## **AMENDMENTS TO EXECUTIVE BUDGET FINANCIAL PLAN**

The State Constitution permits the Governor to submit amendments to the Executive Budget within 30 days of its constitutional submission date. The Governor submitted amendments during the 30-day period that have no impact on the multi-year forecast of receipts and disbursements set forth in the in Executive Budget Financial Plan dated January 17, 2012. Accordingly, this Executive Budget Financial Plan, updated for amendments, is identical to the Financial Plan dated January 17, 2012, with the following exceptions:

- The discussion of operating results to date has been updated to include results through January 2012.
- Certain economic information has been updated based on the release of new data. The changes are consistent with the January 17, 2012 forecast for projected tax receipts.
- The overall estimates for personal income tax receipts are unchanged, but its components (e.g., withholding; estimated payments) have been updated.

# INTRODUCTION

The Governor submitted his Executive Budget for FY 2013 to the Legislature on January 17, 2012. The Executive Budget Financial Plan dated January 17, 2012 set forth the multi-year forecast of receipts and projections based on the Governor's proposed Budget.

The State Constitution permits the Governor to submit amendments to the Executive Budget within 30 days of its constitutional submission date. The Governor submitted amendments to the Executive Budget for FY 2013 on February 7, 2012 and February 16, 2012, as permitted by law.

The Financial Plan projections set forth herein are consistent with the projections set forth in the Executive Budget Financial Plan, as the Governor's amendments have no material impact on the multi-year forecast of receipts and disbursements.

This Executive Budget Financial Plan for FY 2013 (the "Executive Budget" or "Executive Budget Financial Plan") summarizes the State of New York's official Financial Plan projections for FYs 2012 through 2016. The State's FY 2013 will begin on April 1, 2012 and end on March 31, 2013. The Financial Plan projections reflect the impact of the Governor's Executive Budget for FY 2013, including amendments.

The State's General Fund — the fund that receives the majority of State taxes and all income not earmarked for a particular program or activity — is required to be balanced on a cash basis of accounting. The State Constitution and State Finance Law do not define budget balance. In practice, the General Fund is considered balanced on a cash basis of accounting if sufficient resources are expected to be available during the fiscal year for the State to (a) make all required payments, including personal income tax refunds, without the issuance of deficit notes or bonds, and (b) restore the balances in the Tax Stabilization Reserve and Rainy Day Reserve to levels at or above the levels on deposit when the fiscal year began.

The General Fund is typically the financing source of last resort for the State's other major funds, including HCRA<sup>1</sup> funds, the DHBTF, the STAR Fund, and the Lottery Fund. Therefore, the General Fund projections account for any estimated funding shortfalls in these funds. Since the General Fund is the fund that is required to be balanced, the focus of the State's budget discussion is often weighted toward the General Fund.

The State accounts for receipts and disbursements by the fund in which the activity takes place (such as the General Fund), and the broad category or purpose of that activity (such as State Operations). The Financial Plan tables sort State projections and results by fund and category. The State also reports disbursements and receipts activity by two other broad measures: State Operating Funds, which includes the General Fund and funds specified for dedicated purposes, but excludes Federal Funds and Capital Projects Funds; and All Governmental Funds ("All Funds"), which includes both State and Federal Funds and provides the most comprehensive view of the financial operations of the State.

## **INTRODUCTION**

---

Fund types of the State include: the General Fund; State Special Revenue Funds, which receive certain dedicated taxes, fees and other revenues that are used for a specified purpose; Federal Special Revenue Funds, which receive certain Federal grants; Capital Projects Funds, which account for costs incurred in the construction and rehabilitation of roads, bridges, prisons, and other infrastructure projects; and Debt Service Funds, which account for the payment of principal, interest, and related expenses for debt issued by the State and its public authorities.

The factors affecting the State's financial condition are complex. This Executive Budget Financial Plan contains forecasts, projections and estimates that are based on expectations and assumptions which existed at the time they were prepared. Since many factors may materially affect fiscal and economic conditions in the State, the inclusion in this Executive Budget Financial Plan of forecasts, projections, and estimates should not be regarded as a representation that such forecasts, projections, and estimates will occur. Forecasts, projections and estimates are not intended as representations of fact or guarantees of results. The words "expects," "forecasts," "projects," "intends," "anticipates," "estimates," and analogous expressions are intended to identify forward-looking statements in the Executive Budget Financial Plan. Any such statements inherently are subject to a variety of risks and uncertainties that could cause actual results to differ materially and adversely from those projected. Such risks and uncertainties include, among others, general economic and business conditions, changes in political, social and economic conditions, impediments to the implementation of gap-closing actions, regulatory initiatives and compliance with governmental regulations, litigation and various other events, conditions and circumstances, many of which are beyond the control of the State. These forward-looking statements speak only as of the date they were prepared.

## EXECUTIVE SUMMARY

### UPDATED FISCAL SITUATION

#### FY 2012

- The Mid-Year Update to the Financial Plan<sup>2</sup> estimated that the General Fund had a potential budget shortfall of \$350 million in the current fiscal year, which was expected to be closed through administrative actions.
- Based on a review of updated disbursement patterns (as modified by ongoing spending controls), the availability of excess cash balances in other funds, and other factors, DOB now expects the General Fund to end the current fiscal year in balance<sup>3</sup> on a cash basis of accounting. Significant risks remain, however, especially concerning tax collections in the final quarter of the (See “Current Fiscal Year (FY 2012)” herein.)

#### FY 2013

- For FY 2013, DOB projects a budget gap of \$3.5 billion, the upper end of the potential gap range identified in the Mid-Year Update, based on a review of updated economic and receipts data. (See “Multi-Year Financial Plan Projections” herein.)
- The budget gaps projected for the future years of the Financial Plan have been increased to the upper end of their Mid-Year range and now total \$3.6 billion in FY 2014 and \$5 billion in FY 2015. All other changes to the gaps, including the impact of tax reform legislation enacted in December 2011, are described as part of the Executive Budget gap-closing plan. (See “Explanation of Executive Budget Gap-Closing Plan” herein.)
- Budget gaps represent the difference between projected General Fund disbursements, including transfers to other funds needed to maintain current services and specific commitments, and the expected level of resources to pay for them.<sup>4</sup> The gaps are based on a number of assumptions and projections developed by DOB in conjunction with other State agencies.<sup>5</sup>
- The General Fund is typically the financing source of last resort for the State’s other major funds, including HCRA, DHBTF, the STAR Fund, and the Lottery Fund. Therefore, the General Fund projections account for any estimated funding shortfalls in these funds.

---

<sup>2</sup> November 11, 2011.

<sup>3</sup> Neither the State Constitution nor State Finance Law provides a precise meaning of budget balance. In practice, the General Fund is considered "balanced" on a cash-basis of accounting if, at the end of a State fiscal year, all planned payments, including PIT refunds, have been made without the issuance of deficit notes or bonds, and the balances in the Tax Stabilization Reserve and Rainy Day Reserve have been restored to levels at or above the levels on deposit when the fiscal year began.

<sup>4</sup> Typically referred to as the “current services” or “base” gaps.

<sup>5</sup> See DOB’s Economic, Revenue, and Spending Methodologies, November 2011, at [www.budget.ny.gov](http://www.budget.ny.gov).

### EXECUTIVE BUDGET FOR FY 2013

- The Governor submitted his Executive Budget for FY 2013 to the Legislature on January 17, 2012, and amendments on February 7, 2012 and February 16, 2012, as permitted by law<sup>6</sup>. The Governor's amendments have no material impact on the multi-year forecast of receipts and disbursements and therefore the Executive Budget Financial Plan projections set forth herein are unchanged<sup>7</sup>.
- Governor Cuomo's Executive Budget for FY 2013 continues the reformation of State finances that began with the budget for FY 2012. The Executive Budget would eliminate the General Fund budget gap of \$3.5 billion in FY 2013 and result in substantially lower budget gaps in future years.
- If enacted as proposed, the Executive Budget would hold annual spending growth in State Operating Funds to 1.9 percent. All Governmental Funds spending would decline by \$225 million (-0.2 percent) from the level estimated for FY 2012. All Funds spending in FY 2013 is expected to be \$2.3 billion (-1.7 percent) below actual spending in FY 2011, the most recent budget enacted before Governor Cuomo took office.
- The gap-closing plan for FY 2013 consists of \$2 billion in savings from spending control and \$1.5 billion in net new resources from tax reform approved in December 2011. (See "Explanation of Executive Budget Gap-Closing Plan" herein.)
- State agency savings (\$1.14 billion) build on redesign and cost-control efforts initiated in FY 2012. These include further reductions in State agency operations through attrition and strict controls on hiring; enterprise-wide consolidation of procurement, information technology, real estate, and workforce management functions; and a range of operational measures to improve efficiency. The total cost of State Operating Funds agency operations (which consist of personal service, fringe benefit, and non-personal services costs) is estimated at \$23.5 billion in FY 2013, a decrease of 0.4 percent from the FY 2012 estimate.
- Widening the scope of FY 2012 reforms, key savings proposals in local assistance (\$756 million) target automatic spending increases that are unrelated to performance or actual costs. The most significant proposal would repeal automatic "cost-of-living" increases and trend factors in FY 2013 for all human service providers, and grant all future increases, starting in FY 2014, through a rational, performance-based awards system. Other proposed savings include continued programmatic, auditing, and financial reviews, elimination of subsidies, and other measures. Disbursements for State Operating Funds local assistance are projected to total \$59.1 billion in FY 2013, an annual increase of 2.6 percent.

---

<sup>6</sup> The State Constitution permits the Governor to amend his Executive Budget proposal within 30 days of its constitutional submission. State Finance Law requires the Governor to make all practicable efforts to amend the budget within 21 days.

<sup>7</sup> The overall forecast for tax receipts in all years of the plan period remain unchanged compared to the Financial Plan dated January 17, 2012; however, adjustments have been made to the estimates for individual components of Personal Income Tax ("PIT") receipts.

## FINANCIAL PLAN OVERVIEW

---

- The Executive Budget honors the two-year commitment made in FY 2012 to fund School Aid (on a school year basis) at a level consistent with the growth in NYS personal income, and Medicaid at the long-term average of the medical component of the Consumer Price Index. In FY 2013, State funding for both programs increases by approximately 4 percent from their 2012 levels.
- Consistent with principles of sound fiscal management, the gap-closing plan generates recurring savings that reduce the budget gaps projected in future years. After reflecting the proposals in the Executive Budget, the budget gap in FY 2014 is projected at \$715 million, the lowest “first out-year” budget gap -- in absolute dollars -- in two decades. The FY 2014 gap is equal to approximately 1.2 percent of projected General Fund receipts. By comparison, the gap closed in FY 2012 equaled nearly 18 percent of receipts.
- The gap-closing plan provides sufficient resources to cover essential new costs, including State funding to maintain thousands of child-care slots for working families that would otherwise be lost due to a reduction in Federal aid.
- DOB estimates the State would end FY 2013 with a General Fund balance of \$1.8 billion under the Executive Budget proposal. The closing balance includes a deposit of \$100 million to the State’s rainy day reserve that is planned in FY 2012 (the deposit would be the first to the reserve since FY 2008). Balances in the State’s principal reserve funds are expected to remain unchanged in FY 2013. (See "Projected Closing Balances" herein.)

The following sections of the Financial Plan Overview provide more detailed information on the updated estimates for the current fiscal year; the highlights of the Executive Budget gap-closing plan for FY 2013 and the impact of the plan on key fiscal measures; and an assessment of risks to the Financial Plan.

**CURRENT FISCAL YEAR (FY 2012)**

The Mid-Year Update to the Financial Plan estimated that the General Fund had a potential budget shortfall of \$350 million in the current fiscal year, which was expected to be closed through administrative actions. Based on a review of updated disbursement patterns (as modified by ongoing spending controls), the availability of excess cash balances in other funds, and other factors, DOB now expects the General Fund to end the current fiscal year in balance on a cash basis. The table below summarizes the revisions to the FY 2012 Financial Plan.

<sup>1</sup> Excludes impact of debt service reestimates.

General Fund receipts, including transfers from other funds, are expected to total \$57.2 billion in FY 2012, an increase of \$348 million compared to the Mid-Year Financial Plan. The estimate for tax receipts (excluding the impact of debt service changes) is virtually unchanged since the Mid-Year Update, reflecting lower estimated collections due to economic weakness offset by the initial impact of State tax reform legislation and higher expected audit receipts in the remainder of the year. Estimated annual debt service on the State's PIT revenue bonds and LGAC bonds has been revised downward since the Mid-Year Update, due to debt management activities and the timing of bond sales. The estimate for all other receipts, including miscellaneous receipts and cash balances transferred from other funds, has been increased based on a review of collections to date and current fund balances.

## FINANCIAL PLAN OVERVIEW

---

General Fund disbursements, including transfers to other funds, are now estimated at \$56.9 billion in FY 2012, an increase of \$60 million from the Mid-Year estimate, which reflects downward revisions to disbursements, offset by planned pre-payment of expenses. Excluding the impact of \$240 million in planned prepayments (described below), General Fund disbursements in FY 2012 are expected to fall approximately \$180 million below the Mid-Year estimate.

Estimated disbursements have been reduced across a range of programs and activities in local assistance and debt service, reflecting operating results to date, the continuing impact of cost control measures imposed on discretionary spending, and the conservative estimation of General Fund costs. In addition, the State reached a tentative collective bargaining agreement for FY 2006 to FY 2015 with the Agency Police Services Unit (APSU) which represents agency law enforcement officers in SUNY and the Department of Environmental Conservation and the Office of Parks, Recreation and Historic Preservation. This agreement, is expected to increase State Operations spending in the current year by \$62 million for negotiated wage increases that cover the current and prior fiscal years. Payments are expected to be financed from the reserve set aside for this purpose and therefore have no impact on net operating results.

The net Financial Plan savings are expected to be used in the current year to (a) pay \$140 million in debt service due in FY 2013 (which has the effect of lowering the gap in that year by an equal amount), and (b) increase the State's planned payment to the New York State and Local Employees' Retirement System by \$100 million, which will provide interest savings over the plan period.

Consistent with prior updates, the current Financial Plan includes a planned deposit of \$100 million to the Rainy Day Reserve in FY 2012. The deposit is subject to the approval of the budget director and dependent on actual operating results in the final quarter of the fiscal year.

The General Fund is expected to end FY 2012 with a cash balance of \$1.7 billion. The balance consists of \$1.03 billion in the Tax Stabilization Reserve, \$275 million in the Rainy Day Reserve (including the \$100 million planned deposit), \$51 million in the Community Projects Fund, \$21 million in the Contingency Reserve, and \$13 million reserved for debt management. In addition, the balance includes \$284 million set aside for potential retroactive labor settlements with unions that have not agreed to contracts through FY 2011.

Risks to budget balance remain in the current fiscal year. They include the potential that actual tax receipts may fall below the revised estimates; year-end transactions, such as the transfer of excess balances from other funds or payments from non-State entities, may occur at lower levels than assumed in the Financial Plan; and disbursements in certain programs, especially economically-sensitive programs such as Medicaid, may exceed budgeted amounts. (See "Other Matters Affecting the Financial Plan" herein.)

**EXECUTIVE BUDGET FINANCIAL PLAN OVERVIEW (FY 2013 PROPOSAL)**

DOB estimates that the Governor’s Executive Budget, if enacted as proposed, would eliminate the General Fund budget gap of \$3.5 billion in FY 2013 and lower the budget gaps that would need to be closed in future years. The gap-closing plan consists of \$2 billion in savings, which DOB characterizes as spending control, and \$1.5 billion in net new resources from tax reform.

The following table summarizes the multi-year impact of the gap-closing plan.

<sup>1</sup> Gap estimate for FY 2016 is published for the first time with this FY 2013 Executive Budget.

## FINANCIAL PLAN OVERVIEW

---

Under the Executive proposal, the budget gap in FY 2014 is projected at \$715 million, equal to approximately 1.2 percent of projected General Fund receipts. By comparison, the gap closed in FY 2012 equaled nearly 18 percent of expected receipts. The budget gaps in future years of the plan are also reduced. The total gap over the four-year plan period is projected to total approximately \$7.4 billion -- more than 25 percent lower than the one-year gap that needed to be closed in FY 2012.

### SPENDING CONTROL

The Executive Budget gap-closing plan reflects \$2 billion in savings from the following.

