# Introduction

## Introduction

This is the First Quarterly Update to the Enacted Budget Financial Plan (“Updated Financial Plan” or “First Quarterly Update”) for Fiscal Year (FY) 2016. Except for the specific revisions described herein, the projections in the Updated Financial Plan (and the assumptions upon which they are based) are consistent with the projections set forth in the Enacted Budget Financial Plan. The State’s FY 2016 began on April 1, 2015 and ends on March 31, 2016. The Division of the Budget (DOB) expects to next update the Financial Plan projections in October 2015.

## The State Budget Process

The requirements of the State budget process are set forth in Article VII of the State Constitution, the State Finance Law, and the Legislative Law. The annual budget process begins with the Governor’s submission of the Executive Budget to the Legislature each January in preparation for the start of the fiscal year on April 1 (the submission date is February 1 in years following a gubernatorial election). The DOB prepares a multi-year Financial Plan (“State Financial Plan”) as part of the Executive Budget. The State Financial Plan sets forth projected receipts and disbursements for the current fiscal year, the “budget” year (i.e., upcoming fiscal year), and the three subsequent years (“outyears”). It must be accompanied by bills that: (a) set forth all proposed appropriations and reappropriations, (b) provide for any new or modified revenue measures, and (c) make any other changes to existing law necessary to implement the budget recommended by the Governor. The General Fund must be balanced on a cash basis, as described below. In acting on the bills submitted by the Governor, the Legislature has certain powers to alter the recommended appropriations and proposed changes to existing law. The Legislature may strike or reduce an item of appropriation submitted by the Governor. The Legislature may add distinct new items of appropriation, provided such additions are stated separately. These additional items are then subject to line-item veto by the Governor. If the Governor vetoes an appropriation separately added by the Legislature or a bill (or a portion thereof) related to the budget, these separately added items of appropriation or such bill can be reconsidered in accordance with the rules of each house of the Legislature. If, upon reconsideration, the items are approved by two-thirds of the members of each house, such items will become law notwithstanding the Governor’s veto.

Once the appropriation bills and other budget bills become law, DOB revises the State Financial Plan to reflect the Legislature’s actions, and begins the process of implementing the Enacted Budget. Throughout the fiscal year, DOB monitors actual receipts and disbursements, and may adjust the estimates and projections in the State Financial Plan. Adjustments may also be made to the State Financial Plan to reflect changes in the economic outlook, updated data on program activities, new actions taken by the Governor or the Legislature, and other factors. As required by the State Finance Law, DOB updates the State Financial Plan, generally issuing reports by July 30, October 30, and as part of the Executive Budget in January or February of each year.

Once the budget is adopted for the fiscal year, the Legislature may enact one multi-purpose appropriation bill and additional single-purpose appropriation bills or revenue measures (including tax law changes) during any regular session or, if called into session for that purpose, any special session. In the event additional appropriation bills or revenue measures are disapproved by the Governor, the Legislature may override the Governor's veto upon the vote of two-thirds of the members of each house of the Legislature. The Governor may present deficiency appropriations to the Legislature in any fiscal year to supplement existing appropriations or provide new appropriations for purposes not considered by the regular and supplemental appropriations.

## **Budget Projections**

The Financial Plan projections for future years may show budget gaps or budget surpluses in the General Fund. Budget gaps represent the difference between: (a) the projected General Fund disbursements, including transfers to other funds, needed to maintain current services levels and specific commitments, and (b) the expected level of resources to pay for them. The General Fund projections are based on a number of assumptions and are developed by the DOB in conjunction with other State agencies. Some projections are based on specific, known information (e.g., a statutory requirement to increase payments to a prescribed level), while others are based on more uncertain or speculative information (e.g., the pace at which a new program will enroll recipients). In addition, the Financial Plan assumes that money appropriated in one fiscal year will continue to be appropriated in future years, even for programs that were not created in permanent law and that the State has no obligation to fund. Funding levels for nearly all State programs are made (or, in the case of two-year appropriations, reviewed) annually, taking into account the current and projected fiscal position of the State. The Financial Plan projections for FY 2017 and thereafter, set forth in this Updated Financial Plan, reflect the savings that DOB estimates would occur if the Governor continues to propose, and the Legislature continues to enact, balanced budgets that limit annual growth in State Operating Funds spending to no greater than 2 percent. The estimated savings are labeled in the Financial Plan tables as "Adherence to 2 Percent Spending Benchmark." Total disbursements in Financial Plan tables and discussion do not assume these savings. If the 2 percent State Operating Funds spending benchmark is not adhered to, budget gaps may result.

## Significant Budgetary/Accounting Practices

The State's **General Fund** receives the majority of State taxes and all income not earmarked for a particular program or activity. State law requires the Governor to submit, and the Legislature to enact, a General Fund budget that is balanced on a cash basis of accounting. The State Constitution and State Finance Law do not provide a precise definition of budget balance. In practice, the General Fund is considered balanced if sufficient resources are, or are expected to be, available during the fiscal year for the State to: (a) make all planned payments, including Personal Income Tax (PIT) refunds, without the issuance of deficit notes or bonds or extraordinary cash management actions, (b) restore the balances in the Tax Stabilization Reserve and Rainy Day Reserve to levels at or above the levels on deposit when the fiscal year began, and (c) maintain other reserves, as required by law. For purposes of calculating budget balance, the General Fund includes transfers to and from other funds.

The General Fund is the sole financing source for the School Tax Relief (STAR) fund, and is typically the financing source of last resort for the State's other major funds, which include the Health Care Reform Act (HCRA) funds, the Dedicated Highway and Bridge Trust Fund (DHBTF), and the Lottery Fund. Therefore, the General Fund projections account for any estimated funding shortfalls in these funds. Since the General Fund is the fund that is required to be balanced, the focus of the State's budgetary and gap-closing discussion is generally weighted toward the General Fund.

From time to time, DOB will informally designate unrestricted balances in the General Fund for specific policy goals (e.g., the payment of costs related to potential labor contracts covering prior contract periods). These amounts are typically identified with the phrase "reserved for," and are not held in distinct accounts within the General Fund and may be used for other purposes.

**State Operating Funds** is a broader measure of spending for operations (as distinct from capital purposes) that is funded with State resources. It includes financial activity not only in the General Fund, but also State-funded Special Revenue Funds and Debt Service Funds (spending from Capital Projects Funds and Federal funds are excluded). As more financial activity occurred in funds outside of the General Fund, State Operating Funds became, in DOB's view, a more comprehensive measure of State-funded activities for operating purposes that are funded with State resources (e.g., taxes, assessments, fees, tuition). The State Operating Funds perspective has the advantage of eliminating certain distortions in operating activities that may be caused by, among other things, the State's complex fund structure, the transfer of money among funds, and the accounting of disbursements against appropriations in different funds. For example, the State funds its share of the Medicaid program from both the General Fund and HCRA funds, the latter being State Special Revenue Funds. The State Operating Funds perspective captures Medicaid disbursements from both of these fund types, giving a more complete accounting of State-funded Medicaid disbursements. For such reasons, the discussion of disbursements projections often emphasizes the State Operating Funds perspective.

The State also reports disbursements and receipts activity for **All Governmental Funds** ("All Funds"), which includes spending from Capital Projects Funds and State and Federal operating funds, providing the most comprehensive view of the cash-basis financial operations of the State. The State accounts for receipts and disbursements by the fund in which the activity takes place

(such as the General Fund), and the broad category or purpose of that activity (such as State Operations). The Financial Plan tables sort State projections and results by fund and category.

Fund types of the State include: the General Fund; State Special Revenue Funds, which receive certain dedicated taxes, fees and other revenues that are used for a specified purpose; Federal Special Revenue Funds, which receive certain Federal grants; State and Federal Capital Projects Funds, which account for costs incurred in the construction, maintenance and rehabilitation of roads, bridges, prisons, university facilities, and other infrastructure projects; and Debt Service Funds, which account for the payment of principal, interest and related expenses for debt issued by the State and on the State's behalf by its public authorities.

State Finance Law also requires DOB to prepare a pro forma financial plan using, to the extent practicable, Generally Accepted Accounting Principles (GAAP), although this requirement is for informational purposes. The GAAP-basis Financial Plan is not used by DOB as a benchmark for managing State finances during the fiscal year and is not updated on a quarterly basis. The GAAP-basis Financial Plan follows, to the extent practicable, the accrual methodologies and fund accounting rules applied by the Office of the State Comptroller (OSC) in preparation of the audited Basic Financial Statements. However, GAAP is a financial reporting regime, not a budgeting system.

## **Risks and Uncertainties**

The factors affecting the State's financial condition are complex. The Updated Financial Plan contains forecasts, projections, and estimates that are based on expectations and assumptions which existed at the time such forecasts were prepared, and contains statements relating to future results and economic performance that are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. Since many factors may materially affect fiscal and economic conditions in the State, the inclusion in this Updated Financial Plan of forecasts, projections, and estimates should not be regarded as a representation that such forecasts, projections, and estimates will occur. The forward-looking statements contained herein are based on the State's expectations and are necessarily dependent upon assumptions, estimates, and data that the State believes are reasonable as of the date which the expectations are made but that may be incorrect, incomplete or imprecise, or not reflective of actual results. Forecasts, projections, and estimates are not intended as representations of fact or guarantees of results. The words "expects," "forecasts," "projects," "intends," "anticipates," "estimates," and analogous expressions are intended to identify forward-looking statements in the Financial Plan. Any such statements inherently are subject to a variety of risks and uncertainties that could cause actual results to differ materially and adversely from those projected. Such risks and uncertainties include, among others, general economic and business conditions; changes in political, social, economic, and environmental conditions, including climate change and extreme weather events; impediments to the implementation of gap-closing actions; regulatory initiatives and compliance with governmental regulations; litigation; actions by the Federal government to reduce or disallow expected aid including Federal aid authorized or appropriated by Congress, but subject to sequestration, administrative actions, or other actions that would reduce aid to the State; and various other events, conditions and circumstances, many of which are beyond the control of the State. These forward-looking statements speak only as of the date of the Updated Financial Plan.

<sup>2</sup> Change in reserves in FY 2016 reflects the one-time extraordinary transfers described in the prior note.

\* All Funds, Federal Operating Funds and Capital Projects Funds receipts and disbursements **exclude** (a) Federal disaster aid for Superstorm Sandy, (b) additional Federal aid associated with Federal health care reform, and (c) capital spending from the windfall from monetary settlements with financial institutions. Including disbursements for these purposes, All Funds disbursements are expected to total \$153.0 billion in FY 2016, an increase of 6.3 percent.

## Summary

### Financial Plan Update

- DOB reports that the Financial Plan for FY 2016 remains in balance on a cash basis in the General Fund, as required by law. State Operating Funds spending is estimated at \$94.2 billion in FY 2016, virtually unchanged from the Enacted Budget estimate. Growth in State Operating Funds is estimated at 2 percent, consistent with the State's spending benchmark. The spending benchmark is calculated using the cash basis of accounting, as described elsewhere in this Financial Plan. Reserves are expected to remain at the levels estimated in the Enacted Budget Financial Plan. DOB's economic forecast is largely unchanged from the Enacted Budget.
- In the regular legislative session that ended in June 2015, the Governor and Legislature approved several measures that increase State spending, the most significant of which provided for an increase in aid for non-public schools (\$125 million annually in both FY 2016 and FY 2017, and anticipates \$20 million annually thereafter). Additional funding was also approved for campus sexual assault prevention; to support increased disclosure of State exam questions and answers by the State Education Department; and funds for the City of Rochester which may include support for the Rochester anti-poverty initiative. In the current year, DOB expects these new costs will be offset fully by lower spending across a range of programs, based on its review of operating results to date, prior-year results, and updated program information.
- The Governor and Legislature also approved a new property tax relief credit during the legislative session. The new credit, which provides a tax benefit for homeowners with incomes of \$275,000 or below, is expected to reduce General Fund receipts by \$414 million in FY 2017, \$453 million in FY 2018, \$957 million in FY 2019, and \$1.3 billion in FY 2020. The tax credit expires at the end of FY 2020. In addition, legislation was approved to extend, for four years, a New York City tax relief program for homeowners and renters with incomes of \$200,000 or less.
- Aside from the session changes, the Financial Plan has been updated for other developments. In May, Barclays Bank PLC and Barclays Bank PLC, New York Branch (collectively "Barclays") paid a \$485 million civil monetary penalty in accordance with a May 2015 consent order between Barclays and the New York State Department of Financial Services (DFS) for violations of New York State Banking Law and regulations in connection with attempts to manipulate benchmark foreign exchange rates and other manipulative conduct. In June, the State reached agreement on a seven-year labor contract, covering FY 2012 through 2018, with the Police Benevolent Association of the New York State Troopers, Inc. (NYSPBA), Commissioned and Non-Commissioned Officers (CO/NCO) Bargaining Unit and Troopers Bargaining Unit. A portion of the costs from the new contract will be covered by amounts set aside in the General Fund for labor agreements.

- The Financial Plan projections for FY 2017 and thereafter have been revised since the Enacted Budget and are based on an assumption that the Governor will continue to propose, and the Legislature will continue to enact, balanced budgets in future years that limit annual growth in State Operating Funds to no greater than 2 percent. Specifically, the General Fund surpluses identified in FY 2017, FY 2018, and FY 2019 are calculated based on this assumption. DOB expects that specific proposals to limit spending growth to 2 percent will be included in the Governor's annual Executive Budgets. Many proposals are expected to require the approval of the Legislature.
- DOB has increased its estimate for All Funds spending in FY 2016 by approximately \$800 million. The change is based on reestimates to Federal spending for Medicaid (\$700 million) and capital costs for transportation programs (\$100 million).

## First Quarter Operating Results

First quarter operating results were favorable relative to estimates in the Enacted Budget.

The June 2015 month-end General Fund cash balance was \$11.1 billion, \$1.9 billion above the estimate in the Enacted Budget. General Fund receipts, including transfers from other funds, totaled \$21.7 billion through June 2015, \$1.2 billion above initial estimates. The higher receipts include earlier than anticipated tax receipts (\$741 million) and an unanticipated monetary settlement from Barclays (\$485 million). General Fund disbursements, including transfers to other funds, totaled \$17.9 billion through June 2015, \$656 million lower than initial projections due to lower spending in local assistance (\$316 million), agency operations (\$146 million), and transfers to other funds (\$194 million).

Actual tax receipts exceeded estimates in all major tax categories, including stronger than anticipated PIT estimated payments and lower than expected refunds (\$529 million); an increase in taxable purchases generating higher sales tax receipts (\$31 million); higher corporate franchise tax collections (\$75 million); and earlier than expected estate and real estate transfer tax payments (\$106 million).

Lower local assistance spending is primarily attributable to the timing of payments for child welfare (\$224 million) and the Tuition Assistance Program (TAP) (\$153 million), both of which are expected to occur within the second quarter of the fiscal year. Spending for agency operations was lower than expected for non-personal service expenses (\$60 million) and General State Charges (GSCs) (\$80 million). In addition, transfers for State-share Medicaid to mental hygiene facilities and the State University of New York (SUNY) are expected to occur later than originally expected.

## Multi-Year Financial Plan Revisions

The following table summarizes the revisions to the FY 2016 Enacted Budget Financial Plan. Overall, the revisions do not materially change the FY 2016 General Fund operating estimates or the 2 percent spending forecast for State Operating Funds compared to the Enacted Budget Financial Plan. Descriptions of the changes follow the table below.

<sup>1</sup> Savings estimated from limiting annual spending growth in future years to 2 percent. Calculation based on current FY 2016 estimate. The Governor is expected to propose, and negotiate with the Legislature to enact, budgets in each fiscal year that hold State Operating Funds spending growth to 2 percent. Assumes all savings from holding spending growth to 2 percent are made available to the General Fund.

## Receipts Revisions

### Session Changes:

- **Property Tax Relief Credit:** The new property tax relief credit provides a tax benefit for homeowners with incomes of \$275,000 or below. It is expected to reduce General Fund receipts by \$414 million in FY 2017, \$453 million in FY 2018, \$957 million in FY 2019, and \$1.3 billion in FY 2020. The tax credit expires at the end of this period.
- **NYC Circuit Breaker Extension:** The existing property tax relief program (“circuit breaker”) for New York City residents is extended for an additional four years. Qualifying homeowners and renters with incomes below \$200,000 are eligible to receive a refundable tax credit against the PIT when their property taxes or rent exceeds a certain percentage of their income.
- **New York Power Authority (NYPA) Resources:** The State will receive \$6 million in additional payments from NYPA during FY 2016, as authorized in the recently concluded legislative session.

### Other Receipts Changes:

- **Barclay's Monetary Settlement:** In May, Barclays paid a \$485 million civil monetary penalty in accordance with a May 2015 consent order between Barclays and the New York State DFS for violations of New York State Banking Law and regulations in connection with attempts to manipulate benchmark foreign exchange rates and other manipulative conduct.
- **Miscellaneous Receipts/Transfers:** Certain reimbursements and transfers from other State funds are now expected to be received in FY 2017.

## Spending Revisions

### Session Changes:

- **Non-Public School Aid:** Funding is provided to reimburse non-public schools for the costs of performing State-mandated services (\$125 million annually in both FY 2016 and FY 2017, and \$20 million annually thereafter).
- **Campus Sexual Assault Prevention:** Funding of \$10 million has been added on a recurring basis to prevent sexual assaults on college campuses, and to investigate assaults when they do happen. Approximately \$4.5 million will be committed to fund assault investigators, an additional \$4.5 million will be committed for services for sexual assault victims, and \$1 million will be provided to campuses for education and prevention purposes.

- **State Education Department Testing Disclosure:** Funding has been added to support increased disclosure of State exam questions and answers by the State Education Department.
- **City of Rochester:** \$6 million in funding is provided to the City of Rochester which may include support for the Rochester anti-poverty initiative.

## Other Spending Changes:

- The Updated Financial Plan reflects spending revisions across a number of agencies based on actual results in the first three months of FY 2016, updated program information and revised spending analysis. The largest downward revisions include lower expected spending for debt service; reimbursement to school districts for school property tax exemptions to homeowners; fringe benefit costs; juvenile justice; and various other program costs in the areas of mental hygiene, health, education, and environment. In addition, spending related to public campaign financing has been eliminated pending legislation.
- Another significant spending change since the Enacted Budget is the labor agreement between NYSPBA and the State. NYSPBA has two bargaining units - the State Police Troopers and Investigators (Troopers) and State Police CO/NCO. Both units and the State have agreed to a seven-year contract that covers FYs 2012 to 2018. There is no general salary increase for FYs 2012 to 2014, followed by general salary increases of 2 percent in FYs 2015 and 2016, and 1.5 percent in FYs 2017 and 2018, respectively. The estimated costs for these raises are \$46 million in FY 2016, \$33 million in FY 2017 and \$39 million annually beginning in FY 2018.

## Change in Reserves

- Deposit to Undesignated Reserves:** The \$485 million received from Barclays is set aside in undesignated reserves. The undesignated reserve now totals approximately \$1.5 billion.
- Use of Collective Bargaining Reserve:** The State has settled nearly all outstanding labor contracts and as such, the Updated Financial Plan reflects the use of \$110 million through FY 2019 from the collective bargaining reserve to cover the additional costs associated with the settlement of the NYSPBA contract agreement covering FYs 2012 through 2018. Resources were previously set aside to cover collective bargaining expenses for prior year agreements over the multi-year Financial Plan period. A total of \$50 million in collective bargaining resources was carried over from FY 2015, and use of an additional \$60 million in collective bargaining reserves is planned for FY 2016 through FY 2019 to cover the additional costs.

## Annual Spending Growth

DOB estimates that spending in State Operating Funds will grow at 2.0 percent in FY 2016, consistent with the 2 percent spending benchmark adopted by the current Administration in FY 2012. All Funds spending, which includes spending from capital funds and Federal funds, is expected to increase by 3.6 percent from FY 2015, excluding extraordinary Federal aid related to disaster-related costs, Federal health care transformation, and spending for infrastructure needs from monetary settlement funds.

