# INTRODUCTION

This is the First Quarterly Update to the Enacted Budget Financial Plan (the “Updated Financial Plan”) for FY 2013. Except for the specific revisions described herein, the projections (and the assumptions upon which they are based) in the Updated Financial Plan are consistent with the projections set forth in the Enacted Budget Financial Plan. Readers should refer to the Enacted Budget Financial Plan for a complete explanation of the receipts and disbursements projections for FYs 2013 through 2016. The State’s FY 2013 began on April 1, 2012 and ends on March 31, 2013. DOB<sup>1</sup> expects to next update the Financial Plan projections in October 2012.

The State’s General Fund — the fund that receives the majority of State taxes and all income not earmarked for a particular program or activity — is required to be balanced on a cash basis of accounting. The State Constitution and State Finance Law do not define budget balance. In practice, the General Fund is considered balanced on a cash basis of accounting if sufficient resources are expected to be available during the fiscal year for the State to (a) make all required payments, including PIT refunds, without the issuance of deficit notes or bonds, and (b) restore the balances in the Tax Stabilization Reserve and Rainy Day Reserve to levels at or above the levels on deposit when the fiscal year began.

The General Fund is typically the financing source of last resort for the State’s other major funds, including HCRA funds, the DHBTF, the STAR Fund, and the Lottery Fund. Therefore, the General Fund projections account for any estimated funding shortfalls in these funds. Since the General Fund is the fund that is required to be balanced, the focus of the State’s budget discussion is often weighted toward the General Fund.

The State accounts for receipts and disbursements by the fund in which the activity takes place (such as the General Fund), and the broad category or purpose of that activity (such as State Operations). The Financial Plan tables sort State projections and results by fund and category. The State also reports disbursements and receipts activity by two other broad measures: State Operating Funds, which includes the General Fund and funds specified for dedicated purposes, but excludes Federal Funds and Capital Projects Funds; and All Governmental Funds (“All Funds”), which includes both State and Federal Funds and provides the most comprehensive view of the financial operations of the State.

Fund types of the State include: the General Fund; State Special Revenue Funds, which receive certain dedicated taxes, fees and other revenues that are used for a specified purpose; Federal Special Revenue Funds, which receive certain Federal grants; Capital Projects Funds, which account for costs incurred in the construction, rehabilitation, and related expenses of infrastructure projects; and Debt Service Funds, which account for the payment of principal, interest, and related expenses for debt issued by the State and its public authorities.

## **INTRODUCTION**

---

The factors affecting the State's financial condition are complex. This Updated Financial Plan contains forecasts, projections, and estimates that are based on expectations and assumptions which existed at the time they were prepared. Since many factors may materially affect fiscal and economic conditions in the State, the inclusion in this Updated Financial Plan of forecasts, projections, and estimates should not be regarded as a representation that such forecasts, projections, and estimates will occur. Forecasts, projections, and estimates are not intended as representations of fact or guarantees of results. The words “expects,” “forecasts,” “projects,” “intends,” “anticipates,” “estimates,” and analogous expressions are intended to identify forward-looking statements in the Updated Financial Plan. Any such statements inherently are subject to a variety of risks and uncertainties that could cause actual results to differ materially and adversely from those projected. Such risks and uncertainties include, among others, general economic and business conditions, changes in political, social and economic conditions, political, legal, or administrative impediments to the implementation of gap-closing actions, regulatory initiatives and compliance with governmental regulations, litigation and various other events, conditions and circumstances, many of which are beyond the control of the State. These forward-looking statements speak only as of the date they were prepared.

## FY 2013 UPDATE

In this Updated Financial Plan, DOB estimates that the General Fund will remain in balance in FY 2013, consistent with the Enacted Budget Financial Plan.

General Fund receipts, including transfers from other funds, are now expected to total \$58.9 billion in FY 2013, a decrease of \$5 million from the Enacted Budget forecast. General Fund disbursements, including transfers to other funds, are expected to total \$59.2 billion, an increase of \$340 million. The increase in estimated disbursements is due almost exclusively to retroactive payments pursuant to labor settlements reached with two public employee unions since the enactment of the FY 2013 budget. The payments, which are expected to be made in the second and third quarters of the current fiscal year, are expected to total \$345 million and will be financed from General Fund balances designated for this purpose.

General Fund disbursements, including transfers to other funds, totaled \$14.3 billion through June 2012, or approximately \$700 million below the Enacted forecast. The lower spending compared to the forecast was due mainly to the timing of several large payments originally anticipated to be made in June 2012 but now expected to occur by the end of the second quarter of FY 2013. After adjusting for these timing-related variances, disbursements to date appear to be generally consistent with the Enacted Budget forecast through the first quarter, except for the specific revisions described in the section titled “Multi-Year Financial Plan Revisions”.

Operating results through the first quarter of FY 2013 were positive in comparison to the estimate in the Enacted Budget Financial Plan. (See “FY 2013 Year-to-Date Operating Results” herein.) General Fund receipts, including transfers from other funds, totaled \$15.4 billion through June 2012, \$115 million above the Enacted forecast. The positive receipts results observed in April 2012 were offset in part by weaker June 2012 results. The downside risks to the national economy from slowing global growth emphasized in the Enacted Budget Financial Plan appear to have intensified, and DOB will continue to monitor the uncertainties and risks regarding the economic and receipts forecast. (See “Multi-Year Financial Projections – Economic Backdrop” herein.)

The Financial Plan is subject to a number of risks, including the strength and duration of the economic recovery and the execution of specific transactions. (See “Other Matters Affecting the Financial Plan” herein.)

DOB estimates that the General Fund will end FY 2013 with a balance of \$1.5 billion in FY 2013, a decrease of \$345 million from the estimate included in the Enacted Budget Financial Plan. This decline reflects the use of the fund balance designated for the payment of retroactive labor settlements. Since enactment of the FY 2013 budget, the State has reached agreements with NYSCOPBA and Council 82.

## MULTI-YEAR FINANCIAL PLAN REVISIONS

The following table summarizes the revisions to the Enacted Budget Financial Plan that affect General Fund operating projections.<sup>2</sup> Descriptions of the changes follow the table.

- Collective Bargaining:** Since enactment of the FY 2013 Budget, the State has reached labor settlements with the members of NYSCOPBA (representing correction officers and facility security employees) and Council 82 (representing lieutenants and facility security supervisors). Similar to the settlements agreed to between the State and its other public employee unions, the new settlements provide for no general salary increases for three years (FY 2012 through FY 2014), followed by a 2 percent increase in each of FY 2015 and FY 2016, and a \$1,000 lump sum payment (\$775 paid in FY 2014 and \$225 paid in FY 2015). In addition, NYSCOPBA and Council 82 employees will receive retroactive wage increases of 3 percent and 4 percent for FY 2010 and FY 2011, respectively, consistent with the terms agreed to by the State's largest unions for that period. Employee compensation will be temporarily reduced in conjunction with a deficit reduction program that is similar to those in effect for other employee unions. A portion of these reductions will be repaid in installments beginning in FY 2016.

The General Fund costs of these labor settlements, which includes the retroactive wage increases, are estimated at \$345 million in FY 2013; \$144 million in FY 2014; \$167 million in FY 2015; and \$199 million in FY 2016. The personal service estimates for agencies affected by the new settlements have been increased by these amounts, and the General Fund balances designated to finance the retroactive portion of the settlements have been decreased. The reserves, which were previously set aside for this purpose in each year of the Financial Plan (i.e., already counted in the projected General Fund

<sup>2</sup> Certain revisions displayed on the financial plan tables for reclassifications and reallocations of receipts and disbursements projections are excluded from the discussion of revisions since they have no net Financial Plan impact. These adjustments include changes in planned transfers from other funds offset by a commensurate change in planned transfers to other funds, and revisions related to reallocation of reductions in State agency operations included in the Enacted Budget that affect both receipts and disbursements, including transfers.

budget gaps) are expected to be sufficient to cover these labor settlement costs in FY 2013 and FY 2014, consistent with other settlements. Starting in FY 2015, the new settlements and the maintenance of a reserve for certain unsettled (prior to FY 2012) unions will require modest additional General Fund resources.

- **Litigation:** The Court of Appeals upheld a decision by the Court of Claims ordering the State to compensate the Gyrodyne Company of America, Inc. in connection with a taking of certain real property by the State University of New York at Stony Brook in 2005. The State paid the judgment, which totaled \$167 million, on July 5, 2012. The State funded the capital portion (and eligible expenses) of the judgment through the issuance of bonds (\$135 million) and the remaining costs through the State's General State Charges appropriation for Court of Claims settlements (\$32 million). The capital costs related to the judgment will be accommodated within SUNY's existing capital appropriations and the State's planned debt issuances for FY 2013. No increase in SUNY capital program was required. SUNY is expected to reimburse the State for the remaining costs over a multi-year period through transfers of money from SUNY special revenue funds to the General Fund. The FY 2013 transfer from SUNY to reimburse the General Fund is expected to total \$16 million, which after the \$32 million Court of Claims settlement payment, results in a \$16 million net cost to the General Fund in the current year.
- **Receipts Forecast:** Estimated tax collections have been revised down modestly over the multi-year Financial Plan, mainly reflecting lower sales tax collections based on a decline in the sales tax base and experience to date. The receipts forecast has been revised upward to reflect the receipt of an additional \$75 million from civil recoveries by district attorneys in FY 2013 and additional miscellaneous reimbursements (\$50 million in FY 2013 and FY 2014).
- **Spending Forecast:** DOB has revised its spending projections slightly upward to account for recent trends and experience, as well as other known factors. The significant changes include an upward revision to estimated General State Charges reflecting increases in workers' compensation expenses; increased funding for reimbursements made in June 2012 to school districts for higher than planned MTA payroll tax costs and revised assumptions for spending from education grants. These increases are partly offset by an increase to estimated lottery receipts in the current year based on actual results to date, which lowers the transfer from the General Fund to the Lottery Fund.

## **OTHER MATTERS AFFECTING THE FINANCIAL PLAN**

### **GENERAL**

The Updated Financial Plan is subject to many complex economic, social, financial, and political risks and uncertainties, many of which are outside the ability of the State to control. DOB believes that the projections of receipts and disbursements in the Enacted Budget are based on reasonable assumptions, but there can be no assurance that actual results will not differ materially and adversely from these projections. In certain fiscal years, actual receipts collections have fallen substantially below the levels forecast in the Financial Plan.

The Updated Financial Plan is based on numerous assumptions, including the condition of the State and national economies and the concomitant receipt of economically sensitive tax receipts in the amounts projected. Other uncertainties and risks concerning the economic and receipts forecasts include the impact of: national and international events, such as the Euro-zone financial crisis, consumer confidence, oil supplies, and oil prices; Federal statutory and regulatory changes concerning financial sector activities; changes concerning financial sector bonus payouts, as well as any future legislation governing the structure of compensation; shifts in monetary policy affecting interest rates and the financial markets; financial and real estate market developments on bonus income and capital gains realizations; and household debt reduction on consumer spending and State tax collections.

Among other factors, the Updated Financial Plan is subject to various other uncertainties and contingencies relating to: the extent, if any, to which wage increases for State employees exceed the annual wage costs assumed; changes in the size of the State's workforce; the realization of the projected rate of return for pension fund assets and current assumptions with respect to wages for State employees affecting the State's required pension fund contributions; the willingness and ability of the Federal government to provide the aid contemplated by the Updated Financial Plan; the ability of the State to implement cost reduction initiatives, including reductions in State agency operations, and the success with which the State controls expenditures; and the ability of the State and its public authorities to market securities successfully in the public credit markets. Some of these specific issues are described in more detail herein. The projections and assumptions contained in the Updated Financial Plan are subject to revisions which may involve substantial change. No assurance can be given that these estimates and projections, which include actions the State expects to be taken but which are not within the State's control, will be realized.

### **BUDGET RISKS AND UNCERTAINTIES**

There can be no assurance that the General Fund will end the current fiscal year in balance on a budgetary (cash) basis of accounting, or that the budget gaps will not increase materially from current projections. If such events were to occur, the State would be required to take additional gap-closing actions. These may include, but are not limited to, additional reductions in State agency operations; delays or reductions in payments to local governments or other recipients of State aid; delays in or suspension of capital maintenance and construction; extraordinary financing of operating expenses; or other measures. In some cases, the ability of the State to implement such actions requires the approval of the Legislature and cannot be implemented solely by the action of the Governor.