- Savings from state agency operations are expected to total \$1.14 billion. Savings are expected to build on redesign and cost-control efforts initiated in FY 2012. These include further reductions in State agency operations through attrition and strict controls on hiring; enterprise-wide consolidation of procurement, information technology, real estate, workforce management; and a range of operational measures to improve efficiency. The total cost of State Operating Funds agency operations, which consists of personal service, fringe benefit, and non-personal services costs, is estimated at \$23.5 billion in FY 2013, a decrease of 0.4 percent from the FY 2012 estimate.
- Savings proposals in local assistance (\$756 million) target automatic spending increases that are unrelated to performance or actual costs. The most significant proposal would repeal automatic “cost-of-living” increases and trend factors in FY 2013 for all human service providers, and grant all future increases, starting in FY 2014, through a rational, performance-based awards system. Other savings include continued programmatic, auditing, and financial reviews, elimination of subsidies, and other measures. Disbursements for State Operating Funds local assistance are projected to total \$59.1 billion in FY 2013, an annual increase of 2.6 percent.
- Efficient management of the State’s debt portfolio is expected to permit the State to pay in FY 2012 approximately \$140 million in debt service that is due in FY 2013. This has the effect of lowering the gap in FY 2013 by the amount of the prepayment.
- The Executive Budget includes a number of new initiatives, which will be financed by recurring savings proposed in the gap-closing plan. The Budget proposes that the State (a) assume the full cost of annual growth in the Medicaid program over a period of three years, and responsibilities for Medicaid eligibility and enrollment over a period of five years; (b) dedicate resources to create a new centralized hotline to report allegations of abuse and neglect of vulnerable persons; and (c) assume responsibility for administering SSI benefits from the Federal government.

### TAX REFORM

The tax reform legislation approved in December 2011 will generate an estimated \$1.5 billion in net resources to help close the FY 2013 budget gap. The tax code changes are expected to provide approximately \$1.9 billion in additional receipts in FY 2013 when compared with the Mid-Year Update. Of this amount, approximately \$250 million will be used to mitigate the impact of the law changes on the MTA, and \$145 million will be used for tax credits and employment initiatives. (See the “2012-13 Executive Budget Economic and Revenue Outlook,” a companion volume to this Financial Plan.)

### NEW COSTS/OTHER CHANGES

The Financial Plan provides sufficient resources in FY 2013 to cover essential new costs, including State funding to maintain child care slots that would otherwise be lost due to a reduction in Federal aid. In addition, the Financial Plan assumes new State resources will be needed to maintain service levels in the Mental Hygiene System, starting in FY 2014, as Federal aid declines due, in part, to continuing movement of clients from institutionalized settings into community settings. Lastly, the Financial Plan assumes the State will increase its annual pension contribution, starting in FY 2014, above the minimum level required under the 2010 amortization legislation, thereby lowering long-term interest costs. In FY 2013, the costs of these programs are expected to be fully offset by other savings.

## FINANCIAL PLAN OVERVIEW

### PROJECTED CLOSING BALANCES

DOB estimates that the General Fund will end with balances of \$1.7 billion in FY 2012 and \$1.8 billion in FY 2013. The following table summarizes the balances within the General Fund.

<b>GENERAL FUND ESTIMATED CLOSING BALANCES</b> (millions of dollars)			
	<b>FY 2012 Current</b>	<b>Annual Change</b>	<b>FY 2013 Proposed</b>
<b>Projected Fund Balance</b>	<b>1,675</b>	<b>123</b>	<b>1,798</b>
<b>Statutory Reserves:</b>			
Tax Stabilization Reserve Fund	1,031	0	1,031
Rainy Day Reserve Fund	275	0	275
Contingency Reserve Fund	21	0	21
Community Projects Fund	51	(51)	0
<b>Reserved for:</b>			
Prior Year Labor Agreements (2007-2011)	284	174	458
Reserved for Debt Reduction	13	0	13

The closing balances in each year include amounts reserved to cover the costs of potential retroactive labor settlements with unions that have not agreed to terms for prior contract periods. The amounts are calculated based on the pattern settlement for the FY 2008 through FY 2011 period agreed to by the State's largest unions. The Financial Plan assumes that no additional agreements will be financed from the reserve in FY 2012 beyond the APSU agreement described above, and that the remaining reserve will be carried forward into FY 2013. Reserves will be reduced as subsequent labor agreements for prior periods are reached.

The Community Projects Fund, which finances discretionary ("member item") grants allocated by the Legislature and Governor, is expected to decrease by \$51 million, reflecting the spend-down of the balance and no planned future deposits.

Balances in the State's principal reserve funds are expected to remain unchanged in FY 2013.

**ANNUAL SPENDING GROWTH**

DOB estimates that State Operating Funds spending will total \$88.7 billion in FY 2013, an increase of \$1.7 billion (1.9 percent) from the estimate for FY 2012. All Governmental Funds spending, which includes capital projects and Federal operating funds, would total \$132.5 billion, a decrease of \$225 million (-0.2 percent) from the current year. Consistent with past years, the aggregate spending projections (i.e., the sum of all projected spending by individual agencies) in special revenue funds have been adjusted downward based on typical spending patterns and the observed variance over time between estimated and actual results.

The annual growth in State Operating Funds spending is affected by several unique factors: (a) the planned amortization of the State’s pension costs above a certain percentage of payroll, as authorized in August 2010; (b) the set-aside of a reserve to pay for potential retroactive labor settlements, rather than assuming spending for these settlements; and (c) the phase-out of the Federal government’s payment of an increased share of State Medicaid costs. Adjusted for these unique factors, State Operating Funds spending would increase by approximately \$717 million in FY 2013, or 0.8 percent, as shown in the table below.

Local assistance spending is expected to increase by \$1.5 billion, or 2.6 percent, over FY 2012. In FY 2013, State funding for School Aid (on a school year basis) and Medicaid increases by approximately 4 percent from 2012 levels, consistent with caps enacted in FY 2012. Medicaid spending, before factoring in the savings expected from the State's takeover of administration and including Medicaid costs that are reflected on the non-personal services line of the Financial Plan, increases by 4 percent (not shown on table). Other local assistance increases include transportation, reflecting disbursements of dedicated tax receipts; special education, resulting from actions that temporarily reduced spending in FY 2012. The increases are partly offset by annual reductions in mental hygiene programs reflecting the impact of ongoing cost-containment efforts, continued programmatic and costs reviews, and lower public

health spending due to the phase-down of Federal-State Health Reform Partnership (F-SHRP) program and declines in the EPIC program resulting from prior-year cost containment actions.

Agency spending on personal and non-personal service is expected to remain nearly flat on an annual basis. This reflects ongoing efforts to redesign State agency operations initiated in FY 2012. Spending on fringe benefits is projected to decline by \$148 million (-2.3 percent). The decline is comprised of lower pension costs due to a \$100 million prepayment of certain pension obligations in FY 2012 and a reconciliation of prior-year pension costs that will lower the State's pension bill in FY 2013 (\$77 million), and lower employee health insurance due to the annualization of employee premium increases that were effective in mid-FY 2011.

The sections below provide details on spending control and new costs in the Executive Budget Financial Plan. For more information on the Budget recommendations for major programs and activities see the section entitled “Multi-Year Financial Plan Projections - Disbursements” herein and the Executive Budget Briefing Book. For a discussion of the tax code changes, please see “FY 2012-13 Executive Budget Economic and Revenue Outlook.”

### SPENDING CONTROL

Before the proposed spending controls and management actions in the Executive Budget, State Operating Funds spending was projected to total \$90.8 billion, an increase of \$3.7 billion, or 4.3 percent, over the current-year estimate. The FY 2013 Executive Budget recommends \$2.0 billion in savings from spending control, which would reduce State Operating Funds spending in FY 2013 to \$88.7 billion, an annual increase of 1.9 percent over the FY 2012 estimate.

### STATE AGENCY OPERATIONS

Agency Operations include salaries, wages, fringe benefits, and non-personal service costs (e.g., utilities). State Operating Funds spending for agency operations is estimated at \$23.5 billion in FY 2013, a decline of \$103 million (-0.4 percent) from the current year. Reductions from the FY 2013 current-services forecast for agency operating costs contribute \$1.1 billion to the General Fund gap-closing plan.

- **Agencies:** Continued workforce management through a strict hiring freeze, annualization of savings from recent closures of facilities and elimination of excess capacity, and efforts to downsize State government are expected to result in lowered personal service and fringe benefits costs. The size of the Executive State workforce has declined from 125,787 FTEs in FY 2011 to 121,868 FTEs in FY 2012, a reduction of nearly 4,000 FTEs. The reduction in the size of the State workforce has led to declines in certain fringe benefit costs. In addition, a reconciliation of pension costs in FY 2011 has lowered the State's estimated pension bill in FY 2013 by \$77 million.

Additional savings are expected through operational efficiencies as agencies continue to redesign operations to improve service delivery, reduce costs, and eliminate duplicative functions.

## FINANCIAL PLAN OVERVIEW

---

- **Independent Officials:** The budgets for the Legislature, Judiciary, State Comptroller, and the Department of Law do not propose spending increases for FY 2013. The Judiciary budget includes pay increases for judges, as recommended by the Judicial Compensation Commission. This spending increase is offset by commensurate reductions achieved through the streamlining of administrative functions and reductions in funding for non-essential programs.
- **Enterprise/Consolidations:** Efforts to centralize and coordinate enterprise services, such as procurement of information technology services, software and mobile communications, office supplies, and health services and pharmaceutical supplies, as well as rent reductions from statewide office space consolidations, are expected to reduce operational costs. After necessary one-time investments, the multi-year Financial Plan reflects net savings from expected cost reductions. Specific actions for FY 2013 include: procurement savings through strategic sourcing of goods and services such as vehicles, software, food and office supplies (\$100 million); and real estate savings through the relocation of state agencies from leased space into State-owned office space (\$9 million). Longer-term projects are underway in information technology, grants management, call centers, business services, fleet management, enterprise-wide licensing and permitting, and learning management.
- **Fringe Benefits (New Proposals):** Savings is achieved by pre-paying certain pension obligations in FY 2012 to avoid annual interest costs (\$30 million); increasing Federal Medicare Part D reimbursements through the conversion of the retiree drug coverage program from the current Retiree Drug Subsidy to an Employer Group Waiver Plan (\$26 million); and extending to employees of certain State public authorities the State's existing policy that requires State employees and retirees to contribute toward the cost of Medicare Part B premium reimbursement (\$11 million).

### LOCAL ASSISTANCE

Local assistance spending includes financial aid to local governments and non-profit organizations, as well as entitlement payments to individuals. State Operating Funds spending for local assistance is estimated at \$59.1 billion in FY 2013, an increase of \$1.5 billion (2.6 percent) from the current year. Reductions from the FY 2013 current-services forecast for local assistance include both targeted actions and additional savings from the continuation of prior-year cost containment actions, which together contribute \$756 million to the General Fund gap-closing plan.

The most significant gap-closing actions in local assistance include the following:

- **Human Services Cost-of-Living Increases/Trends:** The Budget proposes eliminating the automatic 3.6 percent human services “cost-of-living” increase and maintaining existing rates for other programs, including OMH residential treatment facilities, community residences, family based treatment, and various residential and day programs for individuals with developmental disabilities. Beginning in FY 2014, a new system will take effect that will provide annual adjustments based on actual costs and performance.
- **Mental Hygiene:** Savings are expected through continued programmatic reviews of OMH providers, and from expanded efforts to recover State funds through enhanced audit activities and financial reviews of not-for-profit providers; stringent cost controls and reduced use of institutional services, and investments in community based OPWDD programs; restructuring the Continuing Day Treatment program, shifting funding to more effective program models; and converting residential pipeline units to lower-cost alternatives.
- **Social Services/Housing:** Savings are expected through streamlining and restructuring financing of child support administration; eliminating funding for a shelter supplement initiative; and phasing in the planned 10 percent increase in public assistance grants over two years (5 percent in 2012 and 5 percent in 2013). In addition, funding for the Neighborhood and Rural Preservation programs would be eliminated.
- **Public Health:** Disbursement projections have been adjusted to reflect claims by municipalities in the GPHW program and other trends.
- **Other Local Programs:** Savings are expected across multiple functions and program areas. These include cost-based revisions to School Aid based on updated claiming information from school districts and the estimated growth in NYS personal income; updated payment schedules for the Local Government Performance and Efficiency Program; and updated cost estimates for certain other programs. Savings are partially offset by increases in TAP funding driven by tuition increases and updated participation trends and funding for the Close to Home Juvenile Justice Initiative.

## FINANCIAL PLAN OVERVIEW

---

In addition, changes in General Fund Medicaid spending reflect reduced HCRA financing due to downward revisions to cigarette tax forecasts, an acceleration of financing for capital improvements at health care facilities throughout the State, and multi-year revisions to estimated spending for the EPIC program and other HCRA programs. Projected Medicaid spending has also been updated for the estimated impact of enhanced Federal Financial Participation for individuals and couples without children, pursuant to Federal Health Care Reform, which is expected to lower the State share of Medicaid spending in FYs 2015 and 2016.

### NEW INITIATIVES/INVESTMENTS

- **Local Government Medicaid Growth/Administrative Takeover:** The FY 2013 Executive Budget includes proposals to establish a phased-in takeover of local government administration of the Medicaid program and to cap spending on local Medicaid administration at FY 2012 appropriated levels. The FY 2013 Executive Budget also provides Medicaid relief for all counties and New York City by reducing growth in local Medicaid payments.
- **Agency Redesign - Enterprise Services:** The Executive Budget reflects investments to improve State operations. Specifically, State support for OFT and OGS has been increased to cover costs associated with the more centralized role these agencies are expected to take in providing shared business services, which are now decentralized across many State agencies. These services include management of the State's assets, the streamlining of procurement processes, and the consolidation of technical and administrative resources. The greater centralization of these services is expected to achieve statewide savings and allow agencies to better focus on their core missions. These investments are expected to generate significant statewide savings over the multi-year Financial Plan from cost reductions, increased efficiency, and business transformation.
- **SSI Administration Takeover:** The Executive Budget recommends that the State take over administration of the State's participation in the Federal Supplemental Security Income Benefit currently administered by the Federal government, which is expected to generate savings in the later years of the Financial Plan.
- **Protection of Vulnerable Populations:** Pursuant to preliminary recommendations of the Governor's Special Advisor on Vulnerable Persons, a new centralized hotline will be established for reporting allegations of abuse and neglect of vulnerable persons in certain programs operated by State agencies, including Mental Hygiene, Health and Education.
- **Rental Assistance Program:** Increased funding is recommended for the Rural Rental Assistance Program that provides State funded rental subsidies to approximately 4,700 low income occupants of rural housing projects financed by the Federal Department of Agriculture.

### NEW COSTS

- **TANF Child Care Replacement:** Less Federal TANF funding is expected to be available in FY 2013. Therefore, State General Fund support has been increased to maintain current funding levels in the child care program.
- **Mental Hygiene System Funding:** Ongoing de-institutionalization efforts, which will allow individuals currently residing in State-operated Developmental Centers to be placed in more clinically appropriate settings based on their needs and abilities, is expected to reduce Federal Medicaid revenues.
- **Excess Pension Payment:** The Financial Plan assumes the State will increase its annual pension contribution, starting in FY 2014, above the minimum level required under the 2010 amortization legislation, thereby lowering long-term interest costs.

## **OTHER MATTERS AFFECTING THE FINANCIAL PLAN**

### **GENERAL**

The Executive Budget is subject to many complex economic, social, financial, and political risks and uncertainties, many of which are outside the ability of the State to control. DOB believes that the projections of receipts and disbursements in the Executive Budget are based on reasonable assumptions, but there can be no assurance that actual results will not differ materially and adversely from these projections. In recent fiscal years, actual receipts collections have fallen substantially below the levels forecast in the Financial Plan.

The Executive Budget is based on numerous assumptions, including the condition of the State and national economies and the concomitant receipt of economically sensitive tax receipts in the amounts projected. Other uncertainties and risks concerning the economic and receipts forecasts include the impact of: national and international events, such as the Euro-zone financial crisis, on consumer confidence, oil supplies, and oil prices; Federal statutory and regulatory changes concerning financial sector activities; changes concerning financial sector bonus payouts, as well as any future legislation governing the structure of compensation; shifts in monetary policy affecting interest rates and the financial markets; financial and real estate market developments on bonus income and capital gains realizations; and household deleveraging on consumer spending and State tax collections.

Among other factors, the Executive Budget is subject to various other uncertainties and contingencies relating to the extent, if any, to which wage increases for State employees exceed the annual wage costs assumed; realization of the projected rate of return for pension fund assets and current assumptions with respect to wages for State employees affecting the State's required pension fund contributions; the willingness and ability of the Federal government to provide the aid contemplated by the Executive Budget; the ability of the State to implement cost reduction initiatives, including reductions in State agency operations, and the success with which the State controls expenditures; and the ability of the State and its public authorities to market securities successfully in the public credit markets. Some of these specific issues are described in more detail herein. The projections and assumptions contained in the Executive Budget are subject to revisions which may involve substantial change. No assurance can be given that these estimates and projections, which include actions the State expects to be taken but which are not within the State's control, will be realized.

### **BUDGET RISKS AND UNCERTAINTIES**

The Executive Budget is a proposal. There can be no assurance that the Legislature will not make changes that have an adverse impact on the budgetary projections set forth herein, or that it will take final action on the Executive Budget before the start of the new fiscal year on April 1, 2012. In prior years when a budget has not been enacted by the start of the fiscal year, the State has enacted interim appropriation and Article VII bills to maintain certain governmental services. Starting in FY 1996, the Legislature has annually approved the State's debt service appropriations by the start of each State fiscal year.