<sup>4</sup> Capital Projects, Federal Operating Funds, and All Funds disbursements exclude extraordinary aid for Federal health care reform and Superstorm Sandy, and capital spending from the monetary settlements. Including disbursements for these purposes, All Funds disbursements are expected to total \$153.0 billion in FY 2016, an increase of 6.3 percent.

# General Fund Financial Plan

## FY 2016 Financial Plan

DOB estimates that the Updated Financial Plan provides for balanced operations in the General Fund, as required by law. The following table summarizes the projected annual changes from FY 2015 to FY 2016 in General Fund receipts, disbursements, and fund balances.

<sup>1</sup> Includes one-time extraordinary transfers during FY 2016 of \$4.55 billion in monetary settlements from the General Fund to the proposed Dedicated Infrastructure Investment Fund, and the transfer of \$850 million to fund the initial payment of a multi-year repayment agreement for prior-year OPWDD-related Federal Medicaid disallowances.

## Receipts

General Fund receipts, including transfers from other funds, are expected to total \$68.8 billion in FY 2016, an annual increase of \$835 million (1.2 percent). Tax collections, including transfers of tax receipts to the General Fund after payment of debt service, are expected to total \$62.7 billion in FY 2016, an increase of \$4 billion (6.9 percent).

General Fund PIT receipts, including transfers after payment of debt service on State PIT Revenue Bonds, are expected to increase by \$4 billion from FY 2015. This primarily reflects increases in withholding payments attributable to the 2015 tax year and extension payments attributable to the 2014 tax year.

General Fund user tax receipts, including transfers after payment of debt service on Local Government Assistance Corporation (LGAC) and Sales Tax Revenue Bonds, are estimated to total \$12.6 billion in FY 2016, an increase of \$360 million (2.9 percent) from FY 2015, reflecting projected consumer spending increases across a broad range of consumption categories, offset by declines in cigarette consumption.

General Fund business tax receipts are estimated at \$5.9 billion in FY 2016, a decrease of \$368 million (-5.9 percent) from FY 2015 results. The estimate reflects a decline in corporate franchise tax receipts resulting from the first year of corporate tax reform, partly offset by growth in the corporation and utilities, and insurance taxes.

Other tax receipts in the General Fund are expected to total nearly \$2 billion in FY 2016, a decrease of \$9 million (-0.5 percent) from FY 2015. The estimate reflects a decline in expected estate tax receipts, the result of 2014 legislation that increased the estate tax filing threshold, partially offset by an increase in real estate transfer tax receipts.

General Fund miscellaneous receipts are estimated at \$4.8 billion in FY 2016, a decrease of \$3.6 billion from FY 2015. The decrease largely reflects the large amount of monetary settlements received in FY 2015, and the multi-year release of State Insurance Fund (SIF) reserves as a result of Workers' Compensation law changes. The amount of SIF reserves released is expected to decline from \$1 billion in FY 2015 to \$250 million in FY 2016, consistent with the terms of the enacted legislation.

Non-tax transfers to the General Fund are expected to total \$1.3 billion, an increase of \$398 million. As with miscellaneous receipts, the annual change in non-tax transfers is affected, in part, by the monetary settlements. Under State forfeiture laws, approximately \$298 million of the BNP Paribas monetary settlement was deposited temporarily in a State Special Revenue Fund in the first quarter of FY 2016. Approximately \$293 million of these funds were transferred to the General Fund, leaving \$5 million to expand services delivered by the Office of Alcoholism and Substance Abuse Services (OASAS).

General Fund receipts are affected by the deposit of dedicated taxes in other funds for debt service and other purposes, the transfer of balances between funds of the State, and other factors. For a more comprehensive discussion of the State's projections for tax receipts, miscellaneous receipts, and transfers, presented on a State Funds and All Funds basis, see "State Financial Plan Projections Fiscal Years 2016 Through 2019" herein.

## Disbursements

General Fund disbursements, including transfers to other funds, are expected to total \$72.1 billion in FY 2016, an increase of \$9.3 billion (14.7 percent) from FY 2015 spending levels. The increase includes one-time extraordinary transfers of \$4.55 billion in monetary settlement receipts from the General Fund to the Dedicated Infrastructure Investment Fund (DIIF), and \$850 million to finance the FY 2016 cost of a multi-year settlement agreement for the resolution of the Federal Office for People with Developmental Disabilities (OPWDD) Disallowance.

Local assistance grants are expected to total \$44.4 billion, an annual increase of \$2.8 billion (6.8 percent), including \$1.7 billion for School Aid and roughly \$550 million for Medicaid. Other local assistance increases include, among other things, payments for a range of social services, public health, and general purpose aid programs, as well as accounting reclassifications that have the effect of moving spending between financial plan categories, mainly for Medicaid payments to State-operated facilities.

State operations disbursements in the General Fund are expected to total \$8.3 billion in FY 2016, an annual increase of \$662 million (8.6 percent). An additional (27<sup>th</sup>) payroll by agencies that provide institutional services that occurs in FY 2016 adds \$167 million in one-time costs. Other spending increases include \$145 million for the Department of Health (DOH) to operate the New York State of Health (NYSOH) Exchange, continue the transition of administrative functions from local service districts to the State, and operate the new Basic Health Plan (BHP, or The Essential Plan); and \$45 million for the operations of the Judiciary. In addition, Information Technology (IT) services that have been consolidated in the General Fund from other agencies results in increased General Fund spending (\$86 million).

GSCs are expected to total \$5.2 billion in FY 2016, an annual increase of \$157 million (3.1 percent) from FY 2015. Health insurance costs are projected to increase \$132 million or 4 percent. The State's annual pension payment is expected to increase by \$102 million, mainly due to a 1 percent increase in the graded rate contribution. The State expects to continue to amortize pension costs in excess of the amortization thresholds established in law. In FY 2016, costs in excess of 14.5 percent of payroll for the Employees' Retirement System (ERS) and 22.5 percent for the Police and Fire Retirement System (PFRS) are expected to be amortized.

General Fund transfers to other funds are expected to total \$14.2 billion in FY 2016, an increase of \$5.6 billion from FY 2015. The increase from FY 2015 to FY 2016 is mainly attributable to the Capital Projects transfer in support of the DIIF (\$4.6 billion). In addition, \$850 million from monetary settlements will be used to pay the FY 2016 cost for resolution of the Federal OPWDD Disallowance. These increases are partly offset by the substantial prepayment in FY 2015 of debt service due in FY 2016.

General Fund disbursements are affected by the level of financing sources available in other funds, transfers of balances between funds of the State, and other factors that may change from year to year. For a more comprehensive discussion of the State's disbursements projections by major activity, presented on a State Operating Funds basis, see "State Financial Plan Projections Fiscal Years 2016 through 2019" herein.

## Closing Balance for FY 2016

DOB projects that the State will end FY 2016 with a General Fund cash balance of \$3.9 billion, a decrease of \$3.4 billion from the FY 2015 closing balance. The decline mainly reflects the planned transfers of monetary settlement funds to the DIIF (\$4.6 billion) and the funding of the OPWDD Federal disallowance (\$850 million), partly offset by unbudgeted monetary settlements. In addition, the reduction in balance includes the use of resources from FY 2015 (\$190 million) and the use of the collective bargaining reserve to fund the recently ratified labor agreement with the NYSPBA, CO/NCO Bargaining Unit and Troopers Bargaining Unit covering FY 2012 through 2018 (\$35 million).

Balances in the State's principal "rainy day" reserves, the Tax Stabilization Reserve Fund and the Rainy Day Reserve Fund, are expected to remain unchanged in FY 2016.

The Updated Financial Plan maintains a reserve of \$500 million for debt management purposes in FY 2016, unchanged from the level held at the end of FY 2015. DOB will make a decision on the use of these funds based on market conditions, Financial Plan needs, and other factors.

## Cash Flow

DOB expects that the State will have sufficient liquidity to make all planned payments as they become due through FY 2016, as reflected in the following table that includes month-end cash balance projections. The State continues to reserve money on a quarterly basis for debt service payments that are financed with General Fund resources. Money to pay debt service on bonds secured by dedicated receipts, including PIT bonds and Sales Tax bonds, continues to be set aside as required by law and bond covenants.

## Monetary Settlements

The DFS, Department of Law, and the Manhattan District Attorney’s Office have reached financial settlements with a number of banks and other associated entities for violations of New York banking laws, and with a number of insurance companies and other associated entities for violations of New York insurance laws. The State has received a total of \$7.5 billion from monetary settlements in FY 2015 and FY 2016 including \$485 million received by the state in May 2015 pursuant to a consent order between DFS and Barclays. The State Budget earmarks \$5.4 billion for one-time purposes, including \$4.6 billion for capital projects to support economic development and infrastructure investments and \$850 million for a Federal disallowance settlement. In addition, the General Fund included \$275 million in FY 2015 and \$250 million in FY 2016 for operating purposes. The Financial Plan assumes monetary settlements in the amount of \$100 million in each of FY 2017 and FY 2018.

## List of Settlements

The following settlements were received, or are expected to be received.

- BNP Paribas, S.A. New York Branch (BNPP) paid the State nearly \$3.6 billion pursuant to (i) a June 29, 2014 consent order between DFS and BNPP and (ii) a June 30, 2014 plea agreement between BNPP and the New York County District Attorney (DANY) in connection with conduct by BNPP which violated U.S. national security and foreign policy and raised serious safety and soundness concerns for regulators, including the obstruction of governmental administration, failure to report crimes and misconduct, offering false instruments for filing, and falsifying business records.
- Credit Suisse AG paid \$715 million as a civil monetary penalty to the State pursuant to a May 18, 2014 consent order between DFS and Credit Suisse AG. This stemmed from Credit Suisse AG's decades-long operation of an illegal cross-border banking business whereby Credit Suisse AG knowingly and willfully aided thousands of U.S. clients in opening and maintaining undeclared accounts and concealing their offshore assets and income from the Internal Revenue Service and New York authorities.
- Commerzbank AG New York Branch and Commerzbank AG (collectively "Commerzbank") paid a \$610 million civil monetary penalty in accordance with a March 12, 2015 consent order between Commerzbank and the New York State DFS for violations of New York State Banking Law and regulations in connection with transactions on behalf of Iran, Sudan, and a Japanese corporation that engaged in accounting fraud. The State also received an additional \$81.7 million in penalties and forfeiture from Commerzbank AG in accordance with a Deferred Prosecution Agreement entered into by Commerzbank AG with the Manhattan District Attorney's Office and the United States Department of Justice, for moving more than \$250 million through the U.S. financial system primarily on behalf of Iranian and Sudanese customers in violation of U.S. sanctions by concealing the illegal nature of these transactions and deceiving U.S. banks into processing illegal wire payments.
- Deutsche Bank AG and Deutsche Bank AG, New York Branch (collectively "Deutsche Bank") paid a civil monetary penalty to the State in the amount of \$600 million in accordance with an April 23, 2015 consent order between Deutsche Bank and the New York State DFS for violations of New York State Banking Law and regulations in connection with the manipulation of benchmark interest rates, including the London Interbank Offered Rate, the Euro Interbank Offered Rate and Euroyen Tokyo Interbank Offered Rate.
- Barclays paid a \$485 million civil monetary penalty in accordance with a May 2015 consent order between Barclays and the New York State DFS for violations of New York State Banking Law and regulations in connection with attempts to manipulate benchmark foreign exchange rates and other manipulative conduct.

- The Bank of Tokyo-Mitsubishi UFJ, Ltd. (BTMU) paid a \$315 million civil monetary penalty pursuant to a November 18, 2014 consent order between DFS and BTMU. The consent order pertains to actions taken by BTMU which wrongfully misled DFS in connection with its understanding of BTMU's U.S. dollar clearing services on behalf of sanctioned Sudanese, Iranian, and Burmese parties, the transactions of which were settled through the New York Branch and other New York financial institutions. BTMU had previously paid to the State a \$250 million civil monetary penalty pursuant to a previous June 19, 2013 consent order between DFS and BTMU related to BTMU unlawfully clearing through the New York Branch and other New York-based financial institutions an estimated 28,000 U.S. dollar payment, valued at approximately \$100 billion, on behalf of certain sanctioned parties.
- Bank of America (BofA) paid \$300 million to the State pursuant to an August 18, 2014 settlement agreement to remediate harms related to BofA's violations of State law in connection with the packaging, origination, marketing, sale, structuring, arrangement, and issuance of residential mortgage-backed securities and collateralized debt obligations. The settlement agreement is the result of investigations by Federal and State entities into BofA Corporation, Bank of America, N.A., and Banc of America Mortgage Securities, as well as their current and former subsidiaries and affiliates.
- Standard Chartered Bank, New York Branch (SCB NY) paid \$300 million to the State pursuant to an August 19, 2014 consent order between the DFS and SCB NY for failure to fully comply with a September 21, 2012 consent order between the parties, by operating with certain ineffective risk management systems for the identification and management of compliance risks related to compliance with the Bank Security Act (BSA) and anti-money laundering (AML) laws, rules, and regulations, including BSA/AML risks related to U.S. dollar clearing for clients of SCB United Arab Emirates and SCB Hong Kong, among others.
- Bank Leumi paid a \$130 million civil monetary penalty pursuant to a December 22, 2014 consent order between DFS and Bank Leumi. The consent order pertains to (i) Bank Leumi's knowing and willful operation of a wrongful cross-border banking business to assist U.S. clients in concealing assets offshore and evading U.S. tax obligations, and (ii) Bank Leumi misleading DFS about Bank Leumi's improper activities.

- Ocwen paid a \$100 million civil monetary penalty and another \$50 million as restitution to current and former Ocwen borrowers pursuant to a December 19, 2014 consent order between DFS and Ocwen. The consent order pertains, among other things, to numerous and significant violations of a 2011 agreement between Ocwen and DFS which required Ocwen to adhere to certain servicing practices in the best interest of borrowers and investors. The \$100 million payment is to be used by the State for housing, foreclosure relief, and community redevelopment programs supporting New York’s housing recovery. The \$50 million restitution payment will be used to pay \$10,000 each to current and former Ocwen-services borrowers in New York whose homes were foreclosed upon by Ocwen between January 1, 2009 and December 19, 2014. The balance of the \$50 million will then be distributed equally among borrowers who had foreclosure actions filed against them by Ocwen between January 1, 2009 and December 19, 2014, but in which Ocwen did not complete such foreclosure action.
- Citigroup Inc. (“Citigroup”) paid \$92 million to the State pursuant to a July 2014 settlement agreement to remediate harms to the State resulting from the packaging, marketing, sale, structuring, arrangement, and issuance of residential mortgage-backed securities and collateralized debt obligations. The settlement agreement is the result of investigations by Federal and State entities into Citigroup.
- American Life Insurance Company (ALICO), Delaware American Life Insurance Company (DelAm), and MetLife, Inc. (MetLife) (collectively “MetLife Parties”) paid \$50 million as a civil fine pursuant to a March 31, 2014 consent order between DFS and MetLife. The consent order related to a DFS investigation into whether ALICO and DelAm conducted an insurance business in New York without a New York license, and aided other insurers in doing an insurance business in New York without a New York license.
- American International Group, Inc. (AIG) paid a \$35 million civil monetary penalty pursuant to an October 31, 2014 consent order between DFS and AIG. A DFS investigation uncovered that former subsidiaries, ALICO and DelAm, solicited insurance business in New York without a license and made intentional misrepresentations and omissions to DFS concerning those activities.
- PricewaterhouseCoopers LLP (PwC) paid \$25 million to the State pursuant to an August 14, 2014 settlement agreement between the DFS and PwC to (i) resolve the DFS’s investigation of PwC’s actions in performing certain consulting services for the Tokyo Branch of The Bank of Tokyo-Mitsubishi UFJ, Ltd. in 2007 and 2008, and (ii) establish the basis for a constructive relationship between the parties that will better protect investors and the public.
- AXA Equitable Life Insurance Company (AXA) paid \$20 million as a civil fine pursuant to a March 17, 2014 consent order between DFS and AXA. The consent order related to whether AXA properly informed DFS regarding the implementation of its “AXA Tactical Manager” strategy.

## Uses of Certain Monetary Settlements

The Executive intends to direct the one-time resources from the monetary settlements to fund non-recurring expenditures. The majority of the settlement resources are expected to be used to fund new capital investments.

The Enacted Budget established a new capital fund called the DIIF, to allow settlement money to be set aside for the purposes it is intended to fund. The Updated Financial Plan includes a transfer of \$4.6 billion of the settlement funds from the General Fund to the DIIF during FY 2016. These resources will be on deposit in the DIIF to fund the following initiatives:

- **Upstate Revitalization Program (\$1.5 billion):** The Updated Financial Plan includes \$1.5 billion in funding for the Upstate Revitalization Initiative, whereby \$500 million grants will be awarded to three upstate regions.
- **Thruway Stabilization Program (\$1.3 billion):** The Updated Financial Plan includes \$1.285 billion to fund capital expenses related to both the *New NY Bridge*, which will replace the Tappan Zee Bridge, and the statewide New York State Thruway system.
- **Broadband Initiative (\$500 million):** The Updated Financial Plan establishes a \$500 million *New NY Broadband Fund Program* to expand the availability and capacity of broadband across the State or development of other telecommunication infrastructure. This program is intended to expand the creation of high-speed networks and promote broadband adoption.
- **Health Care/Hospitals (\$400 million):** The Updated Financial Plan provides up to \$355 million of grants to essential health care providers that facilitate mergers, consolidation, acquisition, or other significant corporate restructuring activities to create a financially sustainable system of care intended to promote a patient-centered model of health care delivery. An essential health care provider is a hospital or hospital system that offers health services in a region deemed by the Health Commissioner to be underserved. Funding may be used to restructure debt obligations or fund capital improvements to facilitate mergers and consolidations of hospitals in rural communities. The Plan provides \$15.5 million to support capital expenses of the Roswell Park Cancer Institute; \$19.5 million to establish a community health care revolving loan; and \$10 million for IT and other infrastructure costs associated with the inclusion of behavioral health sciences in the Medicaid Managed Care benefit package.
- **Penn Station Access (\$250 million):** The Metropolitan Transportation Authority (MTA) Penn Station Access project, which will open a new Metro-North link directly into Penn Station, is expected to provide enhanced system resiliency, improvement in regional mobility, and construction of four new Metro-North stations in the Bronx.

- **Infrastructure Improvements (\$115 million):** The Updated Financial Plan provides \$115 million for infrastructure improvements to support transportation, upstate transit, rail, airport, port, and other infrastructure improvements or economic development projects.
- **Transformative Economic Development Projects (\$150 million):** The Budget includes \$150 million to support transformative economic development and infrastructure projects. The State's investment will catalyze private investment, spurring significant economic development and job creation to help strengthen local communities in Nassau and Suffolk counties and their economies.
- **Resiliency, Mitigation, Security, and Emergency Response (\$150 million):** The Updated Financial Plan provides \$150 million in settlement funds to support preparedness and response efforts related to severe weather events. These funds will also support efforts to prevent, prepare for, and respond to acts of terrorism, other public safety and health emergencies, and natural and man-made disasters.
- **Municipal Restructuring (\$150 million):** The Updated Financial Plan provides \$150 million to assist and encourage local governments and school districts to implement shared services, cooperation agreements, mergers, and other actions that permanently reduce operational costs and property tax burdens.
- **Southern Tier/Hudson Valley Farm Initiative (\$50 million):** The Updated Financial Plan includes \$50 million to help landowners in the Southern Tier and Hudson Valley maintain and develop farming, agricultural, and related businesses.

The DIIF legislation permits the use of available funds in case of economic downturn, and/or to cover disallowances and/or settlements related to overpayment of Federal Medicare and Medicaid revenues in excess of \$100 million. While the legislation provides the State with potential additional reserves for these purposes, the Updated Financial Plan does not assume these resources would be used for these purposes.

