation, State-assisted housing, and environmental quality; and (4) advances for capital construction costs reimbursable by public authorities, instrumentalities of the State, the Federal government or local governments. Sources of revenue for this fund type include transfers from other State funds including the General Fund, dedicated taxes and other revenues, reimbursement of advances, bond proceeds, and Federal capital grants.

State Operating Funds

The State Funds operating budget comprises the General Fund and other State-supported activities financed by dedicated revenues in State Special Revenue funds, as well as Debt Service funds accounting for the payment of debt service on all tax-financed State long-term debt. All capital spending, regardless of financing source, is included in the Capital budget.

Proprietary Funds

Internal Service Funds - Account for the financing of goods or services supplied by one State agency to other State agencies or governmental units on a cost-reimbursement basis.

Enterprise Funds - Account for operations that are similar to private business enterprises.

The Internal Service funds and Enterprise funds are treated as Proprietary funds for cash-basis budgeting and reporting purposes, and are combined with the General Fund for purposes of reporting on a GAAP basis.

Fiduciary Funds

Private-Purpose Trust Funds - Account for all trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

Pension Trust Fund - Accounts for the cash-basis results of operations for the administrative portion of the State's Common Retirement Fund. It does not reflect investment activity, balances, or other assets available to this Fund. In addition, pension contributions and payments to retirees are excluded since these payments are not required to be appropriated.

Agency Funds - Account for funds held by the State in a purely custodial capacity. Cash is held temporarily until disbursements are made to individuals, private organizations, or other governments.

NOTE 3 — DISBURSEMENT DESCRIPTIONS

The State's Financial Plan and reporting includes only those payments made pursuant to an appropriation and paid from funds available in the State Treasury. All State spending is classified in one of the following categories:

Local Assistance Grants - Include payments to counties, cities, towns, villages, school districts and other local entities, as well as certain financial assistance to, or on behalf of, individuals and nonprofit organizations.

Personal Service - Includes the payment of salaries and compensation for State employees.

Non-Personal Service - Includes payments for miscellaneous contractual obligations, supplies and materials, travel, rentals and repairs, utilities, postage and shipping, printing, telephone, and other operating costs.

General State Charges - Include costs mandated by statute, collective bargaining agreements or court order. Charges in this category can be further subdivided into the following:

Fringe Benefits: Contributions to pension systems, the employer's share of Social Security contributions, employer contributions toward the cost of health insurance, workers compensation and unemployment insurance, and contributions to union employee benefit funds which provide vision care and other services.

Fixed Costs: For State payments in lieu of taxes, as well as payments for local assessments on State-owned land, judgments against the State pursuant to the Court of Claims Act, defenses by private counsel or alternatively payments on behalf of State officers and employees in civil judicial proceedings.

Debt Service - Includes payments made for tax-financed State debt service on long-term debt; contractual-obligation and lease-purchase arrangements with several public authorities and municipalities; and lease-purchase payments for Health and Mental Hygiene facilities.

Capital Projects - Include payments made for the acquisition or construction of the State's capital facilities. Included in this category are planning, land acquisition, design, construction, engineering services, and equipment costs attributable to highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects; payments to local government units and public authorities to help finance highways, parkways, bridges,

mass transportation, aviation, economic development, port development, community colleges, community and State mental hygiene buildings, outdoor recreational parks, correctional and State-assisted housing as well as environmental quality projects. Advances are made for capital construction costs reimbursable by public authorities, the Federal or local governments, or from the proceeds of State bond and note sales.

Bond Proceeds - Includes the proceeds of General Obligation Bonds and short-term notes issued in the form of commercial paper or Bond Anticipation Notes (BANs) and are stated net of notes redeemed from the proceeds of long-term bonds or reissued notes.

Operating Transfers - Constitutes legally authorized transfers from a fund receiving revenues, to a fund through which disbursements will ultimately be made.