State law grants the Executive certain powers to achieve the Medicaid savings assumed in the Financial Plan. However, there can be no assurance that these powers will be sufficient to limit the rate of annual growth in DOH State Funds Medicaid spending to the levels estimated in the Enacted Budget Financial Plan. In addition, savings are dependent upon timely Federal approvals, appropriate amendments to existing systems and processes, revenue performance in the State's HCRA fund, which provides support for approximately one-third of the DOH State-share of Medicaid costs, and the participation of health care industry stakeholders. In particular, funding resources that are expected to be generated through health care surcharges and other provider assessments may decline as a result of Medicaid Redesign initiatives which reduce expenditures and unnecessary utilization, as well as from the continued shift of fee-for-service delivery models to managed care. An inability to achieve these planned savings would reduce the available funding support for Medicaid from HCRA, and could potentially require a commensurate level of additional General Fund support in order to meet program needs.

The forecast contains specific transaction risks and other uncertainties including, but not limited to, the receipt of certain payments from public authorities; the receipt of miscellaneous receipts at the levels expected in the Financial Plan, including payments pursuant to the Tribal-State Compact that have failed to materialize in prior years; and the achievement of cost-saving measures including, but not limited to, the transfer of available fund balances to the General Fund at the levels currently projected. Such risks and uncertainties, if they were to materialize, could have an adverse impact on the Financial Plan in the current year or future years.

### **HEALTH INSURANCE COMPANY CONVERSIONS**

State law permits a health insurance company to convert its organizational status from a not-for-profit to a for-profit corporation (a "health care conversion"), subject to a number of terms, conditions, and approvals. Under State law, the State is entitled to proceeds from a health care conversion, and such must be used for health-care-related expenses. The Updated Financial Plan counts on proceeds of \$250 million in FY 2013 and \$300 million annually in FYs 2014, 2015, and 2016, which would be deposited into the HCRA account. If a conversion does not occur on the timetable or at the levels assumed in the Financial Plan, the State would be required to take other actions to increase available resources or to reduce planned spending in HCRA.

## **FINANCIAL PLAN OVERVIEW**

---

### **STATUS OF CURRENT LABOR NEGOTIATIONS**

The State has multi-year labor contracts with its two largest employee unions, CSEA and PEF, as well as NYSPBA (representing the APSU bargaining unit, formerly ALES), NYSCOPBA, and Council 82. The contracts provide for no general salary increases for FY 2012 through FY 2014, substantial increases to employee health insurance contributions, and a temporary reduction in employee compensation through a deficit reduction program. Employees will receive a \$1,000 lump sum payment (\$775 paid in FY 2014 and \$225 paid in FY 2015); a 2 percent salary increase in each of FY 2015 and FY 2016; and be repaid the value of FY 2013 deficit reduction adjustments at the end of their contract term. The PEF contract generally mirrors the provisions for the other unions, but the contract covers a four-year period. PEF employees will receive a 2 percent salary increase in FY 2015.

Employees in the unions that have reached settlements with the State have contingent layoff protection for FY 2013 and continuing protection for the full term of the agreements. Reductions in force due to management decisions to close or restructure facilities authorized by legislation, SAGE Commission recommendations, or material or unanticipated changes in the State's fiscal circumstances are not covered by this protection.

The State is in negotiations with its other unions, the largest of which is UUP, which represents faculty and non-teaching professional staff within the State University system.

### **LABOR SETTLEMENTS FOR PRIOR CONTRACT PERIODS**

The Updated Financial Plan continues to include a planned reserve to cover the costs of a pattern settlement with unions that have not agreed to contracts for prior contract. The amount of the reserve is based on the general salary increases agreed to by the State's largest unions for the same period. There can be no assurance that actual settlements for prior periods will not exceed the amounts reserved. In addition, the State's ability to fund the amounts reserved in FY 2014 and beyond depends on the achievement of balanced budgets in those years.

In August 2011, a statutorily authorized judicial compensation commission authorized a multi-year plan to provide salary increases for judges beginning in FY 2013, which will automatically take effect barring action by the Legislature and the Governor to obviate the increases. The Updated Financial Plan assumes salary increases in the Judiciary's current budget projections.

### **CASH-FLOW PROJECTIONS**

The State authorizes the General Fund to borrow resources temporarily from available funds in STIP for up to four months, or to the end of the fiscal year, whichever period is shorter. The amount of resources that can be borrowed by the General Fund is limited to the available balances in STIP, as determined by the State Comptroller. Available balances include money in the State's governmental funds and a relatively small amount of other moneys belonging to the State. Several accounts in Debt Service Funds and Capital Projects Funds that are part of All

## FINANCIAL PLAN OVERVIEW

Governmental Funds are excluded from the balances deemed available in STIP. These excluded funds consist of bond proceeds and money obligated for debt service payments.

In FY 2012, the General Fund used STIP to meet certain payment obligations during April 2011, and repaid such amounts by the end of the same month.

Based on current information, DOB expects that the State will have sufficient liquidity to make payments as they become due throughout FY 2013, but that the General Fund may, from time to time, need to borrow resources temporarily from other funds in STIP. The State continues to reserve money on a quarterly basis for debt service payments that are financed with General Fund resources. Money to pay debt service on bonds secured by dedicated receipts, including PIT bonds, continues to be set aside as required by law and bond covenants. Consistent with prior years, DOB estimates that General Fund balances will reach relatively low levels in August and December 2012.

The following table provides actual month-end balances through June 2012 and estimated balances for the remaining months in FY 2013.

### FEDERAL ACTIONS

The State receives a substantial amount of Federal aid for health care, education, transportation, and other governmental purposes. Any reduction in Federal funding levels could have a materially adverse impact on the State's Updated Financial Plan.

The Federal Budget Control Act ("BCA") of 2011 imposed annual caps on Federal discretionary spending over a ten-year period. The specific spending reductions necessary for Congress to live within the caps will be decided through the annual Federal budget process, so

## **FINANCIAL PLAN OVERVIEW**

---

the magnitude of impact on Federal funds for the State has yet to be determined. Further, if additional deficit reduction is not enacted, the BCA directs that savings be achieved through sequestration of FY 2013 funding, with across-the-board cuts to Federal discretionary programs scheduled for January 2013, and lower discretionary caps in the following eight years. It is estimated that Federal non-defense discretionary programs would face an across-the-board reduction of approximately 7.8 percent in January 2013.

The State is analyzing the potential impact of the BCA on the State Financial Plan and State economy. If the sequester is implemented, DOB estimates that New York State and local governments could lose approximately \$5 billion in Federal funding over nine years, beginning in FY 2013, from these additional Federal deficit reduction measures. DOB expects to make adjustments to the Financial Plan as more definitive information becomes available.

In addition, the Financial Plan may be adversely affected by other actions taken by the Federal government, including audits, disallowances, and changes to Federal participation rates or other Medicaid rules. For example, all Medicaid claims are subject to audit and review by the Federal government, and, although no official audit has commenced, questions have been raised with respect to the reimbursement methodology used for New York State OPWDD-delivered developmental center services. The rates paid for these services are established in full accordance with the methodology set forth in New York's federally-approved State Plan. While New York State continues to work collaboratively with its Federal partners to resolve these concerns, adverse action by the Federal government relative to these claims could jeopardize a significant amount of Federal financial participation in the State Medicaid program.

### **LITIGATION**

Litigation against the State may include potential challenges to the constitutionality of various actions. The State may also be affected by adverse decisions that are the result of various lawsuits. Such adverse decisions may not meet the materiality threshold to warrant individual description but, in the aggregate, could still adversely affect the State's Financial Plan.

### OTHER POST-EMPLOYMENT BENEFITS

State employees become eligible for post-employment benefits (health insurance) if they reach retirement while working for the State with at least ten years of service. The cost of providing post-retirement health insurance is shared between the State and the retired employee. Contributions are established by law and may be amended by the Legislature. The State pays its share of costs on a PAYGO basis as required by law.

In accordance with GASB 45, the State must perform an actuarial valuation every two years for purposes of calculating OPEB liabilities. As disclosed in Note 13 of the State's Basic Financial Statements for FY 2012, the ARC represents the annual level of funding that, if set aside on an ongoing basis, is projected to cover normal costs each year and to amortize any unfunded liabilities of the plan over a period not to exceed 30 years. Amounts required but not actually set aside to pay for these benefits are accumulated with interest as part of the net OPEB obligation, after adjusting for amounts previously required.

As reported in the State's Basic Financial Statements for FY 2012, an actuarial valuation of OPEB liabilities was performed as of April 1, 2010. The valuation calculated the present value of the actuarial accrued total liability for benefits as of April 1, 2010 at \$72.1 billion (\$59.7 billion for the State and \$12.4 billion for SUNY), determined using the Frozen Entry Age actuarial cost method, and is amortized over an open period of 30 years using the level percentage of projected payroll amortization method.

The net OPEB liability for FY 2012 totaled \$3.9 billion (\$3.1 billion for the State and \$0.8 billion for SUNY) under the Frozen Entry Age actuarial cost method, allocating costs on a level basis over earnings. This was \$2.5 billion (\$1.9 billion for the State and \$0.6 billion for SUNY) above the payments for retiree costs made by the State in FY 2012. This difference between the State's PAYGO costs and the actuarially determined required annual contribution under GASB 45 reduced the State's currently positive net asset condition at the end of FY 2012 by \$2.5 billion.

GASB does not require the additional costs to be funded on the State's budgetary (cash) basis, and no funding is assumed for this purpose in the Financial Plan. The State continues to finance these costs, along with all other employee health care expenses, on a PAYGO basis.

There is no provision in the current Financial Plan to pre-fund OPEB liabilities. If such liabilities were pre-funded, the additional cost above the PAYGO amounts would be lowered. The State's Health Insurance Council, which consists of GOER, Civil Service, and DOB, will continue to review this matter and seek input from the State Comptroller, the legislative fiscal committees and other outside parties. However, it is not expected that the State will alter its planned funding practices in light of existing fiscal conditions.

## **FINANCIAL PLAN OVERVIEW**

---

### **BOND MARKET**

Implementation of the Enacted Budget Financial Plan is dependent on the State's ability to market its bonds successfully. The State finances much of its capital spending in the first instance from the General Fund or STIP, which it then reimburses with proceeds from the sale of bonds. If the State cannot sell bonds at the levels (or on the timetable) expected in the capital plan, the State's overall cash position and capital funding plan may be affected adversely. The success of projected public sales is subject to prevailing market conditions. Future developments in the financial markets generally, as well as future developments concerning the State, may affect the market for outstanding State-supported and State-related debt.

### **DEBT REFORM ACT LIMIT**

The Debt Reform Act of 2000 restricts the issuance of State-supported debt to capital purposes only and limits such debt to a maximum term of 30 years. The Act limits the amount of new State-supported debt to 4 percent of State personal income and new State-supported debt service costs to 5 percent of All Funds receipts. The restrictions apply to all new State-supported debt issued on and after April 1, 2000. The cap on new State-supported debt outstanding began at 0.75 percent of personal income in FY 2001 and was fully phased in at 4 percent of personal income during FY 2011, while the cap on new State-supported debt service costs began at 0.75 percent of All Funds receipts in FY 2001 and will increase until it is fully phased in at 5 percent during FY 2014. The State was found to be in compliance with the statutory caps for the most recent calculation period (October 2011).

Current projections estimate that debt outstanding and debt service will continue to remain below the limits imposed by the Act. However, the State is continuing through a period of relatively limited debt capacity. Based on the most recent personal income and debt outstanding forecasts, the available room under the debt outstanding cap is expected to decline from \$3.6 billion in FY 2012 to \$752 million in FY 2014. The State is continuing to implement measures to address capital spending priorities and debt financing practices.

### SECURED HOSPITAL PROGRAM

Under the Secured Hospital program, the State entered into service contracts to enable certain financially distressed not-for-profit hospitals to issue debt. The contracts obligate the State to pay debt service, subject to annual appropriations by the Legislature, on bonds issued by the New York State MCFFA and by DASNY through the Secured Hospital program. In the event there are shortfalls in revenues from other sources, which include hospital payments made under loan agreements between DASNY and the hospitals, and certain reserve funds held by the applicable trustees for the bonds, the State is liable for the debt service. As of March 31, 2012, there was about \$503 million of outstanding bonds for the program.