### Other Uses

- **Resolution of Federal OPWDD Disallowance:** The Updated Financial Plan directed \$850 million in monetary settlement funds to finance the first installment in a recently agreed to settlement between the State and Federal government to resolve Federal disallowances.
- **OASAS:** The Updated Financial Plan assumes that \$5 million of settlement funds will be used to expand services provided by OASAS to individuals with dependencies on alcohol or drugs, or who have gambling problems.
- **Undesignated Reserves:** The Updated Financial Plan includes approximately \$1.5 billion in undesignated reserves related to the receipt of monetary settlements.

# **Other Matters Affecting the Financial Plan**

## General

The State's Financial Plan is subject to complex economic, social, financial, political, and environmental risks and uncertainties, many of which are outside the ability of the State to control. DOB believes that the projections of receipts and disbursements in the Financial Plan are based on reasonable assumptions, but there can be no assurance that actual results will not differ materially and adversely from these projections. In certain fiscal years, actual receipts collections have fallen substantially below the levels forecasted in the Financial Plan. In addition, the surplus projections in future years are based on the assumption that annual growth in State Operating Funds spending is limited to 2 percent, and that all savings resulting from the 2 percent limit will be made available to the General Fund.

DOB routinely executes cash management actions to manage the State's large and complex budget. These actions are intended for a variety of purposes that include improving the State's cash flow, managing resources within and across fiscal years, assisting in the adherence to spending targets and better positioning the State to address future risks and unanticipated costs, such as economic downturns, unexpected revenue deterioration and unplanned expenditures. As such, the State regularly makes certain payments above those initially planned, or defers payments, to maintain budget flexibility. All payments made above the planned amount are reflected in the year they occur and adhere to the limit of the State's 2 percent spending benchmark.

The Financial Plan is based on numerous assumptions, including the condition of the State and national economies and the concomitant receipt of economically sensitive tax receipts in the amounts projected. Other uncertainties and risks concerning the economic and receipts forecasts include the impacts of: national and international events; ongoing financial instability in the Euro-zone; changes in consumer confidence, oil supplies and oil prices; major terrorist events, hostilities or war; climate change and extreme weather events; Federal statutory and regulatory changes concerning financial sector activities; changes concerning financial sector bonus payouts, as well as any future legislation governing the structure of compensation; shifts in monetary policy affecting interest rates and the financial markets; financial and real estate market developments which may adversely affect bonus income and capital gains realizations; the effect of household debt reduction on consumer spending and State tax collections; and the outcome of litigation and other claims affecting the State.

Among other factors, the Financial Plan is subject to various uncertainties and contingencies relating to: wage and benefit increases for State employees that exceed projected annual costs; changes in the size of the State's workforce; the realization of the projected rate of return for pension fund assets, and current assumptions with respect to wages for State employees affecting the State's required pension fund contributions; the willingness and ability of the Federal government to provide the aid expected in the Financial Plan; the ability of the State to implement cost reduction initiatives, including reductions in State agency operations, and the success with which the State controls expenditures; and the ability of the State and its public authorities to market securities successfully in the public credit markets. Some of these issues are described in more detail herein. The projections and assumptions contained in the Financial Plan are subject to revisions which may result in substantial change. No assurance can be given that these estimates and projections, which depend in part upon actions the State expects to be taken but which are not within the State's control, will be realized.

## Budget Risks and Uncertainties

There can be no assurance that the State's financial position will not change materially and adversely from current projections. If this were to occur, the State would be required to take additional gap-closing actions. Such actions may include, but are not limited to: reductions in State agency operations; delays or reductions in payments to local governments or other recipients of State aid; delays in or suspension of capital maintenance and construction; extraordinary financing of operating expenses; or other measures. In some cases, the ability of the State to implement such actions requires the approval of the Legislature and cannot be implemented solely by action of the Governor.

The Financial Plan projections for the outyears assume that School Aid and Medicaid disbursements will be limited to the annual growth in NYS personal income and the ten-year rolling average of the medical component of the consumer price index (CPI), respectively. However, the FY 2014 Enacted Budget, FY 2015 Enacted Budget and FY 2016 Enacted Budget authorized spending for School Aid to increase above the growth in personal income that would otherwise be used to calculate the school year increases.

State law grants the Governor certain powers to achieve the Medicaid savings assumed in the Financial Plan. However, there can be no assurance that these powers will be sufficient to limit the rate of annual growth in DOH State Funds Medicaid spending to the levels estimated in the Financial Plan. In addition, savings are dependent upon timely Federal approvals, revenue performance in the State's HCRA fund (which finances approximately one-quarter of the DOH State-share costs of Medicaid), and the participation of health care industry stakeholders.

The forecast contains specific transaction risks and other uncertainties including, but not limited to: the receipt of certain payments from public authorities; the receipt of miscellaneous revenues at the levels expected in the Financial Plan, including revenues associated with gaming activity in the State; and the achievement of cost-saving measures including, but not limited to, the transfer of available fund balances to the General Fund at the levels currently projected. Such risks and uncertainties, if they were to materialize, could have an adverse impact on the Financial Plan in the current year or future years.

## Federal Issues

The State receives a substantial amount of Federal aid for health care, education, transportation, and other governmental purposes, as well as Federal funding to address response to, and recovery from, severe weather events and other disasters. Pressure on the Federal government to make reductions is elevated so long as the budgetary caps resulting from the Budget Control Act of 2011 and subsequent legislation remain in place. Any reduction in Federal funding levels could have a materially adverse impact on the Financial Plan. In addition, the Financial Plan may be adversely affected by other actions taken by the Federal government, including audits, disallowances, and changes to Federal participation rates or other Medicaid rules. Issues of particular concern are described below.

### Medicaid Redesign Team (MRT) Medicaid Waiver

The Federal Center for Medicare & Medicaid Services (CMS) and the State have reached an agreement authorizing up to \$8 billion in new Federal funding, over several years, to transform New York's health care system and ensure access to quality care for all Medicaid beneficiaries. This funding, provided through an amendment to the State's Partnership Plan 1115 Medicaid waiver, is divided among the Interim Access Assurance Fund (IAAF), the Delivery System Reform Incentive Payment (DSRIP) Program, Health Homes, and various other Medicaid redesign initiatives.

Since January 1, 2014, in accordance with provisions of the Affordable Care Act (ACA), New York State has been eligible for enhanced Federal Medical Assistance Percentage (FMAP) associated with childless adults. The DOH continues to both work with the CMS and refine the eligibility data systems to draw the appropriate amount of enhanced FMAP. This reconciliation may result in a modification of payments to the State and local governments.

### Federal Reimbursement for State Developmental Disability Services

As part of an approved plan between New York State and the Federal CMS, the State received a \$250 million Designated State Health Program (DSHP) payment as part of a multi-year effort to transform OPWDD services and provide more individuals with developmental disabilities the opportunity to be served in community-integrated settings. The \$250 million payment was received in FY 2015.

The Financial Plan assumes the State will reach agreement with CMS on a second phase of OPWDD transformation, which would accomplish a transition to holistic care management and value-based payments across all developmental disability systems. The transition to an integrated model of developmental disabilities-related care, behavioral health care, and medical care is expected to require significant changes to operations, structure, and organizational culture. The Financial Plan reflects the continuation of the \$250 million DSHP payment in FY 2016 and FY 2017 to help effectuate this transformation. Such Federal funding has not yet been approved by CMS.

## Debt Ceiling

In October 2013, an impasse in Congress caused a temporary Federal government shutdown and raised concern for a time that the Federal debt ceiling would not be raised in a timely manner. In March 2015, a temporary suspension of the Federal debt limit expired, causing the debt limit to be reached. The Treasury Department has avoided default since then by operating under “extraordinary measures,” which again raises concern that the Federal debt ceiling may not be raised in a timely manner.

A Federal government default on payments, particularly for a prolonged period, could have a materially adverse effect on the national and State economies, financial markets, and intergovernmental aid payments. The specific effects on the Financial Plan of a Federal government payment default in the future are unknown and impossible to predict. However, data from past economic downturns suggest that the State’s revenue loss could be substantial if the economy goes into a recession due to a Federal default.

A payment default by the United States may adversely affect the municipal bond market. Municipal issuers, as well as the State, could face higher borrowing costs and impaired market access. This would jeopardize planned capital investments in transportation infrastructure, higher education facilities, hazardous waste remediation, environmental projects, and economic development projects. Additionally, the market for and market value of outstanding municipal obligations, including municipal obligations of the State, could be adversely affected.

## Current Labor Negotiations (Current Contract Period)

For the contract period that commenced in FY 2012, the State has settled collective bargaining agreements with 99 percent of the State workforce subject to direct Executive control. Seven-year agreements through FY 2018 were recently achieved for officers in the Division of State Police represented by NYSPPA in two distinct bargaining units: the CO/NCO unit and the Troopers unit. The estimated costs of salary increases associated with the NYSPPA agreements, exclusive of fringe benefit costs, are \$40 million in FY 2016; \$29 million in FY 2017; and \$35 million in subsequent fiscal years. These costs are partially offset by health benefit savings resulting from increases to employee/retiree premium shares, co-pays, out-of-pocket deductibles and coinsurance.

Five-year agreements through FY 2016 were previously reached with employees represented by the Civil Service Employees Association (CSEA), the United University Professions (UUP), the New York State Correctional Officers and Police Benevolent Association (NYSCOPBA), Council 82, District Counsel-37 (DC-37) (Housing), and the Graduate Student Employees Union (GSEU). Four-year agreements through FY 2015 were reached with employees represented by the Public Employees Federation (PEF) and the Police Benevolent Association of New York State (PBANYS).

All of the agreements included wage and benefit concessions in exchange for contingent employee job protection. No general salary increases were provided for the three-year period FY 2012 through FY 2014. Additionally, most employees were subject to a two-year Deficit Reduction Plan (DRP), which achieved temporary savings of \$300 million. The benefit concessions - increases to employee/retiree health premium shares, copays, out-of-network deductibles and coinsurance - provide full-annual savings of \$230 million.

The payment of general salary increases commenced in FY 2015 with a 2 percent increase provided to all employees with settled agreements. In FY 2016, a second 2 percent increase was provided to employees with five-year agreements. The Division of State Police Troopers and CO/NCO will also receive a 2 percent increase in FY 2016, as well as 1.5 percent increases in FY 2017 and FY 2018, respectively.

Other compensation has also been provided. CO/NCO and Troopers in the Division of State Police will receive \$1,250 increases to Hazardous Duty and Expanded Duty payments, respectively. Additionally, two lump sum payments — \$775 per employee in FY 2014 and \$225 per employee in FY 2015 — were paid to employees represented by CSEA, PBANYS, NYSCOPBA and Council 82. The UUP employees may also receive lump sum payments of similar value in the form of Chancellor's Power of the SUNY Awards and Presidential Discretionary Awards. However, employees represented by PEF and DC-37 (Housing) did not receive lump sum payments. Instead, they will be repaid for all DRP reductions over an extended period, whereas the others units will be repaid for a portion of their reductions over an extended period commencing at the end of their contract terms.

The union representing State Police Investigators has no contract in place for the period April 2011 forward. The PEF and PBANYS-represented employees have no contracts in place for the period April 2015 forward.

## Pension Amortization

### Background

Under legislation enacted in August 2010, the State and local governments may amortize (defer paying) a portion of their annual pension costs beginning in FY 2011. Amortization temporarily reduces the pension costs that must be paid by public employers in a given fiscal year, but results in higher costs overall when repaid with interest.

In FY 2015, the State made a total pension payment to the New York State and Local Retirement System (NYSLRS) of \$1.7 billion and amortized \$619.5 million (the maximum amount legally allowable). The total payment included an additional \$18.8 million to pay off the 2006 amortization cost. In addition, the State's Office of Court Administration (OCA) made a total pension payment of \$268 million and amortized \$93.6 million (the maximum amount legally allowable). This included an additional \$21 million to pay off the 2011 retirement incentive liability. The total deferred amount — \$713.1 million — will be repaid with interest over the next ten years, beginning in FY 2016.

The State is required to begin repayment on each new amortization in the fiscal year immediately following the year in which the deferral was made. The full amount of each amortization, with interest, must be repaid within ten years, but the amount can be paid off sooner. The annual interest rate on each new amortization is determined by OSC, and is fixed for the entire term of the deferral.

For amounts amortized in FY 2011 through FY 2015, the State Comptroller set interest rates of 5 percent, 3.75 percent, 3 percent, 3.67 percent, and 3.15 percent, respectively. The Financial Plan assumes that both the State and OCA will elect to amortize pension costs in FY 2016 and beyond, consistent with the provisions of the authorizing legislation, and repay such amounts at an interest cost assumed by DOB in the Financial Plan to be 3.15 percent per annum over ten years from the date of each deferred payment.

The normal annual employer contribution to the Retirement System for New York State is based on rates established by the State's Actuary using the annual fund valuation and actuarially prescribed policies and procedures. State-specific employer contribution rates are established for both the Employees' Retirement System (ERS) and the Police and Fire Retirement System (PFRS). These rates are then applied to the State-employee salary base for each respective employee group. The State's normal annual contribution is the total bill, excluding payments for deficiency, group life, previous amortizations, incentive costs and prior year adjustments.

The amortization rates (i.e. the graded rates) for ERS and PFRS are determined by a formula enacted in the 2010 legislation. The respective graded rates always move toward their system's average normal rate by up to 1 percent per year. When the average normal rate is more than 1 percent greater than the graded rate, the use of the amortization program reduces the portion of the normal contribution that is payable immediately. The balance of the normal contribution may be amortized. However, when the graded rate equals or exceeds the normal average rate, amortization is not allowed. Additionally, when the graded rate is more than 1 percent greater

than the average normal rate, the employer is required to pay the graded rate. Any additional contributions are first used to pay off existing amortizations. If all amortizations have been paid, any excess is deposited into a reserve account and used to offset future increases in contribution rates.

For both the ERS and the PFRS, the following table provides: i) system average normal rates; ii) New York State-specific normal rates; and iii) amortization (graded) rates.

## Outyear Projections

All projections are based on projected market returns and numerous actuarial assumptions which, if unrealized, could change these projections materially. Additionally, the next five-year experience study performed by the Retirement Systems' Actuary is expected in 2015 and could change these projections materially.

The 2016 pension contribution rates, including Group Life Insurance Plan (GLIP) released by OSC on September 2, 2014 reflect an annual decline from 20.1 percent to 18.2 percent for ERS, and from 27.6 percent to 24.7 percent for PFRS.

The Financial Plan incorporates revised actuarial mortality assumptions and assumes amortization in FY 2016 and the outyears, which is consistent with the methodology adopted by the Retirement Systems' Actuary in 2014. DOB currently plans to amortize future pension contribution costs above the graded rate based on current forecasted pension contribution rates, as permissible by statute. The actual amortization of future pension costs will be subject to revised pension contribution rates and/or other budgetary decisions and factors.

The following table provides the aggregate pension costs across all the various systems associated with State employees: i) ERS for both the Executive and the Judiciary; ii) PFRS for the Executive; iii) Teachers' Retirement System (TRS) for both SUNY and the State Education Department (SED); iv) Optional Retirement Program (ORP) for both SUNY and SED; and NYS Voluntary Defined Contribution Plan (VDC). Amortization (graded) rates, deferrals and repayments are provided for ERS (Executive and Judiciary) and PFRS (Executive).

The next table reflects projected pension contributions and amortizations exclusively for the Executive Branch and Judiciary employees participating in the ERS and PFRS. The “Normal Costs” column shows the amount of the State’s pension cost prior to amortization, as authorized in 2010. The “(Amortized) / Excess Contributions” column shows amounts deferred (i.e., amortized) or payments of outstanding contingencies. The “Amortization Payments” column provides the amount paid in a given fiscal year (principal and interest on deferrals) as authorized in 2010. The “Total” column provides the State’s actual or planned pension contribution, net of amortization.

<sup>1</sup>Pension contribution values in this table do not include pension costs related to the Optional Retirement Program and Teachers' Retirement System for SUNY and SED, whereas the projected pension costs in other Financial Plan tables include such pension disbursements.

<sup>2</sup>Normal costs include payments from amortizations prior to FY 2011, which will end in FY 2016 as a result of early repayments.

Consistent with the 2010 amortization legislation, the State plans to: (a) make an additional contribution above the actuarially required contribution in FY 2022 and (b) once all outstanding amortizations are paid off, make additional contributions to be set aside as reserves for rate increases, to be invested by the State Comptroller and used to offset future rate increases.

### **Other Post-Employment Benefits (OPEB)**

State employees become eligible for post-employment benefits (e.g., health insurance) if they reach retirement while working for the State and are enrolled in the New York State Health Insurance Program (NYSHIP), or are enrolled in the NYSHIP opt-out program at the time they reach retirement, and have at least ten years of eligible service for NYSHIP benefits. The cost of providing post-retirement health insurance is shared between the State and the retired employee. Contributions are established by law and may be amended by the Legislature. The State pays its share of costs on a Pay-As-You-Go (PAYGO) basis as required by law.

In accordance with the GASB Statement 45, the State must perform an actuarial valuation every two years for purposes of calculating OPEB liabilities. As disclosed in Note 13 of the State's Basic Financial Statements for FY 2015, the State's Annual Required Contribution (ARC) represents the projected annual level of funding that, if set aside on an ongoing basis, is projected to cover normal costs each year and to amortize any unfunded liabilities of the plan over a period not to exceed 30 years. Amounts required but not actually set aside to pay for these benefits are accumulated, with interest, as part of the net OPEB obligation, after adjusting for amounts previously required.

As reported in the State's Basic Financial Statements for FY 2015, the projected unfunded actuarial accrued liability for FY 2015 is \$77.4 billion (\$63.4 billion for the State and \$13.9 billion for SUNY), an increase of \$9.2 billion from FY 2014 (attributable entirely to the State). The unfunded actuarial accrued liability for FY 2015 used an actuarial valuation of OPEB liabilities as of April 1, 2014 for the State, and April 1, 2012 for SUNY. These valuations were determined using the Frozen Entry Age actuarial cost method, and are amortized over an open period of 30 years using the level percentage of projected payroll amortization method. Driving a significant portion of the annual increase in the State's unfunded actuarial accrued liability is the adoption of new generational mortality projection tables developed by the Society of Actuaries reflecting an improvement in life expectancy in future years, resulting in increases to accrued liabilities and the present value of projected benefits.

The actuarially determined annual OPEB cost for FY 2015 totaled \$3 billion (\$2.3 billion for the State and \$0.7 billion for SUNY), an increase of \$20 million from FY 2014 (\$17 million for the State and \$3 million for SUNY). The actuarially determined cost is calculated using the Frozen Entry Age actuarial cost method, allocating costs on a level basis over earnings. The actuarially determined cost was \$1.5 billion (\$1 billion for the State and \$0.5 billion for SUNY) greater than the cash payments for retiree costs made by the State in FY 2015. This difference between the State's PAYGO costs, and the actuarially determined required annual contribution under GASB Statement 45, reduced the State's net asset condition at the end of FY 2015 by \$1.5 billion.

GASB does not require the additional costs to be funded on the State's budgetary (cash) basis, and no additional funding is assumed for this purpose in the Financial Plan. The State continues to finance these costs, along with all other employee health care expenses, on a PAYGO basis.

There is no provision in the Financial Plan to fund the actuarially determined required annual contribution for OPEB. If the State began making a contribution, the additional cost above the PAYGO amounts would be lowered. The State's Health Insurance Council, which consists of the Governor's Office of Employee Relations (GOER), Civil Service and DOB, will continue to review this matter and seek input from the State Comptroller, the legislative fiscal committees and other outside parties. However, it is not expected that the State will alter its planned funding practices.

The State is currently examining GASB-proposed changes to GASB Statement 45 requirements. The proposed changes will alter the actuarial methods used to calculate OPEB liabilities, standardize asset smoothing and discount rates, and require the funded status of the OPEB liabilities to be reported by the State. As proposed, the GASB changes would be implemented in the State's FY 2018 financial statements.