NOTE 4 — RESERVATIONS OF GENERAL FUND BALANCE

Fund balance may be legally segregated for specific future use or set aside informally for specified purposes. The following terms are used in the reporting of reservations of balances in the General Fund:

Tax Stabilization Reserve Fund - Created pursuant to law in order to provide a reserve to finance a cash-basis operating deficit in the General Fund at the end of the fiscal year, and to make temporary loans to the General Fund during the year. Annual deposits may not exceed 0.2 percent of General Fund spending and the balance may not exceed 2.0 percent of General Fund spending. These amounts may be borrowed by the General Fund temporarily and repaid within the same fiscal year. They may also be borrowed to cover an operating deficit at year end, but these loans must be repaid within six years in no less than three annual installments.

Rainy Day Reserve Fund - Created pursuant to law, to account for funds set aside for use during economic downturns or in response to a catastrophic event, as defined in the law. The economic downturn clause is triggered after five consecutive months of decline in the State's composite index of business cycle indicators. The reserve may have a maximum balance equal to 3 percent of projected General Fund spending during the fiscal year immediately following the then-current fiscal year.

Contingency Reserve Fund - Created pursuant to law to provide a reserve to fund extraordinary needs arising from litigation against the State. These amounts may be used for payment of judgments against the State where the amount is in excess of \$25 million and such payments are not previously appropriated, or emergency payments relating to natural or physical disasters, or to make payments for the enhancement of the State's economy.

Community Projects Fund - Created pursuant to law to finance discretionary, usually local, projects ("member items") sponsored by individual legislators and the Governor. The Enacted State Budget has typically included lump sum appropriations for the Governor, Senate and the Assembly, to be designated for various grants, awards and contracts with local governments, not-for-profit organizations and community groups. The FY 2015 Enacted Budget includes no new appropriations and only the spend-down of prior appropriations is included.

Debt Reduction Reserve Fund (DRRF) - Created pursuant to law to reduce the State's debt burden. DRRF receives moneys credited or transferred to it from the General Fund or any other designated sources. Subject to appropriation, DRRF's authorized purposes include i) the payment of principal, interest, or related expenses, ii) retiring or defeasing existing State-supported debt obligations, including accrued interest, and iii) the funding of capital projects, equipment, or similar expenses that would otherwise be financed with debt.

Undesignated Fund Balance - From time to time, DOB will informally designate unrestricted balances in the General Fund for specific policy goals. These amounts are typically identified with the phrase "reserved for."

Prior-Year Labor Agreements - Due to the nature of the timing of labor agreements, DOB will informally reserve balances for possible prior year costs for unions without current contracts.

NOTE 5 — SPENDING ADJUSTMENTS

Certain Special Revenue accounts formerly reported in the Financial Plan as Federal Operating Funds have been reclassified to State Operating Funds. The State changed this reporting with the FY 2012 Executive Budget. This change has the effect of increasing the reported disbursements from State Operating Funds, and reducing reported disbursements from Federal Operating Funds by an equal amount. Accordingly, there is no impact on the State's reported All Governmental Funds spending totals.

NOTE 6 — ITEMS AFFECTING ANNUAL COMPARABILITY

American Recovery and Reinvestment Act of 2009 (ARRA) - On February 17, 2009, President Obama signed into law the ARRA of 2009. This Act contains provisions for direct Federal aid for fiscal relief, consisting of increases in the Federal matching rate for eligible State Medicaid expenditures, and funds provided through the State Fiscal Stabilization Fund to restore proposed reductions in education, higher education, and to maintain essential government services. Primary ARRA-related support ended in FY 2012.

Superstorm Sandy - In October 2012, Superstorm Sandy caused widespread flooding, power failures, and wind damage to public and private property in New York City, Long Island, and other downstate areas. Public infrastructure, including mass transit systems, public schools, and municipal buildings, sustained serious damage. The FY 2015 Enacted Budget reflected Federal aid which will flow to local governments, public authorities, and not-for-profits over the next three years to continue the State's recovery from Superstorm Sandy.