The financial condition of most hospitals in the State's Secured Hospital Program continues to deteriorate. Of the nine hospitals in the program, several are experiencing significant operating losses that are likely to impair their ability to remain current on their loan agreements with DASNY. In relation to the Secured Hospital Program, the Financial Plan projections continue to reflect the assumption of additional costs of \$3 million in FY 2013, \$32 million in FY 2014, and \$39 million annually thereafter. These amounts are based on the actual experience to date of the participants in the program, and would cover the debt service costs for four hospitals that currently are not meeting the terms of their agreement with DASNY. The State has additional exposure of up to a maximum of \$39 million annually, if all additional hospitals in the program failed to meet the terms of their agreement with DASNY and if available reserve funds were depleted.

## INTRODUCTION

This section presents the State's updated multi-year Financial Plan and the projections for receipts and disbursements, reflecting the impact of the revisions to the Enacted Budget Financial Plan described in this Updated Financial Plan. This section includes FY 2012 results and projections for 2013 through 2016, with an emphasis on the FY 2013 projections.

The State's cash-basis budgeting system, complex fund structure, and practice of earmarking certain tax receipts for specific purposes, complicate the discussion of the State's receipts and disbursements projections. Therefore, to minimize the distortions caused by these factors and, equally important, to highlight relevant aspects of the projections, DOB has adopted the following approaches in summarizing the projections:

- **Receipts:** The detailed discussion of tax receipts covers projections for both the General Fund and State Funds (including capital projects). The latter perspective reflects overall estimated tax receipts before their diversion among various funds and accounts, including tax receipts dedicated to capital projects funds (which fall outside of the General Fund and State Operating Funds accounting perspectives). DOB believes this presentation provides a clearer picture of projected receipts, trends and forecast assumptions, by factoring out the distorting effects of earmarking certain tax receipts.
- **Disbursements:** Over 40 percent of projected State-financed spending for operating purposes is accounted for outside of the General Fund and is primarily concentrated in the areas of health care, School Aid, higher education, transportation and mental hygiene. To provide a clearer picture of spending commitments, the multi-year projections and growth rates are presented, where appropriate, on both a General Fund and State Operating Funds basis.

In evaluating the State's multi-year operating forecast, it should be noted that the reliability of the estimates and projections as a predictor of the State's future financial position is likely to diminish the further removed such estimates and projections are from the date of this Updated Financial Plan. Accordingly, in terms of out-year projections (FY 2014 through FY 2016), FY 2014 is the most relevant from a planning perspective.

## ECONOMIC BACKDROP

### THE NATIONAL ECONOMY

The downside risks to the national economy from slowing global growth emphasized in the Enacted Budget report have intensified. Both the national labor market and equity markets have been weaker than projected in April, which has in turn negatively affected household spending. Consumer spending only grew 1.5 percent during the second quarter, following growth of 2.5 percent in the first. This slowdown appears to have occurred despite continued robust auto sales and a stronger upturn in the housing market than projected in April. Although some payback for the unusually warm winter weather in the first quarter was expected, the weakness appears to be sustained. These developments translate into a weaker First Quarter Update forecast for both the nation and the State relative to April. Growth of 1.9 percent in real U.S. GDP is now projected for 2012, with the economy projected to grow 2.5 percent for 2013.

### U.S. Private Sector Job Gains Decelerate ... Again

Source: Moody's Analytics.

The U.S. labor market decelerated during the second quarter. Monthly private sector job gains slowed from an average monthly gain of 226 in the first quarter of 2012 to 91 in the second. Moreover, initial claims for unemployment insurance benefits have stayed remarkably stable, while the public sector has continued to shed jobs. On an annual average basis, DOB now projects downwardly revised employment growth of 1.4 percent for 2012. A less favorable outlook for employment, combined with a substantial downward revision to wages for the fourth quarter of last year, have led to downward revisions to both wages and total personal income as well. Personal income is now projected to rise 3.2 percent in 2012, with its largest component, wages, expected to rise only 3.1 percent. These growth rates are substantially below historical averages.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

With Middle East tensions bubbling to the surface intermittently, energy prices have remained volatile. After hitting their lowest point since October 2011, oil prices have been on the rise. However, as supply fears subside, the impact of slower global growth on energy demand is expected to dominate movements in energy prices through the remainder of the year. In the meantime, gasoline prices have fallen almost 50 cents below their most recent early April peaks. As a result, DOB has lowered projected inflation to 1.8 percent for 2012.

Demand from emerging markets was an important growth engine during the early phase of the nation's economic recovery. However, that engine sputtered as the European sovereign debt crisis led one of the world's largest markets into recession. Weaker demand from Europe has been a drag on emerging markets as well, creating further downward momentum in the global economy. As a result, real U.S. export growth has fallen from 11.3 percent in 2010 to 6.7 percent in 2011, and is projected to fall to 3.3 percent in 2012. U.S. corporate profits from current production fell 0.3 percent in the first quarter, led by an 11.8 percent decline in "rest of world" profits. Investor flight to safety drove equity market prices down 4.0 percent over the course of the second quarter and long-term Treasury yields down to historic lows. Slowing global growth is projected to continue to put downward pressure on both profits and equity markets through the end of 2012.

Consistent with a weaker outlook for both employment and output, DOB has altered its projected path for both monetary and fiscal policy. The 10-year Treasury yield is now expected to remain below 2 percent for much of the remainder of 2012, with the Federal Reserve not expected to raise its short-term interest rate target before the beginning of 2014. The forecast is also predicated on the assumption that the U.S. Congress will extend both the Bush tax cuts and the payroll tax holiday through the end of 2013, though it is also expected that the tax provisions of the Affordable Care Act will be implemented as scheduled.

DOB's economic outlook continues to call for tepid but improving growth for the second half of this year, with growth accelerating to just above 3 percent by the latter half of 2013. However, there are significant risks to this forecast. Efforts to contain the European sovereign debt crisis remain ongoing, and coordinated government efforts to avert a more severe global slowdown appear underway. Nevertheless, momentum remains downward. A longer and deeper European recession or significantly slower growth in emerging markets could have a more negative impact on U.S. exports, corporate profits, and equity markets. Although the current

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

forecast assumes U.S. fiscal policy will remain noncontractionary, the economic uncertainty could negatively impact private sector behavior as the end of the calendar year approaches. Higher than expected energy prices could have a similar effect. Alternatively, a stronger than expected pickup in the labor market could result in greater household spending than projected, while a milder recession in Europe and stronger global growth could result in a faster upturn in the demand for U.S. exports. Moreover, if gasoline prices fall significantly further, household spending growth could be stronger than anticipated, since energy price growth acts as a virtual tax on household spending.

### THE NEW YORK STATE ECONOMY

The most recent data indicate that the pace of New York employment growth remains strong, with the State labor market entering 2012 with particularly strong momentum in construction, professional and business services, private educational services, and tourism-related leisure and hospitality services. As a result, strong private sector employment growth of 1.8 percent is now projected for 2012, representing a significant upward revision from the Enacted Budget forecast. Total employment growth of 1.2 percent is projected for this year, with the public sector expected to remain a drag on the State labor market through the end of the calendar year. Thus, estimated State wage growth for 2012 remains virtually unchanged at 3.1 percent, with projected growth in total personal income revised down slightly to 3.2 percent due to downward revisions to some of the nonwage components of income.

Wages	3.8	3.1	4.7
Nonagricultural Employment	1.2	1.2	0.8

Source: Moody's Analytics; New York State Department of Labor and DOB staff estimates.

All of the risks to the U.S. forecast apply to the State forecast as well, although as the nation's financial capital, the volume of financial market activity and equity market volatility pose a particularly large degree of uncertainty for New York. In addition, with Wall Street still adjusting its compensation practices in the wake of the passage of financial reform, both the bonus and nonbonus components of employee pay are becoming increasingly difficult to estimate. A weaker labor market than projected could also result in lower wages, which in turn could result in weaker household consumption. Similarly, should financial and real estate markets be weaker than anticipated, taxable capital gains realizations could be negatively affected. Projected capital gains for 2012 could also be negatively affected if the tax rate provisions of the Affordable Care Act are not implemented as scheduled. These effects could ripple through the State economy, depressing both employment and wage growth. In contrast, stronger national and world economic growth, or a stronger upturn in stock prices, along with even stronger activity in mergers and acquisitions and other Wall Street activities, could result in higher wage and bonus growth than projected.

The economic forecast calls for a continuation of the ongoing recovery in employment and wages. This increases the economic base on which the outyear revenue forecast is built. Overall, receipts in the two fiscal years following FY 2014 are expected to grow consistently with the projected moderate growth in both the U.S. and New York economies.

## REVENUE RISKS

- DOB’s forecast assumes that the combined impact of Federal spending reductions and tax increases, at the end of 2012, can be averted. If both occur, New York revenues could grow more slowly than anticipated.
- A return to high gasoline prices could divert disposable consumer income to fuel, decreasing consumption of taxable goods and services.
- A continuation of the European debt crisis could drive exports lower, causing corporate profits and tax receipts to grow more slowly than expected.
- Personal income tax liability could be reduced if taxpayers do not realize the capital gains assumed in the forecast in anticipation of the Affordable Care Act tax provisions.
- The FY 2013 Financial Plan contains significant savings generated as a result of 2010 tax credit deferral legislation. Same-year confirmation of these savings is unavailable given tax filing and processing delays, and actual savings could fall below estimates.
- Bank and corporate franchise tax revenue streams are contingent on the timing and size of anticipated audit proceeds. Negotiations between the State and taxpayers are subject to unexpected delays, which may force audit proceeds into a subsequent fiscal year.

All Funds PIT receipts for FY 2013 are projected to be \$40.3 billion, an increase of \$1.5 billion (3.8 percent) from FY 2012. This primarily reflects modest increases in withholding and current estimated payments for tax year 2012, a decrease in total refunds, and higher delinquent collections partially offset by a decrease in extension (i.e. prior year estimated) payments for tax year 2011.

Withholding in FY 2013 is estimated to be \$974 million (3.1 percent) higher compared to the prior year. This reflects the net impact of modest wage growth and additional withholding generated by the December 2011 reform, offset by lower withholding due to the expiration of the temporary high income surcharge in place for 2009 to 2011. Total estimated payments are expected to increase \$124 million (1 percent). Estimated payments for tax year 2012 (i.e. current year estimated) are projected to be \$463 million (5.7 percent) higher. However, as noted above, extension payments for tax year 2011 (i.e. prior year estimated) are projected to fall 9.6 percent (\$338 million) compared to the somewhat inflated base of extensions for tax year 2010, which reflected the one-time realization of capital gains caused by uncertainty surrounding the late extension of the lower Federal tax rates on capital gains and high-income taxpayers in December 2010. Delinquent collections and final return payments are projected to be \$87 million (8.1 percent) and \$36 million (1.7 percent) higher, respectively.

The decrease in total refunds of \$267 million almost entirely reflects a \$168 million (45.9 percent) decrease in the State-city offset and a \$93 million (2 percent) decrease in prior year refunds related to tax year 2011.

General Fund income tax receipts for FY 2013 of \$26.9 billion are expected to increase by \$1.1 billion (4.2 percent) from the prior year, mainly reflecting the increase in All Funds receipts noted above. However, a \$373 million increase in the RBTF deposit and a \$43 million increase in the STAR deposit partially offset the All Funds increase.

All Funds income tax receipts for FY 2014 of \$43.2 billion are projected to increase \$2.9 billion (7.2 percent) from the prior year. This increase primarily reflects increases of \$2.2 billion (6.7 percent) in withholding, \$811 million (6.9 percent) in total estimated payments,

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

partially offset by a \$186 million (2.7 percent) increase in total refunds. The increase in total estimated payments includes a \$538 million (6.3 percent) increase in estimated payments related to tax year 2013 (i.e. current year estimated) and \$273 million (8.5 percent) in extension payments related to tax year 2012 (i.e. prior year estimated). The strong projection for extension payments for tax year 2012 reflects some acceleration in realizations of capital gains in anticipation of the scheduled increase in the Federal tax rate on investment income starting with tax year 2013.