## **FINANCIAL PLAN OVERVIEW**

---

There can be no assurance that the General Fund will end the current fiscal year in balance on a budgetary cash basis of accounting, or that the budget gaps will not increase materially from current projections. If this were to occur, the State would be required to take additional gap-closing actions. These may include, but are not limited to, additional reductions in State agency operations; delays or reductions in payments to local governments or other recipients of State aid; suspension of capital maintenance and construction; extraordinary financing of operating expenses; or other measures. In some cases, the ability of the State to implement such actions requires the approval of the Legislature and cannot be implemented solely by the action of the Governor.

State law grants the Executive certain powers to achieve the Medicaid savings assumed in the Financial Plan. However, there can be no assurance that these powers will be sufficient to limit the rate of annual growth in DOH State Funds Medicaid spending to the levels estimated in the Executive Budget Financial Plan. In addition, savings are dependent upon timely Federal approvals, appropriate amendments to existing systems and processes, and the participation of health care industry stakeholders. In the current fiscal year, State-share Medicaid disbursements to date have been consistent with expectations.

The forecast contains specific transaction risks and other uncertainties including, but not limited to, the receipt of certain payments from public authorities; the receipt of miscellaneous revenues at the levels expected in the Financial Plan, including payments pursuant to the Tribal State Compact; and the achievement of cost-saving measures including, but not limited to, the transfer of available fund balances to the General Fund at the levels currently projected. Such risks and uncertainties, if they were to materialize, could have an adverse impact on the Financial Plan in the current year or future years.

### **STATUS OF CURRENT LABOR NEGOTIATIONS**

The State has a five-year labor contract with the State's largest union, CSEA, and a four-year labor contract with the State's second-largest State employee union, PEF. Under both PEF and CSEA labor contracts, there are no general salary increases for three years (FY 2012 through FY 2014). Employee compensation during FY 2012 and FY 2013 will be temporarily reduced. Employees will receive deficit reduction leave (totaling nine days). CSEA-represented employees will receive a \$1,000 lump sum payment (\$775 paid in FY 2014 and \$225 paid in FY 2015). Employees will receive a 2 percent salary increase in FY 2015 under both agreements, and CSEA-represented employees will receive a 2 percent increase in FY 2016. Employees represented by CSEA will be repaid the value of four days in equal consecutive installments starting at the end of the CSEA contract term and employees represented by PEF will be repaid the value of nine days in equal consecutive installments starting in FY 2016. The agreements also include substantial changes to employee health care contributions.

Under the agreements, employees in these unions have contingent layoff protection for FYs 2012 and 2013 and continuing protection for the full term of the agreements. Workforce reductions due to management decisions to close or restructure facilities authorized by legislation, SAGE Commission recommendations, or material or unanticipated changes in the State's fiscal circumstances are not covered by this protection.

## **FINANCIAL PLAN OVERVIEW**

---

Negotiations with the State's other unions, which represent approximately 35 percent of the State workforce, are ongoing. The largest of these unions, with whom negotiations are continuing, are UUP, which represents faculty and non-teaching professional staff within the State University system, and NYSCOPBA, which represents the State's correction officers.

### **LABOR SETTLEMENTS FOR PRIOR CONTRACT PERIODS**

The Executive Budget Financial Plan continues to include a reserve to cover the costs of a pattern settlement with all unions that have not agreed to contracts through FY 2011. The pattern is based on the general salary increases agreed to by the State's largest unions for the same period. There can be no assurance that actual settlements, some of which are subject to binding arbitration, will not exceed the amounts reserved.

In August 2011, a statutorily authorized judicial compensation commission authorized a multi-year plan to provide salary increases for judges beginning in FY 2013, which will automatically take effect barring action by the Legislature and the Governor to obviate the increases. The Executive Budget assumes salary increases will be accommodated in the Judiciary's current budget projections.

### **CASH-FLOW PROJECTIONS**

The State authorizes the General Fund to borrow resources temporarily from other available funds in STIP for up to four months, or to the end of the fiscal year, whichever period is shorter. The amount of resources that can be borrowed by the General Fund is limited to the available balances in STIP, as determined by the State Comptroller. Available balances include money in the State's governmental funds and a relatively small amount of other moneys belonging to the State. Several accounts in Debt Service Funds and Capital Projects Funds that are part of All Governmental Funds are excluded from the balances deemed available in STIP. These excluded funds consist of bond proceeds and money obligated for debt service payments.

### **FY 2012**

Through the first ten months of FY 2012, the General Fund used this STIP to meet certain payment obligations during April 2011 only, and repaid such amounts by the end of April 2011. While the General Fund may rely on this borrowing authority at other times during FY 2012, it is expected that such amounts will be repaid by the end of the month.

The State continues to reserve money on a quarterly basis for debt service payments that are financed with General Fund resources. Money to pay debt service on bonds secured by dedicated receipts, including PIT bonds, continues to be set aside as required by law and bond covenants.

DOB will continue to monitor and manage the State's cash position closely during the final quarter of the fiscal year in an effort to maintain adequate operating balances.

## FINANCIAL PLAN OVERVIEW

### FY 2013

Under the Executive Budget proposal, DOB estimates that the State will have sufficient liquidity to make payments as they become due. Consistent with prior years, DOB estimates that General Fund balances will reach relatively low levels in May, June, August, and December 2012. The following table provides an estimate of month-end balances for FY 2013. This information will be updated with the Enacted Budget Financial Plan.

### **FEDERAL ACTIONS**

The State receives a substantial amount of Federal aid for health care, education, transportation, and other governmental purposes. Any reduction in Federal funding levels could have a materially adverse impact on the State's Executive Budget.

The Federal Budget Control Act (BCA) established a Joint Select Committee for Deficit Reduction to achieve \$1.2 trillion in deficit reduction over ten years. On November 21, 2011, the Joint Select Committee announced that it failed to reach agreement on actions to reduce the deficit. Pursuant to the BCA, deficit reduction will now be achieved through the sequestration process, with automatic reductions scheduled to begin in January 2013. The BCA prescribes that approximately 18 percent of the \$1.2 trillion in deficit reduction can be attributed to assumed debt service savings, while the remainder must be achieved through spending reductions, divided evenly between the Defense Department and non-Defense spending.

The State is analyzing the potential impact of the BCA on the State Financial Plan and State economy. DOB estimates that, if the sequestration process were to operate as set forth in the BCA and without any further modification by Congress, New York State and local governments could lose approximately \$5 billion in Federal funding over nine years, beginning in FY 2013.

## **FINANCIAL PLAN OVERVIEW**

---

This does not account for potential declines in other revenues that may occur as a result of lost Federal funding. DOB will continue to refine its estimates and make adjustments to the Financial Plan as more definitive information becomes available.

In addition, the Executive Budget may be adversely affected by other actions taken by the Federal government, including audits, disallowances, and changes to Federal participation rates or other Medicaid rules. For example, all Medicaid claims are subject to audit and review by the Federal government. The Federal CMS recently engaged the State regarding claims for services provided to individuals in developmental centers operated by the New York State OPWDD. Although no official audit has commenced and the rates paid for these services are established in full accordance with the methodology set forth in the approved State Plan, adverse action by CMS relative to these claims could jeopardize a significant amount of Federal financial participation in the State Medicaid program. The State has begun the process of seeking CMS approval to proceed with the development of a new form of waiver (known as the “section 1115 demonstration waiver”) to create a contemporary and sustainable system of service funding and delivery for individuals with developmental disabilities.

### **HEALTH INSURANCE COMPANY CONVERSIONS**

State law permits a health insurance company to convert its organizational status from a not-for-profit to a for-profit corporation (a “health care conversion”), subject to a number of terms, conditions, and approvals. Under State law, the State must use the proceeds from a health care company conversion for health-care-related expenses. For planning purposes, the Executive Budget assumes no proceeds from a health care conversion in FY 2012, but counts on proceeds of \$250 million in FY 2013 and \$300 million in FYs 2014, 2015, and 2016, which would be deposited into the HCRA account. If a conversion does not occur on the timetable or at the levels assumed in the Executive Budget, the State would be required to take other actions to increase available resources or to reduce planned spending in HCRA.

## FINANCIAL PLAN OVERVIEW

### DEBT REFORM ACT LIMIT

The Debt Reform Act of 2000 restricts the issuance of State-supported debt to capital purposes only and limits such debt to a maximum term of 30 years. The Act limits the amount of new State-supported debt to 4 percent of State personal income and new State-supported debt service costs to 5 percent of All Funds receipts. The restrictions apply to all new State-supported debt issued on and after April 1, 2000. The cap on new State-supported debt outstanding began at 0.75 percent of personal income in FY 2001 and was fully phased in at 4 percent of personal income during FY 2011, while the cap on new State-supported debt service costs began at 0.75 percent of All Funds receipts in FY 2001 and will increase until it is fully phased in at 5 percent during FY 2014. The State was found to be in compliance with the statutory caps for the most recent calculation period (October 2011).

Current projections estimate that debt outstanding and debt service will continue to remain below the limits imposed by the Act. However, the State is continuing through a period of declining debt capacity. Based on the most recent personal income and debt outstanding forecasts, the available room under the debt outstanding cap is expected to decline from \$3.1 billion in FY 2012 to \$314 million in FY 2014. The State may consider measures to address capital spending priorities, debt financing practices, the inherent volatility of personal income as a basis for long-term planning, and other factors affecting debt capacity as events warrant.

## **FINANCIAL PLAN OVERVIEW**

### **SECURED HOSPITAL PROGRAM**

Under the Secured Hospital program, the State entered into service contracts to enable certain financially distressed not-for-profit hospitals to issue debt. The contracts obligate the State to pay debt service, subject to annual appropriations by the Legislature, on bonds issued by the New York State MCFFA and by DASNY through the Secured Hospital program (all now included as debt of DASNY). In the event there are shortfalls in revenues from other sources, which include hospital payments made under loan agreements between DASNY and the hospitals, and certain reserve funds held by the applicable trustees for the bonds, the State is liable for the debt service. As of March 31, 2011, there is a total of \$585 million of outstanding bonds for the program.

The financial condition of most hospitals in the State's Secured Hospital Program continues to deteriorate. Of the nine hospitals in the program, several are experiencing significant operating losses that are likely to impair their ability to remain current on their loan agreements with DASNY. The Financial Plan includes costs to cover debt service payments under its service contract obligation for the hospitals that are not performing on their loan agreements with DASNY and have no reserve funds available to cover the payments. If recent trends continue, additional State resources may be needed to meet debt service obligations on outstanding bonds pursuant to the service contracts.

### **BOND MARKET**

Implementation of the Executive Budget is dependent on the State's ability to market its bonds successfully. The State finances much of its capital spending in the first instance from the General Fund or STIP, which it then reimburses with proceeds from the sale of bonds. If the State cannot sell bonds at the levels (or on the timetable) expected in the capital plan, it can adversely affect the State's overall cash position and capital funding plan. The success of projected public sales will be subject to prevailing market conditions. Future developments in the financial markets generally, as well as future developments concerning the State and public discussion of such developments, may affect the market for outstanding State-supported and State-related debt.

### **LITIGATION**

Litigation against the State may include potential challenges to the constitutionality of various actions. The State may also be affected by adverse decisions that are the result of various lawsuits. Such adverse decisions may not meet the materiality threshold to warrant individual description but, in the aggregate, could still adversely affect the State's Financial Plan.

**MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

# MULTI-YEAR FINANCIAL PLAN PROJECTIONS

## INTRODUCTION

This section presents the State's updated multi-year Financial Plan projections for receipts and disbursements, reflecting the impact of the FY 2013 Executive Budget proposal. The projections cover the period for FYs 2012 through 2016, with an emphasis on the FY 2013 projections.

The State's cash-basis budgeting system, complex fund structure, and practice of earmarking certain tax receipts for specific purposes complicate the discussion of the State's receipts and disbursement projections. Therefore, to minimize the distortions caused by these factors and, equally important, to highlight relevant aspects of the projections, DOB has adopted the following approaches in summarizing the projections:

- **Receipts:** The detailed discussion of tax receipts covers projections for both the General Fund and State Funds (including capital projects). The latter perspective reflects overall estimated tax receipts before their diversion among various funds and accounts, including tax receipts dedicated to capital projects funds (which fall outside of the General Fund and State Operating Funds accounting perspectives). DOB believes this presentation provides a clearer picture of projected receipts, trends and forecast assumptions, by factoring out the distorting effects of earmarking certain tax receipts.
- **Disbursements:** Over 40 percent of projected State-financed spending for operating purposes is accounted for outside of the General Fund and is primarily concentrated in the areas of health care, School Aid, higher education, transportation and mental hygiene. To provide a clearer picture of spending commitments, the multi-year projections and growth rates are presented, where appropriate, on both a General Fund and State Operating Funds basis.

In evaluating the State's multi-year operating forecast, it should be noted that the reliability of the estimates and projections as a predictor of the State's future financial position is likely to diminish the further removed such estimates and projections are from the date of this Executive Budget. Accordingly, in terms of the FY 2013 Executive Budget outyear projections (FY 2014 through FY 2016), FY 2014 is the most relevant from a planning perspective.

## **SUMMARY**

DOB estimates that the Executive Budget, if enacted as proposed, would provide for a balanced General Fund Financial Plan in FY 2013, and leave projected gaps that total approximately \$715 million in FY 2014, \$3.0 billion in FY 2015, and \$3.7 billion in FY 2016. The net operating shortfall in State Operating Funds is projected at \$2.2 billion in FY 2015 and \$3.1 billion in FY 2016.

The imbalances projected for the General Fund and State Operating Funds in future years are similar because the General Fund is the financing source of last resort for many State programs. Imbalances in other funds are typically financed by the General Fund.

The following tables present the multi-year projections and growth rates for the General Fund and State Operating Funds, as well as a reconciliation between the State Operating Funds projections and the General Fund budget gaps. The tables are followed by a summary of the multi-year receipts and disbursements forecasts.

## RECEIPTS OVERVIEW

Financial Plan receipts comprise a variety of taxes, fees, charges for State provided services, Federal grants, and other miscellaneous receipts. The receipt estimates and projections have been prepared by DOB with the assistance of the Department of Taxation and Finance and other agencies concerned with the collection of State receipts.

## THE NATIONAL ECONOMY

The U.S. economic recovery survived an almost continuous series of setbacks in 2011 that included spiking energy prices, supply chain disruptions resulting from a virtual shutdown of the world's third largest economy, threats to the global financial system stemming from the European sovereign debt crisis, and uncertainty surrounding the U.S. government's own looming debt problems. But the unwinding of the oil shock and Japanese supply chain disruptions resulted in fourth quarter real U.S. GDP growth of 2.8 percent, the strongest since the first half of 2010. DOB's outlook calls for a weaker first quarter, followed by a pickup in momentum over the course of the year. However, the economy faces many headwinds going forward, including a slowing global economy, financial market volatility, continued weak income growth, and a potential new wave of foreclosures further delaying a recovery in the housing sector. Real U.S. GDP is projected to grow 2.2 percent for 2012, following growth of 1.7 percent for 2011.

With the euro-zone likely to have entered a recession in the fourth quarter and the large developing economies in Asia and Latin America growing more slowly, the U.S. economy is expected to feel the pinch through lower export growth during the first half of 2012. Since a large portion of U.S. corporate earnings are derived from overseas activity, growth in U.S. corporate profits from current production are expected to decelerate to 3.9 percent in 2012, down from 7.7 percent in 2011, and 32.2 percent in 2010. The anticipated slowdown in production for export could modestly dampen employment growth yet again early this year, before picking up during the second half. U.S. nonagricultural employment is projected to grow 1.6 percent in 2012, following 1.2 percent growth in 2011. Energy and food prices remain volatile but are not expected to exhibit growth comparable to what was experienced in 2011, keeping consumer price inflation well below last year's rate. The rate of inflation, as measured by growth in the Consumer Price Index, is projected to fall from 3.1 percent in 2011 to 1.9 percent in 2012.

## RISKS TO THE U.S. FORECAST

DOB's outlook calls for the recovery from the nation's worst recession since the 1930s to continue through 2012, but there are a number of significant risks to the forecast, both positive and negative. If the ongoing resolution of the euro-debt crisis should sour, and in the worst case result in a bank run as occurred in September 2008, short-term credit markets could seize up and the U.S. economy could potentially be dragged back into a recession. A breakup of the euro-zone, or a dissolution of the euro itself could have even worse consequences. Similarly, a hard landing in China would likely cause a deeper global slowdown than expected, resulting in slower export growth than is reflected in the forecast. In contrast, a slow but steady path to resolution of the euro-debt crisis, along with a milder recession in Europe and/or a more modest slowdown elsewhere could result in stronger export and employment growth than anticipated.

## **MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

---

The forecast rests on the assumption that the U.S. Congress will extend the payroll tax cut and UI benefit extensions beyond the first two months of the year. If the Congress should fail to come to an agreement, household spending could be less than anticipated. Furthermore, should the failure to come to an agreement cause the household and business sector to lose confidence in the recovery, an even greater pullback in spending could ensue, resulting in much slower growth than is reflected in the forecast. A renewed confidence in the recovery depends upon an improvement in the pace of job growth over the coming quarters. If that improvement fails to materialize, households may pull back once again, resulting in lower consumption growth than expected. Weaker household spending would ripple through the economy and likely result in lower investment growth as well. A substantial equity market correction could have a similar effect. In contrast, if actions taken by the Federal government inspire confidence within the business sector, employment and household spending growth could be stronger than expected. The housing sector has been virtually absent from this recovery. If home foreclosures accelerate substantially more than expected, a housing market recovery could be further delayed. A surge in foreclosures could also impede the recovery in home prices, which would in turn delay the recovery in household net worth, also resulting in lower rates of household spending than projected.