## **Litigation**

Litigation against the State may include potential challenges to the constitutionality of various actions. The State may also be affected by adverse decisions that are the result of various lawsuits. Such adverse decisions may not meet the materiality threshold to warrant individual description but, in the aggregate, could still adversely affect the Financial Plan.

## **Update on Storm Recovery**

In recent years, New York State has sustained damage from three powerful storms that crippled entire regions. In August 2011, Hurricane Irene disrupted power and caused extensive flooding to various New York State counties. In September 2011, Tropical Storm Lee caused flooding in additional New York State counties and, in some cases, exacerbated the damage caused by Hurricane Irene two weeks earlier. On October 29, 2012, Superstorm Sandy struck the East Coast, causing widespread infrastructure damage and economic losses to the greater New York region. The frequency and intensity of these storms present economic and financial risks to the State. Reimbursement claims for costs of the immediate response are being processed, and both recovery and future mitigation efforts have begun, largely supported by Federal funds. In January 2013, the Federal government approved approximately \$60 billion in Federal disaster aid for general recovery, rebuilding and mitigation activity nationwide. It is anticipated that New York State, the MTA, and New York State localities may receive approximately one-half of this amount over the coming years for response, recovery, and mitigation costs. There can be no assurance that all anticipated Federal disaster aid described above will be provided to the State and its affected entities, or that such Federal disaster aid will be provided on the expected schedule.

## Climate Change Adaptation

Climate change poses long-term threats to physical and biological systems. Potential hazards and risks related to climate change for the State include, among other things, rising sea levels, more severe coastal flooding and erosion hazards, and more intense storms. Storms in recent years, including Superstorm Sandy, Hurricane Irene, and Tropical Storm Lee, have demonstrated vulnerabilities in the State's infrastructure (including mass transit systems, power transmission and distribution systems, and other critical lifelines) to extreme weather events, including coastal flooding caused by storm surges. Significant long-term planning and investment by the Federal government, State, municipalities, and public utilities are expected to be needed for adapting existing infrastructure to climate change risks.

## Financial Condition of New York State Localities

The financial demands on State aid may be affected by the fiscal conditions of New York City and potentially other localities, which rely in part on State aid to balance their budgets and meet their cash requirements. Certain localities outside New York City, including cities and counties, have experienced financial problems and have requested and received additional State assistance during the last several State fiscal years. In 2013, the Financial Restructuring Board for Local Governments was created to provide assistance to distressed local governments by performing comprehensive reviews, and providing grants and loans as a condition of implementing recommended efficiency initiatives. For additional details on the Board, please visit [www.frb.ny.gov](http://www.frb.ny.gov).

## Bond Market

Implementation of the Financial Plan is dependent on the State's ability to market its bonds successfully. The State finances much of its capital spending in the first instance from the General Fund or the Short-Term Investment Pool (STIP), which it then reimburses with proceeds from the sale of bonds. If the State cannot sell bonds at the levels (or on the timetable) expected in the capital plan, the State's overall cash position and capital funding plan may be adversely affected. The success of projected public sales will, among other things, be subject to prevailing market conditions. Future developments in the financial markets, including possible changes in Federal tax law relating to the taxation of interest on municipal bonds, as well as future developments concerning the State and public discussion of such developments, generally may affect the market for outstanding State-supported and State-related debt.

## Debt Reform Act Limit

The Debt Reform Act of 2000 (“Debt Reform Act”) restricts the issuance of State-supported debt to capital purposes only, and for maximum terms of 30 years. The Debt Reform Act limits the amount of new State-supported debt to 4 percent of State personal income, and new State-supported debt service costs to 5 percent of All Funds receipts. The restrictions apply to all new State-supported debt issued since April 1, 2000. The cap on new State-supported debt outstanding began at 0.75 percent of personal income in FY 2001, and was fully phased in at 4 percent of personal income during FY 2011. The cap on new State-supported debt service costs began at 0.75 percent of All Funds receipts in FY 2001, and was fully phased in at 5 percent during FY 2014. It was determined that the State was in compliance with the statutory caps in the most recent calculation period (FY 2014). The FY 2015 calculation is expected to be completed in October 2015.

Current projections anticipate that debt outstanding and debt service will continue to remain below the limits imposed by the Debt Reform Act. Based on the most recent personal income and debt outstanding forecasts, the available room under the debt outstanding cap is expected to decline from \$4.1 billion in FY 2015 to \$470 million in FY 2020. This includes the estimated impact of the bond-financed portion of the Budget’s increased capital commitment levels. Debt outstanding and debt service caps continue to include the existing SUNY Dormitory Facilities lease revenue bonds, which are backed by a general obligation pledge of SUNY. Bonds issued under the new SUNY Dormitory Facilities Revenue credit (which are not backed by a general obligation pledge of SUNY) are not included in the State’s calculation of debt caps. Capital spending priorities and debt financing practices may be adjusted from time to time to preserve available debt capacity and stay within the statutory limits, as events warrant.

## Secured Hospital Program

Under the Secured Hospital Program, the State entered into service contracts to enable certain financially distressed not-for-profit hospitals to have tax-exempt debt issued on their behalf, to pay for the cost of upgrading their primary health care facilities. In the event of revenue shortfalls to pay debt service on the Secured Hospital bonds, which include hospital payments made under loan agreements between the Dormitory Authority of the State of New York (DASNY) and the hospitals and certain reserve funds held by the applicable trustees for the bonds, the service contracts obligate the State to pay debt service, subject to annual appropriations by the Legislature, on bonds issued by DASNY through the Secured Hospital Program. As of March 31, 2015, there were approximately \$304 million of bonds outstanding for this program.

The financial condition of hospitals in the State's Secured Hospital Program continues to deteriorate. Of the remaining hospitals, one is experiencing significant operating losses that have impaired its ability to remain current on its loan agreement with DASNY. In relation to the Secured Hospital Program, the State's contingent contractual obligation was invoked to pay debt service for the first time in FY 2014 when \$12 million was paid and again in FY 2015 when \$24 million was paid. DASNY also estimates the State will pay debt service costs of approximately \$25 million in both FY 2016 and FY 2017, and approximately \$14 million annually in FY 2018 through FY 2020. These amounts are based on the actual experience to date of the participants in the program, and would cover the debt service costs for one hospital that currently is not meeting the terms of its loan agreement with DASNY, a second hospital whose debt service obligation was recently discharged in bankruptcy but is paying rent which offsets a portion of the debt service, and a third hospital that is now closed. The State has estimated additional exposure of up to \$24 million annually, if all hospitals failed to meet the terms of their agreements with DASNY and if available reserve funds were depleted.

## SUNY Downstate Hospital and Long Island College Hospital (LICH)

In May 2011, the New York State Supreme Court issued an order (the "May 2011 Order") that approved the transfer of real property and other assets of LICH to a New York State not-for-profit corporation ("Holdings"), the sole member of which is SUNY. Subsequent to such transfer, Holdings leased the LICH hospital facility to SUNY University Hospital at Brooklyn ("Downstate Hospital"). In 2012, DASNY issued tax exempt State PIT Revenue Bonds ("PIT Bonds"), to refund approximately \$120 million in outstanding debt originally incurred by LICH and assumed by Holdings.

To address the deteriorating financial condition of Downstate Hospital, which has been caused in part by the deteriorating financial position of LICH, legislation adopted with the FY 2014 Enacted Budget required the Chancellor of SUNY to submit to the Governor and the Legislature a multi-year sustainability plan to: a) set forth recommendations necessary to achieve financial stability for Downstate Hospital, and b) preserve the academic mission of Downstate Hospital's medical school. In accordance with this legislation, the Chancellor of SUNY submitted the sustainability plan for Downstate Hospital on May 31, 2013, and supplemented the plan with changes in a letter dated June 13, 2013. The supplemented plan was approved by both the Commissioner of Health and the Director of the Budget on June 13, 2013. Generally, the approved sustainability plan

anticipates: (a) a significant restructuring of health care service lines at Downstate Hospital in order to achieve financial milestones assumed in the sustainability plan, and supported by State financial assistance from DOH; and (b) monetizing the LICH asset value to support the costs associated with Downstate Hospital exiting LICH operations. Consistent with the sustainability plan, as supplemented, SUNY, together with Holdings, issued a request for proposals (RFP) to provide healthcare services in or around the LICH facilities and to purchase the LICH real estate.

In 2013, State Supreme Court Judge Demarest, who issued the May 2011 Order, issued, sua sponte, certain additional orders that could have affected the validity of the May 2011 Order. Also, in 2013, State Supreme Court Judge Baynes issued a series of orders that, effectively, precluded SUNY from exiting LICH operations. On February 25, 2014, Judges Demarest and Baynes approved a settlement whereby all parties agreed to discharge their claims, and the judges vacated their orders. Pursuant to a court-approved settlement in 2014, SUNY, together with Holdings, issued a new RFP seeking a qualified party to provide or arrange to provide health care services at LICH and to purchase the LICH property. The structure of the settlement also increased the likelihood that sufficient proceeds from the transaction would be available to support defeasance of the PIT Bonds by setting a minimum purchase price.

In accordance with the settlement, Holdings has entered into a purchase and sale agreement with the FPG Cobble Hill Acquisitions, LLC, an affiliate of Fortis Property Group, LLC (also party to the agreement) which proposes to purchase the LICH property, and with NYU Hospitals Center which will provide both interim and long-term health care services. The agreement has been approved by the Office of Attorney General and the State Comptroller, and the sale of all or substantially all, of the assets of Holdings has been approved by the State Supreme Court in Kings County. The sale remains subject to certain closing conditions that may require additional regulatory approvals. There can be no assurance that the resolution of legal, financial, and regulatory issues surrounding LICH, including the payment of outstanding liabilities, will not have a materially adverse impact on SUNY.

**State Financial Plan Projections Fiscal Years  
2016 Through 2019**

## Introduction

This section presents the State's updated multi-year Financial Plan projections for receipts and disbursements, reflecting the impact of the FY 2016 Enacted Budget actions. This section includes preliminary FY 2015 results and projections for FY 2016 through FY 2019, with an emphasis on the FY 2016 projections.

The State's cash-basis budgeting system, complex fund structure, and practice of earmarking certain tax receipts for specific purposes complicates the presentation of the State's receipts and disbursements projections. Therefore, to minimize the distortions caused by these factors and, equally important, to highlight relevant aspects of the projections, DOB has adopted the following approaches in summarizing the projections:

- **Receipts:** The detailed discussion of tax receipts covers projections for both the General Fund and State Funds (including capital projects). The latter perspective reflects overall estimated tax receipts before their diversion among various funds and accounts, including tax receipts dedicated to capital projects funds (which fall outside of the General Fund and State Operating Funds accounting perspectives). DOB believes this presentation provides a clearer picture of projected receipts, trends and forecast assumptions, by factoring out the distorting effects of earmarking certain tax receipts.
- **Disbursements:** Roughly 40 percent of projected State-financed spending for operating purposes is accounted for outside of the General Fund and is primarily concentrated in the areas of health care, School Aid, higher education, transportation and mental hygiene. To provide a clearer picture of spending commitments, the multi-year projections and growth rates are presented, where appropriate, on both a General Fund and State Operating Funds basis.

In evaluating the State's multi-year operating forecast, it should be noted that the reliability of the estimates and projections as a predictor of the State's future financial position is likely to diminish the further removed such estimates and projections are from the date of this Updated Financial Plan. Accordingly, in terms of outyear projections, the first outyear of the FY 2016 Budget, FY 2017, is the most relevant from a planning perspective.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

## Summary

The FY 2016 Updated Financial Plan reflects a 2 percent annual growth in State Operating Funds, consistent with the expectation of adherence with a 2 percent spending benchmark. In addition, the State ended FY 2015 with a sizeable General Fund cash-basis surplus due to a series of unbudgeted one-time monetary settlement payments reached between regulators and financial institutions.

The surplus projections for FY 2017 and thereafter set forth in the Financial Plan reflect the savings that DOB estimates would occur if the Governor continues to propose, and the Legislature continues to enact, balanced budgets in future years that limit annual growth in State Operating Funds spending to no greater than 2 percent. The estimated savings are labeled in the Financial Plan tables as “Adherence to 2 percent Spending Benchmark.” While surplus projections reflect the savings estimated from adherence to the 2 percent spending benchmark, disbursement totals in the Financial Plan tables and discussion do not assume these savings. If the State does not adhere to the 2 percent State Operating Funds spending benchmark in FY 2017, FY 2018, and FY 2019, budget gaps may result in these years.

The following tables present the Financial Plan multi-year projections for the General Fund and State Operating Funds, as well as reconciliation between the State Operating Funds projections and the General Fund budget gaps. The tables are followed by a summary of the multi-year receipts and disbursements forecasts.

## The U.S. Economy

The national economy enters its seventh year on a less optimistic note than was anticipated in the Enacted Budget forecast. Hopes for an acceleration in economic growth beyond the 2 to 2.5 percent range that has characterized the current expansion to-date were eroded by a very weak first half. U.S. Bureau of Economic Analysis now estimates average quarterly growth of 1.5 percent for the first half of this year, even weaker than that of the first half of 2014.<sup>1</sup> Three factors prompt a downshifting in expectations for the second half of this year. The first is a more precarious global situation dominated by a still struggling euro area economy and slow growth in China, which along with a strong dollar are resulting in weaker export growth. Second, the impact of lower energy prices on the national economy thus far has been more negative than projected, with the adverse impact on domestic energy sector investment exceeding the positive impact on household spending. Finally, the labor market has moderated since the end of last year. As a result, DOB now projects real U.S. Gross Domestic Product (GDP) growth of 2.2 percent for the entire 2015 calendar year, down from the Enacted Budget forecast of 2.6 percent. This forecast represents a deceleration from the 2.4 percent observed for 2014.

### U.S. Private Sector Job Gains

Source: Moody's Analytics.

The national labor market had finally begun to exhibit strong momentum in the spring of last year following a brutal winter. However, the most recent data indicate a decline in monthly private sector job gains to an average of 207,000 for the first six months of 2015 from the 254,000 average observed for all of last year. Consequently, DOB now projects slightly weaker employment growth of 2.1 percent for 2015. Retail sales excluding the volatile gasoline component has also exhibited a much weaker rebound from this year's harsh winter than was

<sup>1</sup> On July 30, 2015, the U.S. Bureau of Economic Analysis published its annual revision of the National Income and Product Accounts data, which altered the last three years of U.S. GDP data; the revisions were by and large downward.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

observed over the same period in 2014. The impact of an estimated \$80 billion in savings owing to dramatically lower gasoline prices has yet to be observed in household spending growth. Correspondingly, real growth in household consumption has been revised down slightly to 3.0 percent for 2015.

The recent real appreciation of the dollar, combined with weak global growth, is resulting in even weaker real export growth than anticipated. A trade-weighted index of the value of the dollar adjusted for relative differences in the rate of inflation across countries indicates a 9.6 percent increase in the value of the dollar over the first six months of 2015 compared with the same period in 2014. Although efforts to stimulate both the European and Chinese economies are still expected to bear fruit at some point in the future, the most recent data indicate that the near-term outlook for U.S. exports has deteriorated. As a result, real U.S. export growth has been revised down to 2.2 percent for 2015, following 3.4 percent growth for 2014.

The impact of weak global demand and the strong dollar on the business sector has been compounded by the adverse impact of falling global oil prices on domestic energy production. That negative impact can be seen in the dramatic 60 percent decline in the U.S. oil rig count since last October. The combined toll of these two developments on overall business investment has been fiercely negative. For example, nondefense capital goods shipments, excluding the volatile aircraft and parts component, is up only 1.5 percent for the first six months of this year based on preliminary data for June, before adjusting for inflation. Consequently, real growth in non-residential fixed investment has been revised down to 3.5 percent for 2015, following 6.2 percent growth for 2014.

One area that appears brighter now than in April is the housing market, where the strength of the rebound from this year's extreme winter weather outpaced expectations. Housing starts exhibited monthly average growth of 2.3 percent over the first six months of the year, a substantial improvement from the 1.2 percent decline observed for the first half of 2014. Nevertheless, only tepid housing market growth of about 7 percent is projected for the remaining two quarters of the year, supported by historically low, albeit rising, interest rates, along with improving non-interest lending terms and continued labor market growth. Moreover, new home construction continues to be dominated by multi-family units, which are thought to have smaller

economic spillover effects. DOB has revised up its projection for real residential investment growth to 6.1 percent for 2015, up from 4.5 percent in the Enacted Budget forecast.

The First Quarterly Update outlook calls for the U.S. economy to improve during the second half of this year, but in the absence of strong global growth, a vigorous housing market, and robust employment and wage growth, DOB continues to anticipate annualized quarterly output growth below 3 percent for the foreseeable future. Nevertheless, the most recent data indicate that domestic price pressures could become a concern in the not too distant future, assuming that the current falloff in commodity prices proves to be transitory. DOB now estimates consumer price inflation of 0.3 percent for 2015, representing an upward revision from the Enacted Budget forecast. Correspondingly, DOB continues to expect the Federal Reserve to raise its short-term interest rate target in the second half of 2015.

Although DOB's economic outlook continues to call for a strengthening of the nation's recovery, significant risks remain. While the risk of a "Grexit" appears to be off the table for now, the response of the euro-area economy to stimulative policies of the European Central Bank has been sluggish. Moreover, the long-run viability of the monetary union in its current form remains uncertain. The effort to reignite the Chinese economy has also proven more of a challenge than anticipated, a problem that is likely to reverberate throughout the developing world. Weaker than expected growth in either of these two major economic poles will likely result in slower export and corporate profits growth than reflected in this forecast. Concerns over the health of the global economy have sparked yet another round of energy and equity price volatility, representing risks to both business investment and household spending. In contrast, stronger global or equity price growth could result in stronger outcomes than projected. Finally, the response of both domestic and global financial markets to the unwinding of the Federal Reserve's unprecedentedly accommodative policies remains a risk, whether that process starts in September or later in the year, particularly given the lack of experience upon which to draw.

## The New York State Economy

The State's private sector labor market continues to generate strong momentum. Data for last quarter of 2014, the most recent quarter for which detailed data are available, indicate even more robust growth than expected in utilities; construction and real estate services; transportation and warehousing; wholesale trade; education; and health care. As a result, DOB's outlook for private sector job growth for 2015 has been revised up from 1.6 percent to 1.9 percent, following growth of 2.2 percent for 2014. The six-year decline in government employment appears also to have come to an end during the second half of 2014. As a result, total employment growth for 2015 was revised up by 0.2 percent from the Enacted Budget forecast to 1.6 percent, following 1.9 percent growth for 2014.

Stronger than expected job growth has also resulted in an upward revision to estimated non-bonus wage growth to 4.7 percent for FY 2015. However, weak fourth-quarter earnings and revenues within the finance sector are likely to have weighed heavily on bonus payouts for the 2014-15 bonus season. As a result, estimated finance and insurance sector bonus growth was reduced to a decline of 1.3 percent on an FY 2015 basis. On balance, overall wage growth for

# State Financial Plan Projections Fiscal Years 2016 Through 2019

FY 2015 is virtually unchanged from the Enacted Budget forecast. Subdued finance and insurance sector bonus growth of 4.0 percent is projected for the 2015-16 bonus season, leaving projected wage growth for FY 2016 also unchanged from the Enacted Budget forecast. In contrast, large volumes of IPO and merger and acquisition activity, along with strong real estate market growth, are estimated to have helped to propel growth in capital gains realizations above 30 percent for the 2014 tax year, with a modest decline now anticipated for 2015.