Payments from final returns are expected to increase \$113 million (5.3 percent), while delinquencies are projected to rise slightly (0.8 percent) compared to the prior year. The increase in total refunds of \$186 million primarily reflects a \$183 million (4.2 percent) increase in prior year refunds related to tax year 2012.

General Fund income tax receipts for FY 2014 of \$28.9 billion are projected to increase by \$2 billion (7.4 percent). The RBTF and STAR deposits are projected to increase by \$729 million and \$183 million, respectively.

<sup>2</sup> Change of \$1 million due to rounding.

Compared to the Enacted Budget, FY 2013 All Funds income tax receipts are unchanged. However, withholding is projected to decrease by \$575 million, and final returns by \$50 million, both mainly reflecting actual results to date. These decreases are expected to be offset by a \$450 million reduction in total refund payments, an additional \$150 million in total estimated payments, and an increase of \$25 million in delinquent collections.

The decrease in withholding mostly reflects consistently unfavorable receipt variances through the first quarter of FY 2013. This was due to a combination of weaker than projected wages and potential unfavorable timing of payments associated with the December 2011 PIT reform. The refund reduction includes \$300 million in lower refunds associated with tax year 2011 (mostly reflecting lower actuals to date); a \$100 million State-city offset reduction, and a \$50 million reduction in refunds associated with years prior to 2011 (i.e. previous year refunds). The increase in total estimated payments includes acknowledgement of \$470 million in higher than expected April extension payments for tax year 2011 (i.e. prior year estimated) partially offset by a reduction of \$320 million in estimated payments for tax year 2012 (i.e. current year estimated), which in turn reflects weaker estimated non-wage income.

Compared to the Enacted Budget, FY 2014 All Funds income tax receipts are also unchanged. Projected withholding has been lowered by \$475 million and likewise, extension payments on tax year 2013 liability have been lowered by \$100 million. These decreases are projected to be offset by \$450 million in lower refund payments for tax year 2012 and \$125 million in lower refunds for tax years prior to 2012 (i.e. previous year refunds).

All Funds income tax receipts for FY 2015 of \$44.3 billion are projected to increase \$1.2 billion (2.7 percent) from the prior year. This change primarily reflects increases of \$1.2 billion (3.5 percent) in withholding; \$1 billion (11.5 percent) in estimated payments related to tax year 2014 (i.e. current year estimated), partially offset by a \$899 million (12.5 percent) increase in total refunds (partly due to the commencement of tax credit deferral paybacks); a \$132 million decrease in extension payments for tax year 2013 (i.e. prior year estimated); and a \$115 million decrease in final returns payments for tax year 2013 (i.e. current year). Delinquencies are projected to increase \$51 million (4.4 percent) from the prior year.

General Fund income tax receipts for FY 2015 of \$29.6 billion are projected to increase by \$693 million (2.4 percent). RBTF deposits are projected to increase by \$292 million and STAR payments by \$183 million.

All Funds income tax receipts are projected to increase by nearly \$1.5 billion (3.3 percent) in FY 2016 to reach \$45.8 billion, while General Fund receipts are projected to be \$30.6 billion.

All Funds user taxes and fees receipts for FY 2013 are estimated to be \$14.8 billion, an increase of \$243 million (1.7 percent) from FY 2012. All Funds sales tax receipts are estimated to be \$12.1 billion, an increase of \$219 million (1.8 percent) from FY 2012. This includes the loss of \$210 million in receipts from the partial taxation of clothing in FY 2012. The underlying sales tax base measured before the impact of law changes is estimated to increase by 3.8 percent. Non-sales tax user taxes and fees are estimated to increase by \$24 million from FY 2012 due primarily to tax law changes pertaining to alcoholic beverage taxes, and to the issuance of highway use tax decals.

General Fund user taxes and fees receipts are expected to total \$9.2 billion in FY 2013, an increase of \$141 million (1.6 percent) from FY 2012.

All Funds user taxes and fees receipts for FY 2014 are projected to be \$15.3 billion, an increase of \$520 million (3.5 percent) from FY 2013. General Fund user taxes and fees receipts are projected to total \$9.6 billion in FY 2014, an increase of \$374 million (4.1 percent) from FY 2013. These changes are consistent with a trend increase in taxable consumption and a trend decline in cigarette consumption.

All Funds user taxes and fees for FY 2013 are estimated to be \$14.8 billion, a decrease of \$107 million (0.7 percent) from the Enacted Budget Update. The sales tax estimate was revised downward by \$110 million to reflect weaker than estimated FY 2013 first quarter results. This was primarily the result of weakness in consumer electronics, utilities, and other general merchandise sales and a year-to-year accounting adjustment. This is partially offset by a \$2.7 million increase in alcoholic beverage tax receipts resulting from the elimination of an exemption for small brewers, which was replaced by a \$2.7 million personal income and business tax credit for certain beer production in the State. General Fund user taxes and fees receipts are projected to total nearly \$9.2 billion in FY 2013, a decrease of \$75 million (0.8 percent) from the Enacted Budget Update. The reduction is consistent with All Funds discussion above.

All Funds user taxes and fees for FY 2014 are projected to be more than \$15.3 billion, a decrease of \$79 million (0.5 percent) from the Enacted Budget Update as a result of both lower projected sales tax base growth and the flow through of lower FY 2013 to-date actuals. General Fund user taxes and fees receipts are projected to total nearly \$9.6 billion in FY 2014, a decrease of \$56 million (0.6 percent) from the Enacted Budget Update. These reductions reflect the All Funds discussion above.

## **MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

---

All Funds business tax receipts for FY 2013 are estimated at \$8.2 billion, an increase of \$349 million (4.4 percent) from the prior year. The estimates reflect growth across all taxes except the corporate franchise tax. The estimate includes an incremental increase of \$71 million from the deferral of certain tax credits that was part of the FY 2011 Enacted Budget. Adjusted for this deferral, All Funds growth is 3.5 percent.

All Funds corporate franchise tax receipts are estimated to decline \$4 million (0.1 percent) from FY 2012. This decrease is mainly attributable to weaker than expected June 2012 calendar year payments. Calendar year filer payments are expected to decline 3 percent from the prior year as taxpayers react to the current economic uncertainty by lowering their estimated payments. Corporate profit growth for calendar year 2012 is now estimated to grow only 2 percent compared to growth of 7.9 percent in 2011. Corporate franchise tax receipts are expected to decline 2.3 percent for FY 2013 adjusted for the credit deferral.

The corporation and utilities tax is expected to grow \$82 million (10.3 percent) in FY 2013. Adjusted for a timing issue related to a prior year telecommunications refund, growth in FY 2013 would be 6.5 percent. Receipts from the telecommunications sector are expected to grow (by 4 percent) for the first time since FY 2010. Also contributing to the growth in FY 2013 is a large telecommunications audit. This audit was received in April 2012.

Growth in insurance tax receipts is expected to return in FY 2013 after several years of weakness related to the economic downturn. The bank tax is estimated to grow \$143 million (10.3 percent) in FY 2013. Through June, calendar filer payment growth is 9.4 percent. Also contributing to the strong growth in bank tax receipts are higher audit collections. A large audit is expected to be settled during the second half of the fiscal year.

All Funds business tax receipts for FY 2014 of \$8.5 billion are projected to increase \$237 million (2.9 percent) from the prior year reflecting growth in the corporate franchise, insurance and petroleum business taxes. A decline is expected in the corporation and utilities tax due to the expected payment of a large prior year telecommunications refund. Bank tax receipts are expected to decline as a result of lower audit receipts in FY 2014.

General Fund business tax receipts for FY 2013 of \$6 billion are estimated to increase by \$275 million (4.8 percent) from FY 2012 results. Business tax receipts deposited to the General Fund reflect the All Funds trends discussed above.

General Fund business tax receipts for FY 2014 of \$6.2 billion are projected to increase \$173 million (2.9 percent) from the prior year.

## MULTI-YEAR FINANCIAL PLAN PROJECTIONS

Compared to the Enacted Budget, FY 2013 All Funds business tax receipts are lower by \$3 million. This change is the result of the end of session legislation that created a corporate franchise tax credit for beer produced in New York. The reduction in corporate franchise tax receipts and the increase in bank tax receipts are driven by trends in year-to-date receipts. The increase in the corporation and utilities tax receipts reflects the movement of the settlement of the large prior year telecommunication refund from FY 2013 to FY 2014. Both the insurance tax and the petroleum business tax are unchanged from the Enacted Budget.

Compared to the Enacted Budget, FY 2014 All Funds business tax receipts are unchanged. The corporation franchise tax and the bank tax reflect the changes made to FY 2013. The corporation and utilities tax reflect the settlement of the large prior year telecommunication refund. The insurance tax and the petroleum business tax are unchanged from the Enacted Budget.

All Funds business tax receipts for FY 2015 and FY 2016 reflect projected trends in corporate profits, taxable insurance premiums, electric utility consumption and prices, the consumption of telecommunications services, and automobile fuel consumption and fuel prices. Business tax receipts are projected to decline to \$8 billion (5.5 percent) in FY 2015 and increase to \$8.6 billion (7.7 percent) in FY 2016. The decline in FY 2015 reflects the first year of the repayment of deferred tax credits to taxpayers. General Fund business tax receipts over this period are expected to decline to \$5.7 billion (8.4 percent) in FY 2015 and increase to \$6.2 billion (9.7 percent) in FY 2016.

All Funds other tax receipts for FY 2013 are estimated to be approximately \$1.8 billion, an increase of \$125 million (7.3 percent) from FY 2012 receipts, primarily reflecting increases in estate tax receipts of \$49 million (4.5 percent) and real estate transfer tax collections of \$75 million (12.3 percent) as a result of improving conditions in the New York real estate market. General Fund other tax receipts are expected to total \$1,146 million in FY 2013, an increase of \$50 million (4.6 percent) due primarily to the increase in estate tax collections mentioned above.

All Funds other tax receipts for FY 2014 are projected to be nearly \$1.9 billion, up \$43 million (2.3 percent) from FY 2013 reflecting stability in the estate tax and modest growth in the real estate transfer tax. General Fund other tax receipts are expected to total \$1,139 million, a marginal change from the FY 2013 total.

General Fund other tax receipts for FY 2013 have been revised upward by \$2 million from the Enacted Financial Plan. Pari-mutuel taxes are expected to grow as a result of increased NYRA on-track handle, due to the NYC OTB closures more than previously anticipated.

Projections for FY 2013 and FY 2014 for the estate tax, gift tax and real property gains tax and boxing/wrestling tax are unchanged from the Enacted Budget. The gift tax and real property gains tax have been repealed, but small amounts of revenue are at times generated through audits.

Real estate transfer tax collections for FY 2013 and FY 2014 are now estimated to be \$25 million higher than the Enacted Budget as a result of stronger than anticipated year-to-date collections. However, even as commercial markets in Manhattan remain vibrant and certain residential markets, especially in Brooklyn, are demonstrating strength in both pricing and transaction volume, the potential for continuing declines in existing home values, and weakness in the luxury residential market, are continuing risks to the forecast.

The FY 2015 All Funds receipts projection for other taxes is over \$2 billion, an increase of \$155 million (8.3 percent) from FY 2014 receipts. Growth in the estate tax from expected increases in household net worth is complemented by projected receipts growth from the real estate transfer tax due to the continued stabilization in the residential and commercial markets.

The FY 2016 All Funds receipts projection for other taxes is \$2.1 billion, an increase of \$75 million (3.7 percent) from FY 2015 receipts. The forecast for FY 2016 reflects growth in household net worth as well as in the value of real property transfers.

All Funds miscellaneous receipts include moneys received from HCRA financing sources, SUNY tuition and patient income, lottery receipts for education, assessments on regulated industries, and a variety of fees and licenses. All Funds miscellaneous receipts are projected to total \$24.5 billion in FY 2013, an annual increase of \$666 million from FY 2012 results, which is mainly due to projected growth in HCRA fund receipts and the receipt of civil recoveries made by district attorneys.

Federal grants help pay for State spending on Medicaid, temporary and disability assistance, mental hygiene, school aid, public health, and other activities. Annual changes to Federal grants generally correspond to changes in Federally-reimbursed spending and Federal allocations. While the timing of Federal receipts can sometimes be difficult to predict, DOB typically plans that Federal reimbursement will be received in the State fiscal year in which spending occurs. All Funds Federal grants are projected to total \$42.6 billion in FY 2013, a decrease of \$2 billion from FY 2012, which largely reflects the expiration of certain Federal ARRA moneys.