Alternatively, a large and sustained increase in household formation could result in stronger demand for housing and therefore a quicker recovery in home prices and construction employment than expected. Finally, oil prices are once again on the rise due to global tensions. These increases could cause gasoline prices to return to their lofty May 2011 peaks. Since energy price growth acts as a virtual tax on household spending, faster growth in the price of oil could also result in lower consumption spending than anticipated. A quick resolution of these tensions could send energy prices back down faster than expected, resulting in greater real household spending for non-energy goods and services.

## **THE NEW YORK STATE ECONOMY**

The State coincident index indicates that New York's recovery got underway in early 2010, coinciding with the State economy's response to the Federal Reserve's highly accommodative monetary policy – its near-zero interest rate policy target and the historic expansion of its balance sheet. As home to the world's financial capital, the State economy is especially sensitive to monetary policy shifts. The strong economic stimulus provided by the central bank was reinforced by a weak dollar and strong foreign demand for State produced goods and services, particularly those related to tourism. Foreign demand for New York City real estate has also been strong. These developments helped to support above average quarterly private year-ago job growth of an estimated 2.1 percent over the first three quarters of 2011. Private sector employment is estimated to have grown 1.9 percent for 2011 overall, following virtually flat growth of 0.2 percent in 2010. While private sector growth appears to have been broad-based, with even manufacturing seeing positive year-ago growth, government employment is estimated to have fallen during each quarter of 2011 on a year-ago basis, and 2.8 percent for the year.

But 2011 turned out to be a historically turbulent year for financial markets, with securities industry revenues falling sharply over the course of the year and the nation's banks perceived to be at risk due to the crisis in Europe. That turbulence occurred against a backdrop of an evolving

regulatory environment that has altered the pattern of risk-taking behavior of Wall Street firms. These forces resulted in steadily deteriorating revenues over the course of last year, with NYSE member firms experiencing losses in the third quarter, the first since 2008. Fourth quarter revenues and profits do not appear to have exhibited much improvement. With executive compensation likely to decline along with revenues, finance and insurance sector bonus payouts for the 2011-12 bonus season are expected to be well below their 2010-11 levels; sector bonuses for the first quarter of 2012 are expected to be 34.4 percent below their year-ago level. Slower global growth and a stronger dollar are expected to result in slower private sector job growth of 1.3 percent in 2012. Fiscal strains are expected to continue to put pressure on government employment at all levels, and as a result, public sector jobs are expected to fall 1.0 percent in 2012. State wages are projected to rise 2.0 percent in 2012, following growth of 4.1 percent in 2011, with total personal income rising 3.2 percent in 2012, following growth of 4.7 in 2011. These growth rates are well below historical averages.

### **RISKS TO THE NEW YORK FORECAST**

All of the risks to the U.S. forecast apply to the State forecast as well, although as the nation's financial capital, developments that have an impact on credit markets, such as the euro-debt crisis, pose a particularly large degree of risk for New York. Yet another financial crisis induced recession would be devastating for the State economy. Even lesser risks, such as a further erosion of equity prices could be quite destabilizing to the financial sector and ultimately bonuses and State wages overall. These risks are compounded by the uncertainty surrounding the implementation of financial reform, which is already altering the composition of bonus packages in favor of stock grants with long-term payouts and claw-back provisions, thus affecting the forecast for taxable wages. As financial regulations evolve, it is becoming increasingly uncertain as to when finance sector revenue generating activity such as lending and underwriting will return to pre-crisis levels, resulting in additional risk to the forecasts for bonuses and personal capital gains.

There are, however, some upside risks to DOB's New York economic outlook as well. A stronger national or global economy than projected could increase the demand for New York goods and services, resulting in stronger job growth than projected. Such an outcome could lead to stronger levels of business activity and income growth than anticipated. If corporate earnings surprise to the upside, a stronger and earlier upturn in stock prices could result, stimulating additional financial market activity, and producing higher wage and bonus growth than currently projected. Of course, a stronger national economy could force the Federal Reserve to raise interest rates earlier or more rapidly than projected, which could negatively affect the State economy and the financial sector in particular.

## THE REVENUE SITUATION

Revenue results during the current fiscal year have been of two extremes: strong growth during the first half of the year and much weaker growth during the latter half. A significant portion of the growth during the first part of the year was due to a strong tax year 2010 personal income tax settlement. After inching up 2.7 percent in FY 2011, base tax growth is estimated to increase 7.5 percent in FY 2012, but projected to decelerate to 5.7 percent growth in FY 2013, reflecting a continuation of the overall slower growth witnessed during the second half of FY 2012. Consistent with the economic factors described above, revenue collections have exhibited their own volatility. In particular, business tax estimated payments received in December 2011 were flat compared to December 2010, and personal income tax estimated payments received in January 2012 grew only 3.3 percent year over year, both of which are unusual at this point in a recovery. The estimated decline in personal income tax payments likely reflect the economic changes that took place during the course of calendar year 2011 - the first half of the year provided strong positive wage and nonwage income gains resulting in double-digit growth in

## **MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

---

estimated payments in June and September, but the roller coaster stock market ride caused by the euro crisis, and financial sector cutbacks that are believed to have occurred during the second half of the year likely left high-income taxpayers overpaid for tax year 2011. In contrast, sales tax receipts exceeded expectations late in 2011 due to a strong holiday shopping season. Unlike FY 2011, when there was uncertainty surrounding the impacts of potential changes in the timing and level of financial sector bonus payments, there is sufficient evidence that financial sector bonus payments made for the next two months will fall by a significant double digit percentage from the same period last year, resulting in a FY 2012 drop of 32 percent.

After slowing in FY 2012, average wage, total wage, and personal income growth are expected to recover and result in net growth in personal income tax receipts of 4.3 percent, after accounting for the combined impact of the sunset of the high income surcharge and enactment of PIT reform in December 2011. Projected corporate profits growth for the 2012 calendar year combined with an incremental gain from tax credit deferral legislation enacted in 2010 should provide a second consecutive year of growth in business tax receipts in FY 2013. Income and employment growth, partially offset by the return of the full tax exemption on clothing, is expected to produce sales tax growth of 1.9 percent in FY 2013.

### FY 2012 OVERVIEW

- Total All Funds receipts are estimated to reach \$132.3 billion, a decline of \$1 billion (0.8 percent) from FY 2011 results. All Funds tax receipts are estimated to increase by \$3.7 billion, or 6 percent. The majority of the increase in tax receipts is attributable to growth in personal income tax collections. All Funds Federal Grants are expected to decline \$5.4 billion (10.9 percent) due to ARRA funding declines.
- All Funds miscellaneous receipts are projected to reach \$23.8 billion in FY 2012, an increase of \$684 million from FY 2011. General Fund miscellaneous receipts are estimated to increase \$149 million as well as growth in other areas, primarily SUNY revenue growth from expansions at the three SUNY teaching hospitals, enrollment growth, and greater bond proceeds available for SUNY capital projects (\$694 million).
- Total State Funds receipts are estimated to reach \$88.4 billion in FY 2012, an increase of \$4.4 billion, or 5.2 percent.
- Total General Fund receipts are estimated at \$57.2 billion, an increase of \$2.8 billion, or 5.1 percent from FY 2011. General Fund tax receipts are estimated to increase by 6.9 percent. General Fund miscellaneous receipts are estimated to increase by 4.8 percent, reflecting gains from 2011 Abandoned Property legislation.
- Base tax receipts growth, which nets out the impact of law changes, will increase by an estimated 7.5 percent in FY 2012 after a modest base increase of 2.7 percent in FY 2011.

### **FY 2013 OVERVIEW**

- Total All Funds receipts are projected to reach \$132.7 billion, an increase of \$418 million, or 0.3 percent from FY 2012 estimates. All Funds tax receipts are projected to grow by \$2 billion or 3.1 percent. This increase is attributable to continued positive economic growth, partially offset by the net impact of expired and recently enacted personal income tax rate legislation.
- All Funds Miscellaneous receipts are projected to increase by \$423 million, or 1.8 percent driven by increases in HCRA (\$669 million) and lottery receipts (\$251 million) offset by a projected decline in programs financed with authority bond proceeds including economic development and health projects (\$255 million) and General Fund declines described below. All Funds Federal grants are expected to decrease by \$2 billion, or 4.6 percent primarily driven by the loss of ARRA funding.
- Total State Funds receipts are projected to be \$90.8 billion, an increase of \$2.4 billion, or 2.7 percent from the FY 2012 estimate.
- Total General Fund receipts are projected to be \$58.7 billion, an increase of \$1.5 billion, or 2.6 percent from FY 2012 estimates. General Fund tax receipts are projected to grow by 3.5 percent, while General Fund miscellaneous receipts are projected to decline by \$175 million (5.4 percent). Federal grants revenues are projected to remain constant.
- After controlling for the impact of policy changes, base tax revenue growth is estimated to increase by 5.7 percent for FY 2013.

- All funds receipts estimates have been revised upward by \$1.5 billion for FY 2012 from the Mid-Year Update. The upward tax revision of \$30 million is mostly due to the impact of the December 2011 personal income tax reform, stronger than expected sales tax receipts, and an increase in expected business tax audit receipts during the remainder of FY 2012, partially offset by weaker than expected personal income tax receipts.
- All Funds miscellaneous receipts in FY 2012 were revised upward by \$532 million largely reflecting increased projections for programs financed with authority bond proceeds, including economic development (\$343 million) and modest receipts revisions in various special revenue funds (\$81 million) and the General Fund increase detailed below.
- All Funds Federal grants were revised upward in FY 2012 and FY 2013 from the Mid-Year update by \$911 million and \$2.4 billion, respectively, primarily driven by revisions to Medicaid spending.
- General Fund receipts for FY 2012 have been revised upward by \$126 million, reflecting the All Funds tax changes noted above and year-to-date miscellaneous receipts collections.
- All Funds receipts estimates have been increased by nearly \$3.9 billion for FY 2013 from the Mid-Year Update.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

- All Funds miscellaneous receipts in FY 2013 were revised upward by \$268 million largely reflecting increased projections for programs financed with authority bond proceeds, including economic development, transportation and parks (\$370 million) offset by declines in lottery receipts and receipts revisions in various special revenue funds (\$146 million).
- General Fund receipts for FY 2013 have been revised upward by \$1.2 billion. Tax revisions account for virtually all the increase (mainly from the December 2011 personal income tax reform).

Overall, tax receipts growth in the three fiscal years following FY 2013 is expected to remain in the range of 2.4 percent to 5.6 percent. This is consistent with projected modest economic growth in the New York economy during this period and the sunset of personal income tax reform.

- Total All Funds receipts in FY 2014 are projected to be \$137.9 billion, an increase of \$5.2 billion over the prior year. All Funds receipts in FY 2015 are expected to increase by \$4.5 billion over FY 2014 projections. In FY 2016, receipts are expected to increase by nearly \$4.7 billion over FY 2015 projections.
- Total State Funds receipts are projected to be nearly \$94.4 billion in FY 2014, \$95.8 billion in FY 2015 and \$98.7 billion in FY 2016.
- Total General Fund receipts are projected to reach just over \$61.3 billion in FY 2014, \$62 billion in FY 2015 and \$64.4 billion in FY 2016.
- All Funds tax receipts are expected to increase by 5.6 percent in FY 2014, 2.4 percent in FY 2015 and 3.8 percent in FY 2016. Again, the growth pattern is consistent with an economic forecast for continued but slower economic growth.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

### BASE GROWTH

Base growth, adjusted for law changes, in tax receipts for FY 2012 is estimated to grow 7.5 percent and 5.7 percent in FY 2013. Overall base growth in tax receipts is dependent on a multitude of factors.

The estimated base receipts growth in FY 2012 results from:

- A strong tax year 2010 personal income tax settlement;
- Moderate corporate profits growth and insurance premium growth; and
- Increased consumption resulting from wage and employment growth as well as the federal payroll tax cut.

The deceleration in base growth in FY 2013 results from:

- A decline in extension payments;
- Slower corporate profits growth; and
- Slower consumer spending growth resulting from a return of the full federal payroll tax.

<sup>1</sup> Excludes Transfers.

All Funds receipts for FY 2012 are estimated to be \$38.7 billion, an increase of \$2.5 billion (6.8 percent) from the prior year. This is primarily attributable to increases in extension payments of \$1.2 billion for tax year 2010 and in current estimated payments of \$729 million for tax year 2011. The personal income tax reform enacted in December 2011 (effective starting tax year 2012) is projected to generate \$385 million in withholding in the first quarter of 2012 and should partially counteract the revenue loss resulting from the expiration of the 2009 temporary rate increase and the year-over-year decline from projected lower financial sector bonuses for FY 2012. The spike in extension payments for tax year 2010 most likely reflects one-time

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

realization of capital gains caused by uncertainty surrounding the late extension of the lower Federal tax rates on capital gains and high-income taxpayers in December of 2010.

Total refunds are expected to decrease by \$566 million (7.3 percent) compared to FY 2011. This decrease primarily reflects an artificially high FY 2011 refunds base caused by the shift of \$500 million of FY 2010 refunds into FY 2011. Prior year refunds for tax years prior to 2010, which decreased by \$367 million, also contributed to lower FY 2012 refunds.

The following table summarizes, by component, actual receipts for FY 2011 and forecast amounts through FY 2015.

All Funds receipts for FY 2013 are projected to be \$40.3 billion, an increase of \$1.6 billion (4.3 percent) from FY 2012. This primarily reflects a year-over-year increase of \$1.5 billion in receipts from the personal income tax reform enacted in December 2011 and an increase of \$959 million in pre-reform withholding receipts partially reduced by \$219 million (3.0 percent) in higher total refunds.

Withholding is projected to be \$1.5 billion (4.9 percent) higher compared to FY 2012 due mainly to an increase of \$572 million in receipts from recently enacted personal income tax reform combined with the \$959 million increase in the pre-reform withholding base. Estimated payments for tax year 2012, which include \$974 million from PIT reform, are projected to be \$764 million (9.4 percent) higher. Final return payments for tax year 2011 and delinquencies are projected to be \$78 million (4.1 percent) and \$65 million (7.1 percent) higher, respectively.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

The increase in total refunds of \$219 million reflects a \$186 million (3.9 percent) increase in current refunds and a \$93 million (23.3 percent) increase in prior refunds offset by a \$60 million (16.8 percent) decrease in the state-city offset.

General Fund income tax receipts are net of deposits to the STAR Fund, which provides property tax relief, and the RBTF, which supports debt service payments on State personal income tax revenue bonds. General Fund income tax receipts for FY 2012 of \$25.7 billion are expected to increase by \$1.8 billion (7.6 percent), from the prior year, mainly reflecting the increase in All Funds receipts noted above. The RBTF deposit is projected to increase by \$614 million.

General Fund income tax receipts for FY 2013 of \$26.9 billion are projected to increase by \$1.2 billion (4.7 percent). The RBTF deposit is projected to increase by \$412 million.

Compared to the Mid-Year Update, FY 2012 All Funds income tax receipts are revised downward by \$220 million. The decrease primarily reflects lower-than-expected estimated payments on tax year 2011 (\$315 million) and lower-than-estimated assessments (\$50 million) partially offset by lower-than-expected refunds (\$265 million). The reduction in estimated payments is driven by apparent weaker-than-projected non-wage income for the second half of 2011. Also, compared to the Mid-Year Update, \$385 million in projected withholding receipts from the December 2011 personal income tax reform is expected to partially offset a \$520 million reduction in pre-reform withholding.

The lower estimate for current year refunds of \$60 million is based on lower than expected refund requests on tax year 2010. Likewise, reduced prior refunds of \$265 million partly reflect lower refunds in the third quarter of FY 2012 for tax years prior to 2010. Lower current and prior refunds are partially offset by a spike in the state-city offset of \$60 million related to the 2010 change in New York City personal income tax rates related to the STAR program.

Compared to the Mid-Year Update, FY 2013 All Funds income tax receipts are revised upward by \$1.7 billion, primarily reflecting \$1.9 billion in new receipts from the above mentioned personal income tax reform (\$957 million in withholding and \$974 million in estimated payments for tax year 2012), \$577 million in lower refunds and \$9 million in projected

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

revenue from proposed legislation, partially offset by downward revisions of \$600 million in extension payments for tax year 2011 and \$160 million in pre-reform withholding.