Affordable Care Act - The Affordable Care Act (ACA), which became effective January 1, 2014, is intended to provide access to health insurance coverage, ensure appropriate access to care, and to contain escalating health care costs. The FY 2015 Enacted Budget Financial Plan reflected the impact of the ACA in a number of ways, including, but not limited to, the benefit of lower costs associated with the State share of Medicaid as a result of enhanced Federal funding provided for Medicaid costs and program expansion. In addition, beginning in FY 2015, the Department of Health will assume new costs during the Financial Plan period associated with operating the New York State of Health insurance benefit exchange, which is the State's single point of access insurance marketplace as mandated by the ACA, as well as to implement new information systems designed to improve health insurance claiming.

Mergers - State agency mergers in recent years impacting the Financial Plan tables include the following:

- New York State Gaming Commission was created and made effective on February 1, 2013. The Commission merged the functions and responsibilities of the former Division of the Lottery and the former Racing and Wagering Board. As such, spending for FY 2013 has been reflected in the former agencies, while projections for FY 2014 and forward reflect the impact of the agency merger.
- The activities of the Commission on Quality of Care and Advocacy for Persons with Disabilities (CQCAPD) were subsumed by the New York State Justice Center for the Protection of People with Special Needs when it became operational on June 30, 2013.
- Division of Parole merged with the Department of Correctional Services to become the new Department of Corrections and Community Supervision.

- Consumer Protection Board merged into Department of State.
- Foundation for Science, Technology, and Innovation merged into the Department of Economic Development.
- Banking and Insurance Departments merged into a new agency known as the Department of Financial Services (DFS).

NOTE 7 — STATE FUNDING OF SUNY OPERATING SUPPORT

As part of the FY 2013 Budget, the State changed the process through which SUNY receives the State share of its operating support, from direct General Fund spending to General Fund transfers. SUNY's special revenue tuition offset account, which was traditionally used to offset the State's direct General Fund spending for SUNY operations, now reflects all spending for the university operations, effective with the academic year that began in July 2012. All General Fund support for SUNY operations is now transferred by the General Fund to this special revenue account, supplementing tuition revenue also being received by this account, and from which all university operations are funded.

NOTE 8 — OFF-BUDGET TRANSACTIONS

Represent certain capital spending that is not reported in cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities, rather than from a loan from STIP or the General Fund.

NOTE 9 — GENERAL FUND/HCRA COMBINED GAP

The FY 2015 Budget extends the HCRA authorization through March 31, 2017. HCRA is projected to remain balanced through FY 2018. However, any unaddressed shortfall would need to be financed by the General Fund or reduction in HCRA programs.

NOTE 10 — MTA FINANCIAL ASSISTANCE FUND

The Metropolitan Commuter Transportation Mobility Tax (Mobility Tax) is imposed on certain employers and self-employed individuals engaging in business within the MCTD. This revenue source is collected by the State on behalf of, and disbursed in its entirety to, the MTA. Due to requirements of the enabling legislation, the tax is reflected in the State's Special Revenue Funds, increasing estimated receipts and disbursements.

Additional funding to support the total aid provided to the MTA is provided through a transfer from the General Fund, pursuant to December 2011 tax reform legislation which exempts

school districts and small businesses operating within the MCTD from the provisions of the Mobility Tax.

NOTE 11 — CHANGES TO THE MEDICAID PROGRAM

Since January 2006, the State has paid the entire non-Federal share of the FHP program and any annual Medicaid increases above a fixed level that would have otherwise been paid for by Local Social Services Districts. These statutory indexing provisions were amended through legislation included in the FY 2013 Enacted Budget to implement a three-year phased-takeover of the Local Social Services Districts' share of all growth above the previous year's enacted levels beginning on April 1, 2013 for County Year 2013, with the State assuming all growth in County Year 2015.