All Funds miscellaneous receipts have been revised upward by \$234 million in FY 2013, which reflects expectations of additional one-time resources from settlement proceeds of district attorneys (\$75 million), additional resources dedicated to the Highway and Bridge Trust Fund (\$83 million), additional resources from general reimbursements (\$50 million), and additional VLT receipts (\$26 million). Receipts increase by \$12 million in FY 2014 from the Enacted Budget, which reflects expectations of additional resources from general reimbursements (\$50 million), to be partly offset by a decline in resources dedicated to the Highway and Bridge Trust Fund (\$38 million).

Federal grants projections for FY 2013 and FY 2014 have not been revised since the FY 2013 Enacted Budget.

General Fund miscellaneous receipts in FY 2013 have been revised upward by \$125 million, and in FY 2014 have been revised upward by \$50 million, mainly reflecting year-to-date receipts activity.

All Funds miscellaneous receipts are projected to decline by \$452 million in FY 2015, driven by the expiration of the temporary increase to 18-a utility assessments. Miscellaneous receipts increase by \$192 million in FY 2016.

Annual Federal grants growth of \$3.1 billion in FY 2015, and \$1.9 billion in FY 2016, is primarily due to growth in Federal Medicaid spending.

General Fund miscellaneous receipts and Federal grants collections for FY 2015 and FY 2016 are projected to be \$2.3 billion and nearly \$2.4 billion respectively.

### DISBURSEMENTS

General Fund disbursements in FY 2013 are estimated to total \$59.2 billion, an increase of \$2.7 billion (4.8 percent) over FY 2012 results. State Operating Funds disbursements for FY 2013 are estimated to total \$89.4 billion, an increase of \$2.2 billion over FY 2012. The growth in disbursements from the Enacted Budget Financial Plan is largely due to retroactive payments under recent labor settlements and litigation expenses. Excluding these extraordinary expenses for costs incurred in prior periods, State Operating Funds spending is expected to increase by approximately 2.1% from FY 2012 results.

The multi-year disbursements projections take into account agency staffing levels, program caseloads, funding formulas contained in State and Federal law, inflation and other factors. The factors that affect spending estimates vary by program. For example, welfare spending is based primarily on anticipated caseloads that are estimated by analyzing historical trends and projected economic conditions. Projections account for the timing of payments, since not all of the amounts appropriated in the Budget are disbursed in the same fiscal year. Consistent with past years, the aggregate spending projections (i.e., the sum of all projected spending by individual agencies) in special revenue funds have been adjusted downward in all fiscal years, based on typical spending patterns and the observed variance between estimated and actual results over time.

Over the multi-year Financial Plan, State Operating Funds spending is expected to increase by an average annual rate of 3.5 percent. The projections reflect spending at the capped growth rates for Medicaid and School Aid, and contemplate the effect of national health care reform on State health care costs. The projections do not reflect any potential impact of automatic spending reductions that will be triggered if the Federal government does not enact an alternative deficit reduction plan.

Medicaid, education, pension costs, employee and retiree health benefits, social services programs and debt service are significant drivers of spending growth over the Plan period.

### LOCAL ASSISTANCE GRANTS

Local assistance spending includes payments to local governments, school districts, health care providers, and other entities, as well as financial assistance to, or on behalf of, individuals, families and not-for-profit organizations. State-funded local assistance spending is estimated at \$58.8 billion in FY 2013 and accounts for over 65 percent of total State Operating Funds spending. Education and health care spending account for three-quarters of local assistance spending.

Selected assumptions used in preparing the spending projections for the State's major local aid programs and activities are summarized in the following table.

## EDUCATION

### SCHOOL AID

School Aid helps support elementary and secondary education for New York pupils enrolled in 676 major school districts throughout the State. State funding is provided to districts based on statutory aid formulas and through reimbursement of categorical expenses. State funding for schools assists districts in meeting locally defined needs, supports the construction of school facilities, and finances school transportation for nearly three million students statewide.

#### School Year (July 1 — June 30)

The FY 2013 Enacted Budget includes a two-year appropriation and continues the change to tie future increases in School Aid to the rate of growth in New York State personal income. School Aid funding will increase by \$805 million (4.1 percent) in the 2012-13 school year, and by an estimated \$712 million (3.5 percent) in the 2013-14 school year.

Over the multi-year financial plan, School Aid funding is expected to be a function of both a personal income growth index used to determine allowable growth and future legislation to allocate the allowable increases. Current law prescribes allowable growth to include spending for new competitive performance grant programs which reward school districts that demonstrate significant student performance improvements or those that undertake long-term structural changes to reduce costs and improve efficiency. Allowable growth also includes increases in expense-based aid programs (e.g., Building Aid, Transportation Aid) and certain other aid categories under existing statutory provisions. Any remaining amount of allowable growth can be allocated pursuant to a chapter of law for purposes including, but not limited to, additional spending for competitive grants, phase-in increases in Foundation Aid or restoration of the GEA.

For the 2012-13 school year, this \$805 million allowable increase includes \$243 million in growth in expense-based aids and other miscellaneous aid categories under current law, a \$400 million GEA restoration, a \$112 million increase in Foundation Aid, and \$50 million to support the first of three annual payments for the first round of performance grants. A second, expanded round of performance grants will be awarded in the 2012-13 school year from \$75 million in annual funding outside the school aid growth limit.

As of the Updated Financial Plan, School Aid is projected to increase by \$712 million in the 2013-14 school year and \$842 million in 2014-15. School Aid is projected to reach an annual total of \$22.9 billion in the 2015-16 school year.

### State Fiscal Year

The State finances School Aid from General Fund revenues and from Lottery Fund receipts, including VLTs, which are accounted for and disbursed from a dedicated revenue account. Because the State fiscal year begins on April 1, the State pays approximately 70 percent of the annual school year commitment during the State fiscal year in which it is enacted, and pays the remaining 30 percent in the first three months of the following State fiscal year.

The table below summarizes the multi-year projected funding levels for School Aid on a State fiscal year basis.

TOTAL SCHOOL AID - STATE FISCAL YEAR BASIS (millions of dollars)

State spending for School Aid is projected to total \$20 billion in FY 2013. In future years, receipts available to finance School Aid from core lottery sales is projected to remain relatively flat while VLT receipts are anticipated to increase through FY 2015 as a result of the new VLT facility at the Aqueduct Racetrack. In addition to State aid, school districts receive over \$3 billion annually in Federal categorical aid.

## SCHOOL TAX RELIEF PROGRAM

The STAR program provides school tax relief to taxpayers. The three components of STAR and their approximate shares in FY 2013 are: the basic school property tax exemption for homeowners with income under \$500,000 (57 percent), the enhanced school property tax exemption for senior citizen homeowners with income under \$79,050 (25 percent), and a flat refundable credit and rate reduction for New York City resident personal-income taxpayers (18 percent).

New York City PIT	570	588	3.2%	611	3.9%	619	1.3%	631	1.9%

The STAR program exempts the first \$30,000 of every eligible homeowner's property value from the local school tax levy. Lower-income senior citizens receive a \$62,200 exemption. Spending for the STAR property tax exemption reflects reimbursements made to school districts to offset the reduction in property tax revenues.

The annual increase in a qualifying homeowner's STAR exemption benefit is limited to 2 percent. Homeowners who earn more than \$500,000 a year are not eligible for the STAR property tax exemption. New York City personal income taxpayers with annual income over \$500,000 have a reduced benefit.

The multi-year Financial Plan includes a new policy whereby the Department of Taxation and Finance will instruct local assessors to withhold the STAR exemption benefit from taxpayers who have a State-imposed and State-administered tax liability of \$4,500 or more, and own a home that is STAR-eligible. New York City residents who are similarly in arrears would lose their City PIT rate-reduction benefit, as well as the State School Tax Reduction Credit.

### OTHER EDUCATION AID

In addition to School Aid, the State provides funding and support for various other education-related initiatives. These include: special education services; prekindergarten through grade 12 education programs; cultural education; higher and professional education programs; and adult career and continuing education services.

Major programs under the Office of Prekindergarten through Grade 12 Education address specialized student needs or reimburse school districts for education-related services, including the school breakfast and lunch programs, non-public school aid, and various special education programs. In special education, New York provides a full spectrum of services to over 400,000 students from ages 3 to 21. Higher and professional education programs monitor the quality and availability of postsecondary education programs and regulate the licensing and oversight of 49 professions. FY 2013 has been updated to reflect the timing of payments previously allocated in FY 2012.

Spending for special education is expected to increase as program costs and enrollment rise. In FY 2012, school districts financed the costs associated with schools for the blind and deaf in the first instance and will be reimbursed by the State in FY 2013, which drives a significant annual increase in FY 2013 spending. Other education spending is affected by the phase-out of Federal ARRA Stabilization Funds.

## HIGHER EDUCATION

Local assistance for higher education spending includes funding for CUNY, SUNY and HESC. The State provides reimbursements to New York City for costs associated with CUNY's senior college operations, and works in conjunction with the City of New York to support CUNY's community colleges. The CUNY system is the largest urban public university system in the nation. Funding for SUNY supports 30 community colleges across multiple campuses. HESC administers the TAP program that provides awards to income-eligible students and provides centralized processing for other student financial aid programs. The financial aid programs that the Corporation administers are funded by the State and the Federal government.

The State also provides a sizeable benefit to SUNY and CUNY through the debt service it pays on bond-financed capital projects at the universities. This is not reflected in the annual spending totals for the universities. State debt service payments for higher education are expected to total over \$1.2 billion in FY 2013.

<sup>1</sup> State support for SUNY 4-year institutions is funded through State operations rather than local assistance.

<sup>2</sup> Beginning in academic year 2011-12, the SUNY hospital subsidy will be funded as a transfer from General Fund State operations rather than local assistance.

Growth in spending for higher education over the plan period largely reflects aid to New York City for reimbursement of CUNY senior college operating expenses associated with the rising contribution rates for fringe benefits, and increased support for the TAP program, which reflects the impact of upward trends in student enrollment at institutions of higher education.

## HEALTH CARE

Local assistance for health care-related spending includes Medicaid, statewide public health programs and a variety of mental hygiene programs. The DOH works with the local health departments and social services departments, including New York City, to coordinate and administer statewide health insurance programs and activities. The majority of government-financed health care programs are included under DOH, but many programs are supported through multi-agency efforts. The Medicaid program finances inpatient hospital care, outpatient hospital services, clinics, nursing homes, managed care, prescription drugs, home care, FHP, and services provided in a variety of community-based settings (including mental health, substance abuse treatment, developmental disabilities services, school-based services, foster care services and inpatient hospital services provided to inmates on medical leave from State correctional facilities). The State share of Medicaid spending is budgeted and expended principally through DOH, but State share Medicaid spending also appears in the mental hygiene agencies, child welfare programs, School Aid and DOCCS. Medicaid spending is reported separately in the Financial Plan tables for each of the agencies.

## MEDICAID

Medicaid is a means-tested program that finances health care services for low-income individuals and long-term care services for the elderly and disabled, primarily through payments to health care providers. The Medicaid program is financed jointly by the State, the Federal government, and local governments (including New York City). New York's Medicaid spending is projected to total approximately \$54.0 billion in FY 2013, including the local contribution.<sup>4</sup>

The Enacted Budget reflects continuation of the Medicaid spending cap enacted in FY 2012, and authorizes funding consistent with its provisions. The cap is based on the ten-year average change in the medical component of the CPI. Statutory changes approved with the FY 2012 Budget grant the Executive certain administrative powers to help hold Medicaid spending to the capped level. The statutory changes, which were set to expire at the end of FY 2013, have been extended through FY 2014, pursuant to authorization included in the FY 2013 Enacted Budget. The cap itself remains in place and the Financial Plan assumes that statutory authority will be extended in subsequent years.

---

<sup>4</sup> The local contribution to the Medicaid program is not included in the State's Financial Plan. Since January 2006, the State has paid the entire non-Federal share of the FHP program and any annual Medicaid increases above a fixed level for local social services districts. The FY 2013 Enacted Budget amends these statutory indexing provisions by implementing a three-year phased-takeover of the local share of growth above the previous year's enacted levels beginning in April 2013 for County Year 2013, with the State assuming all growth in County Year 2015. This initiative will save local governments nearly \$1.2 billion through the next five state fiscal years.