All Funds income tax receipts for FY 2014 of \$43.1 billion are projected to increase \$2.8 billion (6.9 percent) from the prior year. Gross receipts are projected to increase 6.9 percent and reflect withholding that is projected to grow by \$2.1 billion (6.3 percent) and estimated payments related to tax year FY 2013 that are projected to grow by \$218 million (2.5 percent). Payments from tax year FY 2012 extensions are projected to increase by \$992 million (33.4 percent) reflecting \$612 million from recently enacted personal income tax reform, but offset by the expiration of the 2009 temporary tax increase. Payments from final returns are expected to decrease \$47 million (2.4 percent). Delinquencies are projected to increase \$26 million (2.7 percent) from the prior year. Total refunds are projected to increase by \$512 million (6.9 percent) from the prior year, partly reflecting \$173 million in refunds due to tax cuts implemented as a part of the recent personal income tax reform, partly offset by lower pre reform base refunds.

General Fund income tax receipts for FY 2014 of \$28.8 billion are projected to increase by \$1.9 billion (7 percent). RBTF deposits are projected to increase by \$692 million.

All Funds income tax receipts are projected to increase by \$1.3 billion (3 percent) in FY 2015 and \$1.4 billion (3.3 percent) in FY 2016. General Fund receipts are projected at \$29.6 billion and \$30.6 billion, respectively.

All Funds user taxes and fees receipts for FY 2012 are estimated to be \$14.7 billion, an increase of \$514 million (3.6 percent) from FY 2011. Sales tax receipts are expected to increase by \$459 million (4 percent) from the prior year due to base growth (i.e., absent law changes) of 6.4 percent, offset partly by a return of the clothing exemption at a \$55 per item threshold. The remaining estimated increase of \$55 million from FY 2011 is mainly from an increase in cigarette and tobacco tax collections due in part to increased compliance as a result of implementation of the prior-approval/coupon system.

General Fund user taxes and fees receipts are expected to total \$9.1 billion in FY 2012, an increase of \$340 million (3.9 percent) from FY 2011. The increase reflects growth in sales tax receipts of \$341 million (4.2 percent) and small and nearly offsetting year-over-year changes in cigarette and tobacco taxes (a decrease of \$4 million) and alcoholic beverage taxes (an increase of \$3 million).

All Funds user taxes and fees receipts for FY 2013 are projected to be \$15.1 billion, an increase of \$357 million (2.4 percent) from FY 2012. The increase in sales tax receipts of \$249 million (2.1 percent) mostly reflects sales tax base growth of 3.2 percent, offset by a return of the full clothing exemption (at \$110 per item).

General Fund user taxes and fees receipts are projected to total \$9.3 billion in FY 2013, an increase of \$206 million (2.3 percent) from FY 2012. This increase largely reflects the projected increases in All Funds sales tax receipts discussed above.

All Funds user taxes and fees are revised up by \$58 million for FY 2013, the result of FY 2012 base increases (\$69 million), and proposed legislation (\$18 million), offset by a reduction in receipts projected from the cigarette tax prior approval system (\$30 million).

All Funds business tax receipts for FY 2012 are estimated at \$7.9 billion, an increase of \$643 million (8.8 percent) from the prior year. This increase is mainly driven by the corporate franchise and bank taxes. Higher gross receipts for the bank tax and higher audits for the corporate franchise tax are the primary reasons for the increase as well as an incremental \$213 million increase (from \$100 million in FY 2011 to \$313 million in FY 2012) for the tax deferral of certain tax credits included in the corporate franchise tax.

All Funds corporate franchise tax receipts are estimated to be \$3.2 billion, an increase of \$385 million (13.5 percent) from FY 2011. The year-to-year increase is primarily due to higher audit receipts and the incremental increase for the tax deferral of certain tax credits. Gross receipts adjusted for the impact of the tax deferral are estimated to decline 6.2 percent from FY 2011. This is primarily attributable to the weakness in to-date 2011 liability payments. Through December 2011 payments from calendar year filers were basically flat compared to the prior year. The majority of the weakness occurred in the month of December when payments declined 11.9 percent.

All Funds corporation and utilities receipts for FY 2012 are estimated to be \$815 million, an increase of \$2 million (0.2 percent) from last year. Gross receipts for FY 2012 are estimated to decline 1 percent from FY 2011. This lack of growth is related to continued erosion of the telecommunication sector's taxable base, and a large refund (\$40 million) expected to be paid in FY 2012. Adjusted for the large refund, receipts growth would be 5.1 percent, primarily driven by higher audit receipts. Consumers continue to shift to mobile and non-cable company voice-over-internet-protocol telecommunications at the expense of landline telecommunications while internet-based communications tools such as Twitter and Facebook continue to grow. In

contrast, revenue from the regulated utilities provides a stabilizing component to the corporation and utilities tax base.

All Funds insurance tax receipts for FY 2012 are estimated to be \$1.4 billion, an increase of \$62 million (4.6 percent) from last year. This increase is driven by higher calendar year 2011 liability. Liability year 2011 payments are estimated to increase 5.3 percent over the prior year.

All Funds bank tax receipts for FY 2012 are estimated to be \$1,374 million, an increase of \$196 million (16.6 percent) above last year. This increase is mainly attributable to strong December collections in commercial bank calendar year liability estimated payments and the corresponding expected increase in the March prepayment. Additionally, refunds are significantly lower in FY 2012 compared to FY 2011 due to the delay in payment of 2009-10 refunds to April 2010. Lower audit receipts are expected to offset a portion of the increase in receipts from higher gross receipts and lower refunds.

General Fund business tax receipts for FY 2012 of nearly \$5.9 billion are estimated to increase by \$590 million (11.2 percent) from FY 2011. Business tax receipts deposited to the General Fund reflect the All Funds trends discussed previously.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

All Funds business tax receipts for FY 2013 of roughly \$8.2 billion are projected to increase by approximately \$230 million (2.9 percent) from the prior year. Corporation franchise tax receipts for FY 2013 are projected to increase by \$68 million (2.1 percent) from the previous year. Growth in gross collections and lower refunds is partially offset by lower audit receipts. Included in FY 2013 is an incremental increase of \$71 million (from \$313 million in FY 2012 to \$384 million in FY 2013) in receipts from the deferral of certain tax credits. Adjusting for the credit deferral, receipts are estimated to show no growth from FY 2012. Corporation and utilities taxes are projected to grow by \$62 million (7.6 percent). Absent the large refund in FY 2012, growth would be 2.6 percent. Both sections 186-e and 186-a are forecast to grow modestly based on revenue expectations for the telecommunications and residential energy sectors. Insurance taxes are forecast to increase \$50 million (3.5 percent). The year-over-year increase reflects trend growth in the insurance tax as the industry continues to recover from the economic downturn. Bank tax receipts for FY 2013 are projected to decline by \$23 million (1.7 percent) from the previous year. The unusually high commercial bank calendar year filer payments seen in FY 2012 are not expected to be repeated in FY 2013, resulting in a decline in projected gross receipts, which is partially offset by a projected increase in audit receipts. The projected PBT increase of \$73 million is due to an increase in the PBT rate index of 5 percent effective in January 2012 and the projected increase in the PBT tax rate index of 4.3 percent effective in January 2013. Motor and diesel fuel taxable consumption are also projected to grow compared to the prior fiscal year.

General Fund business tax receipts for FY 2013 of nearly \$6 billion are projected to increase \$109 million (1.9 percent) from the prior year. Business tax receipts deposited to the General Fund reflect the All Funds trends discussed above.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

Compared to the Mid-Year Update, FY 2012 All Funds business tax receipts are estimated to increase \$27 million (0.3 percent). The increase is attributable to the bank tax. Higher than estimated December bank tax receipts are the primary cause of the increase. Reductions in the other business taxes (excluding the PBT) resulting from year-to-date collection trends partially offset the gain from the bank tax. The petroleum business tax is unchanged from the Mid-Year Update.

All Funds business tax receipts for FY 2013 are nearly \$8.2 billion, or \$240 million (2.9 percent) below the Mid-Year Update. The decrease is primarily the result of corporate franchise tax receipts. Lower gross receipts carried forward from FY 2012 and the negative impact of the December 2011 Special Session items (\$45 million) are the primary reasons for the decrease from the Mid-Year Update. The changes from the Mid-Year Update for the other business taxes are modest.

All Funds business tax receipts for FY 2014, FY 2015, and FY 2016 reflect trend growth that is determined, in part, by the expected level of corporate profits, the expected profitability of banks, and the change in taxable insurance premiums, residential energy expenditures and the consumption of telecommunications services. Business tax receipts are estimated to increase to \$8.5 billion (3.7 percent) in FY 2014, decline to \$8 billion (4.9 percent) in FY 2015, and increase to \$8.7 billion (7.9 percent) in FY 2016. The decline in FY 2015 reflects the first year of the credit deferral payback to taxpayers. General Fund business tax receipts will reflect the factors outlined above, and are projected to increase to \$6.2 billion (3.9 percent) in FY 2014, decline to \$5.7 billion (8 percent) in FY 2015, and increase to \$6.3 billion (10 percent) in FY 2016.

All Funds other tax receipts for FY 2012 are estimated to be just over \$1.8 billion, an increase of \$15 million (0.8 percent) from FY 2011 receipts, reflecting decreases of \$23 million (1.9 percent) in estate and gift taxes, as a result of a return to more historical collection patterns and an increase of \$40 million (6.9 percent) in real estate transfer tax receipts, as the real estate market continues to rebound.

General Fund other tax receipts are expected to total more than \$1.2 billion in FY 2012, a decrease of \$25 million (2 percent), due to the decrease in the estate tax.

All Funds other tax receipts for FY 2013 are projected to be approximately \$1.8 billion, up \$2 million (0.1 percent) from FY 2012 reflecting a decline in estate tax collections that are more than offset by growth in the real estate transfer tax. General Fund other tax receipts are expected to total \$1.1 billion in FY 2013, a decrease of \$68 million (5.6 percent), which is attributable to a projected decline in estate tax receipts due to a drop in the number and average size of payments expected in FY 2013.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

The FY 2014 All Funds receipts projection for other taxes of just over \$1.9 billion represents an increase of \$73 million (4 percent) from FY 2013 receipts. The forecast reflects continued increases in household net worth and the value of real property transfers.

The FY 2015 All Funds receipts projection for other taxes of nearly \$2.1 billion is up \$155 million (8.1 percent) from FY 2014 as continued growth in estate and real estate transfer tax collections is expected.

The FY 2016 All Funds receipts projection for other taxes is slightly more than \$2.1 billion, up \$75 million (3.6 percent) from FY 2015 receipts. Receipts from the real estate transfer tax are projected to increase, reflecting the continued rebound in residential and commercial transactions.

All funds miscellaneous receipts include monies received from HCRA financing sources, SUNY tuition and patient income, lottery receipts for education, assessments on regulated industries, and a variety of fees and licenses. All Funds miscellaneous receipts are projected to reach \$23.8 billion in FY 2012, an increase of \$684 million from FY 2011. Augmenting General Fund growth are (see below) growth in SUNY receipts, including bond proceeds available for SUNY capital projects (\$694 million), and changes in bond proceed funding for several capital improvement projects including health and environmental conservation (\$333 million).

Federal grants help pay for State spending on Medicaid, temporary and disability assistance, mental hygiene, school aid, public health, and other activities. Annual changes to Federal grants generally correspond to changes in federally-reimbursed spending. Accordingly, DOB typically plans that Federal reimbursement will be received in the State fiscal year in which spending occurs, but timing is often unpredictable. All Funds Federal grant are projected to total \$43.9 billion in FY 2012, a decline of \$5.4 billion from FY 2011 reflecting a decrease in Federal ARRA funding.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

General Fund miscellaneous receipts collections are estimated to be \$3.2 billion in FY 2012, an increase of \$149 million from FY 2011 receipts. This increase is primarily due to timing of payments and the decreased dormancy period for abandoned property from five years to three years.

General fund miscellaneous receipts collections are projected to be \$3.1 billion in FY 2013, a decrease of \$175 million from FY 2012. This decrease is primarily the result of a decrease in the New York Power for Jobs program receipts and lower public authority receipts.

General Fund miscellaneous receipts for FY 2012 have been revised upward by \$92 million, reflecting re-estimates from stronger than expected year-to-date receipts and an upward revision of \$25 million to the New York Power for Jobs program receipts.

All Funds miscellaneous receipts in FY 2012 were revised upward by \$532 million largely reflecting increased projections for programs financed with authority bond proceeds, including economic development (\$343 million) and modest receipts revisions in various special revenue funds (\$81 million) and general fund increase detailed below.

General Fund miscellaneous receipts for FY 2013 have been revised upward by \$45 million. This revision is the result of upward re-estimates in fees and abandoned property slightly offset by a downward revision to New York Power for Jobs program.

All Funds miscellaneous receipts in FY 2013 were revised upward by \$268 million largely reflecting increased projections for programs financed with authority bond proceeds, including economic development, transportation and parks (\$370 million) offset by declines in lottery receipts and receipts revisions in various special revenue funds (\$146 million).

All Funds Federal grants were revised upward in FY 2012 and FY 2013 from Mid-Year by \$911 million and \$2.4 billion, respectively primarily driven by revisions to Medicaid spending.

General Fund miscellaneous receipts and Federal Grants are estimated to be \$2.6 billion in FY 2014, down \$491 million from FY 2013 receipts. This decrease is primarily due to lower 18-A public utility assessments, lower fee estimates, and a change in how Federal grants are reimbursed.

General Fund miscellaneous receipts and Federal grants in FY 2015 are projected to be \$2.2 billion, down \$393 million from FY 2014. This decrease primarily results from lower 18-A public utility assessments.

General Fund miscellaneous receipts and Federal grants in FY 2016 are projected to be just over \$2.3 billion, an increase of \$93 million from the prior year. This increase primarily results from an increase in the New York Power of Jobs program receipts.

All Funds miscellaneous receipts are projected to total \$24.2 billion in FY 2014, a decrease of \$97 million from FY 2013. General Fund reductions described above are offset by growth in other areas, primarily HCRA (\$179 million) and SUNY receipts (\$167 million).

All Funds miscellaneous receipts decrease by \$271 million in FY 2015, driven by the decline in General Funds and the projected decline in programs financed with authority bond proceeds, including health projects (\$169 million) partially offset by increases in HCRA (\$119 million) and SUNY receipts (\$159 million).

All Funds miscellaneous receipts are projected to total \$24 billion in FY 2016, an increase of \$132 million from FY 2015 driven by General Fund increases described above.

All Funds Federal grants are projected to increase in all years driven primarily by Medicaid spending.

## **MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

---

### **DISBURSEMENTS**

General Fund disbursements in FY 2013 are estimated to total \$58.6 billion, an increase of \$1.7 billion (2.9 percent) over the current FY 2012 estimate. State Operating Funds disbursements for FY 2013 are estimated to total \$88.7 billion, an increase of \$1.7 billion (1.9 percent) over FY 2012.

The multi-year disbursements projections take into account agency staffing levels, program caseloads, formulas contained in State and Federal law, inflation and other factors. The factors that affect spending estimates vary by program. For example, welfare spending is based primarily on anticipated caseloads that are estimated by analyzing historical trends and projected economic conditions. Projections account for the timing of payments, since not all of the amounts appropriated in the Budget are disbursed in the same fiscal year. Consistent with past years, the aggregate spending projections (i.e., the sum of all projected spending by individual agencies) in special revenue funds have been adjusted downward in all fiscal years based on typical spending patterns and the observed variance between estimated and actual results over time.

Over the multi-year Financial Plan, State Operating Funds spending is expected to increase by an average annual rate of 3.4 percent. The projections reflect spending at the capped growth rates for Medicaid and School Aid, and contemplate the effect of national health care reform on State health care costs. The projections do not reflect any potential impact of automatic spending reductions that would be triggered if the Federal government fails to amend existing deficit reduction legislation.

Medicaid, education, pension costs, employee and retiree health benefits, social services programs and debt service are significant drivers of spending growth over the Plan period.

Selected assumptions used by DOB in preparing the spending projections for the State's major programs and activities are summarized in the following tables.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

### LOCAL ASSISTANCE GRANTS

Local Assistance spending includes payments to local governments, school districts, health care providers, and other entities, as well as financial assistance to, or on behalf of, individuals, families and not-for-profit organizations. State-funded local assistance spending is estimated at \$59.1 billion in FY 2013 and accounts for over 65 percent of total State Operating Funds spending. Education and health care spending account for three-quarters of local assistance spending.

Selected assumptions used in preparing the spending projections for the State's major local aid programs and activities are summarized in the following table.

## EDUCATION

### SCHOOL AID

School Aid helps support elementary and secondary education for New York pupils enrolled in 676 major school districts throughout the State. State funding is provided to districts based on statutory aid formulas and through reimbursement of categorical expenses. State funding for schools assists districts in meeting locally defined needs, supports the construction of school facilities, and finances school transportation for nearly three million students statewide.

#### School Year (July 1 — June 30)

The FY 2012 Enacted Budget included a two-year appropriation and amended the Education Law to tie future increases in School Aid to the rate of growth in New York State personal income. Under this limit, School Aid funding will increase by \$805 million in School Year (SY) 2013, a 4.1 percent increase from SY 2012.