The performance of the State's private-sector labor market continues to surprise to the upside, but there are significant risks to the forecast. All of the risks to the U.S. forecast apply to the State forecast as well, although as the nation's financial capital, both the volume of financial market activity and the volatility in equity markets pose a particularly large degree of uncertainty for New York. Under the ongoing implementation of Dodd-Frank as well as other pressures, the pattern of Wall Street bonus payouts continues to evolve, with payments now more widely dispersed throughout the year. Taxable payouts can represent both current-year awards and deferred payments from prior years, with the deferral ratio itself proving to be unstable. As a result, the uncertainty surrounding bonus projections continues to mount. Recent events also have demonstrated how sensitive financial markets can be to shifting expectations surrounding both Federal Reserve policy and global growth. Financial market gyrations are likely to have a larger impact on the State economy than on the nation as a whole. Should financial and real estate markets be either weaker or stronger than we expect, both bonuses and taxable capital gains realizations could be correspondingly affected.

## Receipts

Financial Plan receipts include a variety of taxes, fees and assessments, charges for State-provided services, Federal grants, and other miscellaneous receipts, as well as collection of a payroll tax on businesses in the MTA region. The multi-year tax and miscellaneous receipts estimates are prepared by DOB with the assistance of the Department of Taxation and Finance (DTF) and other agencies which collect State receipts, and are predicated on economic analysis and forecasts.

Overall base growth in tax receipts is dependent on many factors. In general, base tax receipts growth rates are determined by economic changes including, but not limited to, changes in interest rates, prices, wages, employment, nonwage income, capital gains realizations, taxable consumption, corporate profits, household net worth, real estate prices and gasoline prices. Federal law changes can influence taxpayer behavior, which often alters base tax receipts. State taxes account for approximately half of total All Funds receipts.

The projections of Federal receipts generally correspond to the anticipated spending levels of a variety of programs including Medicaid, public assistance, mental hygiene, education, public health, and other activities, including extraordinary aid.

Where noted, certain tables in the following section display General Fund tax receipts that exclude amounts transferred to the General Fund in excess of amounts needed for certain debt service obligations (e.g., PIT receipts in excess of the amount transferred for debt service on revenue bonds).

## Overview of the Receipts Forecast

All Funds receipts in FY 2016 are projected to total \$152.7 billion, an increase of 2.4 percent from FY 2015 results. The table below summarizes the multi-year receipts projections.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

State tax receipts are expected to increase 4.9 percent in FY 2016. The increase in PIT receipts is due to strong growth from an artificially low prior year base that was influenced by 2013 Federal tax law changes. The miscellaneous receipts decline in FY 2016 is primarily due to the substantial decline in one-time monetary settlement payments with financial institutions. In addition, the FY 2016 General Fund total includes a \$250 million deposit from the SIF reserve release in connection with Workers' Compensation law changes included in the FY 2014 Enacted Budget, which is a decrease of \$750 million from the amount of the reserve released in FY 2015. In other State funds, FY 2016 miscellaneous receipts are driven by year-to-year variations to health care surcharges and other HCRA resources, licensing fees associated with commercial gaming, bond proceeds, atypical fines and the phase-out of the temporary utility assessment.

Consistent with the projected growth in the New York economy over the multi-year Financial Plan period, the personal income and consumption/use tax categories are expected to grow. Business taxes and other taxes are expected to decline in the majority of years within the period due to tax cuts and reforms enacted in 2014.

After controlling for the impact of tax law changes, base tax revenue increased 4.1 percent in FY 2015, and is projected to increase by 4.4 percent for FY 2016 and 4.9 percent for FY 2017.

Approximately 60 percent of All Funds tax receipts are deposited into the General Fund. The remaining tax collections are dedicated for various purposes including STAR payments to school districts, debt service reserves, health care, and transportation. General Fund tax receipts are projected to total \$45.8 billion in FY 2016, an increase consistent with the All Funds trends discussed above. General Fund miscellaneous receipts are expected to decrease by \$3.6 billion resulting from the substantial decline in monetary settlements and transfers noted above.

All Funds income tax receipts for FY 2016 are projected to be \$47.1 billion, an increase of \$3.4 billion (7.7 percent) from FY 2015 results. This increase primarily includes withholding, estimated payments attributable to the 2015 tax year, and extension payments attributable to the 2014 tax year, partially offset by a substantial increase in total refunds due to a combination of refund payment timing and the increased cost of the Real Property Tax Freeze credit compared to FY 2015.

<sup>1</sup>These components, collectively, are known as the "settlement" on the prior year's tax liability.

Withholding in FY 2016 is projected to be \$2 billion (5.8 percent) higher than FY 2015, due mainly to moderate wage growth. Extension payments are estimated to increase by \$1.2 billion (34.6 percent), primarily due to growth in tax year 2014 nonwage income compared to a weak tax year 2013 base, which suffered from an acceleration of capital gains into tax year 2012. Estimated payments for tax year 2015 are projected to be \$781 million (7.5 percent) higher. Final return payments and delinquencies are projected to be \$302 million (13.7 percent) higher and \$74 million (5.3 percent) lower, respectively.

The increase in total refunds of \$843 million (9.9 percent) reflects an \$812 million (16.4 percent) increase in prior (tax year 2014) refunds, a \$30 million (6.6 percent) increase in previous (tax year 2013 and earlier) refunds, and a \$204 million (35.2 percent) increase in accelerated credit payments related to tax year 2015. This is partially offset by a \$200 million (10.3 percent) decrease in current (tax year 2015) refunds and a \$3 million (0.5 percent) decline in state-city offsets. The increase in prior (tax year 2014) refunds includes payments attributable to the first year of the Enhanced Real Property Tax Circuit Breaker credit.

General Fund PIT receipts are net of deposits to the STAR Fund, which provides property tax relief, and the Revenue Bond Tax Fund (RBTF), which supports debt service payments on State PIT revenue bonds. General Fund PIT receipts for FY 2016 of \$32 billion are expected to increase by \$2.5 billion (8.4 percent) from FY 2015 results, mainly reflecting the increase in All

## State Financial Plan Projections Fiscal Years 2016 Through 2019

Funds receipts noted above. RBTF deposits are projected to be \$11.8 billion and the STAR transfer is projected to be \$3.3 billion.

All Funds PIT receipts for FY 2017 of \$49.7 billion are projected to increase by \$2.6 billion (5.6 percent) from the FY 2016 estimate. This primarily reflects increases of \$2 billion (5.5 percent) in withholding, \$871 million (7.8 percent) in estimated payments related to tax year 2016, and \$477 million (10.5 percent) in extension payments related to tax year 2015, partially offset by a \$980 million (10.4 percent) increase in total refunds. The growth in withholding is the result of projected wage growth of 4.5 percent. The moderate growth in extension payments reflects tax year 2015 nonwage income growth that is projected to be substantially weaker than in tax year 2014. The growth in total refunds is largely driven by a combination of the first year of the Property Tax Rebate program (\$414 million) and Family Tax Relief credits (\$400 million) which, unlike tax year 2014 payments, will not be paid as accelerated credits. Payments from final returns are expected to increase \$162 million (6.5 percent), while delinquencies are projected to increase \$65 million (4.9 percent) from the prior year.

General Fund PIT receipts for FY 2017 of \$33.8 billion are projected to increase by \$1.8 billion (5.8 percent). RBTF deposits are projected to be \$12.4 billion, and the STAR transfer is projected to be \$3.5 billion.

All Funds PIT receipts of \$52.5 billion in FY 2018 are projected to increase \$2.8 billion (5.6 percent) from the prior year. Gross receipts are projected to increase 5 percent, reflecting withholding that is projected to grow by \$1.4 billion (3.7 percent) and estimated payments related to tax year 2017 that are projected to grow by \$964 million (8 percent). Payments from extensions for tax year 2016 are projected to increase by \$375 million (7.5 percent) and final returns are expected to increase \$171 million (6.4 percent). Delinquencies are projected to increase \$39 million (2.8 percent) from the prior year. Total refunds are projected to increase by \$180 million (1.7 percent) from the prior year.

General Fund PIT receipts for FY 2018 are projected to increase by \$2.1 billion (6.1 percent) to \$35.9 billion.

All Funds income tax receipts are projected to increase by \$870 million (1.7 percent) in FY 2019 to reach \$53.4 billion, while General Fund PIT receipts are projected to total \$36.5 billion.

All Funds consumption/use tax receipts for FY 2016 are estimated to be over \$15.8 billion, an increase of \$461 million (3 percent) from FY 2015 results. Sales tax receipts are estimated to increase \$541 million (4.2 percent) from FY 2015, resulting from 3.4 percent base (i.e., absent law changes) growth, due to moderate projected disposable income growth. Cigarette and tobacco tax collections are estimated to decline \$94 million (7.2 percent), primarily reflecting large declines in taxable cigarette consumption (particularly in New York City) and cigar tax refunds resulting in part from a nonbinding Administrative Law Judge Determination (Matter of Davidoff of Geneva, Inc.). Motor fuel tax collections are expected to decrease \$2 million (0.4 percent), reflecting a decrease in audit collections as they return to historical levels, partially offset by slight growth in gasoline and diesel consumption.

General Fund consumption/use tax receipts for FY 2016 are estimated to total \$6.9 billion, an increase of \$199 million (3 percent) from FY 2015 results. This increase largely reflects increased sales tax collections, offset by cigar tax refunds and a decline in cigarette tax collections.

All Funds consumption/use tax receipts for FY 2017 are projected to be \$16.4 billion, an increase of \$544 million (3.4 percent) from the prior year. The projected \$535 million (4 percent) increase in sales tax receipts reflects sales tax base growth of 4.3 percent.

General Fund consumption/use tax receipts are projected to total \$7.2 billion in FY 2017, a \$306 million (4.4 percent) increase from the prior year. The projected increase in sales tax receipts reflects the All Funds trends noted above. The projected increase in cigarette and tobacco tax receipts is the result of an artificially low FY 2016 base created by the cigar tax refunds mentioned earlier.

All Funds consumption/use tax receipts are projected to increase to \$16.9 billion (3.2 percent) in FY 2018 and to \$17.5 billion (3.4 percent) in FY 2019, largely representing base growth in sales tax receipts, offset slightly by trend declines in cigarette tax collections.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

General Fund consumption/use tax receipts are projected to increase to nearly \$7.5 billion (3.5 percent) in FY 2018 and \$7.7 billion (3.7 percent) in FY 2019, reflecting the All Funds trends noted above.

General Fund sales and use tax receipts are net of deposits to the Local Government Assistance Tax Fund (25 percent), and the Sales Tax Revenue Bond Fund (25 percent), which support debt service payments on State sales and use tax revenue bonds. Receipts in excess of the debt service requirements of the funds and the local assistance payments to New York City, or its assignee, are transferred back to the General Fund.

Petroleum Business Tax	0	0	0.0%	0	0.0%	0	0.0%	0	0.0%

All Funds business tax receipts for FY 2016 are estimated at \$8.1 billion, a decrease of \$376 million (4.4 percent) from FY 2015 results. The estimate primarily reflects a decline resulting from the first year of corporate tax reform (\$205 million) and a decrease in petroleum business tax (PBT) receipts, due to declines in the PBT index rates for 2015 and 2016.

Corporate franchise tax receipts are estimated to increase \$1.1 billion (31.7 percent) in FY 2016, reflecting corporate tax reform, which repealed the bank tax and imposed the corporate franchise tax on former bank taxpayers beginning in tax year 2015. Audit receipts are expected to increase \$491 million (79.8 percent), representing a rebound in large case audits.

Corporation and utilities tax receipts are expected to increase \$66 million (9.1 percent) in FY 2016. Both gross receipts and audits are expected to increase from the prior year, while refunds are expected to return to historical trends.

Insurance tax receipts are expected to increase \$43 million (2.8 percent) in FY 2016. Premiums from authorized insurers are expected to grow at trend rates. Audits and refunds are also expected to reflect historical trends.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

Bank tax receipts are estimated to decrease by over \$1.5 billion (100.7 percent) in FY 2016. The decline stems from the movement of tax year 2015 liability payments to the corporate franchise tax and lower audit receipts. Audit receipts are estimated to decline \$525 million as several large FY 2015 bank tax cases are not expected to be repeated in FY 2016.

PBT receipts are expected to decrease \$64 million (5.5 percent) in FY 2016, primarily due to the 3.2 percent decrease in the PBT rate index effective January 2015 and the estimated 5 percent decrease effective January 2016. These declines are partially offset by slight growth in both estimated gasoline and diesel consumption.

General Fund business tax receipts for FY 2016 of \$5.9 billion are estimated to decrease \$368 million (5.9 percent) from FY 2015 results, reflecting the All Funds trends discussed above.

All Funds business tax receipts for FY 2017 of \$8.1 billion are projected to decrease \$90 million (1.1 percent) from the prior year. The decline in corporate franchise tax receipts of \$254 million (5.4 percent) is the result of the decrease in the entire net income tax rate from 7.1 percent to 6.5 percent and the first year of the capital tax base phase-out (both effective for tax year 2016). These items were part of corporate tax reform enacted in the FY 2015 Budget. Bank tax receipts are projected to increase by \$213 million, primarily the result of a reduced number of prior period adjustments. Corporation and utilities tax receipts growth of \$17 million (2.1 percent) reflects trend growth in FY 2017. Insurance tax receipts are projected to decline \$26 million (1.6 percent). Growth in insurance tax premiums is more than offset by the first year of refunds for the tax credit for assessments paid to the Life Insurance Guaranty Corporation (Insurance Law section 7712(a)(b) and Tax Law section 1511(f)). PBT receipts are expected to decrease \$40 million (3.7 percent) in FY 2017, primarily due to the estimated 5 percent decrease in the PBT rate index effective January 2016 noted above, and projected small declines in taxable motor fuel consumption, partially offset by growth in diesel fuel consumption.

General Fund business tax receipts for FY 2017 of \$5.8 billion are projected to decrease \$105 million (1.8 percent), reflecting the All Funds trends discussed above.

All Funds business tax receipts for FY 2018 and FY 2019 reflect projected trends in corporate profits, taxable insurance premiums, electric utility consumption and prices, the consumption of taxable telecommunications services, and automobile fuel consumption and fuel prices. All Funds business tax receipts are projected to increase to \$8.3 billion (2.7 percent) in FY 2018, and increase to \$8.5 billion (2.5 percent) in FY 2019. General Fund business tax receipts are expected to increase to \$6 billion (2.9 percent) in FY 2018 and \$6.1 billion (2.5 percent) in FY 2019.

All Funds other tax receipts for FY 2016 are estimated to be nearly \$2.2 billion, a \$12 million (0.6 percent) decrease from FY 2015 results. This reflects a \$47 million (4.5 percent) increase in real estate transfer tax receipts, more than offset by a \$59 million (5.3 percent) decrease in estate tax receipts. The estate tax decrease is primarily the result of FY 2015 Enacted Budget legislation that raises the filing threshold from \$1 million to the Federal exemption (currently \$5.43 million) over a four-year period. The real estate transfer tax estimate reflects both an increase in the volume of transactions in New York City and modest price growth compared to the prior year.

General Fund other tax receipts are expected to be nearly \$1.1 billion in FY 2016, a \$59 million (5.2 percent) decrease from FY 2015 results, reflecting the estate tax change noted above.

All Funds other tax receipts for FY 2017 are projected to be just over \$2.1 billion, a \$32 million (1.5 percent) decrease from FY 2016. This reflects projected growth in real estate transfer tax receipts due to projected growth in both the residential and commercial real estate markets, particularly in New York City, more than entirely offset by a decline in projected estate tax receipts due to the continued phase-in of the increased filing threshold.

General Fund other tax receipts are projected to be just under \$1 billion in FY 2017, reflecting the decline in estate tax receipts noted above.

All Funds other tax receipts for FY 2018 and FY 2019 reflect projected trends in household net worth, housing starts and housing prices. All Funds other tax receipts are projected to decrease to just under \$2.1 billion (1.7 percent) in FY 2018, and remain at \$2.1 billion in FY 2019. General Fund other tax receipt estimates for FY 2018 and FY 2019 are projected to decrease by 7.5 percent and 4 percent, respectively, due to the projected decline in estate tax receipts noted above.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

The divergence in growth rates between the All Funds and General Fund projections for other tax receipts reflects the dedication of the segment exhibiting growth (real estate transfer tax receipts) to other funds, and reflection of the declining portion (estate tax receipts) remaining in the General Fund.

## Miscellaneous Receipts and Federal Grants

All Funds miscellaneous receipts include moneys received from HCRA financing sources, SUNY tuition and patient income, lottery receipts for education, assessments on regulated industries, tribal-state compact revenue, monetary settlements and a variety of fees and licenses.

Debt Service Funds	510	470	-7.8%	453	-3.6%	453	0.0%	452	-0.2%

All Funds miscellaneous receipts are projected to total \$25.8 billion in FY 2016, a decrease of 12.2 percent from FY 2015 results. This decrease is primarily due to the loss of one-time monetary settlements described earlier in this Financial Plan. Additionally, the SIF reserve release in connection with Workers' Compensation law changes included in the FY 2014 Enacted Budget decreased by \$750 million from the amount received during the prior year. In other State funds, FY 2016 miscellaneous receipts are driven by year-to-year variations to health care surcharges and other HCRA resources, bond proceeds, and the phase-out of the temporary utility assessment.

All Funds miscellaneous receipts are projected to continue to decrease in FY 2017 and FY 2018, mainly due to the further loss of one-time monetary settlements, the loss of payments from SIF, and the phase-out of the temporary utility assessment.

## State Financial Plan Projections Fiscal Years 2016 Through 2019

Aid from the Federal government helps to pay for a variety of programs including Medicaid, public assistance, mental hygiene, school aid, public health, and other activities. Annual changes to Federal grants generally correspond to changes in federally-reimbursed spending. Accordingly, DOB typically projects Federal reimbursements will be received in the State fiscal year in which spending occurs, but due to the variable timing of Federal grant receipts, actual results often differ from the projections.

All Funds Federal grants are expected to increase in FY 2016, which is mainly driven by enhanced Federal Medicaid funding associated with Federal health care transformation initiatives. Federal grants are expected to grow to \$53.0 billion by FY 2019, reflecting the continuation of growth in Federal Medicaid spending associated with the ACA, partly offset by the expected phase-down of Federal disaster assistance aid.

## Disbursements

Total disbursements in FY 2016 are estimated at \$72.1 billion in the State's General Fund (including transfers) and \$94.2 billion in total State Operating Funds. Medicaid, education, pension costs, employee and retiree health benefits are significant drivers of annual spending growth. Over the multi-year Financial Plan, State Operating Funds spending projections assume Medicaid and School Aid will grow at their statutorily-indexed rates, with the exception of FY 2016 where the Enacted Budget increased School Aid by 6.1 percent on a school year basis, in excess of the indexed rate of 1.7 percent. The Enacted Budgets in FY 2014 and FY 2015 also approved increases for School Aid above the indexed rate.

The multi-year disbursements projections take into account various factors, including agency staffing levels, program caseloads, inflation, and funding formulas contained in State and Federal law. Factors that affect spending estimates vary by program. For example, public assistance spending is based primarily on anticipated caseloads that are estimated by analyzing historical trends and projected economic conditions. Projections also account for the timing of payments, since not all of the amounts appropriated pursuant to an enacted budget are disbursed in the same fiscal year. Consistent with past years, the aggregate spending projections (i.e., the sum of all projected spending by individual agencies) in State Special Revenue Funds have been adjusted downward in all fiscal years, based on typical spending patterns and the observed variance between estimated and actual results over time.

## Local Assistance Grants

Local assistance spending includes payments to local governments, school districts, health care providers, and other entities, as well as financial assistance to, or on behalf of, individuals, families and not-for-profit organizations. Local assistance spending in State Operating Funds is estimated at \$63.3 billion in FY 2016 and accounts for two-thirds of total State Operating Funds spending. Education and health care spending account for nearly two-thirds of local assistance spending.

Certain major factors considered in preparing the spending projections for the State's major local assistance programs and activities are summarized in the following table.