<sup>1</sup> To conform the Financial Plan classification of State Operating Funds spending to the classification followed by the State Comptroller, <sup>2</sup> Includes operational costs that support contracts related to the management of the Medicaid program and various activities to ensure appropriate utilization.					

Factors affecting Medicaid spending over the Financial Plan period include Medicaid enrollment, costs of provider health care services (particularly in managed care), levels of service utilization and the expiration of enhanced Federal aid.<sup>5</sup> The number of Medicaid recipients, including FHP, is expected to total approximately 5.1 million at the end of FY 2013, an increase of 2.4 percent from the FY 2012 caseload. The expiration of the enhanced FMAP contributes to an increase in State-share spending of nearly \$1 billion from FY 2012 to FY 2013, and includes costs associated with the Federal funding reconciliation between the State and counties. Pursuant to Federal Health Care Reform, the Federal government is expected to finance a greater share of Medicaid costs for individuals and couples without children, which is expected to lower growth in State-share Medicaid costs beginning in FY 2015.

The FY 2013 Enacted Budget includes authorization to establish a phased-takeover of local government administration of the Medicaid program, and to cap spending on local Medicaid administration at FY 2012 appropriation levels. The FY 2013 Enacted Budget also provides Medicaid spending relief for all counties and New York City by reducing the growth in local Medicaid payments. These changes are expected to further provide fiscal and administrative relief to local governments, consistent with other legislation the State has enacted in recent years to reduce the tax burden on its citizens.

<sup>5</sup> In August 2010, the U.S. Congress approved a six-month extension through June 30, 2011 of the enhanced FMAP benefit, as provided through ARRA. Under enhanced FMAP (which covered the period from October 2008 through June 30, 2011), the Federal match rate increased from 50 percent to approximately 57 percent, which resulted in a concomitant decrease in the State and local share.

### PUBLIC HEALTH/AGING PROGRAMS

Public Health includes the EPIC program that provides prescription drug insurance to low-income seniors, the CHP program that finances health insurance coverage for children of low-income families up to the age of 19, the GPHW program that reimburses local health departments for the cost of providing certain public health services, the EI program that pays for services to infants and toddlers under the age of three with disabilities or developmental delays, and other HCRA and State-supported programs.

The SOFA promotes and administers programs and services for New Yorkers 60 years of age and older. The Office primarily oversees community-based services, including but not limited to in-home services and nutrition assistance, provided through a network of county Area Agencies on Aging and local providers.

Many public health programs, such as the EI and GPHW programs, are run by county health departments and reimbursed by the State for a share of program costs. The State spending projections do not include the county share of public health funding. In addition, a significant portion of HCRA spending is included under the public health budget. For more information on HCRA projections, see the following section entitled “HCRA Financial Plan”.

Increased State support for the EPIC program authorized in the FY 2013 Enacted Budget, reinstating more expansive coverage of Medicare Part D co-payments and co-insurance for enrollees outside of the existing coverage gap, is expected to drive a substantial portion of growth in the outyears of the Financial Plan. The spending increases related to EPIC coverage is partly financed by additional revenue generated from rebates received from drug manufacturers. Other spending growth over the Financial Plan period largely reflects costs associated with increased enrollment in the CHP program, as well as increased spending for GPHW, consistent with patterns in claiming from counties.

The decline in FY 2013 spending is due in large part to decreased Federal aid. The F-SHRP program was provided to the State on a time-limited basis (expiring March 31, 2014) through a Federal waiver under certain terms and conditions aimed at improving the delivery and access of community health care services. EPIC spending is projected to temporarily decline in FY 2013, since the more expansive coverage authorized in the FY 2013 Enacted Budget does not take effect until January 1, 2013. After FY 2014, EPIC coverage is expected to stabilize, while spending is projected to increase due to the rising costs of prescription medication.

## **MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

### **HCRA FINANCIAL PLAN**

HCRA was established in 1996 to help finance a portion of State health care activities in various areas of the budget: Medicaid, Public Health, and the Department of Financial Services. Extensions and modifications to HCRA continue to finance new health care programs, including FHP, and provide additional funding for the expansion of existing programs such as CHP.

HCRA receipts include surcharges and assessments on hospital revenues, a “covered lives” assessment paid by insurance carriers, a portion of cigarette tax revenues, and other revenues dedicated by statute, as well as potential future proceeds from insurance company conversions.

HCRA spending primarily finances Medicaid, EPIC, CHP, FHP and Indigent Care payments, which provide funds to hospitals that serve a disproportionate share of individuals without health insurance. HCRA also provides funding for Workforce Recruitment and Retention to health facilities, physician excess medical malpractice, and HEAL NY for capital improvements to health care facilities.

HCRA is expected to remain in balance over the multi-year projection period. Under the current HCRA appropriation structure, spending reductions will occur if resources are insufficient to meet spending levels. These spending reductions could potentially affect core HCRA programs. The reauthorization of HCRA in prior years maintained HCRA’s balance without the need for automatic spending reductions.

Given the close relationship between the General Fund and HCRA, any balances in HCRA are typically eliminated by adjusting the level of Medicaid expenditures that HCRA finances. This reduces costs that otherwise would have been supported by the General Fund. Conversely, any shortfall in HCRA is expected to be financed by the General Fund.

### MENTAL HYGIENE

The Department of Mental Hygiene is comprised of four independent agencies, OMH, OPWDD, OASAS, and DDPC, which is funded entirely by Federal aid, as well as one oversight agency, the CQCAPD. Services are administered to adults with serious and persistent mental illness; children with serious emotional disturbances; individuals with developmental disabilities and their families; and persons with chemical dependence. These agencies provide services directly to their patients through State-operated facilities and indirectly through community service providers. The costs associated with providing these services are funded by reimbursements from Medicaid, Medicare, third-party insurance and State funding. Patient care revenues are pledged first to the payment of debt service on outstanding mental hygiene bonds, which are issued to finance improvements to infrastructure at mental hygiene facilities throughout the State, with the remaining revenue used to support State operating costs.

Local assistance spending in mental hygiene accounts for nearly half of total mental hygiene spending from State Operating Funds, and is projected to grow by an average rate of 4.6 percent annually. This growth is attributable to increases in the projected State share of Medicaid costs and projected expansion of the mental hygiene service systems, including: increases primarily associated with the OPWDD NYS-CARES program; the New York/New York III Supportive Housing agreement and community beds that are currently under development in the OMH pipeline. Additional outyear spending is assumed in Financial Plan estimates for costs associated with efforts to move individuals in nursing homes and other settings to the least restrictive setting possible, as well as several chemical dependence treatment and prevention initiatives for individuals receiving services through OASAS.

## SOCIAL SERVICES

OTDA local assistance programs provide cash benefits and supportive services to low-income families. The State's three main programs include Family Assistance, Safety Net Assistance and SSI. The Family Assistance program, which is financed by the Federal government, provides time-limited cash assistance to eligible families. The Safety Net Assistance program, financed by the State and local districts, provides cash assistance for single adults, childless couples, and families that have exhausted their five-year limit on Family Assistance imposed by Federal law. The State SSI Supplementation program provides a supplement to the Federal SSI benefit for the elderly, visually handicapped, and disabled.

The average public assistance caseload is projected to total 553,029 recipients in FY 2013, a decrease of 2.2 percent from FY 2012 levels. Approximately 255,031 families are expected to receive benefits through the Family Assistance program, a decrease of 2.6 percent from the FY 2012 level. In the Safety Net Families program, an average of 119,791 families are expected to receive aid in FY 2013, an annual decrease of 2.9 percent. The caseload for single adults/childless couples supported through the Safety Net Families program is projected at 178,207, an annual decrease of 1.2 percent.

OCFS provides funding for foster care, adoption, child protective services, preventive services, delinquency prevention, and child care. OCFS oversees the State's system of family support and child welfare services administered by local departments of social services and community-based organizations. Specifically, child welfare services, which are financed jointly by the Federal government, the State, and local districts, are structured to encourage local governments to invest in preventive services to reduce out-of-home placement of children. In addition, the Child Care Block Grant, which is also financed by a combination of Federal, State and local sources, supports child care subsidies for public assistance and low-income families. The youth facilities program serves youth directed by family or criminal courts to be placed in residential facilities.

## TRANSPORTATION

In FY 2013, the DOT will provide \$4.4 billion in local assistance to support statewide mass transit systems. This funding, financed through the collection of dedicated taxes and fees, is provided to mass transit operators throughout the State to support operating costs. The MTA, due to the size and scope of its transit system, receives the majority of the statewide mass transit operating aid. Additionally, the MTA receives operating support from the Mobility Tax and MTA Aid Trust Fund, authorized in May 2009 to collect regional taxes and fees imposed within the Metropolitan Commuter Transportation District. The State collects these taxes and fees on behalf of, and disburses the entire amount to, the MTA to support the transit system. Spending from this fund is projected to grow between 4 percent and 10 percent each year from FY 2014 to FY 2016. Legislation enacted in December 2011 eliminates the MTA payroll tax for all elementary and secondary schools as well as for certain small businesses. The State is expected to compensate the MTA for the decrease in receipts from the December 2011 tax reduction.

## LOCAL GOVERNMENT ASSISTANCE

Direct aid to local governments primarily includes the AIM program, which was created in FY 2006 to consolidate various unrestricted local aid funding streams. Along with AIM, the State provides incentive grants to local governments. Other direct aid to local governments includes VLT impact aid, Small Government Assistance and Miscellaneous Financial Assistance.

### **AGENCY OPERATIONS**

Agency operating costs include personal service, non-personal service, and GSCs. Personal service includes salaries of State employees of the Executive, Legislative, and Judicial branches, as well as overtime payments and costs for temporary employees. Non-personal service generally accounts for the cost of operating State agencies, including real estate rental, utilities, contractual payments (i.e., consultants, information technology, and professional business services), supplies and materials, equipment, telephone service and employee travel. GSCs account for the costs of fringe benefits (i.e., pensions, health insurance) provided to State employees and retirees of the Executive, Legislative and Judicial branches, and certain fixed costs paid by the State. In addition, certain agency operations of Transportation and Motor Vehicles are included in the capital projects fund type and not reflected in the State Operating Funds personal service or non-personal service totals.

Approximately 94 percent of the State workforce is unionized. The largest unions include CSEA, which primarily represents office support staff and administrative personnel, machine operators, skilled trade workers, and therapeutic and custodial care staff; PEF, which primarily represents professional and technical personnel (i.e., attorneys, nurses, accountants, engineers, social workers, and institution teachers); UUP, which represents faculty and non-teaching professional staff within the State University system; and NYSCOPBA, which represents security personnel (correction officers, safety and security officers).

Selected assumptions used in preparing the spending projections for agency operations are summarized in the following table.

<sup>2</sup> As Percent of Salary.					

Growth in agency operating spending over the multi-year Financial Plan is concentrated in agencies that operate large facilities, such as the State University, the mental hygiene agencies, and Corrections and Community Supervision. The main causes of growth include inflationary increases in operating costs expected for food, medical care and prescription drugs, and energy costs in State facilities, offset by expected savings from enterprise procurement efforts.

Recently settled collective bargaining agreements with NYSCOPBA and Council 82 are reflected in the personal service costs below and include retroactive salary increases that will be paid in FY 2013 for prior years.

In most years, there are 26 bi-weekly pay periods. However, in FY 2016 there is one additional State institutional payroll, therefore an “extra” 27th pay period results in higher spending. In addition, in FY 2016 the State will begin repayment to State employees for portions of the Deficit Reduction program taken during FY 2012 and FY 2013 as part of workforce savings initiatives.

### GENERAL STATE CHARGES

Fringe benefit payments, many of which are mandated by statute or collective bargaining agreements, include employer contributions for pensions, Social Security, health insurance, workers' compensation, unemployment insurance, and dental and vision benefits. The majority of employee fringe benefit costs are paid centrally from statewide appropriations. However, certain agencies, including the Judiciary and SUNY, directly pay all or a portion of their employee fringe benefit costs from their respective budgets. Employee fringe benefits paid through GSCs are paid from the General Fund in the first instance and then partially reimbursed by revenue collected from fringe benefit assessments on Federal funds and other special revenue accounts. The largest General Fund reimbursement comes from the mental hygiene agencies.