Over the multi-year financial plan, School Aid funding will be a function of both a personal income growth index used to determine allowable growth and future legislation to allocate the allowable increases. Current law prescribes allowable growth to include spending for new competitive grant programs which reward school districts that demonstrate significant student performance improvements or those that undertake long-term structural changes to reduce costs and improve efficiency. Allowable growth also includes increases in expense-based aid programs (e.g., Building Aid, Transportation Aid) under existing statutory provisions. Any remaining amount of allowable growth can be allocated pursuant to a chapter of law for purposes including, but not limited to, additional spending for competitive grants, increases in Foundation Aid or restoration of the Gap Elimination Adjustment.

Based on updated estimates of personal income growth, School Aid is projected to increase by an additional \$711 million in SY 2014 and \$841 million in SY 2015. School Aid is projected to reach an annual total of nearly \$22.9 billion in SY 2016.

### STATE FISCAL YEAR

The State finances School Aid from General Fund revenues and from Lottery Fund receipts, including VLTs, which are accounted for and disbursed from a dedicated revenue account. Because the State fiscal year begins on April 1, the State pays approximately 70 percent of the annual school year commitment during the State fiscal year in which it is enacted, and pays the remaining 30 percent in the first three months of the following State fiscal year.

The table below summarizes the multi-year projected funding levels for School Aid on a State fiscal year basis.

SCHOOL AID - FISCAL YEAR BASIS									
STATE OPERATING FUNDS									
(millions of dollars)									
	FY 2012	FY 2013	Annual %	FY 2014	Annual %	FY 2015	Annual %	FY 2016	Annual %

General Fund Lottery Aid Guarantee	138	56	-59%	0	-100%	0	0%	0	0%

State spending for School Aid is projected to total \$20 billion in FY 2013. In future years, receipts available to finance School Aid from core lottery sales is projected to remain relatively flat while VLT receipts are anticipated to increase through FY 2015 as a result of the new VLT facility at the Aqueduct Racetrack. In addition to State aid, school districts receive approximately \$3.6 billion annually in Federal categorical aid.

### SCHOOL TAX RELIEF PROGRAM

The STAR program provides school tax relief to taxpayers. The three components of STAR and their approximate shares in FY 2013 are: the basic school property tax exemption for homeowners with income under \$500,000 (59 percent), the enhanced school property tax exemption for senior citizen homeowners with income under \$79,050 (24 percent), and a flat refundable credit and rate reduction for New York City resident personal-income taxpayers (17 percent).

## **MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

---

The STAR program exempts the first \$30,000 of every eligible homeowner's property value from the local school tax levy. Lower-income senior citizens receive a \$62,200 exemption. Spending for the STAR property tax exemption reflects reimbursements made to school districts to offset the reduction in property tax revenues.

The annual increase in a qualifying homeowner's STAR exemption benefit is limited to 2 percent. Homeowners who earn more than \$500,000 a year are not eligible for the STAR property tax exemption. New York City personal income taxpayers with annual income over \$500,000 have a reduced benefit.

The multi-year Financial Plan reflects a program under which the Department of Taxation and Finance would instruct local assessors to withhold the STAR exemption benefit from taxpayers who have overdue State-imposed and State-administered taxes and who own a home that is STAR-eligible. New York City residents who are similarly in arrears would lose their City PIT rate-reduction benefit, as well as the State School Tax Reduction Credit.

### **OTHER EDUCATION AID**

In addition to School Aid, the State provides funding and support for various other education-related initiatives. These include: special education services; prekindergarten through grade 12 education programs; cultural education; higher and professional education programs; and adult career and continuing education services.

Major programs under the Office of Prekindergarten through Grade 12 Education address specialized student needs or reimburse school districts for education-related services, including the school breakfast and lunch programs, non-public school aid, and various special education programs. In special education, New York provides a full spectrum of services to over 400,000 students from ages 3 to 21. Higher and professional education programs monitor the quality and availability of postsecondary education programs and regulate the licensing and oversight of 48 professions.

Spending for special education is expected to increase as program costs and enrollment rise. In FY 2012, school districts will finance the costs associated with schools for the blind and deaf in the first instance and will be reimbursed by the State in the first quarter of FY 2013, which drives a significant annual increase in FY 2013 spending. Other education spending is affected by the phase-out of Federal ARRA Stabilization Funds.

## HIGHER EDUCATION

Local assistance for higher education spending includes funding for CUNY, SUNY and HESC. The State provides assistance for CUNY's senior college operations, and works in conjunction with the City of New York to support CUNY's community colleges. The CUNY system is the largest urban public university system in the nation. Funding for SUNY supports 30 community colleges across multiple campuses.

The State also provides a sizeable benefit to SUNY and CUNY through the debt service it pays on bond-financed capital projects at the universities. This is not reflected in the annual spending totals for the universities. State debt service payments for higher education are expected to total over \$1.2 billion in FY 2013.

HESC administers the TAP program that provides awards to income-eligible students, and NY HELPS. It also provides centralized processing for other student financial aid programs, and offers prospective students information and guidance on how to finance a college education. The financial aid programs that the Corporation administers are funded by the State and the Federal government.

<sup>1</sup> State support for SUNY 4-year institutions is funded through State operations rather than local assistance.

<sup>2</sup> Beginning in academic year 2011-12, the SUNY hospital subsidy will be funded as a transfer from General Fund State operations rather than local assistance.

Growth in spending for higher education over the plan period largely reflects aid to New York City for reimbursement of CUNY senior college operating expenses associated with the rising contribution rates for fringe benefits. Spending growth for tuition assistance reflects the impact of upward trends in student enrollment at institutions of higher education.

## **MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

### **HEALTH CARE**

Local assistance for health care-related spending includes Medicaid, statewide public health programs and a variety of mental hygiene programs. The DOH works with the local health departments and social services departments, including New York City, to coordinate and administer statewide health insurance programs and activities. The majority of government-financed health care programs are included under DOH, but many programs are supported through multi-agency efforts. The Medicaid program finances inpatient hospital care, outpatient hospital services, clinics, nursing homes, managed care, prescription drugs, home care, FHP, and services provided in a variety of community-based settings (including mental health, substance abuse treatment, developmental disabilities services, school-based services, foster care services and inpatient hospital services provided to inmates on medical leave from State correctional facilities). The State share of Medicaid spending is budgeted and expended principally through DOH, but State share Medicaid spending also appears in the mental hygiene agencies, child welfare programs, School Aid and DOCCS. Medicaid spending is reported separately in the Financial Plan tables for each of the agencies.

### **MEDICAID**

Medicaid is a means-tested program that finances health care services for low-income individuals and long-term care services for the elderly and disabled, primarily through payments to health care providers. The Medicaid program is financed jointly by the State, the Federal government, and local governments (including New York City). New York's Medicaid spending is projected to total approximately \$54.0 billion in FY 2013, including the local contribution.<sup>8</sup>

---

<sup>8</sup> The local contribution to the Medicaid program is not included in the State's Financial Plan. Since January 2006, the State has paid the entire non-Federal share of the FHP program and any annual Medicaid increases above a fixed level for local social services districts. The FY 2013 Executive Budget proposes to amend these statutory indexing provisions by implementing a three-year phased-takeover of the local share of growth above the previous year's enacted levels beginning in April 2013 for CY 2013, with the State assuming all growth CY 2015. This initiative is expected to save local governments nearly \$1.2 billion through the next five state fiscal years, as compared to levels assumed under current statute.

<sup>2</sup> Includes operational costs that support contracts related to the management of the Medicaid program and various activities to ensure appropriate utilization.					

The Executive Budget reflects continuation of the Medicaid spending cap enacted in FY 2012, and recommends funding consistent with its provisions. The cap is based on the ten-year average change in the medical component of the Consumer Price Index. Statutory changes approved with the FY 2012 budget grant the Executive certain administrative powers to help hold Medicaid pending to the capped level. The statutory changes expire at the end of FY 2013. The Executive Budget proposes a one-year extension through FY 2014. The cap itself remains in place and the Financial Plan assumes that statutory authority will be extended in subsequent years.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

Factors affecting Medicaid growth over the Plan period include Medicaid enrollment, costs of provider health care services (particularly in managed care), levels of utilization and the expiration of enhanced Federal aid.<sup>9</sup> The number of Medicaid recipients, including FHP, is expected to exceed 5.1 million at the end of FY 2013, an increase of 2.4 percent from the FY 2012 caseload of 5 million. The expiration of the enhanced FMAP contributes to an increase of State-share spending of over \$1 billion from FY 2012 to FY 2013, and includes costs associated with the Federal funding reconciliation between the State and counties. Pursuant to Federal Health Care Reform, the Federal government is expected to finance a greater share of Medicaid costs for individuals and couples without children, which is expected to lower growth in State-share Medicaid costs beginning in FY 2015.

The FY 2013 Executive Budget includes proposals to establish a phased-takeover of local government administration of the Medicaid program and to cap spending on local Medicaid administration at FY 2012 appropriation levels. The FY 2013 Executive Budget also provides Medicaid Local cap relief for all counties and New York City by reducing growth in local Medicaid payments. These proposals are consistent with this Administration's efforts to provide fiscal relief to local governments in an effort to reduce the tax burden on its citizens.

The State share of DOH Medicaid spending is funded from the General Fund, HCRA, provider assessment revenue, and indigent care revenue. The chart below provides information on the financing sources for State Medicaid spending.

<sup>1</sup> Does not include Medicaid spending in other State agencies, DOH State operations spending, or the local government share of total Medicaid program spending.  
<sup>2</sup> Excludes benefits realized in other State agencies. Costs in FY 2013 reflect the reconciliation of the local share benefit for FY 2012 that will occur in FY 2013.

<sup>9</sup> In August 2010, the U.S. Congress approved a six-month extension of the enhanced FMAP benefit through June 30, 2011. Under enhanced FMAP (which covered the period from October 2008 through June 30, 2011), the base Federal match rate increased from 50 percent to approximately 57 percent during the period, which resulted in a concomitant decrease in the State and local share.

### PUBLIC HEALTH/AGING PROGRAMS

Public Health includes the EPIC program that provides prescription drug insurance to low-income seniors, the CHP program that finances health insurance coverage for children of low-income families up to the age of 19, the GPHW program that reimburses local health departments for the cost of providing certain public health services, the EI program that pays for services to infants and toddlers under the age of three with disabilities or developmental delays, and other HCRA and State-supported programs.

The SOFA promotes and administers programs and services for New Yorkers 60 years of age and older. The Office primarily oversees community-based services, including but not limited to in-home services and nutrition assistance, provided through a network of county Area Agencies on Aging and local providers.

Many public health programs, such as the EI and GPHW programs, are run by county health departments and reimbursed by the State for a share of program costs. The State spending projections do not include the county share of public health funding. In addition, a significant portion of HCRA spending is included under the public health budget. For more information on HCRA projections, see the section entitled “HCRA Financial Plan” below.

Increased enrollment in the CHP program and inflationary costs are expected to drive growth in the outyears of the plan, while outyear growth in the GPHW program reflects anticipated claiming from counties.

The steep decline in spending in FY 2013 is due in large part to the annual impact of peak utilization in FY 2012 of funding received through the F-SHRP program, which was provided to the state on a time-limited basis (expiring March 31, 2014) through a Federal waiver under certain terms and conditions aimed at improving the delivery and access of community health care services. EPIC spending is projected to decline sharply in FY 2013, resulting from previous budgetary actions to provide coverage to Medicare Part D enrollees only when they are in the coverage gap. After FY 2013, EPIC spending is projected to stabilize and increase accordingly with the rising costs of prescription medication.

# MULTI-YEAR FINANCIAL PLAN PROJECTIONS

## HCRA FINANCIAL PLAN

HCRA was established in 1996 to help finance a portion of State health care activities in various areas of the budget: Medicaid, Public Health, and the Department of Financial Services. Extensions and modifications to HCRA have financed new health care programs, including FHP, and provided additional funding for the expansion of existing programs such as CHP. HCRA has also provided additional financing for the health care industry, including investments in worker recruitment and retention, and the HEAL NY capital program.

HCRA receipts include surcharges and assessments on hospital revenues, a “covered lives” assessment paid by insurance carriers, a portion of cigarette tax revenues, and other revenues dedicated by statute, as well as potential future proceeds from insurance company conversions.

HCRA spending primarily finances Medicaid, EPIC, CHP, FHP and Indigent Care payments, which provide funds to hospitals that serve a disproportionate share of individuals without health insurance. HCRA also provides funding for Workforce Recruitment and Retention and rate adjustments to health facilities, physician excess medical malpractice, and HEAL NY for capital improvements to health care facilities.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

HCRA is expected to remain in balance over the multi-year projection period. Under the current HCRA appropriation structure, spending reductions will occur if resources are insufficient to meet spending levels. These spending reductions could potentially affect core HCRA programs. The reauthorizations of HCRA in prior years maintained HCRA's balance without the need for automatic spending reductions.

Given the close relationship between the General Fund and HCRA, any balances in HCRA are typically eliminated by adjusting the level of Medicaid expenditures that HCRA finances. This reduces costs that otherwise would have been paid for by the General Fund. Conversely, any shortfall in HCRA is expected to be financed by the General Fund.

### MENTAL HYGIENE

The Department of Mental Hygiene is comprised of four independent agencies, OMH, OPWDD, OASAS, and DDPC, as well as one oversight agency, the CQCAPD. Services are administered to adults with serious and persistent mental illness; children with serious emotional disturbances; individuals with developmental disabilities and their families; and persons with chemical dependence. These agencies provide services directly to their patients through State-operated facilities and indirectly through community service providers. The costs associated with providing these services are funded by reimbursement from Medicaid, Medicare, third-party insurance and State funding. Patient care revenues are pledged first to the payment of debt service on outstanding mental hygiene bonds, which are issued to finance improvements to infrastructure at mental hygiene facilities throughout the State, with the remaining revenue used to support State operating costs.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

Local assistance spending in mental hygiene accounts for nearly half of total mental hygiene spending from State Operating Funds, and is projected to grow by an average rate of 5.4 percent annually. This growth is attributable to increases in the projected State share of Medicaid costs and projected expansion of the various mental hygiene service systems, including: increases primarily associated with the OPWDD NYS-CARES program; the New York/New York III Supportive Housing agreement and community beds that are currently under development in the OMH pipeline. Additional outyear spending is assumed in Financial Plan estimates for costs associated with efforts to move individuals in nursing homes and other settings to the least restrictive setting possible, as well as several chemical dependence treatment and prevention initiatives for individuals receiving services through OASAS. The plan also reflects costs of roughly \$100 million annually for adjustments based on not-for-profit provider performance and actual costs.

### SOCIAL SERVICES

OTDA local assistance programs provide cash benefits and supportive services to low-income families. The State's three main programs include Family Assistance, Safety Net Assistance and SSI. The Family Assistance program, which is financed by the Federal government, provides time-limited cash assistance to eligible families. The Safety Net Assistance program, financed by the State and local districts, provides cash assistance for single adults, childless couples, and families that have exhausted their five-year limit on Family Assistance imposed by Federal law. The State SSI Supplementation program provides a supplement to the Federal SSI benefit for the elderly, visually handicapped, and disabled.

The average public assistance caseload is projected to total 553,029 recipients in FY 2013, a decrease of 2.2 percent from FY 2012 levels. Approximately 255,031 families are expected to receive benefits through the Family Assistance program, a decrease of 2.6 percent from the current year. In the Safety Net Families program, an average of 119,791 families are expected to be helped in FY 2013, a decrease of 2.9 percent. The caseload for single adults/childless couples supported through the Safety Net Families program is projected at 178,207, a decrease of 1.2 percent.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

OCFS provides funding for foster care, adoption, child protective services, preventive services, delinquency prevention, and child care. OCFS oversees the State’s system of family support and child welfare services administered by local departments of social services and community-based organizations. Specifically, child welfare services, which are financed jointly by the Federal government, the State, and local districts, are structured to encourage local governments to invest in preventive services to reduce out-of-home placement of children. In addition, the Child Care Block Grant, which is also financed by a combination of Federal, State and local sources, supports child care subsidies for public assistance and low-income families. The youth facilities program serves youth directed by family or criminal courts to be placed in residential facilities.

Growth in Child Welfare Services and Adult Protective/Domestic Violence reflects anticipated growth in local claims and flat Federal funding.

## TRANSPORTATION

In FY 2013, the DOT will provide \$4.4 billion in local assistance to support statewide mass transit systems. This funding, financed through the collection of dedicated taxes and fees, is provided to mass transit operators throughout the State to support operating costs. The MTA, due to the size and scope of its transit system, receives the majority of the statewide mass transit operating aid. Additionally, the MTA receives operating support from the Mobility Tax and MTA Aid Trust Fund, authorized in May 2009 to collect regional taxes and fees imposed within the Metropolitan Commuter Transportation District. The State collects these taxes and fees on behalf of, and disburses the entire amount to, the MTA to support the transit system. Spending from this fund is projected to grow from 5 percent to 9 percent each year from FY 2013 to FY 2016. Legislation enacted in December 2011 eliminates the MTA payroll tax for all elementary and secondary schools as well as for certain small businesses. The Financial Plan assumes the State will compensate the MTA for the decrease in receipts from the tax reduction.

## LOCAL GOVERNMENT ASSISTANCE

Direct aid to local governments primarily includes the AIM program, which was created in FY 2006 to consolidate various unrestricted local aid funding streams. Along with AIM, the State provides incentive grants to local governments. Other direct aid to local governments includes VLT impact aid, Small Government Assistance and Miscellaneous Financial Assistance.