## Education

### School Aid

School Aid helps support elementary and secondary education for New York pupils enrolled in the 674 major school districts throughout the State. State funding is provided to districts based on statutory aid formulas and through reimbursement of categorical expenses such as prekindergarten programs, education of homeless children, and bilingual education. State funding for schools assists districts in meeting locally defined needs, supports the construction of school facilities, and finances school transportation for nearly three million students statewide.

School Year (July 1 — June 30)

School Aid is expected to total \$23.5 billion in school year (SY) 2016, an increase of \$1.4 billion (6.1 percent) from SY 2015. This increase is provided largely through \$1 billion of additional general operating support, consisting of a \$603 million restoration in the Gap Elimination Adjustment (GEA) and a \$428 million increase in Foundation Aid. Another \$274 million supports increased reimbursement in expense-based aid programs (e.g., transportation, Boards of Cooperative Educational Services (BOCES), school construction) and other miscellaneous aid categories. The increase also includes \$47 million of funding for new competitive grants, led by \$30 million for prekindergarten for three- and four-year-old children.

In addition, the Updated Financial Plan provides \$75 million to help transform persistently failing schools. The Budget also continues to provide \$340 million of recurring annual funding to support Statewide Universal Full-Day Prekindergarten programs in order to incentivize and fund state-of-the-art programs and encourage creativity through competition.

Finally, the Updated Financial Plan maintains the two-year appropriation that continues Education Law provisions. School Aid is projected to increase by an additional \$937 million (4 percent) in SY 2017.

School year values reflected in table do not include aid for Statewide Universal Full-Day Prekindergarten programs or the Persistently Failing Schools Transformation Grants.

## State Fiscal Year Basis

The State finances School Aid from General Fund and Lottery Fund receipts, including Video Lottery Terminals (VLTs), which are accounted for and disbursed from a dedicated account. Because the State fiscal year begins on April 1, the State typically pays approximately 70 percent of the annual school year commitment during the State fiscal year in which the related budget is enacted, and pays the remaining 30 percent in the first three months of the following State fiscal year.

The table below summarizes the multi-year projected funding levels on a State fiscal year basis.

Other Resources (Reserves)	51	(11)	-121.6%	11	200.0%	0	-100.0%	0	0.0%

State fiscal year spending for School Aid is projected to total \$23.4 billion in FY 2016. In future years, receipts available to finance this category of aid from core lottery sales are projected to decline. In addition to State aid, school districts receive over \$3 billion annually in Federal aid.

It is expected that State aid payments for School Aid will be supplemented by commercial gaming revenues, beginning in FY 2016. Three casino resorts were recommended by the State's Gaming Facility Location Board (the "Board") in December 2014, and a fourth casino is presently under consideration by the Board. The State expects \$137 million from one-time licensing fees to supplement School Aid in FY 2016, and it is expected that the approved casinos will be fully operational by FY 2018.

## Other Education Funding

In addition to School Aid, the State provides funding and support for various other education-related programs. These include: special education services; programs administered by the Office of Prekindergarten through Grade 12 education; cultural education; higher and professional education programs; and adult career and continuing education services.

The State provides a full range of special education services to approximately 500,000 students with disabilities, from ages 3 to 21. Major programs under the Office of Prekindergarten through Grade 12 address specialized student needs or reimburse school districts for education-related services, including the school lunch and breakfast program, after-school programs and other educational grant programs. Cultural education includes aid for operating expenses for the major cultural institutions of the State Archives, the State Library, and the State Museum as well as support for the Office of Educational Television and Public Broadcasting. Higher and professional education programs monitor the quality and availability of postsecondary education programs, and license and regulate over 50 professions. Adult career and continuing education services focus on the education and employment needs of the State's adult citizens, ensuring that such individuals have access to a "one-stop" source for all their employment needs, and are made aware of the full range of services available in other agencies.

All Other Education	630	847	34.4%	849	0.2%	760	-10.5%	780	2.6%

The increase in other education spending for FY 2016 relative to FY 2015 is driven primarily by increases in expense-based reimbursements, one-time costs associated with targeted aid and grants, increases to supplemental State charter school payments, and additional funding to non-public schools to reimburse them for the cost of performing State-mandated services. This additional funding to non-public schools will be in effect for FY 2016 and FY 2017, its expiration is the primary factor in the projected spending decline from FY 2017 to FY 2018.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

## STAR Program

The STAR program provides school tax relief to taxpayers by exempting the first \$30,000 of every eligible homeowner's property value from the local school tax levy. Lower-income senior citizens will receive a \$65,300 exemption in FY 2016. The DTF oversees local property assessment administration, and is responsible for establishing STAR property tax exemption amounts.

The three components of STAR and their approximate share of total spending in FY 2016 are: the basic school property tax exemption for homeowners with income under \$500,000 (53 percent); the enhanced school property tax exemption for senior citizen homeowners with incomes under \$83,300 (28 percent); and a flat refundable credit and rate reduction for income-eligible resident New York City personal income taxpayers (19 percent).

Spending for the STAR property tax exemption reflects reimbursements made to school districts to offset the reduction in property tax revenues. The annual increase in a qualifying homeowner's STAR exemption benefit is currently limited to 2 percent. New York City personal income taxpayers with annual incomes over \$500,000 are not eligible starting in FY 2016.

New York City PIT	627	618	-1.4%	612	-1.0%	619	1.1%	631	1.9%

The spending growth is primarily a reflection of the number of STAR exemption recipients who are expected to participate in the program, including reregistration of qualified individuals. This growth is partially offset by recently enacted legislation which now restricts the New York City PIT rate reduction to those residents with incomes lower than \$500,000.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

## Higher Education

Local assistance for higher education spending includes funding for the City University of New York (CUNY), SUNY, and the Higher Education Services Corporation (HESC).

The State funds CUNY's senior college operations, and works in conjunction with New York City to support CUNY's community colleges. The CUNY system is the largest urban public university system in the nation. Funding for SUNY supports 30 community colleges across multiple campuses. The State also provides a sizeable benefit to CUNY and SUNY through the debt service it pays on bond-financed capital projects at the universities. State debt service payments for capital projects at SUNY and CUNY are expected to total about \$1.2 billion in FY 2016 (this is not reflected in the annual spending totals for the universities). HESC administers TAP, which provides financial awards to income-eligible students. It also provides centralized processing for other student financial aid programs, and offers prospective students information and guidance on how to finance a college education. The financial aid programs that HESC administers are funded by the State and the Federal government.

Annual growth by CUNY across the multi-year Financial Plan reflects the net impact of one-time performance incentive funding in FY 2016, additional base operating support at community colleges, and fringe benefit cost increases at senior colleges. HESC spending is projected to decline slightly from FY 2015 to FY 2016, reflecting an accelerated payment of TAP costs in FY 2015. Growth in the outyears is primarily driven by a combination of newly enacted initiatives such as the Get On Your Feet loan forgiveness program, ongoing implementation of a scholarship for Science, Technology, Engineering and Math (STEM) included in the FY 2015 Enacted Budget, and additional TAP costs associated with projected community college tuition increases. Growth in SUNY local assistance primarily reflects additional base operating support at community colleges.

## Health Care

Local assistance for health care-related spending includes Medicaid, statewide public health programs and a variety of mental hygiene programs. The State DOH works with local health departments and social services departments, including in New York City, to coordinate and administer statewide health insurance programs and activities. The majority of government-financed health care programs are included under DOH, but a number of programs are also supported through multi-agency efforts.

DOH is also engaged in a multi-year initiative to implement the DSRIP program through an approved Federal waiver amendment to reinvest \$8 billion in Federal savings generated by the MRT reforms. The DSRIP program will promote community-level collaborations and focus on system reform, specifically a goal to achieve 25 percent reduction in avoidable hospital use over five years. The Financial Plan reflects the impact of the DSRIP program through additional Federal funds disbursements of approximately \$7 billion through FY 2019, with the remaining funds expected to be disbursed beyond the current planning period. A portion of DSRIP funding, which has yet to be allocated through the statewide awarding process, is expected to flow through the SUNY hospital system.

## Medicaid

Medicaid is a means-tested program that finances health care services for low-income individuals and long-term care services for the elderly and disabled, primarily through payments to health care providers. The Medicaid program is financed jointly by the State, the Federal government, and local governments. Eligible services<sup>2</sup> include inpatient hospital care, outpatient hospital services, clinics, nursing homes, managed care, prescription drugs, home care and services provided in a variety of community-based settings (including mental health, substance abuse treatment, developmental disabilities services, school-based services and foster care services).

In FY 2012, legislation was enacted to limit the year-to-year growth in DOH State funds Medicaid spending to the ten-year rolling average of the medical component of the CPI. The statutory provisions of the Medicaid spending cap (or “Global Cap”) also allow for flexibility in adjusting Medicaid projections to meet unanticipated costs resulting from a disaster. The Financial Plan reflects the continuation of the Medicaid spending cap through FY 2017, and the project assumes that statutory authority will be extended in subsequent years. Allowable growth under the cap for medical services is 3.6 percent for FY 2016. Reflecting projected CPI reductions, DOB currently forecasts allowable cap growth at 3.4 percent in FY 2017; 3.2 percent in FY 2018; and 3.0 percent in FY 2019. Certain administrative costs and changes in the Federal or local shares are not subject to this index.

---

<sup>2</sup> The FY 2014 Enacted Budget eliminated the Family Health Plus (FHP) program effective January 1, 2015. The majority of the population previously receiving health care benefits through FHP have begun receiving more robust health care benefits through the Medicaid program, resulting from new Medicaid eligibility thresholds and increased Federal payments resulting from the ACA. The remainder of the previous FHP population, those above Medicaid levels, are eligible for Federal tax credits in the NYSOH insurance benefit exchange and a majority will become eligible for the BHP.

<sup>1</sup> Under the Global Cap, forecasted Medicaid services growth is indexed to the 10-year average of the medical component of the CPI.  
<sup>2</sup> FY 2015 is a projection, and is not based on actuals.

The indexed provisions of the Global Cap apply to a majority of the State share of Medicaid spending that is budgeted and expended principally through DOH. However, the Global Cap is adjusted for State costs associated with the takeover of local Medicaid growth and the multi-year assumption of local Medicaid Administration, as well as increased Federal financial participation that became effective in January 2014 under the provisions of the ACA. State share Medicaid spending also appears in the Financial Plan estimates for other State agencies, including the mental hygiene agencies, child welfare programs, and education aid.

<sup>1</sup> DOH spending in the Financial Plan includes certain items that are excluded from the indexed provisions of the Medicaid Global Cap. This includes administrative costs, such as the takeover of local administrative responsibilities; the decision of Monroe County to participate in the Medicaid local cap program, rather than continuing the sales tax intercept option; and increased Federal Financial Participation that became effective in January 2014.  
<sup>2</sup> Beginning in FY 2014 the Office of Health Insurance Programs was transferred to Medicaid from Public Health as part of the five-year phase-in initiative of the State to assume local administrative functions.  
<sup>3</sup> The BHP is not a Medicaid program; however, State-funded resources for the BHP are managed under the Medicaid Global Cap.

The State share of DOH Medicaid spending is financed by a combination of the General Fund, HCRA resources and provider assessment revenue. The following table provides information on the financing sources for State Medicaid spending (more information on HCRA can be found in the section entitled "HCRA Financial Plan").

<sup>1</sup> The BHP is not a Medicaid program; however, State funded resources for BHP are managed under the Medicaid Global Cap.  
<sup>2</sup> Does not include Medicaid spending in other State agencies, transfers, or the local government share of total Medicaid program spending.  
<sup>3</sup> The DOH Medicaid budget includes resources to fund a portion of Medicaid-related Mental Hygiene program costs under the Global Cap.  
<sup>4</sup> Includes operating costs of the New York State of Health Exchange which are funded by DOH within the Medicaid Global Cap.

Since FY 2014, certain OPWDD-related Medicaid costs have been financed within available resources under the Global Cap. The FY 2016 Budget includes \$200 million in Financial Plan savings which will be achieved primarily from additional State-funded Medicaid savings which are expected to accrue to the Global Cap in FY 2016 as a result of accelerating the enrollment of certain legally residing immigrants who currently receive State-only Medicaid funding to the BHP. The cost of insurance premiums for such individuals, and other individuals meeting certain income eligibility standards, will be supplemented by both State and Federal funds. These BHP resources will also be used by DOH over the Financial Plan period to support the Federal MRT wavier and to implement investments and initiatives consistent with MRT principles for improving the State's effectiveness and efficiency of health care service delivery.

Fluctuation in enrollment, the costs of provider health care services, and health care utilization levels are among the factors that drive higher Medicaid spending within the Global Cap. The number of Medicaid recipients in the State exceeded 6.1 million by the end of FY 2015; this represents a 9.0 percent increase from FY 2014 caseload of 5.7 million. This expected growth is mainly attributable to expanded eligibility and enrollment pursuant to the ACA, which became effective in January 2014 and therefore is largely federally funded.

## Basic Health Plan (The Essential Plan)

The BHP is a health insurance program which receives Federal subsidies authorized through the ACA. The FY 2015 Enacted Budget authorized the State's option to participate in the BHP. The Budget assumes the State will accelerate the phase-in of certain legally residing immigrants currently receiving State-only Medicaid coverage. Individuals who meet the eligibility standards of the BHP will be enrolled through the NYSOH insurance exchange, with the cost of insurance premiums subsidized by the State and Federal governments. When fully implemented, approximately 75 percent of program expenditures are expected to be paid by the Federal government. The State funding for BHP in the Budget is offset by State funds Medicaid program savings associated with BHP, and additional Federal Funds are recognized through the duration of the planning period.

## Public Health / Aging Programs

Public Health includes the Child Health Plus (CHP) program that finances health insurance coverage for children of low-income families up to the age of 19, the General Public Health Work (GPHW) program that reimburses local health departments for the cost of providing certain public health services, the Elderly Pharmaceutical Insurance Coverage (EPIC) program that provides prescription drug insurance to seniors, and the Early Intervention (EI) program that pays for services to infants and toddlers under the age of three with disabilities or developmental delays. Many public health programs, such as EI and GPHW programs, are run by county health departments and reimbursed by the State for a share of program costs. The State spending projections do not include the county share of public health funding. In addition, a significant portion of HCRA spending is included under the Public Health budget.

The State Office for the Aging (SOFA) promotes and administers programs and services for New Yorkers 60 years of age and older. The Office primarily oversees community-based services (including in-home services and nutrition assistance) provided through a network of county Area Agencies on Aging (AAA) and local providers.

Forecasted CHP spending has been revised downward in all years to reflect the actual spending and enrollment trends to date. State funds spending for CHP is projected to decline on an annual basis from FY 2015 levels, as a result of increased Federal funding associated with the ACA. The outyear projections reflect price growth and current enrollment trends.

FY 2016 GPHW spending reflects a downward trend in reimbursement claims submitted by local governments. Annual program spending is projected to remain at moderate levels throughout the Financial Plan period.

EPIC program spending reflects increased pharmaceutical costs which impact Medicare Part D premium payment estimates.

Program spending for EI is forecasted to be stable through the remainder of the financial plan period based on State enrollment and claiming trends.

HCRA program spending is expected to decline from FY 2015 to FY 2016 as a result of the timing of payments and updated program information. From FY 2016 to FY 2019, spending is expected to remain relatively constant.

Outyear growth for Aging is primarily driven by cost of living increases and support for direct care workers.

## HCRA Financial Plan

HCRA was established in 1996 to help finance a portion of State health care activities. Extensions and modifications to HCRA have financed new health care programs, including FHP and CHP. HCRA has also provided additional financing for the health care industry, including investments in worker recruitment and retention, and the Doctor's Across New York program. HCRA authorization has been extended through FY 2017, pursuant to legislation included in the FY 2015 Enacted Budget.

HCRA receipts include surcharges and assessments on hospital revenues, a "covered lives" assessment paid by insurance carriers, and a portion of cigarette tax revenues. In total, HCRA resources are used to fund roughly 25 percent of the State share of DOH Medicaid, as well as CHP, the NYSOH, EPIC, Physician Excess Medical Malpractice Insurance, and Indigent Care payments, which provide funding to hospitals serving a disproportionate share of individuals without health insurance.

HCRA surcharge and hospital assessment revenue in the Financial Plan is forecast to align anticipated revenue collections with recent patterns which reflect the impact of MRT initiatives to improve the cost efficiency of health care service delivery settings. The level of growth forecasted in surcharge and hospital assessments is primarily attributable to expanded health insurance coverage through the ACA, and an expectation for a higher volume of health care services being provided throughout the State. The health care industry assessment revenue growth is partly offset by projected declines in cigarette tax collections due to declining tobacco consumption, resulting in total HCRA receipts growth of nearly 1 percent on an average annual basis through FY 2019.

HCRA spending is expected to increase by \$67 million in FY 2016 to total \$5.5 billion. The most significant areas of growth include additional financing of the State share of Medicaid costs, and increased capital costs associated with the Statewide Health Information Network for New York (SHIN-NY), which is expected to improve information capabilities and increase efficiency associated with health insurance claiming. HCRA spending growth in FY 2016 is partially offset by a lower spending forecast for CHP, driven by moderating enrollment and increased Federal funding under the ACA. HCRA program costs are expected to dip slightly from FY 2015 levels based on updated forecast assumptions.

HCRA is expected to remain in balance over the multi-year projection period. Under the current HCRA appropriation structure, spending reductions will occur if resources are insufficient to meet spending levels. Any potential spending reductions could affect General Fund Medicaid funding or HCRA programs. Conversely, any unanticipated balances or excess resources in HCRA are expected to finance Medicaid costs that would otherwise be paid from the General Fund.

## Mental Hygiene

The Department of Mental Hygiene is comprised of the OPWDD, the Office of Mental Health (OMH), OASAS, the Developmental Disabilities Planning Council (DDPC), and the Justice Center for the Protection of People with Special Needs. Services are administered to adults with serious mental illness; children with serious emotional disturbances; individuals with developmental disabilities and their families; persons with chemical dependencies; and individuals with compulsive gambling problems.

These agencies provide services directly to their patients through State-operated facilities, and indirectly through community service providers. The costs associated with providing these services are supported by reimbursement from Medicaid, Medicare, third-party insurance and State funding. Patient care revenues are pledged first to the payment of debt service on outstanding mental hygiene bonds, which were issued to finance infrastructure improvements at State mental hygiene facilities, with the remaining revenue used to support State operating costs.

<sup>1</sup> Program funding detail for OPWDD and OMH includes new multi-year spending investments which will be financed with additional Federal resources through BIP.

Local assistance spending accounts for over 40 percent of total mental hygiene spending from State Operating Funds, and is projected to grow by an average rate of 4.6 percent annually. The main factor driving this level of growth is enhancement of community mental health services, right-sizing and improving State-operated inpatient services, utilizing less costly and more programmatically appropriate in-state community residential programs enhancing employment opportunities for individuals with disabilities, and maximizing payments from third-party payers.

The Financial Plan includes additional annual statewide Medicaid savings of \$200 million, a portion of which will be achieved through the continued shift of certain OPWDD-related Medicaid costs to the DOH, whereby the costs will be funded within the existing Medicaid Global Cap at no increased cost to the Financial Plan, and without impact to overall service delivery. In FY 2015, the Medicaid budget supported \$715 million of OPWDD's Medicaid-eligible expenses, which will increase to \$849 million in FY 2016. To accommodate the funding of these additional costs within the Global Cap, DOH will leverage available BHP resources.

In addition, OPWDD and OMH will utilize \$323 million in Federal Balancing Incentive Program (BIP) resources in FY 2016 to support new multi-year spending investments. Authorized under the ACA, BIP is an optional program that provides additional Federal funding to qualifying states. It is expected that BIP will enable the State to engage a broad network of providers, advocates, and community leaders to develop systematic improvements to delivery systems for individuals with developmental disabilities and mental illness, and enhance community integration. The \$323 million in FY 2016 BIP investments is intended to transform services and supports to more integrated, community-based opportunities; increase employment opportunities for individuals with developmental disabilities; implement electronic health record systems; and support the transition to managed care.