GSCs also include certain fixed costs such as State taxes paid to local governments for certain State-owned lands, and payments related to lawsuits against the State and its public officers.

GSCs are projected to increase at an average annual rate of 5.1 percent over the Financial Plan period. The annual decrease in FY 2013 is driven by the impact of collective bargaining agreements, workforce attrition and the prepayment of certain pension costs in FY 2012. These declines are partially offset by increased Workers' Compensation payments commensurate with 2007 legislative reforms and Court of Claims payments related to the Gyrodyne eminent domain lawsuit against the State. Increases in future years are driven by projected growth in health insurance and pension costs, offset by revenue collected from fringe benefit assessments, particularly from the mental hygiene agencies.

## **MULTI-YEAR FINANCIAL PLAN PROJECTIONS**

---

General Fund transfers help finance certain capital activities, the State's share of Medicaid costs for State-operated mental hygiene facilities, debt service for bonds that do not have dedicated revenues, and a range of other activities.

A significant portion of the capital and operating expenses of DOT and DMV are funded from the DHBTF. The Fund receives dedicated tax and fee revenue from the Petroleum Business Tax, the Motor Fuel Tax, the Auto Rental Tax, highway use taxes, transmission taxes and motor vehicle fees administered by DMV. The Financial Plan includes transfers from the General Fund that effectively subsidize the expenses of the DHBTF. The subsidy is required because the cumulative expenses of the fund – capital and operating expenses of DOT and DMV, debt service on DHBTF bonds and transfers for debt service on bonds that fund CHIPs and local transportation programs – exceed current and projected revenue deposits and bond proceeds.

Transfers to other funds are expected to total \$7.0 billion in FY 2013, an annual increase of \$1.2 billion, or 20 percent. This increase is mainly due to higher costs related to the Financial Plan re-categorization of SUNY operating support, supplementation to MTA for the recent payroll tax reduction, Medicaid State share, and capital projects.

## DEBT SERVICE

The State pays debt service on all outstanding State-supported bonds. These include general obligation bonds, for which the State is constitutionally obligated to pay debt service, as well as bonds issued by State public authorities (i.e., ESDC, DASNY, and the TA, subject to an appropriation). Depending on the credit structure, debt service is financed by transfers from the General Fund, dedicated taxes and fees, and other resources, such as patient income revenues.

Total debt service is projected at \$6.1 billion in FY 2013, of which \$1.6 billion is financed via a General Fund transfer, and \$4.5 billion from other State funds. The General Fund transfer primarily finances debt service payments on general obligation and service contract bonds. Debt service is paid directly from other State funds for the State's revenue bonds, including PIT bonds, DHBTF bonds, and mental health facilities bonds.

Projections for debt service spending have been updated to reflect actual bond sale results to date, higher assumed costs for mental health bonds, and anticipated increased 2012-13 bonding levels for SUNY and transportation purposes.

YEAR-TO-DATE OPERATING RESULTS**

## FY 2013 YEAR-TO-DATE OPERATING RESULTS

This section provides a summary of operating results for April through June 2012 compared to the (1) initial projections set forth in the FY 2013 Enacted Budget; and (2) results through June for the prior year (FY 2012).

The State ended the month of June 2012 with a closing balance of \$2.9 billion in the General Fund. The balance was \$814 million higher than projected in the Enacted Budget Financial Plan. The higher balance is due to lower than anticipated spending (\$699 million) and higher than anticipated receipts (\$115 million).

In April 2012, the State converted a enterprise-wide accounting and financial management system, the Statewide Financial System (SFS). As agencies, employees, and external parties doing business with the State adjust to the new system, delays in processing transactions in the new system have occurred. The lower than expected spending through June, particularly in the areas of local assistance and non-personal service, appear to be due largely to the effects of learning the new system. Accordingly, DOB anticipates that any delays in processing will correct themselves in subsequent months and not affect annual Financial Plan disbursement estimates.

## FY 2013 YEAR-TO-DATE OPERATING RESULTS

Total taxes, including transfers from other funds after debt service, were \$45 million above the Enacted Budget projections, reflecting higher than expected collections from personal income tax receipts (\$122 million) and business taxes (\$79 million), partly offset by lower than expected collections from user taxes and fees (\$137 million) and other taxes (\$19 million). Non-tax revenue, which includes miscellaneous receipts and transfers from other funds, was \$70 million above Enacted projections, primarily reflecting greater than anticipated civil recoveries remitted to the State by district attorneys.

General Fund disbursements, including transfers to other funds, were \$699 million below projections due to timing of spending for social services programs (\$244 million); TAP payments to institutions of higher education (\$184 million); public health programs (\$111 million); and non-personal services mainly in the following agencies: DOCCS, OTDA, Judiciary, SUNY, OGS, and DOH. Higher spending for General State Charges is attributable to lower than projected reimbursements payments from non-General Fund Mental Hygiene accounts, which thereby imposed additional costs upon the General Fund, and is expected to correct over the rest of the year. In addition, GSCs spending was higher than anticipated for Workers' Compensation payments, a result of statutory increases in the maximum benefit provided to injured employees, which has been reflected in the updated Financial Plan.

## FY 2013 YEAR-TO-DATE OPERATING RESULTS

The closing balance in the General Fund as of June 2012 was \$443 million higher than the closing balance in June 2011, primarily due to starting the current year with a larger opening balance.

Total receipts through June 2012 were \$301 billion (1.9 percent) lower than in the prior fiscal year. Tax receipts through June 2012 were \$422 million (2.8 percent) below levels in the prior fiscal year, which largely reflect the impact of tax law changes and a large non-recurring audit recovery in the prior year. Higher non-tax revenue is mainly due to receipts from a legal settlement received in the current year.

Through June 2012, spending was \$333 million (2.3 percent) below the prior year, reflecting the net impact of a significant year-over-year decrease in local assistance spending (\$524 million) and agency operations (\$23 million) due to timing of spending in FY 2013. The declines were partly offset by higher spending for General State Charges (\$100 million) due to higher Workers' Compensation payments and increased transfers to other State funds (\$114 million) to offset the MTA's expected loss of revenue as a result of the exemption granted to small business operators from being subject to the MTA's regional mobility tax, as included in the December 2011 tax reform legislation.

## FY 2013 YEAR-TO-DATE OPERATING RESULTS

The State ended June 2012 with a closing balance of \$6.4 billion in State Operating Funds, \$1.3 billion above the estimate in the Enacted Budget Financial Plan. Tax collections were higher than planned in the personal income tax due to stronger than anticipated April 2012 extension payments; business taxes due to the timing of audit recoveries and stronger than expected gross bank tax collections; and MTA mobility tax collections, mainly due to a lag in taxpayer response to the tax reduction that took effect in April 2012. User Taxes and Fees fell below plan due to weaker than expected sales tax collections as a result of a warm winter and weak consumer demand. Likewise, non-tax receipts fell below plan collections across multiple non-General Fund accounts.

State Operating Funds spending was \$1.4 billion below the estimate in the Enacted Budget Financial Plan. In addition to the General Fund variances described above, lower spending in other State funds appears to have been affected by the transition to SFS and is expected to correct itself in the coming months.

Total receipts through June 2012 were \$396 million lower (1.9 percent) than in the prior fiscal year. Tax receipts through June 2012 were \$445 million below FY 2012 levels. Lower personal income tax collections (\$339 million) and user taxes (\$33 million) are primarily attributable to tax law changes. The decline in business tax receipts (\$99 million) is mainly attributable to a large audit collection in the first quarter of FY 2012 that did not recur in the current fiscal year. Increased year-to-date collections from other taxes (\$26 million) reflect the impact of timing associated with real estate transfer tax payments from New York City. Non-tax

receipts through June 2012 were \$49 million above results in the prior fiscal year due to improved collections in certain accounts.

Actual spending results through the first quarter of FY 2013 were \$1.1 billion (5.6 percent) below the prior year due to the timing of payments in the current year.

## FY 2013 YEAR-TO-DATE OPERATING RESULTS

### ALL GOVERNMENTAL FUNDS ANNUAL CHANGE

All Governmental Funds receipts and spending through June 2012 was approximately \$3.4 billion lower than the previous fiscal year. The year-to-year decrease in Federal grants receipts and total spending is the result of timing-related delays, as well as the expiration of Federal Enhanced FMAP at the end of June 2011, which temporarily lowered State-share Medicaid costs by increasing the Federal share.

**FINANCIAL PLAN TABLES AND ACCOMPANYING  
NOTES**

# FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

The notes to the Financial Plan tables herein should be read in conjunction with the tables that follow.

## NOTE 1 — BASIS OF ACCOUNTING

Pursuant to law, all Financial Plan tables presented herein are prepared on the cash basis of accounting, unless otherwise noted. Under the cash basis of accounting, revenues are recognized when received, and spending is recorded when cash is disbursed.

## NOTE 2 — FUND TYPES AND PERSPECTIVES

The State records its transactions in the following fund types:

### Governmental Funds

**General Fund** - This is the major operating fund of the State. It receives all State income not earmarked for a particular program or activity and not specified by law to be deposited in another fund. State income for Financial Plan purposes consists of moneys (taxes, fees, and miscellaneous receipts including certain repayments of State advances) deposited to the credit of the General Fund during the fiscal year and transfers from other funds from current revenues.

**Special Revenue** - These funds account for State receipts from specific revenue sources and are legally restricted to disbursement for specified purposes. This governmental fund type is divided into two classifications: (1) State Special Revenue Funds and (2) Federal Special Revenue Funds. An example of a State Special Revenue Fund is the Conservation Fund which finances a number of State environmental programs. An example of a Federal Special Revenue Fund is the Health and Human Services Fund. Although any earmarked revenue fund is treated as a Special Revenue Fund for cash-basis budgeting and reporting purposes, some are combined with the General Fund for purposes of reporting on the basis of GAAP.

**Debt Service** - All tax-financed State debt service on long-term debt and payments on certain lease-purchase or other contractual obligations are paid from Debt Service funds. These account for the accumulation of money for, and the payment of principal and interest on, general long-term debt. Lease-purchase payments for State University, Health and Mental Hygiene facilities under contractual agreements with public authorities are also paid from funds classified as Debt Service funds. Debt service on highway bonds supported by dedicated highway revenues is also reflected in this fund type. Sources of revenue for this fund type include transfers from the General Fund, dedicated taxes, and other revenues.

## **FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES**

---

**Capital Projects** - These funds finance a variety of capital construction costs including: (1) planning, land acquisition, design, construction, construction management and supervision, and equipment costs; (2) highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects, and buildings and other capital facilities required by various State departments and agencies; (3) payments to local governments to help finance their capital programs, including highway, parkway, bridge, mass transportation, aviation, economic development, port development, community college, community and State mental health, outdoor recreation, State-assisted housing, and environmental quality; and (4) advances for capital construction costs reimbursable by public authorities, instrumentalities of the State, the Federal government or local governments. Sources of revenue for this fund type include transfers from other State funds including the General Fund, dedicated taxes and other revenues, reimbursement of advances, bond proceeds, and Federal capital grants.

### **State Operating Funds**

The State Funds operating budget comprises the General Fund and other State-supported activities financed by dedicated revenues in State Special Revenue funds, as well as Debt Service funds accounting for the payment of debt service on all tax-financed State long-term debt. All capital spending, regardless of financing source, is included in the Capital budget.

### **Proprietary Funds**

**Internal Service Funds** - Account for the financing of goods or services supplied by one State agency to other State agencies or governmental units on a cost-reimbursement basis.

**Enterprise Funds** - Account for operations that are similar to private business enterprises.

The Internal Service funds and Enterprise funds are treated as Proprietary funds for cash-basis budgeting and reporting purposes, and are combined with the General Fund for purposes of reporting on a GAAP basis.

### **Fiduciary Funds**

**Private-Purpose Trust Funds** - Accounts for all trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

**Pension Trust Fund** - Accounts for the cash-basis results of operations for the administrative portion of the State's Common Retirement Fund. It does not reflect investment activity, balances, or other assets available to this Fund. In addition, pension contributions and payments to retirees are excluded since these payments are not required to be appropriated.

**Agency Funds** - Accounts for funds held by the State in a purely custodial capacity. Cash is held temporarily until disbursements are made to individuals, private organizations, or other governments.