## AGENCY OPERATIONS

Agency operating costs include personal service, non-personal service, and GSCs. Personal service includes salaries of State employees of the Executive, Legislative, and Judicial branches, as well as overtime payments and costs for temporary employees. Non-personal service generally accounts for the cost of operating State agencies, including real estate rental, utilities, contractual payments (i.e., consultants, information technology, and professional business services), supplies and materials, equipment, telephone service and employee travel. GSCs account for the costs of fringe benefits (e.g., pensions, health insurance) provided to State employees and retirees of the Executive, Legislative and Judicial branches, and certain fixed costs paid by the State. In addition, certain agency operations of Transportation and Motor Vehicles are included in the capital projects fund type and not reflected in the State Operating Funds personal service or non-personal service totals.

Approximately 94 percent of the State workforce is unionized. The largest unions include CSEA, which primarily represents office support staff and administrative personnel, machine operators, skilled trade workers, and therapeutic and custodial care staff; PEF, which primarily represents professional and technical personnel (e.g., attorneys, nurses, accountants, engineers, social workers, and institution teachers); UUP, which represents faculty and non-teaching professional staff within the State University system; and NYSCOPBA, which represents security personnel (correction officers, safety and security officers).

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

Selected assumptions used in preparing the spending projections for the State's major programs and activities are summarized in the following table.

Growth in State Operations spending over the multi-year Financial Plan is concentrated in agencies that operate large facilities, such as the State University, the mental hygiene agencies, and Corrections and Community Supervision. The main causes of growth include inflationary increases in operating costs expected for food, medical care and prescription drugs, and energy costs in State facilities, offset by expected savings from enterprise procurement efforts. Also note that FY 2016 reflects the infrequent occurrence of an additional State institutional payroll, and the State's repayment to State employees for deficit reduction leave taken during FY 2012 as part of workforce savings initiatives.

## GENERAL STATE CHARGES

Fringe benefit payments, many of which are mandated by statute or collective bargaining agreements, include employer contributions for pensions, Social Security, health insurance, workers' compensation, unemployment insurance, and dental and vision benefits. The majority of employee fringe benefit costs are paid centrally from statewide appropriations. However, certain agencies including the Judiciary and SUNY, directly pay all or a portion of their employees' fringe benefit costs from their respective budgets. Employee fringe benefits paid through GSCs are paid from the General Fund in the first instance and then partially reimbursed by revenue collected from fringe benefit assessments on Federal funds and other special revenue accounts. The largest General Fund reimbursement comes from the mental hygiene agencies.

GSCs also include certain fixed costs such as State taxes paid to local governments for certain State-owned lands, and payments related to lawsuits against the State and its public officers.

GSCs are projected to increase at an average annual rate of 4.8 percent over the plan period. The annual decrease in FY 2013 is driven by the impact of collective bargaining agreements, attritions and the prepayment of certain pension costs in FY 2012. Increases in future years are driven by projected growth in health insurance and pension costs, offset by revenue collected from fringe benefit assessments, particularly from the mental hygiene agencies.

General Fund transfers help finance certain capital activities, the State's share of Medicaid costs for State-operated mental hygiene facilities, debt service for bonds that do not have dedicated revenues, and a range of other activities.

A significant portion of the capital and operating expenses of DOT and DMV are funded from DHBTF. The Fund receives dedicated tax and fee revenue from the Petroleum Business Tax, the Motor Fuel Tax, the Auto Rental Tax, highway use taxes, transmission taxes and motor vehicle fees administered by DMV. The Financial Plan includes transfers from the General Fund that effectively subsidize the expenses of the DHBTF. The subsidy is required because the cumulative expenses of the fund – capital and operating expenses of DOT and DMV, debt service on DHBTF bonds and transfers for debt service on bonds that fund CHIPs and local transportation programs – exceed current and projected revenue deposits and bond proceeds.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

Transfers to other funds are expected to total \$7.2 billion in FY 2013, an annual increase of over \$1.0 billion, or 17 percent. This increase is mainly due to higher costs related to capital projects, the SUNY operating subsidy, Mental Hygiene, and supplementation to MTA for the recent payroll tax reduction.

### DEBT SERVICE

The State pays debt service on all outstanding State-supported bonds. These include general obligation bonds, for which the State is constitutionally obligated to pay debt service, as well as bonds issued by State public authorities (i.e., ESD, DASNY, and the TA, subject to an appropriation). Depending on the credit structure, debt service is financed by transfers from the General Fund, dedicated taxes and fees, and other resources, such as patient income revenues.

Total debt service is projected at \$6.1 billion in FY 2013, of which \$1.6 billion is paid from the General Fund through transfers, and \$4.5 billion from other State funds. The General Fund transfer primarily finances debt service payments on general obligation and service contract bonds. Debt service is paid directly from other State funds for the State's revenue bonds, including PIT bonds, DHBTF bonds, and mental health facilities bonds.

Executive Budget projections for debt service spending have been revised to reflect the prepayment of \$140 million of SUNY debt service in March 2012. Otherwise, FY 2013 debt service estimates are relatively unchanged compared to prior estimates, with minor revisions for PIT, Mental Health, DHBTF, and other bonding programs.

## YEAR-TO-DATE OPERATING RESULTS

This section provides a summary of actual operating results through the first ten months of FY 2012 compared to the projections included in the FY 2012 Enacted Budget Financial Plan dated May 6, 2011 (the “Initial Projections”) and the FY 2013 Executive Budget Financial Plan dated January 17, 2012 (the “Revised Projections”), as well as actual results for the same ten-month period in the prior year.

Actual cash balances as of January 31, 2012 are higher than estimated in all major funds of the State. The General Fund - the fund required to be balanced on a cash basis at year-end - ended the month of January 2012 with a balance of approximately \$6.6 billion, \$353 million higher than projected. Overall, the favorable results compared to the revised projections appear to be due to the timing of certain payments and other transactions.

### **GENERAL FUND VARIANCE FROM PROJECTIONS**

Total taxes, including transfers from other funds after debt service, were \$52 million higher than the revised projections, mainly due to higher than expected collections from business taxes (\$86 million), which were driven by higher than expected gross receipts for the corporate franchise and bank tax, offset by lower than expected estate tax collections (\$34 million). These variances can be attributed to timing. Compared to initial projections, the lower receipts are consistent with the reductions reflected in recent Financial Plan updates.

Disbursements fell below revised projections by \$301 million. Disbursements for education and Medicaid, the two largest components of the General Fund, generally appear to be in line with annual estimates. The variances to date reflect routine differences in the timing of payments and the application of resources from other funds. State Operations disbursements exceeded planned levels by a modest amount mainly due to the processing of certain accounting transactions by several State agencies. Higher spending for GSCs reflects a delay in the application of planned Medicaid escrow receipts that provide a reimbursement for gross statewide payments made from the General Fund. Transfers from the General Fund to other funds were lower than projected, mainly due to scheduled accounting adjustments to the State Share of Medicaid payments to State-operated Mental Hygiene facilities, as well as capital projects financing.

Compared to the initial projections, disbursements were \$1.2 billion lower than expected. In addition to the preceding summary of variances to the revised projections, further timing delays and adjustments to initial payment schedules have been accounted for in recent Financial Plan updates.

### **GENERAL FUND ANNUAL CHANGE**

The comparison of results on a year-over-year basis is affected by a number of cash management actions taken by the State in FY 2010 and FY 2011 to preserve liquidity and manage expenses. The most significant action that affects the comparison of results is the delay of payments from the final quarter of FY 2010 until the end of the first quarter of FY 2011. This had the effect of increasing the opening balance in FY 2011 to finance a portion of the obligations that had been delayed from March 2010, including a \$2.1 billion school aid payment that was initially scheduled for March 2010 to the statutory deadline of June 2010.

The January 2012 closing balance in the General Fund was \$1.0 billion higher than the closing balance in January 2011 even though the State began FY 2012 with a balance of \$1.4 billion, or \$926 million below the starting balance for FY 2011. The improvement is comprised of growth in revenue collections (\$2.9 billion) partly offset by the lower opening balance (\$926 million) and higher spending (\$944 million).

Annual growth in receipts is primarily due to growth in PIT receipts driven by a strong April 2011 PIT settlement; continued corporate profits from certain deferred tax credit claims that have aided the corporate franchise tax; and increased consumer spending, reflecting improved economic conditions.

Excluding the deferral of the FY 2010 school aid payment, spending through January 2012 was \$3.0 billion above the prior year. The increase is mainly due to the expiration of the temporary enhanced Federal share of Medicaid costs that has added approximately \$2.5 billion year-over-year to the State share through January 2012. In addition, current Medicaid spending includes the payment of an extra (“the 53<sup>rd</sup> Medicaid cycle”) weekly payment from FY 2011 to the first week of FY 2012 (\$322 million), which was approved as part of the FY 2010 Enacted Budget.

Spending for agency operations has continued to decline, consistent with management expectations. The decline in personal service reflects the impact of increased attrition, strict hiring controls, and other workforce management actions. Reductions in non-personal service spending reflect the continuing impact of statewide spending controls and agency redesign efforts. Growth in GSCs is mainly due to higher health insurance costs in FY 2012.

### STATE OPERATING FUNDS

State Operating Funds results for receipts and disbursements are generally consistent with the General Fund variances described earlier. In addition to General Fund receipts variances, miscellaneous receipts collections in other State funds were approximately \$121 million below projections, largely reflecting lower HCRA receipts and SUNY income revenue.

The annual change in State Operating Funds results in addition to the General Fund annual changes summarized earlier, include growth in local assistance spending for mental hygiene and health care programs. Agency Operations in Special Revenue Funds has increased over the prior year mainly due to mental hygiene personal services and increased contractual services associated with expansions to SUNY-operated hospitals and campuses (roughly \$300 million). Increased Debt Service costs (\$123 million) are consistent with Financial Plan expectations.

**GAAP-BASIS FINANCIAL PLANS/

# **GAAP-BASIS FINANCIAL PLAN/ OTHER POST-EMPLOYMENT BENEFITS**

## **GAAP-BASIS FINANCIAL PLAN**

The State Budget is required to be balanced on a cash basis, which is DOB's primary focus in preparing and implementing the State Financial Plan. State Finance Law also requires the Financial Plan be presented for informational purposes on a GAAP basis. The GAAP-basis plans model, to the extent practicable, the accounting principles applied by OSC in preparation of the annual Financial Statements. Tables comparing the cash-basis and GAAP-basis General Fund Financial Plans are provided at the end of this Financial Plan.

In FY 2012, the General Fund GAAP Financial Plan shows total revenues of \$48.1 billion, total expenditures of \$58.4 billion, and net other financing sources of \$9.3 billion, resulting in an operating deficit of \$960 million.

In FY 2013, the General Fund GAAP Financial Plan shows total revenues of \$50.2 billion, total expenditures of \$59.8 billion, and net other financing sources of \$9.3 billion, resulting in an operating deficit of \$215 million. These results reflect the net impact of the Executive Budget gap-closing actions. DOB's detailed GAAP Financial Plans for FY 2012 through FY 2016 are provided in the Financial Plan Tables.

## **OTHER POST-EMPLOYMENT BENEFITS**

Substantially all of the State's employees become eligible for post-employment benefits if they reach retirement while working for the State. In accordance with GASB 45, the State must perform an actuarial valuation every two years for purposes of calculating OPEB liabilities. As disclosed in note 13 of the State's Basic Financial Statements for FY 2011, the ARC represents the annual level of funding that, if set-aside on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded liabilities of the plan over a period not to exceed thirty years. Amounts required but not actually set aside to pay for these benefits are accumulated with interest as part of the net OPEB obligation, after adjusting for amounts previously required.

As reported in the State's Basic Financial Statements for FY 2011, an actuarial valuation of OPEB liabilities was performed as of April 1, 2008 with results projected to April 1, 2009 for the fiscal year ended March 31, 2011. The valuation calculated the present value of the actuarial accrued total liability for benefits as of March 31, 2011 at \$55.9 billion (\$46.3 billion for the State and \$9.6 billion for SUNY), determined using the Frozen Entry Age actuarial cost method, and is amortized over an open period of 30 years using the level percentage of projected payroll amortization method.

The net OPEB liability for FY 2011 totaled \$3.3 billion (\$2.7 billion for the State and \$0.6 billion for SUNY) under the Frozen Entry Age actuarial cost method, allocating costs on a level basis over earnings. This was \$2.1 billion (\$1.7 billion for the State and \$0.4 billion for SUNY)

## **GAAP BASIS FINANCIAL PLAN/OTHER POST-EMPLOYMENT BENEFITS**

above the payments for retiree costs made by the State in FY 2011. This difference between the State's PAYGO costs and the actuarially determined required annual contribution under GASB 45 reduced the State's currently positive net asset condition at the end of FY 2011 by \$2.1 billion.

The State's actuarial consultant has provided an updated calculation of the ARC and annual OPEB costs. The updated calculation will ultimately be reflected in the financial statements for the State and SUNY for FY 2012. The updated calculation shows the present value of the actuarial accrued total liability for benefits at \$60.2 billion (\$50.1 billion for the State and \$10.1 billion for SUNY).

GASB does not require the additional costs to be funded on the State's budgetary basis, and no funding is assumed for this purpose in the Financial Plan. On a budgetary (cash) basis, the State continues to finance these costs, along with all other employee health care expenses, on a PAYGO basis.

As noted, there is no provision in the current Financial Plan to pre-fund the GASB 45 liability. If such liability were pre-funded at this time, the additional cost above the PAYGO amounts would be lowered. The State's Health Insurance Council, which consists of GOER, Civil Service, and DOB, will continue to review this matter and seek input from the State Comptroller, the legislative fiscal committees and other outside parties. However, it is not expected that the State will alter its planned funding practices in light of existing fiscal conditions.

**FISCAL IMPACT ON  
LOCAL GOVERNMENTS**

# FISCAL IMPACT ON LOCAL GOVERNMENTS

## FISCAL IMPACT ON LOCAL GOVERNMENTS

This section presents the estimated fiscal impact of changes proposed in the FY 2013 Executive Budget on New York's municipalities as required by State Finance Law. To supplement the narrative below, charts detailing the local government impact are provided in the "Financial Plan Tables" section of this report.

### MAJOR ACTIONS AFFECTING LOCAL GOVERNMENTS

- **State Takeover of Local Medicaid Expenses.** The Executive Budget proposes to reduce growth in the local share of Medicaid payments by one percentage point per year for counties and New York City, effective April 1, 2013. The Budget also begins a phased-takeover of local government administration of the Medicaid program. The takeover of the 3 percent Medicaid growth factor will save counties and New York City \$1.2 billion over five State fiscal years.
- **Tier VI Pension Reform.** The Executive Budget advances a new Tier VI pension proposal for new public employees designed to save local governments nearly \$79 billion over 30 years. Changes include increasing employee contributions, raising the retirement age, decreasing the pension multiplier, excluding overtime and other payments from the formula used to calculate final average salary for pension allowances, and by making a defined contribution option available to employees.
- **Reform Early Intervention Program.** The EI program provides a comprehensive array of therapeutic and support services to children under the age of three with confirmed disabilities (i.e., autism, cerebral palsy) or developmental delays. The Executive Budget recommends a series of program modifications to reduce costs and relieve administrative burdens on localities. In addition, with the enactment of these program modifications, the State will reinvest its savings to reduce local reimbursement payment lags, beginning in FY 2015. In total, these initiatives will generate cumulative local savings totaling \$99 million over five years.
- **Reforms to Preschool Special Education.** The State's investment in Preschool Special Education has doubled over the past ten-years to a projected State cost of nearly \$1.1 billion for the upcoming school year. The Executive Budget proposes several changes to both rationalize the existing Preschool Special Education financing system and limit the ability of some providers to reap excessive financial benefits. These proposals include: equally assigning any county growth (excluding New York City) above FY 2012 school year costs to the State, the county, and school districts and eliminating potential conflicts of interest inherent in the current evaluation system. For counties outside of New York City, these reforms will result in \$20 million in cumulative reduced liabilities for the 2013 local fiscal year.

## **FISCAL IMPACT ON LOCAL GOVERNMENTS**

### **LOCAL YEAR 2013 FISCAL SUMMARY**

Executive Budget actions, in total, will result in a positive local impact of \$942 million for local fiscal years ending in 2013 — the first full-annual local fiscal year affected by the FY 2013 Executive Budget. The fiscal summary of the impact on local governments for local FY 2013 is as follows:

- **School Districts:** School districts outside of New York City will realize a \$351 million positive impact in the FY 2013 school year driven mostly by a \$331 million increase in school aid (exclusive of the competitive performance grants), offset by \$5 million in costs from reforms to Preschool Special Education. School districts will also experience \$25 million in savings from the creation of a new Pension Tier VI.
- **New York City:** A \$243 million positive impact is estimated for New York City due primarily to \$224 million in additional aid for New York City schools (exclusive of the competitive performance grants), and \$11 million from the takeover of the Medicaid growth factor. Other actions include \$8 million in increased transit assistance for NYCDOT and Staten Island Ferry and \$2 million in savings from EI program reforms. These savings will be partially offset by a \$2 million net decrease for human services programs.
- **Counties:** County governments will realize an estimated \$62 million net positive impact in 2013, primarily due to \$20 million in savings from Preschool Special Education reforms, \$14 million from the takeover of the Medicaid growth factor, and \$12 million in savings from the creation of a new Pension Tier VI. In addition, counties will realize \$10 million in increased assistance for downstate county transit systems, a \$4 million net increase for human service programs, and \$2 million in savings from EI program reforms.
- **Other Municipalities:** Other cities, towns and villages will experience a \$36 million positive impact in local fiscal years ending in 2013 attributed to an acceleration of AIM of up to \$28 million for the City of Rochester and \$8 million in savings from the creation of a new Pension Tier VI.