The Budget includes a partnership between OMH and the Department of Corrections and Community Supervision (DOCCS) that will revise the process for identifying, assessing, treating, discharging, and supervising mentally ill patients who pose a potential risk of violence in State facilities and the community. The proposal will expand community services, provide additional treatment services in prisons, and create additional capacity for civil confinements in OMH facilities. This proposal will result in new intensive treatment beds and transitional beds, expand in-prison and community treatment services, supportive housing, and ACT. The Budget will add \$8 million in local assistance support in FY 2016, and \$18 million each year from FY 2017 to FY 2019, as well as approximately \$12 million annually in additional OMH State operations costs for this initiative.

In July 2014, CMS issued the State a disallowance notification in the amount of \$1.26 billion. On March 20, 2015, the State and CMS entered into a settlement agreement that resolves the \$1.26 billion pending disallowance for FY 2011 and all related payment disputes for State-operated services, including home and community-based waiver services, prior to April 1, 2013, and various other related CMS audit findings for OPWDD-delivered services for this time period. As part of this agreement, the State provided an \$850 million upfront repayment to the Federal government in April 2015, and annual payments of \$100 million are planned for each of the next 11 years beginning in FY 2017. Such payments are reflected in the FY 2016 Updated Financial Plan. (See "Other Matters Affecting the State Financial Plan - Federal Issues" herein.)

## Social Services

### Office of Temporary and Disability Assistance (OTDA)

OTDA local assistance programs provide cash benefits and supportive services to low-income families. The State's three main programs include Family Assistance, Safety Net Assistance and Supplemental Security Income (SSI). The Family Assistance program, which is financed by the Federal government, provides time-limited cash assistance to eligible families. The Safety Net Assistance program, financed by the State and local districts, provides cash assistance for single adults, childless couples, and families that have exhausted their five-year limit on Family Assistance imposed by Federal law. The State SSI Supplementation program provides a supplement to the Federal SSI benefit for the elderly, visually handicapped, and disabled.

All Other	97	92	-5.2%	102	10.9%	104	2.0%	110	5.8%

OTDA spending on SSI is projected to increase gradually over the course of the Financial Plan due to updated caseload projections. In public assistance, DOB projects a total of 540,434 recipients in FY 2016. Approximately 237,675 families are expected to receive benefits through the Family Assistance program in FY 2016, a decrease of 4 percent from FY 2015. In the Safety Net program an average of 109,098 families are expected to be helped in FY 2016, a decrease of 4.8 percent from FY 2015. The caseload for single adults/childless couples supported through the Safety Net program is projected at 193,661 in FY 2016, a decrease of 0.7 percent from FY 2015.

## Office of Children and Family Services (OCFS)

OCFS provides funding for foster care, adoption, child protective services, preventive services, delinquency prevention, and child care. OCFS oversees the State’s system of family support and child welfare services administered by local social services departments and community-based organizations. Specifically, child welfare services, which are financed jointly by the Federal government, the State, and local districts, are structured to encourage local governments to invest in preventive services for reducing out-of-home placement of children. In addition, the Child Care Block Grant, which is also financed by a combination of Federal, State and local sources, supports child care subsidies for public assistance and low-income families.

OCFS spending in FY 2016 is projected to increase over FY 2015 levels, mainly due to Child Welfare Services spending changes resulting from both a projected increase in claims, and cash management actions which had previously reduced FY 2015 spending.

## Transportation

In FY 2016, the State will provide \$4.9 billion to support the operating costs of the statewide mass transit systems financed from dedicated taxes and fees. The MTA, due to the size and scope of its transit and commuter rail systems, receives the majority of the statewide mass transit operating aid. In addition, the MTA receives operating support from the MTA Financial Assistance Fund, authorized in May 2009 to collect regional taxes and fees imposed within the Metropolitan Commuter Transportation District (MCTD). The State collects these taxes and fees on behalf of, and disburses the entire amount to, the MTA to support the transit and commuter rail systems. Pursuant to legislation enacted in December 2011, the MTA payroll tax was eliminated for all elementary and secondary schools and small business operators within the MCTD. The General Fund now provides additional annual support, subject to appropriation, to the MTA to make up for the resulting loss of revenue.

Projected operating aid to the MTA and other transit systems reflects the current receipts forecast, and timing associated with the availability of resources. The increase in Additional Mass Transportation Assistance Program (AMTAP) funding in FY 2016 reflects the legislative adds to the program.

Not reflected in the above table is authorization included in the FY 2016 Budget to transfer annually \$121 million in additional dedicated transit revenues from the Metropolitan Mass Transportation Operating Assistance Account (MMTOA) to the newly established Metropolitan Transit Assistance for Capital Investment Fund (MTACIF), which will be used to support infrastructure needs of the MTA and other downstate transit systems. In addition, the Financial Plan assumes that \$20 million in MMTOA resources will be available annually to offset MTA-related debt service costs from FY 2016 to FY 2019.

## Local Government Assistance

Direct aid to local governments includes the Aid and Incentives for Municipalities (AIM) program, which was created in FY 2006 to consolidate various unrestricted local aid funding streams; miscellaneous financial assistance for certain counties, towns, and villages; and efficiency-based incentive grants provided to local governments.

## Agency Operations

Agency operating costs include personal service, non-personal service, and GSCs. Personal service costs include the salaries of State employees of the Executive, Legislative, and Judicial branches, as well as the salaries of temporary/seasonal employees. Non-personal service costs reflect the cost of operating State agencies, including real estate rental, utilities, contractual payments (i.e., consultants, IT, and professional business services), supplies and materials, equipment, and telephone service. GSCs reflect the cost of fringe benefits (i.e., pensions, health insurance) provided to State employees and retirees of the Executive, Legislative and Judicial branches, and certain fixed costs paid by the State, such as taxes on public lands and litigations. Certain agency operations of Transportation and Motor Vehicles are included in the capital projects fund type and are not reflected in the State Operating Funds totals.

Approximately 94 percent of the State workforce is unionized. The largest unions include CSEA, which represents office support staff and administrative personnel, machine operators, skilled trade workers, and therapeutic and custodial care staff; PEF, which represents professional and technical personnel (attorneys, nurses, accountants, engineers, social workers, and institution teachers); UUP, which represents faculty and nonteaching professional staff within the State University system; and NYSCOPBA, which represents security personnel (correction officers, safety and security officers).

Selected assumptions used in preparing the spending projections for the State's major programs and activities are summarized in the following table.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

The majority of State agencies are expected to hold personal service and non-personal service spending constant over the Financial Plan period, with a few exceptions. Costs from collective bargaining agreements, which include 2 percent salary increases in FY 2016 and 1.5 percent increases in FYs 2017 and 2018 (for certain unions), applicable lump sum payments, and repayment of a portion of the deficit reduction adjustment made to employee salaries, are expected to be funded from operational savings.

Gaming and SUNY are areas expected to experience limited programmatic growth. The growth in gaming is attributable to activities related to casino development and oversight. Higher SUNY spending reflects anticipated operating needs primarily supported by tuition.

Payments to NYPA represent an accounting reclassification across certain Financial Plan categories, but do not carry a Financial Plan impact. These payments were previously assumed in the Financial Plan under different categorization, pursuant to funding schedules agreed upon by the State and NYPA.

Other year-over-year increases are technical in nature and reflect funding reclassifications or administrative reconciliations. For example, the continued transition of state agency human resources and financial transaction functions to the Office of General Services (OGS) drives a higher cost in FY 2016 in OGS compared to FY 2015. In addition, the State's workforce is paid on a bi-weekly basis; weekly pay cycles alternate between administrative and institutional payrolls. There are typically 26 pay periods in a fiscal year. In FY 2016, employees on the institutional pay schedule will have one additional payroll.

# State Financial Plan Projections Fiscal Years 2016 Through 2019

In FY 2016, \$12.9 billion or 13.7 percent of the State Operating Funds budget is projected to be spent on personal service costs. This funding supports roughly 99,290 Full-Time Equivalent (FTE) employees under direct Executive control; individuals employed by SUNY and CUNY (43,900) and Independent Agencies (18,100); employees paid on a non-annual salaried basis; and overtime pay. Roughly 70 percent of all Executive agency personal service spending occurs in three areas: SUNY, the Mental Hygiene agencies, and DOCCS.

<sup>2</sup> CUNY employees are funded primarily through an agency trust fund and total additional 13,275 FTEs excluded from the table above.

<sup>3</sup> Legislative employees are non-annual salaried, with the exception of the Lieutenant Governor, who serves as President of the Senate.

## General State Charges

Employee fringe benefit payments, many of which are mandated by statute or collective bargaining agreements, include employer contributions for pensions, the State's share of Social Security, health insurance, workers' compensation, unemployment insurance and dental and vision benefits. The majority of employee fringe benefit costs are paid centrally from statewide appropriations in the GSCs budget.<sup>3</sup> The Judiciary pays its fringe benefit costs directly.

Employee fringe benefits paid through GSCs are paid from the General Fund in the first instance, and then partially reimbursed by revenue collected from fringe benefit assessments. The largest General Fund reimbursement comes from the mental hygiene agencies.

GSCs also include fixed costs for several categories including State payments in lieu of taxes, payments for local assessments on State-owned land, and judgments against the State pursuant to the Court of Claims Act.

GSCs are projected to increase at an average annual rate of 5.5 percent over the Financial Plan period, driven primarily by cost increases for pension contributions and the employer share of costs for employee and retiree health insurance benefits. Pension growth is largely driven by the implementation of generational mortality actuarial assumptions by the New York State and Local Retirement Systems' Actuary, and repayment of prior year amortization obligations -- partly offset by the expectation that a portion of future contributions will be amortized as permissible by law. The Financial Plan includes additional interest savings of approximately \$41 million over the prior year, which is expected by paying the full amount of the 2016 pension bill by July 31, 2015, rather than on a monthly basis or by the statutorily required date of March 1, 2016.

Growth in health insurance spending is attributable to rising costs associated with health care benefits; however, the FY 2016 Financial Plan includes downward adjustments to forecasted spending for health insurance, as a result of revised rate renewal growth assumptions. Fluctuation in the level of other fringe costs reflects the timing of payments and other financial plan adjustments to reflect spending patterns.

<sup>3</sup> Beginning in July 2015, SUNY Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF) and other SUNY fringe benefit costs will no longer be paid directly, but rather shift to the central statewide appropriation.

## Transfers to Other Funds (General Fund Basis)

General Fund transfers help finance the State’s share of Medicaid costs for mental hygiene facilities, debt service for bonds that do not have dedicated revenues, SUNY operating costs, certain capital initiatives, and a range of other activities.

A significant portion of the capital and operating expenses of the DOT and the Department of Motor Vehicles (DMV) are funded from DHBTf. The Fund receives various dedicated tax and fee revenues, including statutory allocations of PBT, motor fuel tax, and highway use taxes. The Financial Plan includes transfers from the General Fund that effectively subsidize the expenses of the DHBTf because the cumulative expenses of the fund – DOT and DMV capital and operating expenses, and certain debt service on transportation bonds – exceed current and projected revenue deposits and bond proceeds.

General Fund transfers to other funds are expected to total \$14.2 billion in FY 2016, a \$5.6 billion increase from FY 2015, largely derived from the one-time transfer of \$4.6 billion in monetary settlement moneys to the DIIF. The funding will be used to make targeted investments in various areas, including the Thruway Stabilization and Upstate Revitalization programs. In addition, \$850 million in monetary settlement funds previously reserved for Financial Plan risk will be used to pay a portion of a \$1.95 billion Federal Medicaid disallowance associated with OPWDD-operated treatment facilities. The remaining balance of the Medicaid disallowance repayments will be transferred in annual amounts of \$100 million for 11 years beginning in FY 2017.

## Debt Service

The State pays debt service on all outstanding State-supported bonds. These include General Obligation bonds, for which the State is constitutionally obligated to pay debt service, as well as certain bonds issued by State public authorities (e.g., Empire State Development (ESD), DASNY, and the New York State Thruway Authority (NYSTA), subject to an appropriation). Depending on the credit structure, debt service is financed by transfers from the General Fund, dedicated taxes and fees, and other resources such as patient income revenues.

Total debt service is projected at \$5.1 billion in FY 2016, of which approximately \$836 million is paid from the General Fund through transfers, and \$4.2 billion from other State funds. The General Fund transfer finances debt service payments on General Obligation and service contract bonds. Debt service is paid directly from other State funds, subject to appropriation, for the State's revenue bonds, including PIT and Sales Tax bonds, DHBTB bonds, and mental health facilities bonds.

Financial Plan estimates for debt service spending have been revised to reflect a number of factors, including actual results to date. FY 2016 debt service spending estimates continue to assume the prepayment of \$100 million of debt service due during FY 2017.

# **FY 2016 Year-to-Date Operating Results**

This section provides a summary of operating results for April 2015 through June 2015 compared to (1) the initial projections set forth in the FY 2016 Enacted Budget; and (2) the results for the prior fiscal year (April 2014 through June 2014).

## General Fund Results

The State ended June 2015 with a General Fund closing balance of \$11.1 billion, \$1.9 billion higher than initially estimated in the FY 2016 Enacted Budget Financial Plan. The increase reflects the combined impact of earlier than expected tax receipts (\$741 million); slower than planned spending (\$656 million); and the receipt of an unanticipated monetary settlement (\$485 million) from Barclays.

<sup>1</sup> Includes transfers from other funds after debt service.

## Receipts

Through June 2015, General Fund receipts, including transfers from other funds, were \$1.2 billion higher than the initial plan due to higher tax receipts (\$741 million) and miscellaneous receipts (\$488 million).

The increase in tax collections includes higher PIT receipts (\$529 million) due to stronger than anticipated estimated payments and lower than expected refunds; higher other taxes (\$106 million), as the State received three atypically large estate tax payments and New York City real estate transfer tax payments from luxury condominiums continue to exceed estimates; higher business tax collections (\$75 million) from greater than estimated corporate franchise tax gross receipts; and higher user tax collections (\$31 million) attributable to taxable purchases.

Though year-to-date tax collections were \$741 million above plan, they are likely the result of timing of payments and thus annual estimates remain unchanged from the Enacted Budget.

Miscellaneous receipts were higher than initial projections, largely due to an unanticipated monetary settlement of \$485 million from Barclays for its violation of banking laws, particularly regarding electronic foreign exchange trading.

## Spending

Through June 2015, General Fund disbursements, including transfers to other funds, were \$656 million lower than initial projections due to lower spending in local assistance (\$316 million) and agency operations (\$146 million); and lower net transfers (\$194 million).

The local assistance variance is primarily attributable to the timing of payments in the Child Welfare (\$224 million) and TAP (\$153 million) programs, both of which are expected to occur within the second quarter of the fiscal year.

Agency operational spending was lower in non-personal service (\$60 million) across a number of agencies, including in the Office of Information Technology Services where costs have been offset by non-General Fund accounts at a higher rate than initially estimated. In addition, GSCs spending was lower than anticipated (\$80 million) due to higher escrow receipts from other funds, which offset General Fund spending and interest savings generated by the early payment of the Judiciary's entire pension bill in May.

Lower General Fund transfers include delayed State-share Medicaid transfers to mental health facilities (\$157 million) and State-share Medicaid payments to SUNY hospitals (\$105 million) due to administrative processing delays by DOH; which are partly offset by higher transfers to fund capital projects (\$84 million).

## State Operating Funds Results

The State ended June 2015 with a closing balance of \$15.2 billion in State Operating Funds, or \$1.7 billion above the FY 2016 Enacted Budget Financial Plan projection. This variance is comprised of higher receipts (\$1.2 billion), lower spending (\$832 million), and lower financing from other sources (\$329 million).

## Receipts

Through June 2015, total receipts in State Operating Funds were \$1.2 billion higher than the FY 2016 Enacted Budget Financial Plan projections. This variance is consistent with the General Fund results described above.

## Spending

State Operating Funds spending was \$832 million lower than initial projections due to lower spending in both local assistance (\$658 million) and agency operations (\$165 million).

In addition to the General Fund variances described above, local assistance spending in other State funds was lower than anticipated in education aid and mental hygiene programs.

## Other Financing Sources

Other financing sources, which represent the difference between transfers to and from State Operating Funds, were \$329 million lower than initial estimates due mainly to the delayed processing of disproportionate Federal-share Medicaid reimbursements to mental hygiene facilities and SUNY hospitals.

## Capital Projects Results

The State ended June 2015 with a Capital Projects closing balance of negative \$527 million, \$86 million higher than the initial projection, mainly due to additional transfers from the General Fund in support of DIIF.

## Receipts

Through June 2015, total receipts in Capital Projects Funds were \$37 million lower than initial projections, mainly due to lower than anticipated receipts for the Department of Environmental Conservation (DEC) and the DHBTF.

## Spending

Capital spending was generally in line with the initial plan estimates, with modest underspending for projects in the areas of education and environmental conservation.

## Other Financing Sources

Other financing sources were \$92 million higher than initial estimates, primarily due to accelerated General Fund financing for DIIF.

## All Governmental Funds Results

The State ended June 2015 with an All Governmental Funds closing balance of \$14.8 billion, \$2.0 billion above the FY 2016 Enacted Budget Financial Plan projections. The higher balance reflects higher receipts (\$1.4 billion) and lower spending (\$588 million).

## Receipts

Through June 2015, total All Funds receipts were \$1.4 billion higher than initial projections. The increase is attributable to higher tax receipts (\$749 million); miscellaneous receipts (\$376 million); and Federal grants (\$301 million).

This tax and miscellaneous receipts variance is consistent with the General Fund results described above. In addition, Federal grants were \$301 million higher than planned due primarily to advanced Federal quarterly allocation of grants associated with BHP.

## Spending

Through June 2015, All Funds spending was \$588 million below FY 2016 Enacted Budget initial projections. In addition to the State Operating Funds spending variances described earlier, Federal Operating Funds spending was \$274 million higher than initially planned, which is largely due to Medicaid spending.

## All Governmental Funds Annual Change

The All Governmental Funds balance through June 2015 was \$14.8 billion, \$7.0 billion higher than the June 2014 balance. This higher balance is attributable to a combination of a higher opening balance (\$5.3 billion), growth in receipts (\$3.0 billion), higher spending (\$1.3 billion); and increased other financing sources (\$62 million).

## Receipts

The \$1.9 billion annual increase in All Funds tax receipts through June 2015 reflects higher PIT receipts (\$2.1 billion) due to an increase in estimated payments attributable to the 2014 and 2015 tax years and lower than expected refunds; higher other taxes (\$194 million) due to the timing of a typically large estate tax payments and New York City real estate transfer tax payments that continue to surpass expectations; and higher user taxes (\$136 million) due to an increase in taxable purchases. These higher annual receipts are partly offset by lower business tax receipts (\$559 million) due to timing.

The \$1 billion year-over-year increase in miscellaneous receipts reflects \$1.7 billion in additional fines, penalties, and forfeitures (including windfall monetary settlements paid to the State); higher bond proceeds receipts to finance Capital Projects (\$599 million); and increased revenue in the Provider Assessment (\$101 million) and HCRA (\$76 million) accounts. These increases are offset by a reduction to miscellaneous receipts associated with the use of \$850 million in monetary settlements to pay for the FY 2016 cost resolution of the Federal OPWDD Disallowance of prior year revenue; and by \$750 million in lower SIF assessment reserves transferred to the State consistent with the terms of FY 2014 enacted legislation.

## Spending

Through June 2015, All Funds spending increased by \$1.3 billion over the prior year, comprised of a \$1.1 billion increase in State Operating Funds, a \$180 million increase in Federal Operating Funds, and an \$83 million increase in Capital Projects Funds.