### NOTE 3 — DISBURSEMENT DESCRIPTIONS

The State's Financial Plan and reporting includes only those payments made pursuant to an appropriation and paid from funds available in the State Treasury. All State spending is classified in one of the following categories:

**Local Assistance Grants** - Include payments to counties, cities, towns, villages, school districts and other local entities, as well as certain financial assistance to, or on behalf of, individuals and nonprofit organizations.

**Personal Service** - Includes the payment of salaries and compensation for State employees.

**Non-Personal Service** - Includes payments for miscellaneous contractual obligations, supplies and materials, travel, rentals and repairs, utilities, postage and shipping, printing, telephone, and other operating costs.

**General State Charges** - Include costs mandated by statute, collective bargaining agreements or court order. Charges in this category can be further subdivided into the following:

Fringe Benefits: Contributions to pension systems, the employer's share of Social Security contributions, employer contributions toward the cost of health insurance, workers compensation and unemployment insurance, and contributions to union employee benefit funds which provide vision care and other services.

Fixed Costs: For State payments in lieu of taxes, as well as payments for local assessments on State-owned land, judgments against the State pursuant to the Court of Claims Act, defense(s) by private counsel or alternatively payments on behalf of State officers and employees in civil judicial proceedings.

**Debt Service** - Include payments made for tax-financed State debt service on long-term debt; contractual-obligation and lease-purchase arrangements with several public authorities and municipalities; and lease-purchase payments for State University, Health, and Mental Hygiene facilities.

**Capital Projects** - Include payments made for the acquisition or construction of the State's capital facilities. Included in this category are planning, land acquisition, design, construction, engineering services, and equipment costs attributable to highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects; payments to local government units and public authorities to help finance highways, parkways, bridges, mass transportation, aviation, economic development, port development, community colleges, community and State mental hygiene buildings, outdoor recreational parks, correctional and State-assisted housing as well as environmental quality projects. Advances are made for capital construction costs reimbursable by public authorities, the Federal or local governments, or from the proceeds of State bond and note sales.

## **FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES**

---

**Bond Proceeds** - Includes the proceeds of general obligation bonds and short-term notes issued in the form of commercial paper or BANs and are stated net of notes redeemed from the proceeds of permanent bonds or reissued notes.

**Operating Transfers** - Constitutes legally authorized transfers from a fund receiving revenues, to a fund through which disbursements will ultimately be made.

### **NOTE 4 — RESERVATIONS OF GENERAL FUND BALANCE**

Fund balance may be legally segregated for specific future use or set aside informally for specified purposes. The following terms are used in the reporting of reservations of General Fund Balance:

**Tax Stabilization Reserve Fund** - Created pursuant to law in order to provide a reserve to finance a cash-basis operating deficit in the General Fund at the end of the fiscal year, and to make temporary loans to the General Fund during the year. Annual deposits may not exceed 0.2 percent of General Fund spending and the balance may not exceed 2.0 percent of General Fund spending. These amounts may be borrowed by the General Fund temporarily and repaid within the same fiscal year. They may also be borrowed to cover an operating deficit at year end, but these loans must be repaid within six years in no less than three annual installments.

**Rainy Day Reserve Fund** - Created pursuant to law, to account for funds set aside for use during economic downturns or in response to a catastrophic event, as defined in the law. The economic downturn clause is triggered after five consecutive months of decline in the State's composite index of business cycle indicators. The reserve may have a maximum balance equal to three percent of projected General Fund spending during the fiscal year immediately following the then-current fiscal year.

**Contingency Reserve Fund** - Created pursuant to law to provide a reserve to fund extraordinary needs arising from litigation against the State. These amounts may be used for payment of judgments against the State where the amount is in excess of \$25 million and such payments are not previously appropriated, or emergency payments relating to natural or physical disasters, or to make payments for the enhancement of the State's economy.

**Community Projects Fund** - Created pursuant to law to finance discretionary, usually local, projects ("member items") sponsored by individual legislators and the Governor. The Enacted State Budget typically includes lump sum appropriations for the Governor, Senate and the Assembly, to be designated for various grants, awards and contracts with local governments, not-for-profit organizations and community groups. During the fiscal year, each party may allocate their respective appropriations, by grant amount, to the intended recipient organizations.

## FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

**Undesignated Fund Balance** - From time to time, DOB will informally designate unrestricted balances in the General Fund for specific policy goals. These amounts are typically identified with the phrase “reserved for.”

### NOTE 5 — SPENDING ADJUSTMENTS

Certain Special Revenue accounts formerly reported in the Financial Plan as Federal Operating Funds have been reclassified to State Operating Funds. The State changed this reporting with the FY 2012 Executive Budget. This change has the effect of increasing the reported disbursements from State Operating Funds, and reducing reported disbursements from Federal Operating Funds by an equal amount. Accordingly, there is no impact on the State's reported All Governmental Funds spending totals.

For purposes of comparability, the impact of the reclassification on historical results is summarized in the following table.

<b>STATE OPERATING FUNDS AS RESTATED</b> (millions of dollars)			
	<u>Before</u> <u>Restatement</u>	<u>Reporting</u> <u>Adjustment<sup>1</sup></u>	<u>Restated</u>
FY 2006	66,240	3,065	69,305
FY 2007	73,476	3,031	76,507
FY 2008	76,989	3,029	80,018
FY 2009	78,166	3,459	81,625
FY 2010	76,873	3,786	80,659
FY 2011	80,491	3,926	84,417

<sup>1</sup> DOB has reclassified certain special revenue accounts from Federal Operating Funds to State Operating Funds to be consistent with the methodology used by the Office of the State Comptroller.

### NOTE 6 — ITEMS AFFECTING FY 2011 TO FY 2012 COMPARABILITY

**School Aid Payment** - The end-of-year school aid payment (\$2.06 billion) scheduled for the last quarter of FY 2010 was paid in the first quarter of FY 2011, as authorized in statute. This was done to shift the FY 2010 budget shortfall into FY 2011.

**American Recovery and Reinvestment Act of 2009** - On February 17, 2009, President Obama signed into law ARRA of 2009. This Act contains provisions for direct Federal aid for fiscal relief, consisting of increases in the Federal matching rate for eligible State Medicaid expenditures, and funds provided through the State Fiscal Stabilization Fund to restore proposed reductions in education, higher education, and to maintain essential government services.

## **FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES**

---

**Pension Amortization** - The Financial Plan projections assume that the State will amortize pension costs above a percentage of payroll, as authorized by legislation enacted in FY 2011.

The percentage of payroll above which costs may be amortized for ERS increases annually as follows: 9.5 percent in FY 2011; 10.5 percent in FY 2012; 11.5 percent in FY 2013; 12.5 percent in FY 2014; 13.5 percent in FY 2015, and 14.5 percent in FY 2016; and the amortization levels for PFRS are as follows: 17.5 percent in FY 2011; 18.5 percent in FY 2012; 19.5 percent in FY 2013; 20.5 percent in FY 2014; and 21.5 percent in FY 2016. The amortization reduces the State's annual pension contribution in the short term, but results in long-term costs. The amounts amortized totaled \$249 million in FY 2011, and \$575 million in FY 2012. The amounts expected to be amortized are \$782 million in FY 2013, \$771 million in FY 2014, \$916 million in FY 2015 and \$554 million in FY 2016.

**Retroactive Labor Settlements** - Several unions have not agreed to labor settlements for contract periods prior to FY 2012. In recent years, the State has included spending in the Financial Plan for potential settlements, which have not materialized. The Current Financial Plan costs sets aside a portion of the General Fund balance for this purpose. The amount of the reserve is calculated on the assumption that the unions that have not agreed to contracts will receive the same general salary increases as the unions with ratified contracts.

**Mergers** - Consistent with the FY 2012 Enacted Budget, State agency mergers have been reflected in the Financial Plan tables that follow. As such, spending for FY 2011 has been reflected in the former agencies, while projections for FY 2012 and forward reflect the impact of the agency merger. These mergers include:

- Division of Parole merged with the Department of Correctional Services to become the new Department of Corrections and Community Supervision;
- Consumer Protection Board merged into Department of State; and
- Foundation for Science, Innovation & Technology merged into the Department of Economic Development

The Banking and Insurance Departments have been merged to create a new agency known as the Department of Financial Services. For reporting purposes, DOB assigned FY 2011 spending from these departments to the Department of Financial Services. Reductions in spending for the Department of Financial Services reflect the projected impact of cost control and efficiency actions contemplated by the merger of the Insurance and Banking departments.

### **NOTE 7 — OFF-BUDGET TRANSACTIONS**

Represent certain capital spending that is not reported in cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities, rather than from a short-term STIP or cash from the General Fund.

**NOTE 8 — GENERAL FUND/HCRA COMBINED GAP**

The current HCRA authorization expires on March 31, 2014. HCRA is projected to remain balanced through FY 2016. However, any unaddressed shortfall would need to be financed by the General Fund.

**NOTE 9 — METROPOLITAN TRANSPORTATION AUTHORITY  
FINANCIAL ASSISTANCE FUND**

The Metropolitan Commuter Transportation Mobility Tax (Mobility Tax) is imposed on certain employers and self-employed individuals engaging in business within the metropolitan commuter transportation district. This revenue source is collected by the State on behalf of, and disbursed in its entirety to, the MTA. Due to requirements of the enabling legislation, the tax is reflected in the State's Special Revenue Funds, increasing both receipts and disbursements by a \$1.7 billion in FY 2011, growing to an estimated \$2.0 billion in FY 2015.

**NOTE 10 — CHANGES TO THE MEDICAID PROGRAM**

Since January 2006, the State has paid the entire non-Federal share of the FHP program and any annual Medicaid increases above a fixed level that would have otherwise been paid for by Local Social Services Districts. The FY 2013 Enacted Budget amends these statutory indexing provisions by implementing a phased-in plan to takeover over the Local Social Services Districts share of all growth above the previous year's enacted levels beginning in FY 2013 for County Year 2013, with the State assuming all growth in County Year 2015.

**NOTE 11 — STATEWIDE CASH FLOW ADMINISTRATION**

OSC invests General Fund moneys, bond proceeds, and other funds not immediately required to make payments through STIP, which is comprised of joint custody funds (Governmental Funds, Internal Service Funds, Enterprise Funds and Private Purpose Trust Funds), as well as several sole custody funds including the Tobacco Settlement Fund.

OSC is authorized to make short-term loans from STIP to cover temporary cash shortfalls in certain funds and accounts, including the General Fund, resulting from the timing of receipts and disbursements. The Legislature authorizes the funds and accounts that may receive loans each year, based on legislation submitted with the Executive Budget. Loans may be granted only for amounts that the Director of the Budget certifies are "receivable on account" or can be repaid from the current operating receipts of the fund (i.e., loans cannot be granted in expectation of future revenue enhancements).

## FINANCIAL PLAN TABLES AND ACCOMPANYING NOTES

### NOTE 12 — OUTSTANDING TEMPORARY LOANS SUMMARY

The total outstanding loan balance as of March 31, 2012 was \$1.8 billion, comprised of advances for bond-reimbursable capital spending pending the receipt of bond proceeds (\$931 million), activities that are financed initially by the State pending Federal receipt (\$342 million), State Special Revenue Funds (\$455 million), and Proprietary Funds (\$37 million).

The total loan balance typically increases throughout the State fiscal year, reaching its peak between the second and third quarters. The spike mainly reflects the payment of lottery aid for education, which is financed in large part by a loan that is repaid over the course of the year as lottery revenues are received.

### NOTE 13 — STATE FUNDING OF SUNY OPERATING SUPPORT

As part of the FY 2013 Budget, the State changed the process through which SUNY receives the State share of its operating support, from direct General Fund spending, to General Fund transfers. SUNY's special revenue tuition offset account, which has traditionally been used to offset the State's direct General Fund spending for SUNY operations, will reflect all spending for the university operations, starting with the new academic year that begins in July 2012. All General Fund support for SUNY operations will be transferred by the General Fund to this special revenue account, supplementing tuition revenue also being received by this account, and from which all university operations will be funded. The change to General Fund financial plan categories is illustrated in the multi-year table below.

Reflects certain capital spending that is not reported in actual cash spending results, but is reported in the State's GAAP Financial Statements. This spending is related to programs which are financed directly from bond proceeds that are on deposit at various public authorities rather than from a short-term loan from the Short-Term Investment Pool or cash from the General Fund.