NOTE 12 — STATEWIDE CASH FLOW ADMINISTRATION

OSC invests General Fund moneys, bond proceeds, and other funds not immediately required to make payments through STIP, which is comprised of joint custody funds (Governmental Funds, Internal Service Funds, Enterprise Funds and Private Purpose Trust Funds), as well as several sole custody funds including the Tobacco Settlement Fund.

OSC is authorized to make short-term loans from STIP to cover temporary cash shortfalls in certain funds and accounts, including the General Fund, resulting from the timing of receipts and disbursements. The Legislature authorizes the funds and accounts that may receive loans each year, based on legislation submitted annually. Loans may be granted only for amounts that the Director of the Budget certifies are "receivable on account" or can be repaid from the current operating receipts of the fund (i.e., loans cannot be granted in expectation of future revenue enhancements).

NOTE 13 — TRANSFER ELIMINATIONS

The Special Revenue Funds and Capital Projects Funds include transfers of resources between Federal and State accounts within each fund. In some instances, Federal aid that is initially deposited into a Federal account is transferred to State accounts where the aid is used to support the programs for which it is intended to fund. To avoid recording spending twice, initially as the transfer of resources to another account and subsequently when payments are made, these transfers are eliminated in these funds. The transfer eliminations are consistent with the State Comptroller's accounting practices shown in Exhibit A of the Comptroller's Annual Report to the Legislature.

NOTE 14 — OUTSTANDING TEMPORARY LOANS SUMMARY

The total outstanding loan balance as of March 31, 2014 was \$2.2 billion, comprised of advances for bond-reimbursable capital spending pending the receipt of bond proceeds (\$1,035 million), activities that are financed initially by the State pending Federal receipt (\$643 million), State Special Revenue Funds (\$443 million), and Proprietary Funds (\$123 million).

The total loan balance typically increases throughout the State fiscal year, reaching its peak between the second and third quarters. The spike mainly reflects the payment of lottery aid for education, which is financed in large part by a loan that is repaid over the course of the year as lottery revenues are received.

Note 15 — Pension Amortization

The Financial Plan projections assume that the State and OCA will amortize pension costs above a certain percentage of payroll, as authorized by legislation enacted in FY 2011. Amortization (deferment of payment) temporarily reduces the pension costs that must be paid by the State in a given fiscal year, but results in higher costs overall when repaid with interest. Consistent with the authorizing legislation, the interest cost is calculated by OSC. In FY 2014, the interest rate charged on the deferred amounts will be 3.67 percent. Outyear repayments of amortizations in the following table assume that 3.67 percent interest will continue to be charged. The FY 2016 amortization threshold (the “graded rate”) is projected to equal the normal rate. Therefore, no amortizations are projected in FY 2016. In FY 2017 and FY 2018 the graded rate will exceed the normal rate. This will result in additional contributions that will be used to pre-pay outstanding amortizations.

Note 16 —2 Percent Spending Benchmark

The line on the Financial Plan tables labeled “Adherence to 2 percent State Operating Funds (SOF) Spending Benchmark” is the estimated savings that would be realized by limiting annual spending growth in future years to 2 percent. The Governor is expected to propose, and negotiate with the Legislature to enact, budgets that hold State Operating Funds spending growth to 2 percent. The General Fund operating projections assume that all savings from adhering to 2 percent spending growth are made available to the General Fund.

Note 17 —Reclassification of SUNY Dormitory Income Fund

Legislation included with the FY 2014 Enacted Budget created a new bonding program for SUNY Dormitory Facilities. The new bonding program is supported solely by third party revenues generated by student rents. All rental revenues initially flow to DASNY for the payment of debt service on SUNY Dormitory Facilities, after which the balance of rental revenues are credited to the State's SUNY Dormitory Income fund to support other costs associated with SUNY Dormitory Facilities. There will be no prospective debt service spending from the SUNY Dormitory Income fund, and therefore this fund has been reclassified from a Debt Service Fund to a Special Revenue Fund of the State, effective in FY 2015.

Reflects certain capital spending that is not reported in actual cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities rather than from a short-term loan from the Short-Term Investment Pool or cash from the General Fund.