The increase in State Operating Funds reflects increased education (\$416 million) and health care (\$413 million) spending associated with enacted budget increases for School Aid and Medicaid, respectively. In addition, there was a timing-related increase for higher education spending (\$193 million) due to a FY 2016 CUNY Senior College payment that was made one month earlier than the prior year. The \$97 million decrease in operational spending is mainly attributable to lower fringe benefit costs. Lower debt service payments in FY 2016 is attributable to FY 2015 prepayments, which is consistent with prior years' practice of prepaying debt service obligations due in the subsequent fiscal year.

The Federal Operating Funds spending increase is largely due to new costs under the BHP and higher than planned Medicaid spending; offset by lower spending in Education likely due to the timing of claims processing.

Higher Capital Projects spending (\$83 million) mainly occurred for projects in the area of transportation.

# **Financial Plan Tables and Accompanying Notes**

The notes to the Financial Plan tables herein should be read in conjunction with the tables that follow.

## Note 1 — Basis of Accounting

Pursuant to law, all Financial Plan tables presented herein are prepared on the cash basis of accounting, unless otherwise noted. Under the cash basis of accounting, revenues are recognized when received, and spending is recorded when cash is disbursed.

## Note 2 — Fund Types and Perspectives

The State records its transactions in the following fund types:

### Governmental Funds

**General Fund** - This is the major operating fund of the State. It receives all State income not earmarked for a particular program or activity and not specified by law to be deposited in another fund. State income for Financial Plan purposes consists of moneys (taxes, fees, and miscellaneous receipts including certain repayments of State advances) deposited to the credit of the General Fund or transferred from other funds during the fiscal year.

**Special Revenue** - These funds account for State receipts from specific revenue sources and are legally restricted to disbursement for specified purposes. This governmental fund type is divided into two classifications: (1) State Special Revenue Funds and (2) Federal Special Revenue Funds. An example of a State Special Revenue Fund is the Conservation Fund which finances a number of State environmental programs. An example of a Federal Special Revenue Fund is the Health and Human Services Fund which finances various social services programs, including Medicaid and public assistance. Although any earmarked revenue fund is treated as a Special Revenue Fund for cash-basis budgeting and reporting purposes, some are combined with the General Fund for purposes of reporting on the basis of GAAP.

**Debt Service** - All tax-financed State debt service on long-term debt and payments on certain lease-purchase or other contractual obligations are paid from Debt Service funds. These account for the accumulation of money for, and the payment of principal and interest on, general long-term debt. Lease-purchase payments for Health and Mental Hygiene facilities under contractual agreements with public authorities are also paid from funds classified as Debt Service funds. Debt service on highway bonds supported by dedicated highway revenues is also reflected in this fund type. Sources of revenue for this fund type include transfers from the General Fund, dedicated taxes, and other revenues.

**Capital Projects** - These funds finance a variety of capital construction costs including: (1) planning, land acquisition, design, construction, construction management and supervision, and equipment costs; (2) highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects, and buildings and other capital facilities required by various State departments and agencies; (3) payments to local governments to help finance their capital

programs, including highway, parkway, bridge, mass transportation, aviation, economic development, port development, community college, community and State mental health, outdoor recreation, State-assisted housing, and environmental quality; and (4) advances for capital construction costs reimbursable by public authorities, instrumentalities of the State, the Federal government or local governments. Sources of revenue for this fund type include transfers from other State funds such as the General Fund, dedicated taxes and other revenues, reimbursement of advances, bond proceeds, and Federal capital grants.

## **State Operating Funds**

The State Funds operating budget is a broader measure of spending for operations (as distinct from capital purposes) that is funded with State resources. It comprises the General Fund and other State-supported activities financed by dedicated revenues in State Special Revenue funds, as well as Debt Service funds accounting for the payment of debt service on all tax-financed State long-term debt.

## **Proprietary Funds**

**Internal Service Funds** - Account for the financing of goods or services supplied by one State agency to other State agencies or governmental units on a cost-reimbursement basis.

**Enterprise Funds** - Account for operations that are similar to private business enterprises.

The Internal Service funds and Enterprise funds are treated as Proprietary funds for cash-basis budgeting and reporting purposes, and are combined with the General Fund for purposes of reporting on a GAAP basis.

## **Fiduciary Funds**

**Private-Purpose Trust Funds** - Account for all trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

**Pension Trust Fund** - Accounts for the cash-basis results of operations for the administrative portion of the State's Common Retirement Fund. It does not reflect investment activity, balances, or other assets available to this Fund. In addition, pension contributions and payments to retirees are excluded since these payments are not required to be appropriated.

**Agency Funds** - Account for funds held by the State in a purely custodial capacity. Cash is held temporarily until disbursements are made to individuals, private organizations, or other governments.

## Note 3 – Disbursement Descriptions

The State's Financial Plan and reporting include only those payments made pursuant to an appropriation and paid from funds available in the State Treasury. All State spending is classified in one of the following categories:

**Local Assistance Grants** - Include payments to counties, cities, towns, villages, school districts and other local entities, as well as certain financial assistance to, or on behalf of, individuals and nonprofit organizations.

**Personal Service** - Includes the payment of salaries and compensation for State employees.

**Non-Personal Service** - Includes payments for operational costs, such as miscellaneous contractual obligations, supplies and materials, travel, rentals and repairs, utilities, postage and shipping, printing, telephone, and other operating costs.

**GSCs** - Include costs mandated by statute, collective bargaining agreements or court order. Charges in this category can be further subdivided into the following:

Fringe Benefits: Contributions to pension systems, the employer's share of Social Security contributions, employer contributions toward the cost of health insurance, workers' compensation and unemployment insurance, and contributions to union employee benefit funds which provide vision care and other services.

Fixed Costs: For State payments in lieu of taxes, as well as payments for local assessments on State-owned land, judgments against the State pursuant to the Court of Claims Act, defenses by private counsel or alternatively payments on behalf of State officers and employees in civil judicial proceedings.

**Debt Service** - Includes payments made for tax-financed State debt service on long-term debt; contractual-obligation and lease-purchase arrangements with several public authorities and municipalities; and lease-purchase payments for Health and Mental Hygiene facilities.

**Capital Projects** - Include payments made for the acquisition or construction of the State's capital facilities. Included in this category are planning, land acquisition, design, construction, engineering services, and equipment costs attributable to highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects; payments to local government units and public authorities to help finance highways, parkways, bridges, mass transportation, aviation, economic development, port development, community colleges, community and State mental hygiene buildings, outdoor recreational parks, correctional facilities and State-assisted housing as well as environmental quality projects. Advances are made for capital construction costs reimbursable by public authorities, the Federal or local governments, or from the proceeds of State bond and note sales.

**Bond Proceeds** - Includes the proceeds of General Obligation Bonds and short-term notes issued in the form of commercial paper or Bond Anticipation Notes (BANs), and are stated net of notes redeemed from the proceeds of long-term bonds or reissued notes.

**Operating Transfers** - Constitutes legally authorized transfers from a fund receiving revenues, to a fund through which disbursements will ultimately be made.

## Note 4 — Reservations of General Fund Balance

Fund balance may be legally segregated for specific future use or set aside informally for specified purposes. The following terms are used in the reporting of reservations of balances in the General Fund:

**Tax Stabilization Reserve Fund** - Created pursuant to law in order to provide a reserve to finance a cash-basis operating deficit in the General Fund at the end of the fiscal year, and to make temporary loans to the General Fund during the year. Annual deposits may not exceed 0.2 percent of General Fund spending, and the balance may not exceed 2 percent of General Fund spending. These amounts may be borrowed by the General Fund temporarily and repaid within the same fiscal year. They may also be borrowed to cover an operating deficit at year end, but these loans must be repaid within six years in no less than three annual installments.

**Rainy Day Reserve Fund** - Created pursuant to law, to account for funds set aside for use during economic downturns or in response to a catastrophic event, as defined in the law. The economic downturn clause is triggered after five consecutive months of decline in the State's composite index of business cycle indicators. The reserve may have a maximum balance equal to 5 percent of projected General Fund spending during the fiscal year immediately following the then-current fiscal year.

**Contingency Reserve Fund** - Created pursuant to law to provide a reserve to fund extraordinary needs arising from litigation against the State. These amounts may be used for payment of judgments against the State where the amount is in excess of \$25 million and such payments are not previously appropriated, or emergency payments relating to natural or physical disasters, or to make payments for the enhancement of the State's economy.

**Community Projects Fund** - Created pursuant to law to finance discretionary, usually local, projects ("member items") sponsored by individual legislators and the Governor. In previous years, the Budget included lump sum appropriations for the Governor, Senate and the Assembly, to be designated for various grants, awards and contracts with local governments, not-for-profit organizations and community groups. The FY 2016 Budget includes no new appropriations.

**Debt Management** - Reserved for i) the payment of principal, interest, or related expenses, ii) retiring or defeasing existing State-supported debt obligations, including accrued interest, and iii) the funding of capital projects, equipment, or similar expenses that would otherwise be financed with debt.

**Undesignated Fund Balance** - From time to time, DOB will informally designate unrestricted balances in the General Fund for specific policy goals. These amounts are typically identified with the phrase “reserved for”.

**Prior-Term Labor Agreements** - Due to the nature of the timing of labor agreements, DOB will informally reserve balances for possible prior-year costs for unions without current contracts.

**Monetary Settlements** - Includes balance of receipts from monetary settlements. See page 22 for more information.

## Note 5 — Spending Adjustments

Certain Special Revenue accounts formerly reported in the Financial Plan as Federal Operating Funds have been reclassified to State Operating Funds. The State changed this reporting with the FY 2012 Executive Budget. This change has the effect of increasing the reported disbursements from State Operating Funds, and reducing reported disbursements from Federal Operating Funds by an equal amount. Accordingly, there is no impact on the State's reported All Governmental Funds spending totals.

## Note 6 — Items Affecting Annual Comparability

**American Recovery and Reinvestment Act of 2009 (ARRA)** - On February 17, 2009, President Barack Obama signed into law the ARRA of 2009. This Act contains provisions for direct Federal aid for fiscal relief, consisting of increases in the Federal matching rate for eligible State Medicaid expenditures, and funds provided through the State Fiscal Stabilization Fund to restore proposed reductions in education, higher education, and to maintain essential government services. Primary ARRA-related support ended in FY 2012.

**Superstorm Sandy** - In October 2012, Superstorm Sandy caused widespread flooding, power failures, and wind damage to public and private property in New York City, Long Island, and other downstate areas. Public infrastructure, including mass transit systems, public schools, and municipal buildings, sustained serious damage. The FY 2016 Budget reflects Federal aid which will flow to local governments, public authorities, and not-for-profits over the next three years to continue the State's recovery from Superstorm Sandy.

## Federal Health Care Transformation

- **Affordable Care Act** - The ACA, which became effective January 1, 2014, is intended to provide access to health insurance coverage, ensure appropriate access to care, and to contain escalating health care costs. The FY 2016 Financial Plan reflects the impact of the ACA in a number of ways, including, but not limited to, the benefit of lower costs associated with the State share of Medicaid as a result of enhanced Federal funding provided for Medicaid costs and program expansion. In addition, beginning in FY 2015, DOH assumed new costs associated with operating the NYSOH insurance benefit exchange, which is the State's single point of access insurance marketplace as mandated by the ACA, and began implementing new information systems designed to improve health insurance claiming.
- **Federal Delivery Service Reform Incentive Payments** - On April 14, 2014 Governor Andrew M. Cuomo announced that terms and conditions were finalized between the State and Federal governments, allowing the State to reinvest \$8 billion in Federal savings generated by MRT reforms. The waiver amendment will address critical health care issues statewide and allow for comprehensive reform through a DSRIP program. The DSRIP program will promote community-level collaborations and focus on system reform, specifically a goal to achieve a 25 percent reduction in avoidable hospital use over five years, and clinical and population health improvements. The FY 2016 Financial Plan reflects the impact of the DSRIP program through additional Federal funds disbursements of approximately \$7 billion over the five-year planning period. The remainder of the DSRIP program reinvestment funding is expected to be disbursed beyond the current planning period.
- **Basic Health Plan (The Essential Plan)** - The BHP is a health insurance program, authorized through the provisions of the ACA. The FY 2015 Enacted Budget authorized the State's option to participate in the BHP. The FY 2016 Enacted Budget assumes the State will participate and begin phasing in certain legally residing immigrants currently receiving State-only Medicaid coverage. Individuals who meet the eligibility standards of the BHP will be enrolled through the NYSOH insurance exchange, with the cost of insurance premiums subsidized by the State and Federal government. When fully implemented, approximately 75 percent of program expenditures are expected to be financed with Federal funding. The State funding for BHP in the FY 2016 Budget is offset by State Funds Medicaid program savings, and additional Federal Funds are recognized through the duration of the planning period.

**Mergers** - State agency mergers in recent years include the following:

- The New York State Gaming Commission was created on February 1, 2013. The Commission merged the functions and responsibilities of the former Division of the Lottery and the former Racing and Wagering Board. As such, actual and estimated spending beginning in FY 2014 is reflected in the new agency.
- The activities of the Commission on Quality of Care and Advocacy for Persons with Disabilities were subsumed by the New York State Justice Center for the Protection of People with Special Needs when it became operational on June 30, 2013.
- Division of Parole merged with the Department of Correctional Services to become the new Department of Corrections and Community Services.
- Consumer Protection Board merged into DOS.
- Foundation for Science, Technology, and Innovation merged into the Department of Economic Development.
- Banking and Insurance Departments merged into a new agency known as the Department of Financial Services.

## **Note 7 – State Funding of SUNY Operating Support**

As part of the FY 2013 Budget, the State changed the process through which SUNY receives the State share of its operating support, from direct General Fund spending to General Fund transfers. SUNY's special revenue tuition offset account, which was traditionally used to offset the State's direct General Fund spending for SUNY operations, now reflects all spending for the university operations, effective with the academic year that began in July 2012. All General Fund support for SUNY operations is now transferred by the General Fund to this special revenue account, supplementing tuition revenue also being received by this account, and from which all university operations are funded.

## **Note 8 – Off-Budget Transactions**

Represent certain capital spending that is not reported in cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities, rather than from a loan from STIP or the General Fund.

## **Note 9 – General Fund/HCRA Combined Gap**

The FY 2015 Enacted Budget extended the HCRA authorization through March 31, 2017. HCRA is projected to remain balanced through FY 2019. However, any unaddressed shortfall would need to be financed by the General Fund or reduction in HCRA programs.

## **Note 10 – MTA Financial Assistance Fund**

The Metropolitan Commuter Transportation Mobility Tax (Mobility Tax) is imposed on certain employers and self-employed individuals engaging in business within the MCTD. This revenue source is collected by the State on behalf of, and disbursed in its entirety to, the MTA. Due to requirements of the enabling legislation, the tax is reflected in the State's Special Revenue Funds, increasing estimated receipts and disbursements.

Additional funding to support the total aid provided to the MTA is provided through a transfer from the General Fund, pursuant to December 2011 tax reform legislation which exempts school districts and small businesses operating within the MCTD from the provisions of the Mobility Tax.

## **Note 11 – Changes to the Medicaid Program**

Since January 2006, the State has paid the entire non-Federal share of the FHP program and any annual Medicaid increases above a fixed level that would have otherwise been paid by Local Social Services Districts. These statutory indexing provisions were amended through legislation included in the FY 2013 Enacted Budget to implement a three-year phased-takeover of the Local Social Services Districts' share of all growth above the previous year's enacted levels beginning on April 1, 2013 for County Year 2013, with the State assuming all growth in County Year 2015.

## **Note 12 – Statewide Cash Flow Administration**

OSC invests General Fund moneys, bond proceeds, and other funds not immediately required to make payments through STIP, which is comprised of joint custody funds (Governmental Funds, Internal Service Funds, Enterprise Funds and Private Purpose Trust Funds), as well as several sole custody funds including the Tobacco Settlement Fund.

OSC is authorized to make short-term loans from STIP to cover temporary cash shortfalls in certain funds and accounts, including the General Fund, resulting from the timing of receipts and disbursements. The Legislature authorizes the funds and accounts that may receive loans each year, based on legislation submitted annually. Loans may be granted only for amounts that the Director of the Budget certifies are "receivable on account" or can be repaid from the current operating receipts of the fund (i.e., loans cannot be granted in expectation of future revenue enhancements).

### **Note 13 — Transfer Eliminations**

The Special Revenue Funds and Capital Projects Funds include transfers of resources between Federal and State accounts within each fund. In some instances, Federal aid that is initially deposited into a Federal account is transferred to State accounts where the aid is used to support the programs it is intended to fund. To avoid recording spending twice, initially as the transfer of resources to another account and subsequently when payments are made, these transfers are eliminated in these funds. The transfer eliminations are consistent with the State Comptroller's accounting practices shown in Exhibit A of the Comptroller's Annual Report to the Legislature.

### **Note 14 — Current Cash Flow Projections**

The State authorizes the General Fund to borrow resources temporarily from available funds in STIP for up to four months, or to the end of the fiscal year, whichever period is shorter. The State last used this authorization in April 2011 when the General Fund needed to temporarily borrow a minimal amount of funds from STIP for a period of five days. The amount of resources that can be borrowed by the General Fund is limited to the available balances in STIP, as determined by the State Comptroller. Available balances include money in the State's governmental funds and a relatively small amount of other money belonging to the State. Several accounts in Debt Service Funds and Capital Projects Funds that are part of All Governmental Funds are excluded from the balances deemed available in STIP. These excluded funds consist of bond proceeds and money obligated for debt service payments.

### **Note 15 — Temporary Loans Summary**

The total outstanding loan balance as of March 31, 2015 was \$2.3 billion, comprised of advances for bond-reimbursable capital spending pending the receipt of bond proceeds (\$1 billion), activities that are financed initially by the State pending Federal receipt (\$719 million), State Special Revenue Funds (\$323 million), and Proprietary Funds (\$234 million).

The total loan balance typically increases throughout the State fiscal year, reaching its peak between the second and third quarters. The spike mainly reflects the payment of lottery aid for education, which is financed in large part by a loan that is repaid over the course of the year as lottery revenues are received.

## Note 16 — Pension Amortization

The Financial Plan projections assume that the State and OCA will amortize pension costs above a certain percentage of payroll, as authorized by legislation enacted in FY 2011. Amortization (deferment of payment) temporarily reduces the pension costs that must be paid by the State in a given fiscal year, but results in higher costs overall when repaid with interest. Consistent with the authorizing legislation, the interest cost is calculated by OSC. In FY 2015, the interest rate charged on the deferred amounts was 3.15 percent. Beginning in FY 2016, repayments of amortizations in the following table assume that 3.15 percent interest will continue to be charged. The amortization threshold (the “graded rate”) is projected to exceed the normal rate in each of the next four fiscal years. Therefore, amortization of State and OCA pension costs is also projected through FY 2019.

STATE PENSION COSTS AND AMORTIZATION SAVINGS (millions of dollars)									
	FY 2011	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018	FY 2019

## Note 17 — 2 Percent Spending Benchmark

The line on the Financial Plan tables labeled “Adherence to 2 percent Spending Benchmark” is the estimated savings that would be realized by limiting annual spending growth in future years to 2 percent. The Governor is expected to propose, and negotiate with the Legislature to enact, budgets that hold State Operating Funds spending growth to 2 percent. The General Fund operating projections assume that all savings from adhering to 2 percent spending growth are made available to the General Fund.

## Note 18 — Reclassification of SUNY Dormitory Income Fund

Legislation included with the FY 2014 Enacted Budget created a new bonding program for SUNY Dormitory Facilities. The program is supported solely by third-party revenues generated by student rents. All rental revenues initially flow to DASNY for the payment of debt service on SUNY Dormitory Facilities, after which the balance of rental revenues is credited to the State's SUNY Dormitory Income fund to support other costs associated with SUNY Dormitory Facilities. There will be no prospective debt service spending from the SUNY Dormitory Income fund, and therefore this fund was reclassified from a Debt Service Fund to a Special Revenue Fund of the State, effective in FY 2015.

Reflects certain capital spending that is not reported in actual cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities rather than from a short-term loan from the Short-Term Investment Pool or cash from the General Fund.