### **MANDATE RELIEF**

As part of the more than \$125 million in mandate relief that Governor Cuomo signed into law in June, a newly created Mandate Relief Council goes into effect this month. The Council will be chaired by the Secretary to the Governor and has both Executive and Legislative representatives serving on it. It is charged with reviewing and referring statutory and regulatory mandates to the Legislature and to Executive agencies for modification or repeal. In addition to reviewing mandates submitted by members of the Council, local governments and school districts are empowered to request that the Council review a particular mandate.

**FINANCIAL PLAN TABLES AND ACCOMPANYING  
NOTES**

# FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

The notes to the Financial Plan tables herein should be read in conjunction with the tables that follow.

## NOTE 1 — BASIS OF ACCOUNTING

Pursuant to law, all Financial Plan tables presented herein are prepared on the cash basis of accounting, unless otherwise noted. Under the cash basis of accounting, revenues are recognized when received, and spending is recorded when cash is disbursed.

## NOTE 2 — FUND TYPES AND PERSPECTIVES

The State records its transactions in the following fund types:

### Governmental Funds

**General Fund** - This is the major operating fund of the State. It receives all State income not earmarked for a particular program or activity and not specified by law to be deposited in another fund. State income for Financial Plan purposes consists of moneys (taxes, fees, and miscellaneous receipts including certain repayments of State advances) deposited to the credit of the General Fund during the fiscal year and transfers from other funds from current revenues.

**Special Revenue** - These funds account for State receipts from specific revenue sources and are legally restricted to disbursement for specified purposes. This governmental fund type is divided into two classifications: (1) State Special Revenue Funds and (2) Federal Special Revenue Funds. An example of a State Special Revenue Fund is the Conservation Fund which finances a number of State environmental programs. An example of a Federal Special Revenue Fund is the Health and Human Services Fund. Although any earmarked revenue fund is treated as a Special Revenue Fund for cash-basis budgeting and reporting purposes, some are combined with the General Fund for purposes of reporting on the basis of GAAP.

**Debt Service** - All tax-financed State debt service on long-term debt and payments on certain lease-purchase or other contractual obligations are paid from Debt Service funds. These account for the accumulation of money for, and the payment of principal and interest on, general long-term debt. Lease-purchase payments for State University, Health and Mental Hygiene facilities under contractual agreements with public authorities are also paid from funds classified as Debt Service funds. Debt service on highway bonds supported by dedicated highway revenues is also reflected in this fund type. Sources of revenue for this fund type include transfers from the General Fund, dedicated taxes, and other revenues.

## **FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES**

---

**Capital Projects** - These funds finance a variety of capital construction costs including: (1) planning, land acquisition, design, construction, construction management and supervision, and equipment costs; (2) highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects, and buildings and other capital facilities required by various State departments and agencies; (3) payments to local governments to help finance their capital programs, including highway, parkway, bridge, mass transportation, aviation, economic development, port development, community college, community and State mental health, outdoor recreation, State-assisted housing, and environmental quality; and (4) advances for capital construction costs reimbursable by public authorities, instrumentalities of the State, the Federal government or local governments. Sources of revenue for this fund type include transfers from other State funds including the General Fund, dedicated taxes and other revenues, reimbursement of advances, bond proceeds, and Federal capital grants.

### **State Operating Funds**

The State Funds operating budget comprises the General Fund and other State-supported activities financed by dedicated revenues in State Special Revenue funds, as well as Debt Service funds accounting for the payment of debt service on all tax-financed State long-term debt. All capital spending, regardless of financing source, is included in the Capital budget.

### **Proprietary Funds**

**Internal Service Funds** - Account for the financing of goods or services supplied by one State agency to other State agencies or governmental units on a cost-reimbursement basis.

**Enterprise Funds** - Account for operations that are similar to private business enterprises.

The Internal Service funds and Enterprise funds are treated as Proprietary funds for cash-basis budgeting and reporting purposes, and are combined with the General Fund for purposes of reporting on a GAAP basis.

### **Fiduciary Funds**

**Private-Purpose Trust Funds** - Accounts for all trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

**Pension Trust Fund** - Accounts for the cash-basis results of operations for the administrative portion of the State's Common Retirement Fund. It does not reflect investment activity, balances, or other assets available to this Fund. In addition, pension contributions and payments to retirees are excluded since these payments are not required to be appropriated.

**Agency Funds** - Accounts for funds held by the State in a purely custodial capacity. Cash is held temporarily until disbursements are made to individuals, private organizations, or other governments.

### NOTE 3 — DISBURSEMENT DESCRIPTIONS

The State's Financial Plan and reporting includes only those payments made pursuant to an appropriation and paid from funds available in the State Treasury. All State spending is classified in one of the following categories:

**Local Assistance Grants** - Include payments to counties, cities, towns, villages, school districts and other local entities, as well as certain financial assistance to, or on behalf of, individuals and nonprofit organizations.

**Personal Service** - Includes the payment of salaries and compensation for State employees.

**Non-Personal Service** - Includes payments for miscellaneous contractual obligations, supplies and materials, travel, rentals and repairs, utilities, postage and shipping, printing, telephone, and other operating costs.

**General State Charges** - Include costs mandated by statute, collective bargaining agreements or court order. Charges in this category can be further subdivided into the following:

Fringe Benefits: Contributions to pension systems, the employer's share of Social Security contributions, employer contributions toward the cost of health insurance, workers compensation and unemployment insurance, and contributions to union employee benefit funds which provide vision care and other services.

Fixed Costs: For State payments in lieu of taxes, as well as payments for local assessments on State-owned land, judgments against the State pursuant to the Court of Claims Act, defense(s) by private counsel or alternatively payments on behalf of State officers and employees in civil judicial proceedings.

**Debt Service** - Include payments made for tax-financed State debt service on long-term debt; contractual-obligation and lease-purchase arrangements with several public authorities and municipalities; and lease-purchase payments for State University, Health, and Mental Hygiene facilities.

**Capital Projects** - Include payments made for the acquisition or construction of the State's capital facilities. Included in this category are planning, land acquisition, design, construction, engineering services, and equipment costs attributable to highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects; payments to local government units and public authorities to help finance highways, parkways, bridges, mass transportation, aviation, economic development, port development, community colleges, community and State mental hygiene buildings, outdoor recreational parks, correctional and State-assisted housing as well as environmental quality projects. Advances are made for capital construction costs reimbursable by public authorities, the Federal or local governments, or from the proceeds of State bond and note sales.

## FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

---

**Bond Proceeds** - Includes the proceeds of general obligation bonds and short-term notes issued in the form of commercial paper or Bond Anticipation Notes (BANs) and are stated net of notes redeemed from the proceeds of permanent bonds or reissued notes.

**Operating Transfers** - Constitutes legally authorized transfers from a fund receiving revenues, to a fund through which disbursements will ultimately be made.

### NOTE 4 — RESERVATIONS OF GENERAL FUND BALANCE

Fund balance may be legally segregated for specific future use or set aside informally for specified purposes. The following terms are used in the reporting of reservations of General Fund Balance:

**Tax Stabilization Reserve Fund** - Created pursuant to law in order to provide a reserve to finance a cash-basis operating deficit in the General Fund at the end of the fiscal year, and to make temporary loans to the General Fund during the year. Annual deposits may not exceed 0.2 percent of General Fund spending and the balance may not exceed 2.0 percent of General Fund spending. These amounts may be borrowed by the General Fund temporarily and repaid within the same fiscal year. They may also be borrowed to cover an operating deficit at year end, but these loans must be repaid within six years in no less than three annual installments.

**Rainy Day Reserve Fund** - Created pursuant to law, to account for funds set aside for use during economic downturns or in response to a catastrophic event, as defined in the law. The economic downturn clause is triggered after five consecutive months of decline in the State's composite index of business cycle indicators. The reserve may have a maximum balance equal to three percent of projected General Fund spending during the fiscal year immediately following the then-current fiscal year.

**Contingency Reserve Fund** - Created pursuant to law to provide a reserve to fund extraordinary needs arising from litigation against the State. These amounts may be used for payment of judgments against the State where the amount is in excess of \$25 million and such payments are not previously appropriated, or emergency payments relating to natural or physical disasters, or to make payments for the enhancement of the State's economy.

**Community Projects Fund** - Created pursuant to law to finance discretionary, usually local, projects ("member items") sponsored by individual legislators and the Governor. The Enacted State Budget typically includes lump sum appropriations for the Governor, Senate and the Assembly, to be designated for various grants, awards and contracts with local governments, not-for-profit organizations and community groups. During the fiscal year, each party may allocate their respective appropriations, by grant amount, to the intended recipient organizations.

## FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

**Informal Designation of Fund Balance** - From time to time, DOB will informally designate unrestricted balances in the General Fund for specific policy goals. These amounts are typically identified with the phrase “reserved for.”

### NOTE 5 — SPENDING ADJUSTMENTS

Certain Special Revenue accounts formerly reported in the Financial Plan as Federal Operating Funds have been reclassified to State Operating Funds. This change has the effect of increasing the reported disbursements from State Operating Funds, and reducing reported disbursements from Federal Operating Funds by an equal amount. Accordingly, there is no impact on the State's reported All Governmental Funds spending totals.

For purposes of comparability, the impact of the reclassification on historical results is summarized in the following table.

<b>STATE OPERATING FUNDS AS RESTATED</b> (millions of dollars)			
	<u>Before</u> <u>Restatement</u>	<u>Reporting</u> <u>Adjustment<sup>1</sup></u>	<u>Restated</u>
<b>2005-06</b>	66,240	3,065	69,305
<b>2006-07</b>	73,476	3,031	76,507
<b>2007-08</b>	76,989	3,029	80,018
<b>2008-09</b>	78,166	3,459	81,625
<b>2009-10</b>	76,873	3,786	80,659
<b>2010-11</b>	80,491	3,926	84,417

<sup>1</sup>DOB has reclassified certain special revenue accounts from Federal Operating Funds to State Operating Funds to be consistent with the methodology used by the Office of the State Comptroller.

### NOTE 6 — ITEMS AFFECTING FY 2011 TO FY 2012 COMPARABILITY

**School Aid Payment** - The end-of-year school aid payment (\$2.06 billion) scheduled for the last quarter of FY 2010 was paid in the first quarter of FY 2011, as authorized in statute. This was done to shift the FY 2010 budget shortfall into FY 2011.

**American Recovery and Reinvestment Act of 2009** - On February 17, 2009, President Obama signed into law ARRA of 2009. This Act contains provisions for direct Federal aid for fiscal relief, consisting of increases in the Federal matching rate for eligible State Medicaid expenditures, and funds provided through the State Fiscal Stabilization Fund to restore proposed reductions in education, higher education, and to maintain essential government services.

## FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

---

**Pension Amortization** - The Financial Plan projections assume that the State will amortize pension costs above a percentage of payroll, as authorized by legislation enacted in 2010. The percentage of payroll above which costs may be amortized increases annually as follows: 9.5 percent in FY 2011; 10.5 percent in FY 2012; 11.5 percent in FY 2013; 12.5 percent in FY 2014; 13.5 percent in FY 2015, and 14.5 percent in FY 2016 for ERS; and 17.5 percent in FY 2011; 18.5 percent in FY 2012; 19.5 percent in FY 2013; 20.5 percent in FY 2014; and 21.5 percent in FY 2016 for PFRS. The amortization reduces the State's annual pension contribution in the short term, but results in long-term costs. The amounts expected to be amortized total \$249 million in FY 2011, \$575 million in FY 2012, \$782 million in FY 2013, \$771 million in FY 2014, \$916 million in FY 2015 and \$554M in FY 2016.

**Retroactive Labor Settlements** - Several unions have not agreed to labor settlements for contract periods prior to FY 2012. In recent years, the State has included spending in the Financial Plan for potential settlements, which have not materialized. The Current Financial Plan costs sets aside a portion of the General Fund balance for this purpose. The amount of the reserve is calculated on the assumption that the unions that have not agreed to contracts will receive the same general salary increases as the unions with ratified contracts.

**Mergers** - Consistent with the FY 2012 Enacted Budget, State agency mergers have been reflected in the Financial Plan tables that follow. As such, actual spending for FY 2011 has been reflected in the former agencies, while projections for FY 2012 and forward reflect the impact of the agency merger. These mergers include:

- Division of Parole merged with the Department of Correctional Services to become the new Department of Corrections and Community Supervision;
- Consumer Protection Board merged into Department of State; and
- Foundation for Science, Innovation & Technology merged into the Department of Economic Development

The Banking and Insurance Departments have been merged to create a new agency known as the Department of Financial Services. For reporting purposes, DOB assigned FY 2011 actual spending from these departments to the Department of Financial Services. Reductions in spending for the Department of Financial Services reflect the projected impact of cost control and efficiency actions contemplated by the merger of the Insurance and Banking departments.

### NOTE 7 — OFF-BUDGET TRANSACTIONS

Represent certain capital spending that is not reported in actual cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities, rather than from a short-term STIP or cash from the General Fund.

### **NOTE 8 — GENERAL FUND/HCRA COMBINED GAP**

The current HCRA authorization expires on March 31, 2014. HCRA is projected to remain balanced through FY 2016. However, any unaddressed shortfall would need to be financed by the General Fund.

### **NOTE 9 — METROPOLITAN TRANSPORTATION AUTHORITY FINANCIAL ASSISTANCE FUND**

The Metropolitan Commuter Transportation Mobility Tax (Mobility Tax) is imposed on certain employers and self-employed individuals engaging in business within the metropolitan commuter transportation district. This revenue source is collected by the State on behalf of, and disbursed in its entirety to, the MTA. Due to requirements of the enabling legislation, the tax is reflected in the State's Special Revenue Funds, increasing both receipts and disbursements by an actual \$1.7 billion in FY 2011, growing to an estimated \$2.0 billion in FY 2015.

### **NOTE 10 — CHANGES TO THE MEDICAID PROGRAM**

As of January 2006, the State pays for the entire non-Federal share of FHP program and any annual Medicaid increases for counties above a fixed level. In accordance with statutory indexing provisions, 2012 Medicaid payments by local governments will not be allowed to increase by more than 3.0 percent over 2011 levels.

### **NOTE 11 — STATEWIDE CASH FLOW ADMINISTRATION**

OSC invests General Fund moneys, bond proceeds, and other funds not immediately required to make payments through STIP, which is comprised of joint custody funds (Governmental Funds, Internal Service Funds, Enterprise Funds and Private Purpose Trust Funds), as well as several sole custody funds including the Tobacco Settlement Fund.

OSC is authorized to make short-term loans from STIP to cover temporary cash shortfalls in certain funds and accounts, including the General Fund, resulting from the timing of receipts and disbursements. The Legislature authorizes the funds and accounts that may receive loans each year, based on legislation submitted with the Executive Budget. Loans may be granted only for amounts that the Director of the Budget certifies are “receivable on account” or can be repaid from the current operating receipts of the fund (i.e., loans cannot be granted in expectation of future revenue enhancements).

### **NOTE 12 — OUTSTANDING TEMPORARY LOANS SUMMARY**

The total outstanding loan balance as of March 31, 2011 was \$1.7 billion, comprised of advances for bond-reimbursable capital spending pending the receipt of bond proceeds (\$857 million), activities that are financed initially by the State pending Federal receipt (\$344 million), State Special Revenue Funds (\$414 million), and Proprietary Funds (\$42 million).

The total loan balance typically increases throughout the State fiscal year, reaching its peak between the second and third quarters. The spike mainly reflects the payment of lottery aid for education, which is financed in large part by a loan that is repaid over the course of the year as lottery revenues are received.

Reflects certain capital spending that is not reported in actual cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities rather than from a short-term loan from the Short-Term Investment Pool or cash from the General Fund.

NOTE 1: Cash disbursements can vary from available appropriations for a particular Financial plan category due to intra-year transfers or suballocation, changes in the amount and timing of carry-out spending across years, and the use of agency appropriation interchange authorization. Appropriation amounts include new appropriation authority, reappropriations, and other appropriation amendments, but does not include carry-in authority from prior years which is subject to lapse.

NOTE 2: Not reflected in this table are the portions of Local Assistance appropriation authority extended through 2012-13 for Education and Health, which are related to the multi-year spending caps for School Aid and Medicaid spending. Certain provisions are included in the enacted legislation to restrict spending for these programs.
